STATE OF MINNESOTA**DISTRICT COURT****COUNTY OF HENNEPIN****FOURTH JUDICIAL DISTRICT**

State of Minnesota,

Court File No.: 27-CR-23-1886

Plaintiff,

vs.

DEFENDANT'S

Matthew David Guertin,

AFFIDAVIT OF FACTDefendant.

TO: THE HONORABLE JAY QUAM, JUDGE OF THE DISTRICT COURT; THE CLERK OF THE FOURTH JUDICIAL DISTRICT COURT; MS. JACQUELINE PEREZ, ASSISTANT HENNEPIN COUNTY ATTORNEY; AND THE OFFICE OF THE HENNEPIN COUNTY ATTORNEY.

AFFIDAVIT OF FACT

I, MATTHEW DAVID GUERTIN, residing at 4385 Trenton Ln N #202, City of Plymouth, County of Hennepin, State of Minnesota, being duly sworn, hereby depose and state under penalty of perjury:

INTRODUCTION

I am the Defendant in the above-captioned matter, currently representing myself pro se. This affidavit is submitted in support of my ongoing efforts to address and correct a series of procedural anomalies and significant issues within my case that have raised profound concerns regarding my personal safety, freedom, and the integrity of the judicial process. The narrative that unfolds in the pages that follow is one that might seem more suited to a suspense-filled legal thriller than the reality of a court proceeding. Yet, every fact stated herein is a stark reflection of my surreal journey through a legal labyrinth that not only threatens my liberty but also challenges the very foundation of justice and accountability itself.

The detailed accounts and exhibits presented in this affidavit highlight the complexities and unique challenges of my case, illustrating a sequence of events that could have led to my unjust detainment in a mental institution—a scenario I believe I just narrowly avoided only through diligent monitoring of my case files. This document aims to shed light on procedural discrepancies and the critical lack of informed consent surrounding pivotal decisions in my case. It includes a focus on the unsettling events of January 15-17, 2024, leading up to a significant moment on January 30-31, 2024. During this time, I filed a pro se 'Motion for Production of Medical Records' and 'Motion for Continuance' into my civil court case. This period also saw the subsequent signing of an agreement to extend my 'Stayed Order of Commitment' by an additional 9 months, a decision I argue was made under duress, resulting from the aforementioned lack of informed consent combined with the threat of appearing at the scheduled February 1, 2024, hearing and being “committed directly to an appropriate safe and secure facility” without even being able to obtain an exam report, critical to my defense, prior to the scheduled hearing despite multiple requests to my defense counsel in addition to a direct request to the court.

My decision to dismiss my previous legal representation and proceed pro se is not made lightly. It stems from a culmination of factors that have eroded my trust in the ability of my former counsel to adequately represent my interests. This action is a testament to my determination to ensure that my side of the story is heard and that the facts of my case are examined without bias or external influence.

In sharing these experiences and concerns, it is my hope not only to correct the course of my own case but also to shed light on the broader implications for judicial integrity when procedural anomalies go unchecked. My journey, as outlined in this affidavit, is a plea for transparency, justice, and a fair and impartial judicial process that is based on the merits of facts and evidence, free from the shadow of external influences and procedural irregularities that have thus far clouded my court proceedings.

ROUND 1 OF ALLEGED PATENT FRAUD INVOLVING PHOTOROBOT & THE INTERNET ARCHIVE

October 31, 2022: An Email Response From Mark Roberts Motion Control CEO

I received an email reply from Mark Roberts Motion Control CEO, Assaff Rawner approximately three weeks after my initial contact with his company. In this email response he tells me that he is interested in my invention only to then also end up pointing me to the PhotoRobot 'Virtual Catwalk' and asking me how my invention was any different from said product. This exchange would result in an IDS being filed with the USPTO shortly after resulting in 'PhotoRobot' appearing as unpublished prior art on page 2 of my now granted patent US 11,577,177.

(Exhibit L)

November 6, 2022: I Stumble Upon The Trojansky / Netflix Patent Application

My foray into potential intellectual property concerns began with unease about the similarities between my invention and PhotoRobot's 'Virtual Catwalk,' as mentioned by Mark Roberts Motion Control's CEO. This concern, not initially rooted in suspicions of fraud, led me to a surprising discovery during patent searches. I found Stephan Trojansky's patent application, intriguingly linked to Netflix's acquisition valued at approximately \$100 million. My patent, filed just 12 days before Trojansky's, potentially served as prior art, a revelation that was both shocking and validating. The response from my patent attorney, recognizing the gravity of my discovery and its potential to impact the Netflix application, was pivotal. It affirmed the critical nature of my situation as an independent inventor against the backdrop of an industry giant's substantial investment.

Dec 5, 2022: Text Messages With My Former CIA Welder

11:49am – Welder:

Have they got to you yet?

(Exhibit C)

9:10pm – Me:

Nope.

But when they do all they need to bring along is a fat check.

My analysis of the situation is as follows:

Let's hypothetically say that my patent is in fact a really big deal to Netflix as in they realize that something needs to be done to resolve it. They inherently have a finite number of choices available to them to resolve it. I currently hold all the leverage short of them killing me which still isn't a guaranteed successful outcome for them as far as obtaining the IP for a variety of reasons. If they cared so much that they were actually considering killing me as one of their viable options that would infer that they would almost certainly at the very least be gathering Intel on me in a variety of ways...most of those digital in nature...correct?

If that was the case then they would be well aware that my ultimate goal is to profit on my intellectual property and call it a day.

If they know this fact then killing me is a really poor choice when they could instead be ensured almost 100% success in obtaining that which they are after in its entirety by simply paying for it.

The whole thing is that because my application is prior art now they are already somewhat fucked no matter what they do. That part is automatic. So technically it is in their benefit for me to receive as many patent rights as possible so that they can still end up with the same exact rights and protections they planned on initially getting... So let's say that they have their people and strings that they can pull in the patent office (which I'm sure exists in some form) instead of pulling hypothetical strings to interfere with my patent they should instead be pulling strings to ensure it goes through smoothly and without issue as once my patent is 100% official it simply becomes a matter of them acquiring InfiniSet, Inc in a clean and easy process.

(Exhibit C)

Money is always the preferable method of obtaining what one wants in the world of the controllers

Money = Control

As long as they know selling the ip and profiting is my ultimate intention and that they will have an opportunity to purchase it from me it means they have every incentive to do nothing at all but be patient.

That doesn't mean they aren't going to pay me lot though. Haha.

9:11pm – Me:

How's my analysis? Would you consider my logical conclusions to be generally correct?

9:14pm – Welder:

Pretty spot on

9:14pm – Me:

It's all a game XXXXXXXX. The people who understand that aspect of reality and the world in which we live have a huge advantage. For example – not having myocarditis or dying suddenly

9:15pm – Welder:

It is a game, and I like smoking weed and skirting the rules a bit!

Crazy, you think they know you beat them already?

9:17pm – Me:

I don't look at it as beating them per say. If you mean do I think they know my patent is a problem they need to address I'm guessing the answer is yes

9:17pm – Welder:

Sweet

9:17pm – Me:

I could've just as easily been the one 12 days late to the party (Exhibit C)

9:18pm – Welder:

Let me know when you wanna come over to the shop

True, buy your not!

9:18pm – Me:

But in my case I'd be fucked. They have unlimited money though... so they aren't fucked. Such is life

9:19pm – Me:

I played the game well enough to get a little bit of that money is all

Hopefully

9:19pm – Welder:

Yup, you will

9:20pm – Welder:

If not, we can start making a new billion dollar or bitcoin idea!

9:22pm – Me:

My patent attorney has hardly charged me anything because I prepare my own stuff...including my responses and completely picking apart and dismantling what the examiners put forth. I'm currently preparing all of the defenses and documentation for a few different strategies depending on what happens next. I'm learning all about patent law and including case law in my responses

9:23pm – Me:

It's literally like playing a game

9:24pm – Me:

(Image of prototype with LED light bars turned on)

9:24pm – Welder:

Lol! Crazy and more power to yea

(Exhibit C)

9:24pm – Me:

(Image of prototype with LED light bars turned off)

9:25pm – Me:

My programmers are busting ass now to finish that part and I'm about to paint my ceiling black and turn my living room into a straight up studio

9:25pm – Welder:

Amazing!

Noice

9:26pm – Me:

But I still haven't finished... so I still haven't left... no parties. .. haven't even seen my cousins new baby or my other friends new kid. ... not until I cross the finish line

9:27pm – Me:

It's unhealthy. But I'll make up for it later

9:28pm – Welder:

True, let me know if you need some help

9:29pm – Me:

I might need to build travel cases soon

9:31pm – Welder:

We can do

9:32pm – Me:

I need to research specs for flying cargo

(Exhibit C)

December 9, 2022: My Internet Archive 'PatentlyFalse' User Account Is Created

Following my patent attorney's guidance, I submitted an Information Disclosure Statement (IDS) containing YouTube links to the PhotoRobot 'Virtual Catwalk,'

coinciding with the exciting news of receiving a notice of allowance for my first ever patent. This turn of events introduced a period of anticipation where we decided to await the patent examiner's approval of the IDS before paying the allowance fees. This strategy was advised to solidify the patent's strength by acknowledging potential prior art, despite it momentarily pausing the finalization of my patent's approval. This pause, although intended to enhance my patent's robustness, inadvertently led to increasing anxiety and concern over the PhotoRobot product, especially as days passed without word from the patent examiner. If not for this waiting period, my focus might have never shifted back to scrutinizing the PhotoRobot 'Virtual Catwalk' further. However, this waiting transformed into a catalyst for deeper investigation fueled by my general worry and the many 'what ifs' circling my mind.

This curiosity led me to explore the history of the PhotoRobot website on the Internet Archive, marking the start of a deep dive into an unexpected rabbit hole. I noticed words like 'infinite' and 'filming' appearing in more recent archive saves that were absent in earlier versions of the 'Virtual Catwalk' product page. Initially, I resorted to straightforward methods: copying text from different archived versions into Google Docs and using 'Doc Compare' to detect any textual changes. This straightforward yet effective technique unveiled clear alterations, solidifying my suspicions of tampering. Driven by the delay in procedural steps and growing concerns about the PhotoRobot link, I was motivated to undertake a thorough investigation.

This backdrop of anticipation and procedural diligence set the stage for a deeper dive into the PhotoRobot website and its Virtual Catwalk product. After initially being pointed to it by Assaff Rawner and following the unsettling delay in my patent's final steps, my concerns grew. In response, I leveraged the Internet Archive, creating the 'PatentlyFalse' account in the early hours of December 9. I then embarked on capturing a comprehensive 'snapshot' of the entire PhotoRobot.com website, seeking to preserve historical evidence that could shed light on the unfolding situation.

(Exhibit M)

December 15, 2022:

I reached out to the Internet Archive querying their policy on content removal requests. My primary concern, detailed in my correspondence, was the risk that the opposing party could erase historical web content, undermining my evidence base against them. This engagement not only exhibits my efforts to safeguard the integrity of my intellectual property but also underscores the lengths to which I had to go to ensure the preservation of digital evidence critical to proving fraudulent activity.

(Exhibit M)

This particular action is pertinent, demonstrating my pro-activeness in securing evidence and understanding the mechanisms of digital archiving, which could be crucial in legal proceedings related to patent infringement and fraud.

December 23, 2022: Text Messages With My Former CIA Welder

10:32am – Me:

I need my heater. Still
Like today

10:33am – Welder:

Lol!
It's in my shop, you coming out this way?
(provides address to shop)

10:33am – Me:

Are you driving by my area anytime today?

10:34am – Welder:

Maybe
I'll know around noon

10:35am – Welder:

What are you doing?

(Exhibit C)

10:36am – Me:

I'm compiling information. Long story but it will pay off very soon I'm guessing.

I'm investigating...data analysis...

Using a program called MAXQDA

10:37am – Me:

Qualitative and quantitative analytics

10:37am – Welder:

Oh, I see. I can bring it out after I drop my big kids at 3pm

10:37am – Me:

Of someone scheming and scamming...

11:06am – Me:

The words used are on the left.... the blog articles are on the top with the most recent ones being on the left side and oldest being on the right side

<https://www.dropbox.com/s/XXXXXXXX/Matrix.png?dl=1>

11:07am – Me:

It downloads so you can on at it by zooming on your phone. It's a really big image

11:12am – Me:

They'll be shook. Especially if I just told them and didn't tell them how or what I actually know. I might even email the guy and play dumb and ask if he's going to be available to help me with programming and questions around mid March "when my programmer gets back in town, etc, etc" to make him think I'm not advancing at all so they think they have not more time if they're trying to put something together

11:13am – Welder:

I like that option

(Exhibit C)

December 24, 2022: I Realize The Internet Archive Is Involved In Alleged Fraud

While examining PDF screencaptures of the PhotoRobot.com/blog page from the Internet Archive, I noticed a discrepancy in the archive count within a span of five minutes on the pages I had originally captured on December 9, shortly after the creation of my new 'PatentlyFalse' user account. Initially, the total archived save count was 45, but after capturing a new PDF screen capture, it increased to 47. This change should not happen as archived save counts should be consistent across all saved dates of a webpage with the same url until a new save occurs. This indicated that in the brief period between my two PDF screen captures, additional archives were added and appeared as if they were from the past, showing as new entries on the Internet Archive's timeline. This observation suggested real-time alterations to the archive, introducing "backdated" entries into the historical record.

Upon discovering the unexpected changes in the Internet Archive's historical records, my perspective on the investigation shifted dramatically. This anomaly suggested that the Archive itself might be facilitating the backdating of web pages, implicating it in the activities I was investigating. This realization prompted me to immediately disconnect my computer from the internet. I needed time to process the implications, leading me to pause my investigative efforts for a few days. During this break, I distributed copies of the significant amount of evidence I had collected to trusted third parties for safekeeping. This precaution was driven by the awareness that the situation was far more complex and involved higher-level coordination than initially anticipated. Recognizing the Internet Archive's reputation as a reliable digital historical record and its potential use as evidence in legal matters, including intellectual property disputes, heightened my concern. It became clear that I was no longer dealing with a straightforward case of fraud but potentially with a broader conspiracy involving wire fraud and a coordinated effort spanning multiple countries, all seemingly aimed at undermining me and my intellectual property. This was a profound and unsettling realization, marking a pivotal moment in my journey to uncover the truth.

After my meeting with Dr. Jill Rogstad on March 1, 2023, I sent her the two PDF screen captures showing the changing archive count from December 9, 2022. These were part of four emails I sent very shortly after our meeting, aimed at providing additional evidence to support our discussion points. Despite their inclusion in the list of materials reviewed for her examination report, this critical evidence was overlooked and not deemed relevant in her conclusions. This omission significantly compounded the difficulty in demonstrating the complexities and manipulations at play in my situation.

January 5-6, 2023: Detailed Email Discussions About The Alleged Fraud Taking Place

I engaged in a comprehensive email dialogue with my former patent attorney about concerns regarding what I believed were the fraudulent activities involving the Internet Archive itself which were being carried out in support of the alleged PhotoRobot fraud that I was investigating. This communication highlights my efforts to protect my patent rights and address possible infringements and deceptive practices taking place at what I considered to be a very 'high level' due to the alleged involvement of the Internet Archive.

I provided a Dropbox link to my attorney, containing files that detailed my analysis and evidence of the alleged fraud, showcasing my diligent approach to documenting and safeguarding evidence of potential malfeasance.

My attorney recognized the complexity of the situation and discussed possible steps to tackle the issue, including her supportive stance of filing a complaint through ic3.gov. This advice from someone whose career revolves around intellectual property signifies the gravity with which my concerns were received and the considered approach to addressing my allegations.

(Exhibit N)

Following my attorney's guidance, I eventually did in fact file a complaint with ic3.gov in May of 2023, reflecting a formal step towards seeking resolution and justice for the purported fraudulent activities concerning my patent. Both the ic3.gov FBI report and the corresponding FTC report are respectively included as (Exhibits Xa & Ya) of the pro se

‘Motion for Judicial Notice’ I filed on April 3, 2024 into my criminal case, 27-CR-23-1886. Further email communication of my intent to file the FTC report is detailed in (*Exhibit E*) of this affidavit.

This sequence of interactions with my attorney not only underscores the legal and strategic considerations involved but also my proactive stance in defending my intellectual property rights.

January 14, 2023: Text Messages With My Former CIA Welder

11:43am – Me:

Here - if you have a trusted contact at FBI or wherever that will look into this and considers it a serious matter just send them this as the introduction -

https://www.dropbox.com/s/XXXXXXXX/Data_Analysis_Fraud.zip?dl=1

I have all supporting documents/ files as well along with a massive cache of additional data

11:46am – Me:

It involves someone at the internet archive conspiring with the ceo of a company in the UK named Assaff Rawner (who I believe is the mastermind behind the whole thing as that is who I emailed and was trying to get help from for the robotic cameras his company makes) along with the photorobot company which is located in the Czech Republic.

11:47am – Welder:

<https://openai.com>

11:47am – Me:

What is that?

Yeah. I've heard about this

11:48am – Welder:

What you think?

(*Exhibit C*)

11:48am – Me:

But what is that going to do? Solve the case?

I never used it because it requires you to enter your phone number so it's sketchy

(Exhibit C)

January 15, 2023: Reaching Out For Some Help

Following the advice provided during my filing of Minnetonka Police Report #23-000151 filed on January 12, I took proactive steps to delve deeper into the issues surrounding my case. I initiated contact with several digital forensic services, such as CompForensics.com, Carney Forensics, and DigitalInvestigations.com, early in the day. This action demonstrates my dedication to conducting a detailed technical analysis and unearthing the truth behind my concerns.

12:00 pm | OUTGOING Call to CompForensics.com - 3 min

left a message

12:03 pm | OUTGOING Call to Carney Forensics - 2 min

left a message

12:05 pm | OUTGOING Call to DigitalInvestigations.com - 5 min

12:10 pm | OUTGOING Call to DigitalInvestigations.com - 5 min

(Exhibit V)

After making contact with DigitalInvestigations.com to seek assistance in analyzing digital forensic evidence, I detailed my findings to an individual from their team. My discussion centered on a peculiar inconsistency I had observed in the Internet Archive's handling of 'Saved On' and 'Archived On' dates within the .js and .css file footers of certain web-pages, which I believed indicated potential evidence manipulation. During this conversation, upon delving into the specifics of this discrepancy, the respondent unexpectedly uttered an exclamation and abruptly ended the call. This sudden termination of our discussion, particularly after revealing such a specific and potentially incriminating

anomaly, left me perplexed and concerned. It seemed as though I might have unwittingly reached someone with knowledge of or involvement in the questionable activities I was investigating, rather than the unbiased forensic expert I believed I was dialing when I initiated the call.

Despite my immediate efforts to re-establish contact, hoping to clarify the reason behind the abrupt end to our conversation, I received no further communication from DigitalInvestigations.com. The absence of any follow-up, combined with the abrupt end to our detailed discussion, led to significant concern regarding the integrity of my phone communications and whether I was indeed speaking with the person I believed I was.

12:25 pm | OUTGOING Call to US Secret Service Minneapolis - 22 min

(Exhibit V)

Continuing my efforts I dialed the US Secret Service Minneapolis office but was redirected to their Chicago division due to unavailability at the local office. In this call, I shared the breadth of my situation, including previous attempts to engage with the FBI. The individual I spoke with, whose demeanor was unexpectedly casual, acknowledged my concerns and concurred with my interpretation that criminal conspiracy and wire fraud were evident in my case. Remarkably, he requested the case number from my police report filed with the Minnetonka Police Department. Furthermore, he inquired about my willingness to meet with a Minneapolis agent for a more detailed discussion should they reach out for further clarification on the issues I raised. Agreeing to such a meeting underscores my ongoing commitment to uncovering the truth behind the complex web of alleged fraudulent activities surrounding my patent and the broader implications of my legal and technological predicament.

12:52 pm | INCOMING Call from my Former CIA Welder - 2 min

(Exhibit V)

Very shortly after my conversation with an agent from the US Secret Service's Chicago office, I received an unexpected call from my former CIA welder. He mentioned driving by and spontaneously offered assistance with my case by mentioning a contact he knew in the FBI and/or Secret Service (he for sure mentioned both entities but I don't remember specific statement) to whom he had shown my materials. His timing was remarkably close to my previous call's conclusion, initiating a dialogue on a subject mirroring my recent discussion with the federal agent. I acknowledged his offer but informed him of my just-concluded conversation with the Secret Service, indicating that I had actually just spoken to someone and had everything taken care of.

(Exhibit V)

This call, coming mere minutes after my engagement with the Secret Service, initially seemed coincidental. However, reflecting on the broader context of my case, especially against the backdrop of subsequent discoveries related to alleged fraudulent activities and connections with high-profile entities, this sequence of events now appears less like a coincidence and more indicative of a pattern. This experience contributed to my growing concerns about the surveillance and monitoring of my communications, and was in fact just one of the many 'dots' that I spoke of 'connecting' prior to the incident that occurred on January 21, 2023

Reflecting on the events leading up to these phone calls, my apprehension was mounting due to a series of peculiar occurrences with my technology setup, alongside witnessing real-time alterations to websites I was monitoring for potential fraudulent activity. My high-performance computer, a meticulously built system with advanced specifications, experienced a Blue Screen of Death (BSOD) for the first time, an anomaly given its robust build and my technical ability to ensure it remained running smoothly.

Furthermore, I discovered an unexpected BIOS configuration change that enabled the computer to restart automatically after shutdown—a setting I had never activated. This alteration hinted at remote access intentions, allowing unauthorized users to reboot the system without manual intervention. Additionally, a new, cryptically named user account appeared on my computer, characterized by a nonsensical alphanumeric sequence. This,

coupled with unexplained modifications to file permissions, intensified my concerns about the integrity of my digital environment and the potential for surveillance or interference in my investigative efforts.

It was at this point that I began to wonder if those involved in the alleged patent fraud I was fighting against weren't just trying to stop my investigation but may very well try to stop me as well which caused significant concerns for my personal safety. With all the digital evidence I'd amassed and my understanding of their actions deepening, what initially felt akin to navigating through a complex computer game abruptly transformed into a stark reality, in which the real life high stakes at play suddenly became evident.

January 18-19, 2023: Artificial Everything

In the wake of discussions with my patent attorney about the PhotoRobot 'Virtual Catwalk' and its alarming similarity to my invention, I found myself inadvertently stepping into a battleground I never anticipated. It was during this period, particularly highlighted in an email exchange with my attorney, that I began to realize the gravity of what I was up against. For the first time in my life, I was directly experiencing the power and potential malice of sophisticated AI. This wasn't merely an introduction to advanced technology; it felt like a direct assault on my intellectual property and, by extension, my life's work, orchestrated by unseen forces wielding AI as their weapon.

This realization of being targeted by AI—my first genuine encounter with its capabilities—was not just a technological challenge but a profound personal crisis. The more I immersed myself in this digital abyss, seeking to understand and counteract the deceptive web being woven around my patent, the more isolated I became. I was not merely investigating a potential fraud or a competitive threat; I was confronting a scenario wherein my very introduction to AI was through its application against me—a frightening and surreal experience that pushed me to the edges of my understanding and comfort.

In my determined effort to find some kind of help and support, I undertook every conceivable action. I personally visited the FBI building in Brooklyn Center, MN, detailed my concerns in a police report, reached out to multiple computer forensic

specialists, implored my patent attorney for guidance, and even reached out to the U.S. Secret Service. Yet, each avenue I explored in search of support seemed to lead me back to the start, with little to no concrete assistance or acknowledgment of my situation.

The police report itself captures this circular dilemma, noting my initial outreach to the FBI, who directed me to local authorities, only for those local authorities to recognize their limitations in addressing such a complex, technology-driven issue. They suggested returning to the FBI with more organized data, effectively placing me on a path that looped endlessly between agencies, neither equipped nor willing to address the situation at hand.

On the evening of January 18 or 19, driven by my unsettling discovery of an AI-generated video that I had stumbled upon, I made my way back to the Minnetonka Police Department for help once again, only to realize as I walked up to the door that the lobby had already closed around a half hour earlier. The sight of two black SUVs speeding past me as I entered the parking lot added an eerie layer to my already heightened anxiety. These vehicles, I later realized, sped down a road that ended in a cul-de-sac a very short distance later, offering no further path—only reinforcing the surreal nature of my predicament. This series of events, especially my first significant encounter with AI in such a distressing context, spurred panic and left me unsure where to turn or what to do next, feeling trapped in a scenario far beyond my understanding. The realization that I was essentially on my own, despite having reached out to anyone and everyone who might offer assistance, only deepened the sense of isolation and urgency, highlighting the stark reality that I had no one to rely on but myself. This period of intense anxiety, served as a grim prelude to the events of January 21, 2023.

January 19, 2023: Text Messages With My Former CIA Welder

5:33pm – Me:

Your text made much more sense a couple days later.

What's the purpose of all of it though?

None of it makes any sense (*Exhibit C*)

The Escalation Towards January 21, 2023: A Very Loud Call For Help

In the days preceding January 21, 2023, my situation spiraled into a bewildering and alarming series of events, signaling an acute stress reaction catalyzed by a convergence of unprecedented discoveries and interactions. A critical juncture was my identification of what I perceived as a highly sophisticated attempt to infringe upon my intellectual property rights, centered around a Netflix patent application strikingly similar to my own invention. This realization, coupled with a notable patent priority date just 12 days ahead of a major corporation's filing, imbued the moment with both astonishment and gravitas, especially considering the substantial financial figures involved.

The trajectory towards the eventual acute stress reaction was not linear but rather a culmination of multiple, interconnected 'dots'—each dot representing a distinct but interrelated event or realization that collectively bore down upon my psyche. Notably, a conversation with my 'former CIA welder' revealed a depth of insider knowledge and veiled threats that hinted at a broader, more ominous plot at play. This conversation was not an isolated incident but part of a broader pattern of suspicious activities and anomalies that began to paint a clear picture of concerted efforts to intimidate and isolate me.

Among these 'dots' were technological manipulations and anomalies, such as unexpected computer and phone behaviors, suggesting remote surveillance and interference. The awareness of potentially being monitored by entities with the capability to execute such high-level technological manipulations contributed significantly to my growing sense of paranoia and vulnerability.

The escalation of these events was further amplified by my attempts to seek assistance from various authorities and experts, from personal visits to the FBI to engaging with forensic specialists. Each attempt was met with bureaucratic redirections and a palpable lack of actionable support, leaving me in a limbo of uncertainty and fear. The realization that these efforts circled back to a point of origin without yielding any protective measures or resolutions heightened my sense of isolation and desperation.

It was within this context of escalating surveillance, technological manipulation, and the apparent involvement of governmental and corporate entities that I found myself on the evening of either January 18 or 19, attempting a second visit to the Minnetonka Police Department. The drive to the police station, marked by the unnerving presence of two black SUVs speeding by just as I pulled into the parking spot for the police lobby, was a physical manifestation of the metaphorical pursuit I felt ensnared in—a pursuit that seemed to lead to a dead end, both literally and figuratively.

This second attempt to seek help, only to find the police station's lobby closed, symbolized the culmination of my growing fears and the stark realization of being entangled in a scenario far beyond my control. The peculiar behavior of the SUVs, coupled with the subsequent discovery that their chosen path led to a cul-de-sac, mirrored the dead ends I encountered at every turn in my quest for assistance and clarity.

Confronted with these overwhelming circumstances and the palpable absence of any meaningful support, I found myself backed into a corner, both metaphorically and physically. The decision to discharge a firearm to summon police intervention was born from a profound sense of being trapped, with no clear direction to turn to for safety or assistance. It was a desperate act, fueled by the acute stress of facing a multifaceted and seemingly insurmountable adversary alone, underscored by the realization that the conventional avenues of help and recourse had effectively closed their doors to me.

This act, while drastic, was a calculated effort to break through the isolation and bring immediate attention to the complex web of threats and manipulations I was ensnared in. It was a plea for intervention, rooted in the hope that the resulting attention would not only offer some form of protection but also cast a spotlight on the deeply concerning and surreal circumstances I was navigating.

February 2, 2023: Text Messages With My Former CIA Welder

5:50pm – Welder:

Call me beo

Bro

(Exhibit C)

February 13, 2023: Text Messages With My Former CIA Welder

8:35am – Welder:

You alive?

(Exhibit C)

February 26, 2023: Text Messages With My Former CIA Welder

9:37am – Welder:

Call me if you're free

(Exhibit C)

SOME VERY POWERFUL PEOPLE ARE KEEPING THEIR EYE ON ME

May 2, 2023: Email Detailing My FTC Fraud Report

During the evening of May 2, I reached out to my then attorney, Bruce Rivers, via email to inform him about my intention to file a report with the Federal Trade Commission (FTC). In this communication, I shared a link to a digital folder which also played a significant part in the fraud reports I submitted the following day to both the FBI and FTC. This folder contained videos under the title 'AI Generated YouTube Videos', which I had analyzed for evidentiary purposes. In the email, I advised Mr. Rivers to 'download the whole folder and keep it somewhere safe', expressing my growing concerns not just for the security of my digital forensic evidence, but for my personal safety as well.

(Exhibit E)

Subsequent Phone Conversation:

Shortly after sending the email to Bruce Rivers about the FTC report and the 'AI Generated YouTube Videos' folder, I had a phone conversation with him. During this call, when I inquired if he had reviewed the 'AI generated YouTube video stuff'(paraphrasing), he acknowledged seeing it but admitted, 'yes, but I have no idea what I am looking at here.' (paraphrasing) Recognizing the technical nature of the evidence, I suggested he consult with his son, who is involved in video production and editing for his YouTube channel. I proposed this because I believed his son would have the technical insight to identify the unusual digital artifacts indicative of AI generation. I emphasized the trustworthiness and unbiased perspective his son could offer by stating, 'If there is anyone you can trust to provide you with an unbiased and trustworthy opinion, I would have to imagine that your son would be high up on that list, right?' (paraphrasing) To which Mr. Rivers agreed.

May 22, 2023: Powerful People Are Keeping An All Seeing Eye On Me

On this date, at 3:13pm, I called Bruce Rivers to inquire if his son had reviewed the digital evidence I emailed, which paralleled what I submitted in my FBI and FTC fraud reports concerning AI-generated fraudulent video content among a large amount of the digital forensic evidence I had downloaded in late 2022 / early 2023. Mr. Rivers confirmed, "Yeah I did, you have some very powerful people keeping an eye on you." This acknowledgment led me to mention, "I know. That's why I shot a gun off in my apartment." The conversation briefly shifted to other case matters, but when I sought to delve deeper into his comment about 'powerful people,' Mr. Rivers expressed concern about the security of our communication, stating, 'We'll talk about it in person/later, I don't trust that this line is secure.'(paraphrasing)
(Exhibits I & V)

May 23, 2023: Relaying My Safety Concerns to Friends

After being informed on the previous day about 'powerful people keeping an eye on me,' I became extremely concerned for my personal safety. The following morning, I took

proactive steps to inform my circle of friends about the situation. I drafted a message detailing the warning I had received from Bruce Rivers and began sending this identical message to multiple friends. My intention behind disseminating this information was two-fold: firstly, to potentially deter any malicious intentions towards me by making this situation known to a wider audience, and secondly, to ensure that if anything untoward were to happen to me, there would be a broad awareness of the context surrounding my concerns. (*Exhibits J & V*)

Subsequent Concerns About Communication Monitoring:

Approximately a couple weeks or so after the phone call in which Bruce Rivers mentioned 'powerful people keeping an eye on me,' I initiated another phone call to discuss my case. During this call, Bruce made a comment that struck me as cryptic and suggestive of our communications being monitored. He questioned, in a manner that seemed more than just conversational, "what's up with attorney-client privilege?" This comment led me to infer that he had somehow become aware that I had shared our previous conversation about 'powerful people keeping an eye on me' with friends. Given that I had communicated this information through texts and calls from my cellphone to multiple friends, his remark intensified my concerns about the privacy of my communications and the possibility that they were in fact being monitored.

June 6, 2023: A Direct Attempt to Address Concerns About My Case

Concerned about the overall direction of my case, I sent an email to my former attorney, Bruce Rivers. In this email, I detailed my suspicions of a widespread conspiracy involving AI and several major companies, affecting the integrity of evidence against me. I emphasized the potential relevance of AI-generated content to my defense, pointing out how this evidence could demonstrate both my competency and the existence of a conspiracy against me. Despite previously discussing the significance of this AI evidence, including a comment from Rivers acknowledging that 'powerful people' were monitoring me, his subsequent communications seemed to dismiss or downplay these concerns. This inconsistency in his responses and the lack of engagement with the critical evidence I

provided led to confusion and frustration on my part. I sought clarity on whether he had truly considered the evidence I had sent, including my FBI report and analysis of AI-generated videos, and questioned the potential conflict of interest given his connections to YouTube amidst allegations involving the platform.

(Exhibit F)

It is worth noting that I never received a reply to this email or any sort of direct response to the concerns raised therein.

DEFENSE ATTEMPTS HAMPERED BY DEFENSE COUNSEL

July 7, 2023: Contesting Dr. Jill Rogstad's Incompetent Exam Report

During a court hearing aimed at contesting Dr. Jill Rogstad's assessment of my incompetency to stand trial, I attempted to present comprehensive evidence of my competency and achievements. Notably, my US Patent 11,577,177 was the sole piece of evidence officially recorded, despite my preparation of a significant amount of additional documentation. This documentation, meticulously designed and then printed on 11 x 18" card stock in full color, was intended to highlight my competencies and personal milestones. However, based on advice from Bruce Rivers, who expressed concern that presenting this material might inadvertently support the narrative questioning my mental stability, I chose not to present it.

July 28, 2023: I Discover the Order of Civil Commitment

It's fair to say that I was shocked by the July 20, 2023 filing of an 'Order of Civil Commitment' against me, a discovery made only on July 28 upon receiving a letter from Michael Biglow, who identified himself as my court-appointed attorney. The news was alarming, igniting fears of potentially being committed to a mental institution at a crucial time when I was focused on launching my company and advancing my business ventures. Adding to my confusion was the introduction of a supposed court-appointed attorney,

given my understanding that Bruce Rivers was already representing me in my legal matters.

Reacting to this unexpected development, I reached out to Bruce Rivers via text on July 28 to express my concerns and confusion. In response, Bruce assured me not to worry, affirming his commitment to represent me in the civil court proceedings, thus addressing my apprehensions regarding representation by an unknown court-appointed attorney.

(Exhibits H & V)

August 1, 2023: Rivers Flow of Representation Runs Dry

Despite prior assurances, Bruce Rivers did not represent me during my civil court proceedings. This is clearly evident through my somewhat panicked emails and text messages in which I sought assistance and guidance amidst my growing concerns about the civil commitment proceedings against me. These proceedings, fueled by what I perceive as a misleading, unfounded, and egregious report supposedly prepared by Dr. Jill Rogstad, alongside the ominous 'powerful people' remark previously made by Bruce Rivers, intensified my fear of an unjust commitment to a mental institution—a consequence of defending my patent rights and facing the ramifications thereof.

Recognizing Bruce Rivers unavailability due to his well-documented cross-country motorcycle trip on his 'CLR Bruce Rivers' YouTube channel, I sent my email on August 1, knowing that I would not be getting ahold of Bruce but instead hoping to receive a reply from someone on his team with legal guidance. This was done with my knowledge that Bruce was engaged in his adventure, effectively making him inaccessible for immediate legal counsel. This situation left me to contend with my own, albeit less scenic, journey through civil commitment proceedings with no guidance at all from a person whom I've known for over 20 years and was relying on for sound legal guidance at a critically important juncture in my legal proceedings.

(Exhibits G, H, & V)

August 1, 2023: My Advocacy Pulls a No-Show Thanks to Michael Biglow

Before my scheduled examination and hearing on August 1, 2023, I proactively shared substantial documentation and evidence with my court-appointed attorney, Michael Biglow, to challenge and discredit the exam report that was supposedly prepared by Dr. Jill Rogstad. This evidence included the January 12, 2023 police report with a file name of 'Mntka_PD_Police_Report__23-000151__FILED_9_DAYS_BEFORE_INCIDENT.pdf', my patent, the successful '3rd Party Prior Art' submission filed against the Netflix patent application, the FTC and FBI reports I filed on May 3, 2023, a copy of my 2019 IRS 'Wages and Income' statement showing a gross income of \$218,385.00 (*Exhibit P*), and links to my professional accomplishments, underscoring my significant achievements and contributions to various project which included very clear references to published article links in which I received official "Engineering" credits which served to directly refute Dr. Jill Rogstad's use of this claim made by myself during our meeting as a way to actually support her diagnosis in the report she supposedly prepared and filed with the court on March 10, 2023.

Despite this, the only document forwarded to the relevant parties was the April 7, 2023 letter from my psychiatrist in California (*Exhibit Q*), reflecting a narrow representation of the extensive evidence I provided in a proactive attempt to defend myself. This act of selective forwarding, particularly given the last minute timing involved insofar as Michael Biglow making the decision to send the email just six minutes prior to the Zoom meeting beginning, and the profound ramifications of this meeting pertaining to my entire life, and future as a whole, points to a significant oversight and lack of advocacy on my part. This situation underscores the challenges I faced, and continue to face in ensuring my voice and evidence are adequately represented in the judicial process, further complicating my efforts to contest the competency determination and its implications on my legal and personal standing.

(Exhibits O, P, & Q)

ROUND 2 OF ALLEGED PATENT FRAUD INVOLVING NETFLIX & PAUL DEBEVEC

August 8, 2023: Paul Debevec's SIGGRAPH 2023 YouTube Video Is Discovered

I discovered a SIGGRAPH 2023 video on YouTube titled "The Full Spectrum of Virtual Production," featuring Paul Debevec representing Netflix and EyeLine Studios, which is accessible via the following link: <https://www.youtube.com/watch?v=tMpg29Vc0bU>

At approximately 59:00 minutes into the video, I located a rotating treadmill similar to the technology described in my US Patent 11,577,177 as well as the Trojansky/Netflix patent application. This evidence significantly contributed to my concerns regarding potential intellectual property infringement and fraudulent activities related to my patented technology.

This finding eventually prompted me to conduct a more thorough investigation into the alleged fraud, and document my analysis, including the notable discovery and its implications, on my Substack page at 'https://MattGuertin.substack.com/p/netflix-fraud-is-discovered', with the actual publishing of this post itself occurring some time after the August 8, 2023 date of the initial discovery itself.

August 9, 2023: I Send An Emergency Email To My Patent Attorney

I send an email to my former patent attorney, Amanda Prose at 3:29pm with a subject line of 'Emergency' which simply stated:

"Amanda, If you are available to talk on the phone for a second I have a rather new and serious fraud problem I need to get an opinion on asap. In involves Netflix. Thanks,
~Matt"

This email exchange is documented on my Substack page at:

<https://MattGuertin.substack.com/p/emergency-email-to-patent-attorney>

August 10, 2023: I Email The Entire Firm After Not Receiving A Response

After not receiving a response at all to my 'Emergency' email from the previous day I decide upon the bold move of simply emailing the entire firm due to my concerns about

potential electronic communication tampering amidst critical international patent filing deadlines. My urgency and concern is highlighted by the subject of the email which is aptly titled 'Need an in person meeting at WCK asap' This communication detailed my concerns about maintaining reliable contact, my discoveries surrounding the Netflix patent, and its potential infringement on my US Patent 11,577,177. I raised critical issues regarding patent law, specifically the obligation of 'Duty of Candor' concerning prior art citation during the patent application process.

I also highlighted my concerning findings regarding the fact that Paul Debevec is associated with USC/USC Cinema who had conducted searches for my LinkedIn page sometime during the one week period preceding December 17, 2022, as well as the week preceding February 5, 2023. This is notable as December 9, 2022 would mark the official point at which my focus had become completely diverted from finishing my prototype to inadvertently becoming a digital forensic investigator upon my discovery of the alleged PhotoRobot fraud that is detailed in my Minnetonka Police Department report #23-000151. Upon establishing my 'PatentlyFalse' Internet Archive account to archive the PhotoRobot website, I devoted my efforts to downloading full website pages and engaging in extensive digital forensic analysis. This proactive approach in gathering evidence would have made it evident to any parties involved in the suspected fraudulent activities that I was aware of their actions. Consequently, it is plausible that such parties might search for my LinkedIn profile out of curiosity or for further insight into my investigations.

Despite receiving a prompt response from my former patent attorney indicating her availability for a meeting, my subsequent communication was overshadowed by a disheartening email from a firm shareholder, informing me of the firm's decision to terminate our client-attorney relationship which included the rather strange inclusion of the statement "For your information, Amanda Prose no longer offices at our downtown Minneapolis office. Your emails to her will no longer reach her, our system has been modified to do that." The firm's formal withdrawal from representation was filed with the USPTO as 37 CFR 11.116(b)(1) 'Withdrawal can be accomplished without material

adverse effect on the interests of the client,' a characterization that starkly contradicts the critical timing and context of my communications, which were aimed at addressing significant challenges and securing necessary investments for my patent's international protection and advancement with the help of my former patent attorney, Amanda Prose who worked for WCK – the same firm as the shareholder who responded and terminated our relationship. This development significantly compounded the complexities and challenges I faced during a pivotal juncture in my legal and professional endeavors.

After receiving my intellectual property files from Westman, Champlin, Koehler, delivered by courier, I found a letter from firm shareholder Steven M. Koehler included with the documents. In his letter, Koehler offered a referral to assist with my international patent application filings. While I was grateful for the referral, it notably contrasts with the firm's stated reason for ending our client relationship. The referral implicitly acknowledges the ongoing need for professional assistance with my intellectual property endeavors, contradicting the firm's withdrawal reason under the pretext of non-detriment to the client, as outlined in 37 CFR 11.116(b)(1). This situation arose following my communication to the firm about suspected fraudulent actions involving Netflix, Inc., highlighting a critical juncture in my pursuit of protecting and advancing my intellectual property rights.

Complete email exchanges and interactions are documented on my Substack page at: <https://MattGuertin.substack.com/p/dropped-as-client-by-patent-attorney>

LINKEDIN SEARCHES CONFIRM POWERFUL PEOPLE KEEPING AN EYE ON ME

August through October of 2023: I Investigate My LinkedIn Search History

Following my discovery of Paul Debevec's involvement in the alleged fraud, and the LinkedIn profile searches by entities associated with him, I began a meticulous review of other LinkedIn profile visits. It's pivotal to note that despite establishing my LinkedIn profile in late 2020, my engagement with the platform was minimal. After conceiving my

invention, I posted once about my work on a significant new personal endeavor, following the filing of my provisional patent and trademarks, without delving into specifics. Since then, my LinkedIn activity all but ceased, and my profile remains largely unfinished, lacking in detailed employment history or any substantive updates. The sole action I undertook related to my invention on LinkedIn was securing and minimally setting up a page for 'InfiniSet,' a precaution taken after finalizing the name for my invention and the business endeavor I was building that revolved around it. This backdrop of limited LinkedIn engagement accentuates the unusual nature and specific interest of the searches conducted by entities closely linked to significant figures in my legal and intellectual property challenges.

In the process of meticulously examining the accumulated automated LinkedIn emails in my inbox, I uncovered a series of conspicuous searches by entities affiliated with government and military sectors. The revelation of these searches led me to conduct an exhaustive analysis, culminating in the creation of a comprehensive graph and timeline. This timeline traces back to the inception of my patent idea, overlaying significant personal and business milestones alongside the noteworthy searches conducted by various entities.

To provide a quantitative measure, I incorporated the total number of profile searches reported in each automated LinkedIn notification, which as I understand it all correspond to specific one-week intervals which directly precede the arrival of the automated emails in my inbox. This data was meticulously organized on a graph, visually correlating the timing of these searches with pivotal events in my life and business endeavors, including the January 21, 2023 incident leading to criminal charges and subsequent court proceedings. Notably, the timeline graph, presented in (Exhibit A), reveals an unprecedented peak of 25 LinkedIn searches within a single week which directly preceded July 20, 2023—the exact date the civil commitment order was filed against me. This week stands out not only for the record number of searches in a one week period, but also for featuring the "State Of Rhode Island" among the searching entities.

For further validation and substantiation of all of the data presented in my ‘LinkedIn Search and Count Graph Event Timeline’, I compiled a detailed collection of email headers, PDF prints, .eml exports, and raw HTML codes for each email corresponding to the dates of these searches. A selection of this compilation is shared in (*Exhibits X-Fa*), highlighting the authenticated and significant searches conducted by a variety of government, military, intelligence, and defense-related entities. These searches notably align with critical moments in my personal timeline, underscoring the potential implications and interest of these entities in the unfolding events of my life and legal challenges while serving to substantiate the earlier comment made to me by former defense attorney, Bruce Rivers concerning ‘powerful people keeping an eye on me’.

Among the notable LinkedIn profile searches, a series of entities with ties to military and government sectors conducted investigations into my profile. These searches, meticulously detailed, and authenticated through the inclusion of PGP email header verifications (*Exhibit W*), span a significant timeline and encompass a range of entities that underscores the breadth and depth of interest in my professional and personal endeavors. The chronological list of the searches I chose to share the PGP email headers, raw email HTML, and PDF email prints of for the purpose of authentication are as follows:

11/28/2021: United States Air Force Academy

A search marking one of the earliest instances of military interest.
(*Exhibit X*)

01/16/2022: The United States Air Force

An indication of growing interest from the military.
(*Exhibit Y*)

07/17/2022: The United States Department of the Air Force

Suggests a continued and specific interest from this military branch.
(*Exhibit Z*)

12/17/2022: USC School of Cinematic Arts & United States Army Reserve

Significant due to the fact that Paul Debevec, and USC-ICT, whom he is also affiliated with receive a significant portion of their funding directly from the US Army who works directly with USC. In addition the US Army is officially included in patents which Paul Debevec is the inventor of.

(Exhibit A & Aa)

01/21/2023: Forcepoint & 3Gimbals

On the exact date leading to my criminal charges, I received an automated LinkedIn email indicating that Forcepoint & 3Gimbals had both performed searches for me sometime during the prior week, underscoring a critical alignment with my legal troubles and supporting my claims regarding electronic surveillance and interference.

(Exhibit A & Ba)

Additional, and highly relevant insight into ‘who’ exactly Forcepoint and 3Gimbals are, and what their business dealings entail can be found on my Substack page at:

<https://MattGuertin.substack.com/p/forcepoint-fox-3gimbals-search-me>

02/05/2023: USC School of Cinematic Arts

A second ‘follow-up’ search by USC Cinema is conducted for my profile

(Exhibit Ca)

07/20/2023: The State of Rhode Island

Coincides with the filing of a civil commitment order against me as well as the all time, one week ‘search count record’ of 25 searches in a one week period taking place for my LinkedIn page.

(Exhibit A & Da)

08/03/2023: DARPA, Defense Intelligence Agency, & US INDOPACOM

The Defense Advanced Research Projects Agency (DARPA), Defense Intelligence Agency, and U.S. Indo-Pacific Command all conduct a search

for my LinkedIn profile during the same one week period indicating a heightened level of interest from high-profile defense entities which coincidentally occurs at the very same time I am in the process of fighting to ensure I am not committed to a mental institution by the Hennepin County courts as fraudulent discovery material is being injected into my case to further increase the chances of said commitment.

(Exhibit A & Ea)

Fraudulent discovery material is detailed in my April 4, 2024, pro se 'Motion to Compel Discovery and Affidavit of Fact' filed into my criminal case, 27-CR-23-1886.

08/11/2023: The United States Air Force & U.S. Department of State

Search is conducted during a time period which coincides with my discovery of the SIGGRAPH video I perceived as fraudulent, and which resulted in being dropped as a client by my former IP attorney's firm upon bringing it to their attention in an email.

This is notably the fourth search conducted for my LinkedIn profile (that I can see) by an entity directly connected to the US Air Force.

(Exhibit A & Fa)

This pattern of searches, particularly on dates closely aligned with pivotal events in my life and legal case, suggests a concerted and coordinated effort to not only gather intelligence on me but potentially exert direct influence over the various events taking place, in which my life continues to become more and more surreal with each passing day. The inclusion of these authenticated searches in *(Exhibit X-Fa)* serves to substantiate my concerns regarding surveillance and potential interference in my affairs by entities with significant resources and influence which serves to significantly discredit the exam report that was supposedly prepared and submitted to the court on March 10, 2023 by Dr. Jill Rogstad.

POTENTIAL APPLICATIONS IN MILITARY TRAINING SIMULATIONS ARE VAST

October 2023: An Analysis of the InfiniSet Patent

In the course of probing the suspected Netflix fraud, I employed an AI analysis to scrutinize a seemingly fraudulent academic paper found on an Army.mil domain, which was also identified as an officially filed document of the US Army. This step was part of a broader effort to uncover and document potential fraudulent activities tied to my case and intellectual property concerns. This investigation inadvertently resulted in me beginning to explore the implications of my patent as it related to military training simulations, resulting in an eventual AI analysis which emphasized my patent's vast potential in transforming military training through the creation of adaptive and hyper-realistic scenarios, made possible by integrating with AI systems. The significance of my invention is not solely confined to military applications but extends to various fields that can benefit from enhanced virtual immersion experiences, which include medical, and educational use cases, showcasing its broad innovative impact.

(Exhibit D)

It is important to also point out that in my patent disclosure for US 11,577,177, I in fact include a direct reference to AI being used as one of the ways to control it as indicated in the following verbatim excerpt from my patent:

In one or more embodiments described herein, the creation of the illusion of movement of an otherwise stationary user utilizes a control system for synching the operation of the treadmill, the position of the user, and the camera. An artificial intelligence (AI) system and/or existing software may be used to acquire the data needed to control the system, where the AI and/or existing software is able to analyze a video and determine very accurately the path, rotation, and/or 3D positional data of the camera that recorded the video.

BRUCE RIVERS AND THE LACKIN' OF MY INFORMED CONSENT**January 15, 2024: "No court"**

With a court date scheduled for the following day at 1:30 pm, uncertainty prevailed regarding whether my appearance would be required in person or if I could attend via Zoom. Seeking clarity, I attempted to contact my former attorney, Bruce Rivers, at 4:17pm via an unsuccessful phone call (*Exhibit I & V*). Bruce quickly responded via text, asking if he could call later. I agreed, providing my mother's cell phone number as an alternative contact to ensure I wouldn't miss his call due to the urgency of needing to confirm my arrangements for the court date (*Exhibit H & V*).

6:26pm - I have still not received the call I have been waiting for from Bruce and it is stressing me out as I still do not know my plans for the following day and so I send Bruce a text message "Can I do Zoom tomorrow? I kind of have to know what's going on..."

6:26pm - Bruce instantly replies to me with "No court"

6:27pm - Two additional text messages arrive from Bruce Rivers stating "I'll call you in the morning" and "Nothing has changed"

6:27pm - I reply right away with "K."

6:28pm - I follow up with another text to Bruce - "Otherwise if i try calling you... around lunch time? Between 12 and 1 ?"

6:30pm - I follow up with an additional text to Bruce - "You might not get ahold of me in the morning..so as long as I know I don't have court I'll try you late morning...afternoonish..*(thumbs up emoji)* Have a good night"

7:32pm - Bruce replies with "Xok" - which I assume means 'Ok.'

(*Exhibit H & V*)

January 16, 2024: Court Orders Flowing Without My Informed Consent or Knowing

A court order, drafted by Judicial Referee Danielle C. Mercurio, was officially signed by her at 8:27am, and subsequently by Judge Julia Dayton Klein at 9:22am on the morning of January 16, 2024. This timeline suggests the order was likely prepared in advance of that day. Considering the early morning signings, one might infer that the document's preparation was prioritized to be ready for such early execution, indicating a high level of procedural urgency or pre-planning.

This court order is notable as it begins with the following verbatim statement:

“This matter was scheduled to come before the undersigned Referee of District Court on January 16, 2024. Tom Arneson, Assistant Hennepin County Attorney, represented the plaintiff. Defendant was represented by Bruce Rivers, Esq. Prior to the hearing, the parties agreed to a finding of incompetency entered administratively.”

This court order's initial statement starkly contrasts with the reality of my situation. As a key party mentioned, I never consented to any agreement on incompetency. Bruce Rivers communication of "No court" and "Nothing has changed" less than a day earlier led me to believe no such agreement or decision was pending, at least not one that I would've had the ability to actively contest on my behalf had I known that there was in fact the opportunity for me to do so. This miscommunication not only misled me but also deprived me of informed consent regarding the proceedings, undermining the integrity of the supposed agreement and the procedural fairness owed to me.

January 17, 2024: Judicial Referee Danielle C Mercurio's Multi-Day Court Dis-Order

Danielle C Mercurio's court order, likely prepared in advance due to its early morning signing on January 16, was officially submitted and filed into my case, 27-CR-23-1886, at 7:29am on January 17, 2024 . This procedural step, occurring in the early morning hours, underscores the peculiar timeline and handling of the order. The fact that an order,

addressing a hearing initially scheduled for January 16 and involving decisions made without my informed consent is signed hours prior to the scheduled 1:30pm hearing, and then filed the following day, highlights procedural irregularities within the court's processing of my case. This anomaly further emphasizes my profound concerns regarding the integrity of the court's actions and my rights to due process.

CRITICAL EXAM REPORT IS NEVER PROVIDED DESPITE MULTIPLE REQUESTS

January 26th, 2024: Exam Report Requested From Bruce Rivers Never Flows My Way

I reach out to my former attorney, Bruce Rivers, in an attempt to gain access to the exam report prepared by Dr. Adam Milz, upon the realization of the unexpected and 'surprise' civil court hearing resulting from the January 16-17, 2024 court order prepared by Judicial Referee Danielle C Mercurio which includes the statement:

“the Defendant may be committed directly to an appropriate safe and secure facility”

12:51pm - I send Bruce Rivers a text message requesting that he send me Dr. Adam Milz's exam report from my 6 month psychological exam review that I completed with him over the two hour Zoom meeting that took place on January 3rd, 2024. I additionally text him my email address even though he already knows it.

(Exhibit H & V)

4:38pm - I follow up with an email to Bruce Rivers that simply states "Bruce, Can you please email me my psychological evaluation report? Thank you. ~Matt"

This email is included as part of the supporting documents included with my 'Motion For Continuance' submitted to the court on January 30th, 2024 for my

civil case, 27-MH-PR-23-815, and is included as (Exhibit Qb) of the pro se 'Motion for Judicial Notice' I submitted to the court on April 3, 2024, pertaining to my criminal case, 27-CR-23-1886.

January 28th, 2024: Bruuuuuuce

After not receiving an email with the report or any further communication from Bruce Rivers I try calling him at 4:31pm and do not get ahold of him and so I send him a text message at 4:34pm that simply says "Bruuuuuuce"

(Exhibit H & V)

January 29th, 2024: Matthew?

At 8:45am the following morning Bruce replies to my text with "Matthew?"

I reply 2 minutes later with "Yes" and "Tis me" but never receive any further response or reply from him.

(Exhibit H & V)

Exam Report Never Received:

Despite these multiple requests to my former defense attorney Bruce Rivers, in addition to my pro se filing of a 'Motion For Production Of Medical Records' into my civil court case, 27-MH-PR-23-815, on January 30, 2024 I have yet to receive the requested exam report prepared by Dr. Adam Milz which is critical for my defense. This January 30, 2024 'Motion for Production of Medical Records' is included as (Exhibit Rb) of the pro se 'Motion for Judicial Notice' I submitted to the court on April 3, 2024, pertaining to my criminal case, 27-CR-23-1886.

THE ONLY DISCOVERY MATERIALS I RECEIVED ARE FRAUDULENT

January, 2024: “You already have the discovery materials”

During a telephone conversation with my former attorney, Bruce Rivers, which occurred sometime during January 2024, I requested access to discovery materials pertinent to my case. Bruce's response to my request was, "You already have the discovery materials," delivered in a tone that suggested jest or a lack of seriousness. This assertion was inaccurate, as my efforts to obtain comprehensive discovery documents have been ongoing since the inception of my legal proceedings as is clearly established in the excerpt of hand written notes I had prepared prior to an in person meeting I had with Bruce Rivers at his downtown Minneapolis office shortly before my March 1, 2023 meeting with Dr. Jill Rogstad.

(Exhibit R)

My sole instance of receiving discovery materials directly related to the incident on January 21, 2023, involved the manipulated documents sent by Michael Biglow, my court-appointed attorney, on August 3, 2023, as detailed and substantiated in my pro se ‘Motion to Compel Discovery and Affidavit of Fact’ I filed on April 4th, 2024, aiming to challenge the inadequacy and manipulation of the discovery materials I had been given.

MY HENNEPIN COUNTY MCRO CRIMINAL CASE HISTORY IS REPOPULATED

In early 2023, shortly after being charged following the incident on January 21, I conducted a search for my case on the Hennepin County Online MCRO court records system. To my surprise, this search showed a nearly clean slate, displaying only the recent charges and an insignificant past violation which I believe was a parking ticket but do not specifically recall. This result was unexpected but not unwelcome, as it reflected a significant period of my life where I had matured and moved beyond my fondness of partying during my younger years which had a habit of leading to various legal troubles. My last criminal legal issue prior to January 21, 2023 beyond

petty misdemeanor parking tickets, dates back to July of 2008, marking a long period of personal growth and significant responsibility in terms of the trust that was necessary for the many successful projects I oversaw during this time. My successful ability at overcoming the troubles of my past was something I actually took great pride in, and was in fact a topic of prior discussion and text exchanges with my former attorney, Bruce Rivers in which I directly asked him about the potential for expungement of my earlier legal issues. (Exhibit H)

This topic of thought, and subsequent conversation came to mind and was text to Bruce Rivers due to my desire to visit friends I now have in Canada as a result of my international travels, and all of the people I met during my time spent in Los Angeles and abroad during the years of 2014-2020.

A subsequent search of my criminal history on the MCRO system in early 2024 revealed a sudden re-population of my criminal history dating all the way back to 2002, which includes minor infractions such as five petty misdemeanor parking tickets spanning 2011-2012, an ‘improper storage of litter’ violation from 2003, a ‘violation of party ordinance’ from 2002, and a speeding ticket from 2002 which didn’t even take place in Hennepin County.

(Exhibit U)

This unexpected re-population of my criminal history, including both minor and irrelevant past infractions, raises concerns about potential manipulation within the Hennepin County Court System. The appearance of previously absent records suggests a deliberate attempt to cast me in a negative light, possibly by someone with significant access to electronic records within the court system. This manipulation not only compromises the integrity of my case but also undermines the trustworthiness of the court's records as whole.

(Exhibit U)

A LANGUAGE ANALYSIS OF THE JANUARY 16-17, 2024 COURT ORDER

In conducting a thorough analysis of the language and structure of the January 16-17, 2024, court order regarding my case, it became apparent that the document is indeed prepped for the

eventuality of my detainment based on assessments of my mental competency. This order, intricately detailing steps for prepetition screening and potential commitment to a facility, explicitly plans for ongoing evaluations of my mental state, highlighting a framework geared towards a prolonged detainment process. The analysis identified a structured approach, with directives emphasizing the court's preparation for and anticipation of my detainment, further corroborated by the necessity for my cooperation with the civil commitment process. This insight into the order's language and procedural directives underscores the seriousness with which my potential detainment is considered, aligning with my concerns about the implications for my future based on the court's assessment of my mental health.

(Exhibit T)

A COMPARATIVE ANALYSIS OF THE INFINISET AND NETFLIX PATENT

At some point after the publishing of the Netflix patent (US 11,810,254) on November 7, 2023, I conducted a comparative analysis of it against my own patent (US 11,577,177) which highlighted significant similarities between the two. The analysis concluded that the Netflix patent may not sufficiently differentiate itself in terms of innovation and application from the InfiniSet patent which raises concerns about the novelty and non-obviousness required for a valid patent grant, suggesting that the Netflix patent's validity could be challenged on these grounds.

(Exhibit K)

COMPREHENSIVE VIDEO DOCUMENTATION SUBSTANTIATES FRAUD ALLEGATIONS

Comprehensive Analysis Documented By Live Multi-Source Video Capture:

I personally captured what I believe to be 'irrefutable' video evidence of the alleged fraud involving Netflix, YouTube, and the US Army, among many others. This evidence

comprised recordings from three separate video sources and two separate audio sources, all captured simultaneously in 'real-time'. This was done as I reviewed various YouTube videos identified as part of the alleged fraud, not just to document their content, but also to record the actual YouTube video file metadata. This process involved live downloads of the YouTube videos during recording, followed by the use of 'Exiftool' to view the embedded metadata within the videos. This metadata includes various details about the video, the most significant being the video's creation date. Notably, almost all the videos feature a 'Handler Description' metadata property formatted as 'ISO Media file produced by Google Inc. Created on: MM/DD/YYYY'.

The method I used to document potential fraud is crucial for its evidentiary strength. I combined three video sources: a 3840x1920 screen capture and two 1920x1080 camera feeds showing different views of my monitor. Additionally, two separate microphones captured audio, each linked to a stereo channel. This multi-source approach, resulting in a 3840x2160 (4K) video at 60 frames per second, robustly documents my online investigations. Including the date and time in each recording, and visibly navigating the web enhances the authenticity. Despite the complex setup, the process ensures even slight discrepancies in video and audio are preserved, making the evidence challenging to dispute. This method, also used to document the initial suspicions of fraud with PhotoRobot, forms a critical part of my evidence, demonstrating a consistent and thorough approach to evidence collection.

The outcome of my documentation process unveiled significant discrepancies in video production dates, suggesting recent creation of content subsequently uploaded to backdated YouTube channels. This pattern is aimed at fabricating a historical narrative, directly intertwining with the crux of the intellectual property conflict central to my ongoing criminal and civil cases. The fabrication of a fraudulent historical record through these manipulated timelines within digital content platforms forms a pivotal aspect of my evidence. It highlights a deliberate attempt to alter historical context and mislead investigations connected to my intellectual property disputes, potentially influencing perceptions and legal arguments against me.

A Professional 45-Minute Documentary Clarifying My Narrative and Legal Battle:

During the period of January-February, 2024, I invested approximately 44 days to develop and publish a video on my Rumble channel titled 'Matthew David Vs. Goliath.' This production aimed to introduce my invention and its capabilities, underscored by an overview of significant projects I've been involved in, thereby establishing my professional credibility. The video also provides a detailed timeline of the events leading up to the incident on January 21, 2023, which initiated my involvement in criminal and civil court cases. Furthermore, it delves into the complexities of the suspected fraudulent intellectual property activities at the core of my legal challenges. A key aspect of this video is the direct connection it draws between its content and the legal arguments in my case, significantly enhancing its evidentiary value and supporting my side of the story with a meticulously documented examination of facts and evidence.

In my "Matthew David Vs. Goliath" video, a particularly compelling segment starts at the 24:18 mark, highlighting discernible age discrepancies in appearances of Paul Debevec. These discrepancies suggest that the videos were recently produced and then backdated on YouTube. Moreover, at the 24:43 mark, the video presents two different portrayals of Paul Debevec—one significantly younger and the other visibly older—yet, intriguingly, he wears the same outfit in both. This evidence is pivotal, as replicating such distinct age representations in a single video, under identical conditions, would require a highly advanced and intricate production process, making it nearly impossible to fabricate. This portion of the video, therefore, stands as particularly strong evidence, underscoring its near-irrefutable nature and the substantial challenges in alleging it as manufactured or fraudulent.

All of the videos I detail above are published and available to view on my Rumble channel:
<https://www.Rumble.com/user/MattGuertin>

An additional analysis and broad overview of the alleged fraud, including the aforementioned age discrepancies is thoroughly detailed in a post on my Substack page as well, at the url:
<https://MattGuertin.substack.com/p/netflix-criminal-fraud-proof>

MY DECISION TO PROCEED PRO SE

The procedural nuances and lack of informed consent surrounding the January 16-17, 2024, court order have significantly impacted my confidence in the legal representation provided to me by Bruce Rivers. This culmination of concerns regarding the handling of my case, including miscommunications about court appearances, mentions of ‘powerful people keeping an eye on me’, potential conflicts of interest involving his significant presence on YouTube via his ‘CLR Bruce Rivers’ channel, and decisions made without my direct involvement or consent, has compelled me to make a critical decision regarding my legal defense. Acknowledging the gravity of these issues and their potential impact on not only my rights and the progression of my case, but ultimately my personal freedom and future as a whole, I have chosen to dismiss Bruce Rivers as my defense counsel.

Moving forward, I've opted to represent myself pro se to ensure my defense is precisely aligned with my understanding of justice, fairness, and my interests. This decision emerges from recognizing the necessity of trusting the most reliable advocate I know—myself. By taking this step, I aim not only to challenge the charges against me but also to contest the determinations of incompetency and the allegations of mental illness presented in my civil case. This action underscores my commitment to addressing the procedural discrepancies and the significant issues around lack of informed consent. Facing what I perceive as external pressures and interventions that have influenced the progression of my case, I've concluded that representing myself is the most effective way to navigate these challenges moving forward. This approach not only grants me direct control over my defense but also positions me to confront and clarify the complex, sometimes opaque, circumstances surrounding my legal battles.

EXHIBIT SUMMARY

Below is a summary of the exhibits accompanying this affidavit. Each exhibit is carefully selected to substantiate the factual assertions made herein and to provide concrete evidence

supporting the unique and complex nature of my case. These exhibits, which are referenced throughout this affidavit, are integral to understanding the procedural discrepancies, overarching issues of lack of informed consent, and the various other anomalies encountered in my current legal challenges.

Exhibit A:

LinkedIn Search and Count Graph

This exhibit presents a timeline graph constructed from LinkedIn's automated emails, detailing the instances and frequency of searches for my LinkedIn profile between December 26, 2020, and November 16, 2023. It serves to illustrate significant external interest in my professional background and patent activities.

Exhibit B:

Special Ops Gear and Prototype

A visual comparison showcasing my invention alongside its patent drawing, highlighting the undeniable match between the photographed prototype and the patent design. It includes evidence of 'special ops gear', specifically an 'ODF Optronics EyeBall', being utilized in conjunction with my invention, as I had previously disclosed to Dr. Jill Rogstad during our March 1, 2023 meeting.

Exhibit C:

Text Exchanges with Former CIA Welder

Screenshots of text conversations with my former CIA welder, detailing our discussions about the alleged fraud taking place as it was happening, as well as the fact that he was the first one to point me towards 'Ai' being the cause of the alleged fraud.

Exhibit D:

Military Training Simulations Analysis

An analytical piece published on my Substack page in October 2023, exploring the significant implications of my patent for military training simulations. This analysis underscores the potential transformative impact of my invention in enhancing military training simulations.

Exhibit E:**Email Exchanges with Bruce Rivers (May 2, 2023)**

Two emails I sent to Bruce Rivers discussing my imminent FTC fraud report, along with expressing my safety concerns and the stress induced by being unjustly declared incompetent amidst my efforts to protect my patent from being exploited.

Exhibit F:**Email Exchanges with Bruce Rivers (June 16, 2023)**

A detailed email to Bruce Rivers conveying my ongoing concerns about a potential conflict of interest, the 'powerful people' comment, and its continuing effect on my mental well-being and case strategy.

Exhibit G:**Email Exchanges with Bruce Rivers (August 1, 2023)**

Documentation of my attempts to seek assistance from Bruce Rivers' legal team before a crucial hearing and his subsequent failure to represent me as previously assured, despite my detailed and proactive communication.

Exhibit H:**Text Messages with Bruce Rivers (May 25, 2020 - Jan 29, 2024)**

A series of text exchanges between Bruce Rivers and myself, illustrating our long-standing relationship and the evolution of my legal and personal situations. These texts highlight both the lack of informed consent regarding court proceedings and Bruce's initial assurance of representation in my civil commitment case, juxtaposed against our earlier, more casual interactions discussing legal referrals and personal endeavors which include the initial stages of my now granted patent, US 11,577,177.

Exhibit I:**Call History with Bruce Rivers**

Documented call logs between Bruce Rivers and myself, detailing the frequency and timing of our communications, providing insight into the nature and extent of our attorney-client relationship over the critical periods of my case.

Exhibit J:**Texts with Various Friends**

Text messages sent to friends about my concerns for personal safety following Bruce Rivers remarks about 'powerful people keeping an eye on me'. Additionally, includes in-depth technical discussions with a business partner, demonstrating my high level of competence and understanding of complex systems, reinforcing the discrepancy of the incompetency claims made against me.

Exhibit K:**Patent Analysis vs. Netflix Patent**

Presents a detailed comparative analysis of my InfiniSet patent and the Netflix patent, highlighting key similarities and potential infringements, underscoring the significant overlap and the implications for intellectual property rights and innovation.

Exhibit L:**Email Exchange with Assaff Rawner (CEO of Mark Roberts Motion Control)**

In a detailed email exchange dated October 31, 2022, Mr. Rawner expressed interest in my invention, only to then end up asking me how it is was any different from the PhotoRobot 'Virtual Catwalk' he then pointed me to via a link to the product on the PhotoRobot website. This communication is significant not only due to the series of events it would mark the beginning of, but also due to the fact it highlights industry interest in my invention, further underscoring the innovative nature of my work and professional engagement with industry leaders.

Exhibit M:**Email Exchanges with the Internet Archive (Dec 9 - Dec 29, 2022)**

Initial signup emails for my Internet Archive account 'PatentlyFalse' as well as email correspondence with the Internet Archive regarding my inquiries about their content removal policy. This exchange was part of my investigation into the alleged manipulation of digital records by a company to falsely establish historical claims, which directly ties into the broader concerns of intellectual property theft and fraudulent alteration of web content I've been addressing. The dialogue underscores my efforts to preemptively

address and rectify fraudulent activities through legal and ethical channels, emphasizing my commitment to safeguarding my intellectual property rights against deceptive practices.

Exhibit N:

Email Exchanges with Former Patent Attorney (Jan 5-6, 2023)

Communications focusing on the alleged PhotoRobot patent fraud, detailing the steps taken to document and report the fraudulent activity, and the strategic legal advice provided in response to these concerns.

Exhibit O:

Emails to Court Appointed Attorney Michael Biglow (August 1, 2023)

These emails highlight my proactive efforts to contest the claims made by Dr. Jill Rogstad by providing comprehensive evidence and arguments to my court-appointed attorney, Michael Biglow. Despite supplying a wealth of documents and links to support my case, only a single piece of evidence was forwarded to the concerned parties shortly before my civil commitment hearing, leaving significant materials unutilized and me uninformed of this decision amidst the stress of the proceedings.

Exhibit P:

2019 IRS 'Wages and Income' Statement

My 2019 'Wages and Income' statement was provided to Michael Biglow as part of my defense materials, showcasing a gross income of \$218,385.00. This document was intended to demonstrate my financial success and competence in my professional endeavors, contrasting sharply with the portrayal of mental incompetence in my civil commitment proceedings.

Exhibit Q:

Letter from California Psychologist Dr. Martin Schuster (April 7, 2023)

A letter from my psychologist, Dr. Martin Schuster, serves both as a character reference and a rebuttal to Dr. Jill Rogstad's findings. Dr. Schuster acknowledges my discussions about potential sabotage by large corporations and attests to my mental stability and the

non-risk of harm to others, directly challenging the incompetency determination and its specific suggestion of my commitment to a mental institution under the auspices of me posing a risk of harm to myself and/or others.

Exhibit R:

Handwritten Criminal Defense Notes for Meeting

These notes, prepared for a meeting with Bruce Rivers, demonstrate my legal understanding, proactive engagement in my defense, and explicit request for access to all discovery materials related to my case—a request that remains largely unfulfilled outside the provision of the fraudulent discovery materials sent to me by Michael Biglow.

Exhibit S:

Correspondence from Former IP Firm Upon Termination (August 16, 2023)

A letter from my former intellectual property firm, Westman, Champlin, and Koehler, accompanied the return of my IP files after being dropped as a client. This letter contradicts the official reason for termination as filed with the USPTO, further complicating the narrative surrounding the alleged Netflix fraud and my pursuit of justice.

Exhibit T:

Analysis of January 16-17, 2024, Court Order

A critical language analysis of the court order prepared by Judicial Referee Danielle C. Mercurio, underscoring my apprehensions and validating my interpretation of the document's implications for my case, personal freedom, and future.

Exhibit U:

Repopulated MCRO Criminal History (Search on March 13, 2024)

A detailed printout of my suddenly repopulated criminal history within the Hennepin County MCRO system, showing records dating back to 2002. This sudden reappearance of records, including minor infractions, raises questions about the manipulation and transparency of my legal history.

Exhibit V:**Personal Cell Phone Records (December 14, 2022 - February 13, 2024)**

My cell phone logs that align with critical moments discussed in this affidavit, offering concrete evidence of communications, including their specific dates and times, that substantiate my claims and interactions as described.

Exhibit W:**PGP Technical Overview Simplified**

A document elucidating the principles of email authentication via Pretty Good Privacy (PGP), tailored for a non-technical audience. This guide emphasizes the role of PGP in ensuring the integrity of digital communications and its legal relevance in establishing the authenticity of electronic evidence.

Exhibit X:**United States Air Force Academy (11/28/2021)**

Documented LinkedIn notification, detailed with PDF print, HTML code, and PGP email header, validating a profile search conducted by the United States Air Force Academy.

Exhibit Y:**United States Air Force (1/16/2022)**

Documented LinkedIn notification, detailed with PDF print, HTML code, and PGP email header, validating a profile search by the United States Air Force, marking the second instance of interest by Air Force entities.

Exhibit Z:**Department of the Air Force (7/17/2022)**

Documented LinkedIn notification, detailed with PDF print, HTML code, and PGP email header, validating a profile search conducted by the Department of the Air Force, the third such inquiry by Air Force-related entities.

Exhibit Aa:**USC School of Cinematic Arts and Army Reserves (12/17/2022)**

Documented LinkedIn notification, detailed with PDF print, HTML code, and PGP email header, validating a profile search by both the USC School of Cinematic Arts and the United States Army Reserves.

Exhibit Ba:**Forcepoint and 3Gimbals (1/21/2023)**

Documented LinkedIn notification, detailed with PDF print, HTML code, and PGP email header, validating a profile search by Forcepoint and 3Gimbals on a significant date tied to my legal challenges.

Exhibit Ca:**USC School of Cinematic Arts (2/5/2023)**

Documented LinkedIn notification, detailed with PDF print, HTML code, and PGP email header, validating a second profile search by the USC School of Cinematic Arts.

Exhibit Da:**State of Rhode Island and Record Search Count (7/20/2023)**

Documented LinkedIn notification, detailed with PDF print, HTML code, and PGP email header, validating a profile search by the State of Rhode Island, alongside a record-breaking weekly search count.

Exhibit Ea:**DARPA, Defense Intelligence Agency, and US INDOPACOM (8/3/2023)**

Documented LinkedIn notification, detailed with PDF print, HTML code, and PGP email header, validating profile searches by DARPA, Defense Intelligence Agency, and U.S. Indo-Pacific Command.

Exhibit Fa:**The United States Air Force and the U.S. Department of State. (8/11/2023)**

Documented LinkedIn notification, detailed with PDF print, HTML code, and PGP email header, validating profile searches by The United States Air Force and the U.S. Department of State. This is the fourth such inquiry by Air Force-related entities.

CONCLUSION

I affirm under penalty of perjury that the foregoing is true and correct to the best of my knowledge, information, and belief.

DATED this 9th day of April, 2024.

Date: April 9, 2024

7:27

< Me

11:46 AM, Jan 14

(No subject)

It involves someone at the internet archive conspiring with the ceo of a company in the UK named Assaff Rawner (who I believe is the mastermind behind the whole thing as that is who I emailed and was trying to get help from for the robotic cameras his company makes) along with the photorobot company which is located in the Czech Republic.

A screenshot of a WhatsApp chat interface. At the top, the status bar shows the time 7:27, signal strength, Wi-Fi, and battery icons. The chat header shows a back arrow, a profile picture with the letter 'J', the contact name 'Weldi...', and a dropdown arrow. The chat history contains two MMS messages from 'Weldi...' at 11:48 AM. The first message says 'But what is that going to do? Solve the case?'. The second message says 'I never used it because it requires you to enter your phone number so it's sketchy'. Below the messages is a screenshot of a complex network diagram. The diagram features a central vertical column of nodes, with horizontal lines extending to the left and right, connecting to various other nodes and components. Some areas are highlighted in green. The diagram appears to be a technical representation of a network or system architecture. The time 'MMS 12:04 PM' is visible at the bottom right of the screenshot.

The screenshot shows a mobile phone screen with a list of files in a folder named "Me". The files are listed with their names and sizes. The screen is rotated 90 degrees clockwise.

Military Training Simulation and Ai Neural Network Applications of InfiniSet, Inc. patent

EXHIBIT
D

"Its potential applications in military training simulations are vast, offering a confluence of safety, realism, and cost-effectiveness."

<https://mattguertin.substack.com/p/potential-military-and-ai-applications>

What is being presented in this post is the final ouput I arrived at [during this conversation](#) with chatGPT4 which can be referenced in its entirety [-here-](#)

“[The patent from Feb 14th, 2023](#) presents a pioneering step in virtual immersion technology. Its potential applications in military training simulations are vast, offering a confluence of safety, realism, and cost-effectiveness. Moreover, when merged with the power of advanced AI systems, this technology could revolutionize how military personnel are trained, providing them with adaptive and hyper-realistic scenarios that can mimic the unpredictability of real-world operations.”

Overview & Analysis: Potential Military and AI Applications of the [Feb 14th 2023 Patent](#)

1. Introduction: [The patent granted on Feb 14th, 2023](#) introduces an intricate system that seamlessly integrates the user into digitally rendered environments. Using a motorized rotatable treadmill assembly and an advanced animation timeline controller, it offers users a realistic experience of navigating through a virtual space. Such a system can have profound implications for military training simulations and AI-driven content generation.

2. Military Training Simulations:

- ♦ **Realistic Environments:** The ability to insert a user into a pre-filmed or digitally rendered environment can provide military personnel with near-authentic training scenarios, which can be customized to replicate real-world combat situations.
- ♦ **Infinite Exploration:** The patented treadmill mechanism allows the user to traverse the environment along the 2D ground plane in any direction infinitely. This feature is indispensable for wide-area tactical drills and navigation exercises.
- ♦ **Safety and Cost-effectiveness:** Virtual training can drastically reduce the risks associated with live drills. Moreover, diverse terrains and situations can be simulated without the logistical nightmares or costs of real-world deployments.

3. Advanced AI-Driven Content Generation:

- ♦ **Photogrammetry and Avatar Creation:** The patent discusses capturing the user's likeness from multiple viewpoints simultaneously. Integrating AI tools can streamline this process, using neural networks to generate highly detailed 3D avatars or "digital twins" of the user. AI can also enhance the fidelity of these avatars, refining their appearances and movements.
- ♦ **Scene Rendering:** By leveraging AI technologies like Convolutional Neural Networks (CNN) or Generative Adversarial Networks (GAN), it's conceivable to generate realistic and dynamic 3D environments in real-time. AI can tailor these environments based on the user's actions or specific training requirements, making every session unique.
- ♦ **Interaction and Immersion:** Integrating AI can allow for dynamic object interactions within the environment. For instance, the avatar's shadows, lighting effects, and object occlusion can be rendered in real-time, responding to the avatar's actions. This offers a heightened sense of immersion, crucial for effective training.
- ♦ **AI Control Integration:** The patent mentions the possibility of using AI for controlling the system, analyzing videos to determine the path, rotation, and 3D positional data. This could be pivotal in automatically adjusting the treadmill's motion to match the virtual terrain, enhancing the realism of the experience.

4. Remote Operation and Synchronization:

- ♦ **Remote Training:** The capability to remotely control the treadmill assembly, including its speed, direction, and other functionalities, opens up possibilities for distance training. Military personnel stationed in diverse locations can potentially undergo simultaneous training sessions.
- **Equipment Synchronization:** The treadmill system's ability to sync with various equipment suggests potential integrations with other military hardware or tools, such as VR headsets, haptic feedback systems, or even weapon simulators.

5. **Conclusion:** [The patent from Feb 14th, 2023](#) presents a pioneering step in virtual immersion technology. Its potential applications in military training simulations are vast, offering a confluence of safety, realism, and cost-effectiveness. Moreover, when merged with the power of advanced AI systems, this technology could revolutionize how military personnel are trained, providing them with adaptive and hyper-realistic scenarios that can mimic the unpredictability of real-world operations.

EXHIBIT

E

Bruce,

I am going to be sharing this whole folder with the FTC (among others..)

<https://drive.proton.me/urls/XXXXXXXXXX#vpL7sXkVW498>

The videos I analyzed are located in the folder titled '[AI Generated YouTube Videos](#)'

I would suggest that you download the whole folder and keep it somewhere safe if you are able to / have the space.

I don't feel comfortable right now.

As in I am worried about my safety because of all of this. I don't like the fact that the courts have declared me incompetent and that is my current 'status'

I never asked for any of this. It is obvious and clear as day that I was 100% correct in my assertions about AI and being targeted. I can't just stand by and let my patent be stolen.

I worry about being setup by way of some sophisticated AI manipulation or being targeted due to the size of the companies involved in all of this.

I just want to be left alone and not have my patent stolen. This is all fucked up. I was / am doing great and if I didn't have an insanely valuable patent none of this would be happening in the first place.

I'm pretty stressed out and worried about all of this now that I figured out that all of the videos are AI generated....I mean can you not understand why I might be worried ?

This is fucked up. All of it.

Unethical behavior?, my FBI report, and the AI generated videos

From matt xx >

To Bruce Rivers< xxxxxxxxxxxxxxxxxxxxxxxxx >

Date Friday, June 16th, 2023 at 9:28 AM

EXHIBIT

F

Bruce,

So my meeting with you the other day I realized didn't provide me with any information I didn't already have for the most part.

If you're saying that you're going to have me testify on my behalf for the purpose of proving my obvious competency - as far as obviously understanding the nature of the charges against me and being able to aid in my own defense - then how about also presenting my FBI report along with the obviously AI generated videos I analyzed to the court as well as that not only proves my competency but in addition proves that there is in fact a very large conspiracy against me, my company, and my patent which involves AI as well as collusion between the web archive, YouTube/alphabet, Facebook, LinkedIn, etc, etc. as it's very apparent to anyone with eyes to see that all of these videos as well as all of their pdf manuals, website images across multiple fake websites, etc were all generated by AI which inherently proves they were fraudulently added with backdated accounts for the purpose of establishing a false history that would be able to establish a bogus case of obviousness as far as infringing on my patent. I'm able to prove pretty much that everything I wrote on my walls, told to the police, etc does in fact revolve around advanced AI technology just as I've claimed.

At this point I don't even know whether or not you actually read the fbi report I sent you, whether or not you actually looked at the videos I analyzed and had your son look at them like I originally recommended, etc.

You told me on the phone when I asked you about it that "yes... you have some very powerful people keeping an eye on you" and then when I asked you to expound further upon that aspect of our conversation you said that you didn't want to discuss it further and that you didn't trust your phone line.

So what is actually true and why do I feel like I'm intentionally being fucked with or having information about what's actually going on withheld from me? I literally have gotten zero replies for a very long time to any of my emails which I figured was due to the fact that what you originally said to me on the phone was true but after meeting with you the other day you told me that isn't true which means that you lied to me on the phone and that was just a funny joke????

Wtf is going on? That's all I really want to know... and I still don't know. The videos are fake, all of it's fake, I filed reports with the FBI, FTC, and SFO in the UK. There are parts of my FBI report (which I could get in a fuckton of trouble if I were to fabricate anything I wrote) which further serve to discredit the forensic psychologists bullshit letter - this is in addition to the awesome letter I received from my California psychiatrist (who I'm still seeing currently)

The evidence of the fraud may have originally not had anything to do with my case as you mentioned...but that no longer became true once the forensic psychologist claimed I was incompetent and should be committed to a

mental hospital and put on antipsychotic drugs until I'm able to understand the charges against me and aid in my own defense.

This is due to the fact that she based her entire report and her 'diagnosis' on this specific information which means she inadvertently made all of it entirely relevant as far as my criminal defense is concerned. Her report is based on things which she says are 'delusional' which I can very easily prove are 100% factual and real. The actual fraud itself being the main focus in my opinion not to mention all of the other 'delusions' of mine in which I believe I invented something that was going to "revolutionize the industry", that I claim I'm an "engineer", etc, etc. Her report is such over the top bullshit that it's ridiculous and comical...and would remain as just that if it wasn't me and my future being the butt of the joke... she should literally be ashamed and embarrassed by the verbal diarrhea she shat out onto the page and is trying to pass off as being a 'professional' and well thought out report which was written by an esteemed and highly educated 'Doctor'.

Remember what I also discussed with you and which you agreed with me was the case -

That being that if I'm able to completely destroy every aspect of the forensic psychologists report then her report itself becomes my main defense as she thinks my story is so nuts and 'delusional' that she thinks I'm out of my mind (supposedly...) and wants me committed but if I can prove everything is real then it just confirms why I would be so freaked out and end up at a point where shooting a gun off for the purpose of contacting police made complete sense (and still does as I'm of the opinion it was in fact the correct move regardless of its overall legality, etc)

If you could please respond to this email or call me and give me ACTUAL information....especially in regards to why you would tell me on the phone that I have "powerful people keeping an eye on me" and whether or not you actually did ever really look at my fbi report along with the videos I analyzed. (as I believe they are very important pieces of additional evidence which will help aid in my defense)

And in regards to the "powerful people" comment you made to me on the phone just know that I took it seriously and it's greatly affected what I've been doing or not doing in my day to day life since you made it. So if it was just you fucking with me then that's really mean..... and if you were actually being serious well then how come you told me it was not true when I met with you the other day?

The last thing I'm going to mention is the current conflict of interest that exists on your behalf in regards to your YouTube stardom and the fact that YouTube is one of the companies aiding in the fraud being carried out against me. Are you really going to be able to be impartial in what you recommended and how you proceed with my case, what's presented in court, etc when you're just about to hit a million subscribers and you're getting paid a bunch of money by YouTube? I have a hard time believing so but feel free to fill me in on why that's not the case and I'm incorrect in my take on it.

I'm hoping....like I said...that we are able to get all of this cleared up so that I feel like I fully understand what's going on and don't feel like I'm either intentionally not being given certain information or that my lawyer is instead just fucking with me and telling me things that aren't true on the phone which I took 100% seriously and acted on.... and I still don't know at this point now if you actually even looked at my fbi report and the videos or if you just made up some shit on the phone to have a laugh and it's buried in all of your other emails and you haven't even looked at it.

If I can't get clear information and instead am going to be lied to... all while you also have a huge and obvious conflict of interest involving the whole YouTube thing then I may have to try and get someone else to represent me.

I'm hoping you are able to fill me in so I better understand everything. Help me to know what's actually going on. Help me to not feel like I wasn't lied to on the phone as a funny joke as far as the "powerful people" comment.

None of this even takes into account the fact that my initial court appearance has been canceled 4 or 5 times now which is ridiculous just on its own without the addition of everything else I've covered in this email.

There's all sorts of stuff which has occurred that could be considered 'unethical' or at the very least there's enough stuff that I would be completely warranted in trying to find someone else to represent and defend me against the charges I'm facing... which I don't really want to have to do but I 100% would if I felt it would help me to better understand and feel confident that I'm being given complete and honest information regarding my case and assured that the information I've been sharing is actually being considered and looked at.

I know I'm not a 'big' client....I know that my charges in the grand scheme of things aren't exactly 'serious' when compared to the more exciting and profitable homicides, etc you deal with.

I'm not trying to be 'high maintenance'

I'm simply trying to feel like I'm not wasting my time and energy, that the other evidence I've been sharing is being taken into account and considered as part of my defense strategy, and that I'm not being lied to or misled by the person who's entire job is based on having my back and being truthful with me.

That is all. I look forward you your reply.

Thank you,

Matt Guertin

Re: Unethical behavior?, my FBI report, and the AI generated videos

From matt xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx >

To Bruce Rivers< xxxxxxxxxxxxxxxxxxxxxxxxx >

Date Friday, June 16th, 2023 at 10:06 AM

So to summarize-

My main concern and worry - especially when considering the fact that my case has been canceled multiple times, the comment you made to me on the phone, and the other things I've brought up as concerns of mine - is that you are in fact being pressured by 'outside forces' for the purpose of trying to 'guide' or 'steer' my case into a certain forum and/or outcome.

At the end of the day it's highly probable that I actually do have "powerful people" keeping an eye on me. I've filed reports with the FBI, FTC, and the SFO in which I shared 'in your face' proof of a criminal conspiracy involving a whole lot of the biggest corporations in the world all aiding in the creation of completely fake websites, companies, etc by allowing bullshit accounts to be created with fake creation dates all while it is carried out using AI capable of producing realistic content far beyond what the average person thinks is possible.

It's such a big deal I'd go so far as to say it may put someone's life at risk... mine perhaps?

Or not....but I don't think it's at all crazy for me to think that could be a possible option that's 'on the table' or would be/had been considered. Hopefully that's less likely at this point though. A whole lot of powerful people and enormous companies most definitely have their 'eye' on me though... it would be foolish of them not to. I possess evidence that proves they are all participating in a large criminal conspiracy.

Whether or not you are even actually aware of this information at all is still a complete unknown to me at this point.

And therein lies the problem and the reason for taking the time to send you this email.

Can we not present this side of the story to the court as well...in person....in the form of a multimedia presentation perhaps?

You may simply just not be reading my emails and looking at what I'm sending you.....or maybe there are in fact some very "powerful people" and what was told to me on the phone wasn't just a funny joke?

Either way I don't think I'm acting irrational by wanting answers about why there are certain things that aren't being addressed, discussed, replied to, etc.

It seems like a perfectly reasonable inquiry on my part....as opposed to a 'delusional and/or possibly psychotic' inquiry made by an incompetent person who doesn't fully understand what's going on even though he keeps trying so hard to be able to....

I need advice asap (this morning..) about my case

G

Hello,

The courts ended up declaring me incompetent since my omnibus hearing. I received a letter from what I assume is a state appointed defense attorney but Bruce told me "I'm defending you"

However when I spoke to Michael Biglow on the phone and relayed that I had private defense counsel he acted like I was not allowed to be represented by Bruce due to this now being "a civil matter"

He acted like Bruce isn't able to represent me or defend me against the civil commitment proceedings. I don't want to make the wrong decision which could result in me being thrown in a mental institution and I am unsure what the correct way for me to proceed today is.

I already talked to the guy on the phone yesterday for a while and I'm supposed to meet with just him and some neutrally assigned doctor today over Zoom and then after that apparently I'm going in front of a judge.....

I am not sure I should be doing this without being represented by Bruce. It would be really helpful if I could receive some guidance from someone at the office this morning so I know how to correctly proceed and protect myself.

Thank you,

Matthew Guertin

A screenshot of a text conversation on a mobile phone. The contact is 'Bruce Rivers Cel'. The messages are as follows:
- 3:15 PM (Teal bubble): So is there really a civil commitment hearing though? As in the judge made the determination that I'm incompetent?
- 3:16 PM (Grey bubble): Yes
- 3:16 PM (Grey bubble): I'll represent you
- 3:16 PM (Teal bubble): When is it scheduled for though?
- 3:17 PM (Grey bubble): Initial appearance
- 3:19 PM (Teal bubble): So I will still be free and have no possibility of being locked away for how long exactly? I'm just about to launch this company for real....
- 3:19 PM (Grey bubble): No
- 3:20 PM (Teal bubble): When is my initial appearance?
- 3:20 PM (Grey bubble): I mean you will be free
- 3:20 PM (Grey bubble): August 1
The interface includes a status bar at the top with the time 7:45 and various icons. The contact's name 'Bruce Rivers Cel' is at the top with a dropdown arrow and a three-dot menu icon.

A screenshot of a text conversation on a mobile phone. At the top, the status bar shows the time 7:45, signal strength, Wi-Fi, and battery icons. The contact name at the top is "Bruce Rivers Cel" with a blue circular profile picture containing a white letter 'B'. To the right of the name is a dropdown arrow and a three-dot menu icon. The conversation starts with a timestamp "August 1" and "3:20 PM". A blue bubble contains the text "This is crazy". A timestamp "3:21 PM" follows. A green bubble contains the text "Can you call me later and talk for a second at some point? I need to know what to tell my investors.... the people who want to put money into my startup". A timestamp "4:17 PM" follows. A large green bubble contains the text "I'm just about to launch the something that's going to get a massive amount of attention. The people I've showed it to at [www._____](#) and [www._____](#) are all flipping out. The _____ dude said 'This is amazing!' And there's all sorts of chatter on _____ discord." Below this is the text "I now have 8 cameras s". A timestamp "4:27 PM" is at the bottom left. At the bottom right, there is a "View all" button and a right-pointing chevron icon.

 Me

4:27 PM, Jul 28

I'm just about to launch the something that's going to get a massive amount of attention. The people I've showed it to at [www. \[REDACTED\]](#) and [www. \[REDACTED\]](#) are all flipping out. The [REDACTED] dude said "This is amazing!" And there's all sorts of chatter on [REDACTED] discord.

I now have 8 cameras setup and all recording simultaneously and literally just wrapping up the software I've written - the unreal engine part is already programmed.

I'm renting a professional cinema camera to film it. I'm running up credits cards to buy the final pieces I need. This is it. Make it break.

At the same time this is going on I have the

7:45

 Me
4:27 PM, Jul 28

At the same time this is going on I have the state of Minnesota trying to commit me to a mental institution and force me to take pills I absolutely will not take under any circumstances. I've been crushing it since 2014. I have a website www.MattGuertin.com that I didn't even remember to mention in court. I was stressed out... I thought I did shitty afterwards when I thought about it.

My life is pretty crazy right now... but I just have to stay focused on my company. The international patent filing deadline is September 19th and my attorney wants a one month lead.... so when I say this is about to happen I mean it. Sink or swim. I haven't failed a single project in over ten years. I don't plan to start any time soon.

Any type of moral support or assurances you are able to offer to me would be greatly appreciated.

Thanks,
Matt

A screenshot of a text message conversation on a smartphone. The contact is 'Bruce Rivers Cel', indicated by a green circular profile picture with a white 'B' and a green header bar. The messages are as follows:
- Incoming (grey bubble): 'I now have 8 cameras s' (truncated).
- Outgoing (green bubble): 'View all' with a right-pointing arrow.
- Timestamp: '4:27 PM' in grey.
- Date separator: 'Tuesday, August 1, 2023' in grey.
- Incoming (grey bubble): 'Bruce, I don't know what to do or what exactly is going on. I told the attorney that sent me that letter that you were representing me and he acted like that's not possible "because this is a civil matter now"'.
- Outgoing (green bubble): 'I'm unsure what to do and I don't want to make the wrong decision or be pressured into' (truncated).
- Outgoing (green bubble): 'View all' with a right-pointing arrow.
- Timestamp: '6:10 AM' in grey.
- Incoming (grey bubble): 'He wants me to meet with him and a 'neutral' Doctor for an hour and then go on front of a judge after that.... but shouldn't I be able to be represented by you?'.

6:10 AM, Aug 1

Bruce, I don't know what to do or what exactly is going on. I told the attorney that sent me that letter that you were representing me and he acted like that's not possible "because this is a civil matter now"

I'm unsure what to do and I don't want to make the wrong decision or be pressured into something that could be a huge mistake on my part.

A screenshot of a text conversation on a mobile phone. At the top, the status bar shows the time 7:45, signal strength, and battery level. The contact name is 'Bruce Rivers Cel' with a yellow circular profile picture containing a white letter 'B'. The conversation shows two messages: a received message in a white bubble and a sent message in a blue bubble. The received message is timestamped 6:12 AM. The sent message is timestamped 6:14 AM. At the bottom, there is a 'View all' button and a right-pointing arrow. The background of the chat area is a solid blue color.

7:45

 Me

6:14 AM, Aug 1

I left a message through your office number as well. This is all very concerning and I'm afraid of having my freedom taken away just as I'm about to launch my company and have an investor lined up. I'm hoping you or someone from your office will be able to reach out to me this morning and provide me with advice in how I should proceed.

A screenshot of a text conversation on a dark background. At the top, the status bar shows the time 7:46, signal strength, and battery level. The contact name is 'Bruce Rivers Cel' with a yellow circular profile picture containing a white letter 'B'. The conversation starts with a date separator 'Monday, January 15'. The first message is 'Can I call you later?' in a grey bubble, timestamped '4:17 PM'. The response is in a teal bubble: 'Sure. If I don't answer for some reason try 763- [redacted]', timestamped '4:18 PM'. The next message is 'Can I do zoom tomorrow? I kind of have to know what's going on...' in a teal bubble, timestamped '6:26 PM'. This is followed by 'No court' in a grey bubble, timestamped '6:26 PM'. Then 'I'll call you in the morning' in a grey bubble. The final message is 'Nothing has changed' in a grey bubble, timestamped '6:27 PM'. At the bottom right, there is a teal bubble with 'K.' and a timestamp of '6:27 PM'.

A screenshot of a text conversation on a mobile phone. At the top, the status bar shows the time 7:46, signal strength, and battery level. The contact name at the top is 'Bruce Rivers Cel' with a blue circular profile picture containing a white letter 'B'. To the right of the name is a dropdown arrow and a three-dot menu icon. The conversation history shows a blue bubble from 'K.' at 6:27 PM saying 'K.'. A grey bubble from the user at 6:28 PM says 'Otherwise if I try calling you... around lunch time? Between 12 and 1?'. A blue bubble from the user at 6:30 PM says 'You might not get ahold of me in the morning... so as long as I know I don't have court I'll try you late morning... afternoonish...' followed by a 🍌 emoji. A grey bubble from the user at 6:30 PM says 'Have a good night'. A date separator 'Tuesday, January 16' is shown. A grey bubble from 'Xok' at 7:32 PM says 'Xok'. A date separator 'Friday, January 26' is shown. A blue bubble from the user says 'Yo. Can you please email the psychological exam report please?'. A grey bubble from the user shows a redacted name followed by '@protonmail.com'. A blue bubble from the user at 12:51 PM says 'The one that claims I'm 'incompetent'....'.

A screenshot of a text conversation on a mobile phone. The contact is 'Bruce Rivers Cel'. The messages are as follows:
- Incoming (blue bubble): 'Yo. Can you please email the psychological exam report please?'
- Outgoing (red bubble): '[Redacted]@protonmail.com'
- Incoming (blue bubble): 'The one that claims I'm 'incompetent'....'
- Timestamp: 12:51 PM
- Outgoing (red bubble): 'I'll look for it in my email. Ttyl' 🙌
- Timestamp: 12:53 PM
- Incoming (blue bubble): 'Sunday, January 28'
- Outgoing (red bubble): 'Bruuuuuuce'
- Timestamp: 4:34 PM
- Incoming (blue bubble): 'Monday, January 29'
- Outgoing (red bubble): 'Matthew?'
- Timestamp: 8:45 AM

ChatGPT suggests InfiniSet patent arguments to USPTO against the granted Netflix patent

Description of LED Panel Arrangement:

InfiniSet Patent:

Describes a system that includes a motorized treadmill assembly within a green screen or LED virtual film set. The system facilitates the illusion of movement in a virtually rendered setting using an LED floor tile system and a green screen studio environment.

Netflix Patent:

Focuses on a set of display panels surrounding an area, specifically mentioning a first, second, and third set of display panels, which essentially constitute the horizontal and vertical LED screens in a virtual environment.

Treadmill Technology:

InfiniSet Patent:

Discusses a motorized treadmill assembly with an endless belt on a rotatable turntable, enabling unlimited directional movement and synchronization with camera movements for realistic filming.

Netflix Patent:

Refers to an 'omnidirectional treadmill' and implies its rotation and directional capabilities, aligning closely with the 'rotating treadmill' concept of the InfiniSet patent.

Integration into Filming Environment:

InfiniSet Patent:

Emphasizes the integration of the treadmill with real-time camera synchronization to create unrestricted movement illusions in a virtual environment.

Netflix Patent:

Describes a similar integration of the treadmill and display panels to capture and render acting performances, aligning closely with InfiniSet's approach.

Reference to InfiniSet Patent in Netflix Patent:

The InfiniSet patent is cited at the top of the Netflix patent as a third-party prior art submission, indicating its relevance and potential influence on the Netflix patent.

Arguments for USPTO Consideration:

Substantial Similarity in Technology:

Both patents describe a system that integrates LED panel setups with a specialized treadmill for creating realistic virtual filming environments. The Netflix patent appears to be a more technical and segmented description of essentially the same technology covered in the InfiniSet patent.

Prior Art Consideration:

Given that the InfiniSet patent is acknowledged in the Netflix patent, it suggests that the Netflix patent may not meet the novelty requirement due to the prior existence of similar technology.

Obfuscation in Patent Writing:

The Netflix patent's detailed focus on panel arrangements and the omnidirectional treadmill seems to obfuscate the core technology, which is fundamentally similar to the InfiniSet patent's simpler and more direct description.

Overlap in Filming Technology Applications:

Both patents aim to achieve the same outcome - allowing free movement and realistic filming within a confined virtual set, utilizing a combination of physical and digital elements.

Conclusion:

Given these points, it is arguable that the Netflix patent does not sufficiently differentiate itself from the InfiniSet patent in terms of innovation and application. The similarities in the core technology and intended use of the system suggest that the Netflix patent may not meet the criteria of novelty and non-obviousness required for a valid patent grant. Therefore, it's recommended to challenge the Netflix patent's validity based on these grounds.

RE: Coordinate space alignment concept....among other things

From Assaff Rawner <Assaff@mrmoco.com>

To Gordon Eschke<Gordon@mrmoco.com>, matt xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx >

Hello Matt,

Gordon passed your email on to me some weeks ago, but it has been hectic here, so apologies for my very late response. I would normally answer sooner, but you have a very long and detailed email chain which I have just not had the time to fully take in or address all of your points.

Firstly, you have a very interesting and unique set of skills that compliments motion control very well.

I see you have a lot of experience with RealityCapture. I have done some photogrammetry but it is not something that we generally need to although there are definitely a lot of conversations I've had with clients and prospects about in relation to using it with motion control. Just out of interest in the scene of Chicago, how long was the processing time for it to turn the stills into a 3D map and what type of processing power did you need? I've used DroneDeploy in the past. How do they compare?

With regards to your invention, I am very interested in it as a product. I know of lots of occasions when such a device has been specifically created for a movie or commercial filming or for fashion photography. In fact here is a system that's been around for years: <https://www.photorobot.com/robots/catwalk>

I am just curious what makes your system unique compared to the ones I am familiar with?

You are right, with VR/XR volumes such treadmills/turntables do open up the capabilities, although combining motion control robotics and Unreal is still not a completely plug and play solution that requires little knowledge. Especially when it comes to lens calibration and such activities.

As it has been some time since you sent your email and no doubt you have watched many videos since and tried different things, in a new unit of time, do you have any specific questions you would like to ask?

Please bear in mind our limited time resources, so try to limit it to one or two questions and you will then get a much faster response from me

Best regards

Assaff Rawner

Removal Policy Information

From matt [REDACTED] >

To info@archive.org

Date Thursday, December 15th, 2022 at 12:04 AM

Hello,

I just stopped writing my initial email, donated \$25 + fees to Wayback Machine, and now I am back.

My question is a simple one -

What is your criteria for someone being able to contact you and request that their information be removed from the web archive? I'm guessing that normally requests come from individuals as opposed to businesses?

My only reason for asking is because I am relying on your site as my main piece of evidence against a company who is very stealthily editing, re-wording, and re-linking a bunch of stuff on their website in an effort to establish a history which isn't true for the purpose of trying to steal something of significant value from me.

What I would like to do is personally, or through an attorney very kindly contact them and let them know that I can very clearly see what they are doing in an effort to try and get them to correct their course early on so I don't have to worry about it - or at the very least they will have to contend with the fact that I have solid evidence that could get them convicted of fraud and decide whether or not that is a risk they are willing to take.

My main worry however is that they could just contact your company and get everything deleted and so that has been bothering me somewhat and has been a pretty large factor in my decision making.

Any insight or knowledge about this topic would be greatly appreciated.

Thank you,

Matt Guertin

My question is a simple one -

What is your criteria for someone being able to contact you and request that their information be removed from the web archive? I'm guessing that normally requests come from individuals as opposed to businesses?

My only reason for asking is because I am relying on your site as my main piece of evidence against a company who is very stealthily editing, re-wording, and re-linking a bunch of stuff on their website in an effort to establish a history which isn't true for the purpose of trying to steal something of significant value from me.

What I would like to do is personally, or through an attorney very kindly contact them and let them

know that I can very clearly see what they are doing in an effort to try and get them to correct their course early on so I don't have to worry about it - or at the very least they will have to contend with the fact that I have solid evidence that could get them convicted of fraud and decide whether or not that is a risk they are willing to take.

My main worry however is that they could just contact your company and get everything deleted and so that has been bothering me somewhat and has been a pretty large factor in my decision making.

Any insight or knowledge about this topic would be greatly appreciated.

Thank you,

Matt Guertin

Date Thursday, January 5th, 2023 at 5:28 PM

Every time I save a page someone is going nuts. Haha

What happened was that they were in the middle of an operation which they have almost certainly completed successfully many other times and then I suddenly appeared out of nowhere and haven't left since. Every single save now is just more proof of the fraud. They are going to have to do something or scrap the whole thing and just delete or revert back to originals and hope this goes away.

I have been saving all the time. In fact I just created a patch in TouchDesigner today that allows me to automatically save 5 individual page URL's every few seconds by clicking a button....and then inbetween each click I would switch to a different VPN location before doing the next. So technically the whole photoRobot site on wayback machine should have a big save shown today....but they can't keep up with that level of pages. They thought they were just going to make a few adjustments and spruce things up for photorobot to steal my patent and now they know they are screwed as I have been saving new wayback captures with most of the page group saves as well.

They have lost complete control. I even snapped a bunch of saves on NYE shortly after midnight to let them know I was celebrating their idiocy.

And the other thing is that they FOR SURE KNOW I AM THE ONE CAUSING ALL OF THEIR PROBLEMS! I just looked at the email exchanges between us and everything becomes even clearer.

All of the pieces are now falling perfectly into place.

Can you guess what day I signed up for a user account with the archive?

DECEMBER 9TH, 2022 @ 2:45am

I then proceeded to make use of my new account 'PatentlyFalse' by snapping an archive save of the entire PhotoRobot website exactly twenty minutes later at 3:05am

I then began browsing through all of the PhotoRobot pages and an hour and forty-one minutes later at 4:46am I took my first of two pdf screen captures of PhotoRobot.com/blog which is when I caught someone editing the archive in real time within a 5 minute window and two PDF screen captures.

[Here are my emails](#) between the web archive which includes a .png of a draft I almost sent but decided against while I collected more evidence.

And that's a wrap... ;-)

~Matt

Wow. Thanks Matt. I will take a look at this.

As for your other question regarding alerting others to this issue...there are a couple of ways to look at it and I admit, this is an issue new to me so I do not know where/who to alert or where to start.

Regarding the patent office and your pending application as well as future applications, we have made memos in our file to explain why these archived pages are not considered prior art to you. Simply put, the material was not actually published prior to your filing of the provisional patent application. Because of this, the patent office will not consider the materials, the Examiner will ignore it. Generally, we have to provide a date of publication to materials not having a date on their face (a patent application publication or book have publication dates on the publication, but websites do not and are generally identified as published on the date you accessed it). So, we do not have any obligation to provide these to the patent office and then provide an explanation that its not really prior art. The patent office does not want to review it and probably would not. Thus, we do have a duty of candor with the patent office, and I believe that our initial information disclosure statement filing of the old (original) PhotoRobot pages satisfies this. As far as the patent office is concerned, the jurisdiction of the patent office is limited with respect to the disclosure of inventions and prior art, but tampering with non-patent literature prior art is not something the patent office will do anything about unless that allegedly tampered/altered prior art is submitted either by a patentee or by a third party. Then the patent office will get involved.

As for the website tampering itself, it would seem that if the organization behind the website hosting the WayBack Machine should (and would want to) be made aware that there is some glitch or issue that is allowing these alterations and fake pages to be populated on its website. To me, this seems like step one, whether or not this step might actually solve, address or make the problem public. We could also let the entity who has these altered/fake pages on its server aware of this fraud as well (similar to how we file Digital Millennium Copyright Action violations).

As for additional steps here - I am not sure what the next step is yet. I have not come across this and generally when we speak of such frauds it is when the fraudulent/altered material is used, for whatever purpose. For example, as soon as Photorobot or the Internet Archives tries to use the material in some way, then it is much more clear what the next step is.

Best regards,

Amanda

CC Megan Neumann <mneumann@wck.com>

Date Friday, January 6th, 2023 at 11:47 AM

Amanda,

Unless you have any reason to advise me not to do so I am going to report this by filing a report at ic3.gov. with all relevant information.

Just on it's face as it only relates to my case they are guilty of wire fraud as there is no requirement that the crime reaches completion. Being able to prove intent is all that is needed. The fact that it involves at minimum 3 people who are located in 3 different countries including the USA just makes it that much more serious.

I honestly am not going to hold my breath as far as expecting something substantial to happen to any of them but I'm guessing there is still very good odds that if I report this to all of the relevant agencies which includes the FBI, FTC, and IRS among others. The fact that the archive is a 501c3 causes them additional problems. At the very least they are going to be under enough pressure and stress over the ordeal that they will choose not to continue forward with the obvious path that they are on is my guess.

But yeah. I don't care.

If Assaff Rawner has to step down as CEO over this - GOOD

If he somehow ends up serving time - GREAT

If the internet archive gets shaken up and involved in a huge ordeal over this - FANTASTIC

If it isn't advisable to send emails to any of them yet or start posting the story online I will have to settle for reporting it to the handful of regulatory and investigative agencies whose jurisdiction it falls under.

I think the biggest question everyone is going to wonder is how many times the web archive has pulled this scam before and how many other people has it affected?

Pardon my language - but fuck every single one of the people involved in this. Even if I don't have to worry at all from the standpoint of my patent I would be perfectly okay with them losing many of the things in their lives that they've worked so hard to achieve since that is what their end goal for me was/is.

I have attached PDF's of all relevant criminal law discussion to this email which demonstrates that they meet all of the criteria to be investigated and criminally charged.

I also don't think telling the internet archive about it is a good idea because after reading through those emails I think it makes it even more likely that they are directly involved in all of this. Just look at the email I got from that guy on the 29th (which I never even saw until last night) - My initial question I asked was about their removal policy if someone requests deletion of archived pages and he randomly replies 2 weeks later -

| "For what site?"

| "Ummmmmm.....you must've gotten my email mixed up with someone else's. Mine was the one asking about your archive deletion policy.."

The timing is way too coincidental as well as far as when I signed up, saved an archive of the site, and when I caught the first of the edits. All in order and not very far apart. Just this fact alone - that they were able to start adding backdated pages an hour later implies that this is a system they have down and something they have done many times before.

Their only recourse right now is to find a large team of people and attempt to start replacing the hundreds and thousands of pages with ones that aren't fraudulent but I'm not even sure how possible that is as it would require PhotoRobot to have an actual working site with the same code. They are screwed...and if they aren't yet I am going to do my best to make sure they are.

Matt,

Based on my understanding of what is going on here, I do not see any reason to advise you against filing a complaint through ic3.gov. I think that is a great place to start the process of calling out this activity actually.

Best regards,

Amanda

Michael,

Good morning. Hope you are well.

I figured it wouldn't hurt to provide some supporting documents prior to our meeting this afternoon which I believe support many of my "grandiose" claims about my many "perceived achievements". In addition I am of the opinion that these documents just on their own serve to completely discredit the assertions made by Dr. Rogstad in the report she wrote about me after our meeting.

I attached a bunch of PDF's to this email including a letter from the psychiatrist I have been seeing in CA for the past 7+ years addressing the report Dr. Rogstad wrote as well as his personal opinions about who I actually am as a person (being that he's known me for 7 years and witnessed many of my successes while I was still in CA.

In addition below are some links to articles I have received official credits in - this would include the credit of "Engineering"

I'm looking forward to our Zoom call this afternoon.

See you then,

Matthew Guertin

Michael,

I feel it should also be noted that many of these PDF's I attached to the previous email I also provided Dr. Rogstad with either prior to our meeting, at our meeting, or post meeting.

She had plenty of relevant information which at the very least supports the fact that there was a whole series of events (very stressful ones..) and other things which took place prior to me arriving at a point in which shooting a gun off in order to contact the police (as opposed to calling them...) seemed like my best option at the time.

I was trying to get help through multiple avenues which would include the attached Minnetonka Police report filed 9 days before the incident (which she chose to gloss over in her report even though it is obviously relevant to the situation)

That is all.

See you soon,

Matthew Guertin

April 7, 2023

To whom it may concern:

This report is written on behalf of Mr. Mathew David Guertin.

Medical records provided including a psychological evaluation signed by Jill E. Rogstad PhD, Forensic psychologist.

I am a clinical psychiatrist and clinical trial researcher licensed in the state of California.

I have been treating Mr. Guertin since I saw him in my office for the first time on September 15, 2016. At that time he was 35 years of age, single, living alone in Los Angeles and working as a computer programmer and in digital media design. He was referred to me by his general practitioner Dr. Alpert, since he was having difficulties in concentration, lacking organizational skills, etc. In his clinical history he was diagnosed with Bipolar Disorder and Attention Deficit Hyperactive Disorder in 3rd grade, and had been treated accordingly with medications like Carbamazepine, Bupropion and Ritalin. He displayed in his younger years inability to control his behavior, inattention, lack of concentration, insomnia, getting in trouble in class, food grades in the subjects he liked and bad grades if he wasn't motivated, "a rambunctious kid" as he self describes. etc. His mother was a single parent who was unable to care appropriately for him. For that reason he was placed in foster homes, followed by a social worker, therapy, psychiatrist, boot camp age 14 and group home ages 14-17. Age 18 emancipated and stopped his medications, dropped out from school but later on decided to get his GED.

At the age of 19 he decided on his own to enroll in school of computer drafting where he excelled and got excellent grades. In 2006 he was hired a company for set design and lighting and he made his way up as a DJ.

In my history taking I did not perceive any "true manic symptoms", but definitely inattention, restlessness, intrusiveness, all symptoms consistent with ADHD Hyperactive and Inattentive. So that was the primary diagnosis I gave him. As a secondary diagnosis I diagnosed him with Generalized Anxiety Disorder and a moderate history of OCD primarily having orderly obsessions and compulsions. No history of psychosis, Schizophrenia, Bipolar Disorder, Antisocial Personality. Treated for the last several years with Adderall XR xx mg twice a day and Klonopin xx mg twice a day PRN.

Through the years of treating Mr. Guertin he displayed an uncommon intuition for very complex technical predisposition that granted him promotions in jobs that required technical knowledge. He was hired overseas Qatar, Vietnam, Palma de Mallorca for extremely difficult "mise en scene" jobs that can be seen in his website. He is self-educated and has been working nonstop since moving to Minnesota in a project that will compete with movie production with major enterprises. There have been times in recent months that he verbalized concerns about his being "scrutinized" and maybe sabotaged by enterprises in the scale of Microsoft and Netflix. I never thought of him being delusional or grandiose neither in recent times nor in these 7 years I have been following him clinically. On the contrary I have always seen in Mathew a very decided, extremely focused, very hard worker, ambitious and struggling to overcome his past, especially the lack of guidance and validation coming from any parental figure. "I never met my father".

In summary Mr. Guertin is not at risk of harming anyone. I do acknowledge he has been under severe pressure in the last year especially the last several months as his project has been patented and he may be displaying a strong overprotective behavior/thought content attitude towards it.

Hope this report gives a more detailed understanding of who Mr. Guertin is and especially the natural knowledge I obtained of who he is in the course of the last 7 years.

If further information was required, please do not hesitate to contact me following HIPPA regulations.

Sincerely,

Dr. Martin Schuster

① What is the reason for my psychological analysis actually listed on the court order? Are they specifically just trying to determine my competence for trial - can I see?

② DISCOVERY — ○○ I want to see everything

③ Computer forensic analysis completed before April 4th - THOUGHTS -

④ 5th and 6th amendment protection in regards to evaluation - PRO-SE

⑤ The 3 gun charges for serial numbers — ?

⑥ What is the likely outcome of my case as you currently see it?

⑦ MY PSYCHIATRIST IN CA - 5 or 6 years visiting him

⑧ Character statements / written statements about invention

⑨ I sure seem to be able to do a good job explaining everything to friends and other acquaintances - they all start off thinking what I did is completely insane but if I get 15 minutes - and they're receptive I am able to get them to realize that it was a bunch of crazy stuff that lead up to the firing of gun. Same for a jury.

⑩ If I have solid, expertly analyzed computer forensic data that validates every single thing I've claimed - The proof of fraud as well as being able to establish that all of my machines were hacked into by April 4th can that not be used as leverage or a 'bluff' that it will be presented in trial?

Re: Withdrawal from representation by Westman Champlin & Koehler, P.A. for
patent matters of InfiniSet, Inc.

Dear Mr. Guertin:

This follows the email notification to you from Z. Peter Sawicki on August 10, 2023, terminating our relationship as intellectual property legal counsel.

Attached is a report for the patent matters that we have been monitoring on your behalf.

Also attached is an accounting ledger on the patent matters. As indicated in the far-right column there is no outstanding monies due for any of the patent matters.

We will attempt to advise the US Patent Office that any further correspondence regarding each of these matters should be directed to you at the above street address, and to your email address: [REDACTED]

It is prudent that you engage new patent counsel for these matters. They should file Powers of Attorney from you with the US Patent Office.

You should verify at the United States Patent Office that all future correspondence for the pending US patent application and issued patent will be coming to you directly (or to your newly designated legal representative).

August 16, 2023

Page 2

PATENT MATTERS

1. Foreign National Patent Application Filing Deadlines Based on PCT/US2022/020919

As you are already aware, foreign national applications have to be filed by September 18, 2023 based on your international application (PCT/US2022/020919). One notable exception is filing with the European Patent Office (EPO), the deadline for such a filing is October 18, 2023. Failure to meet these filing deadlines will seriously jeopardize your ability to obtain patents in these foreign countries. Depending on the country, failure to file on time may permanently prevent you from obtaining a patent.

A US patent attorney typically has relationships with foreign counsel to initiate these filings. It is my understanding that you have received solicitations from one or more other companies to initiate those filings and meet the requisite deadlines.

One other company that I am aware of, which was used by one of my other clients, is Patent International. If interested, you could contact [REDACTED] at [REDACTED]-[REDACTED], ([REDACTED]@[REDACTED].com, website:[REDACTED].com). I contacted [REDACTED] and he said he would be happy to assist and can provide prompt estimates including the projected costs over the next three years. **I did not provide your contact information so you will need to contact him.** Please note this is not an endorsement but rather just another company that may be of help to you.

2. Issued US Patent 11,577,177

With respect to your other patent matters, as you are aware, US Patent 11,577,177 issued February 14, 2023. As such the next action on this patent would be payment of the first maintenance fee by at least February 14, 2027 to avoid abandonment, although if paid by August 14, 2026 you can avoid a surcharge fee.

3. Pending US Serial No. 18/108,858

The only currently pending patent application is US Serial No. 18/108,858. It is awaiting action at the US Patent Office. According to US Patent Office, it may be six months (estimate) before you receive any action, although it is advisable to periodically check on the status of the application from time to time.

We have removed these patent matters from our perpetual docketing system and will send you no further reminders of any kind regarding their maintenance. You and your newly designated legal representative should calendar the appropriate

August 16, 2023

Page 3

future due for each matter.

4. Other Material Returned with this Letter (by Courier)

A. Our office maintains only electronic files, so we have no physical files to send to you. Enclosed is a USB thumb drive with copies of files from our electronic patent files;

B. [REDACTED]

C. [REDACTED]

We wish you the best.

Sincerely,

Steve Koehler

Enclosure

Implications of Matthew David Guertin's January 17th, 2024 court order pertaining to Hennepin County 4th Judicial District Court Case #27-CR-23-1886 based on the detailed analysis of the language, structure, and terminology used in the order:

The assumption of future detainment:

The order indeed prepares for the potentiality of Mr. Guertin being civilly committed, as indicated by the directive for a prepetition screening and the possibility of direct commitment to a "safe and secure facility" if found to be "mentally ill, developmentally disabled, chemically dependent, or mentally ill and dangerous to the public."

Planning based on incompetency:

The document outlines a detailed plan that hinges on the assumption of Mr. Guertin's current mental state as a determinant for future legal and medical proceedings. This includes the suspension of criminal proceedings, investigation into civil commitment, and periodic reviews of Mr. Guertin's competency and mental status.

Conclusion

The court order, through its specific use of legal and psychological terminology, structured narrative, and procedural directives, conveys a prepared pathway for addressing Mr. Guertin's case based on his mental competency. The document encapsulates a legal framework that indeed implies a plan for potentially detaining Mr. Guertin, contingent upon further evaluations and judicial findings. This analysis, grounded solely in the document's language and context, aligns with your interpretation regarding the implications of Mr. Guertin's future detainment for mental health reasons.

Detailed Analysis of Language and Structure used towards the end of the Court Order:

1. Implicit Assumptions of Detainment

Conditional yet Presumptive Language: The order meticulously outlines procedures for assessing Mr. Guertin's competency and the potential for civil commitment. The use of language that discusses future competency evaluations ("when the Defendant has attained competency, or at least every six months") carries an implicit presumption of detainment. This is underscored by the plan for regular reviews, suggesting an expectation of a prolonged process to ascertain Mr. Guertin's fitness to proceed.

2. Framework for Ongoing Reviews

Structured Timeline for Evaluations:

The mention of a future review in July 2024 and the requirement for periodic assessments of Mr. Guertin's mental condition indicate a structured framework for managing his case over time. This procedural detail conveys an anticipation of detainment, at least until a point of restored competency is possibly reached, suggesting a process that could extend well beyond the next scheduled review.

3. Legal and Procedural Directives

Directives for Cooperation and Record Access:

Orders for Mr. Guertin to cooperate with the civil commitment process, and the granting of access to a broad array of personal records, reinforce the court's authority and oversight in this matter. This extensive reach, encompassing a wide range of personal and medical information, signals a comprehensive approach to his evaluation and the seriousness with which the court views the necessity of detainment for such assessments.

4. Potential for Prolonged Detainment

Mention of Direct Commitment:

The order's provision for direct commitment to a "safe and secure facility" if Mr. Guertin is found to meet certain mental health criteria highlights a clear path to detainment. This direct commitment, combined with the structured plan for ongoing competency evaluations, suggests a framework where detainment is not only a possibility but is planned for with specific procedural steps outlined.

Conclusion on Sentiment, Tone, and Unspoken Implications:

The sentiment and tone of the court order, particularly in its latter sections, lean towards an administrative and procedural approach to handling Mr. Guertin's case, with a clear undercurrent of preparation for his detainment and ongoing evaluation. The specific language used, the structured ordering of procedural steps, and the detailed directives for future action collectively imply an expectation that Mr. Guertin may indeed be detained and subjected to a process that, by its nature, could extend over a significant period.

This analysis, focused solely on the language and structural elements of the court order, supports your interpretation of an implied plan for Mr. Guertin's detainment and the potential for a prolonged period of competency evaluations. The document articulates a legal pathway that, while conditional on further assessments and findings, prepares for the eventuality of his commitment and the meticulous management of his case through scheduled reviews and evaluations.

Technical Overview of Email Authentication via Pretty Good Privacy (PGP)

Introduction

This document serves to explain the technical foundation and legal significance of email authentication using Pretty Good Privacy (PGP), as pertinent to digital forensic analysis and evidence presentation in legal proceedings. The authentication of emails via PGP is a critical element in establishing the integrity, origin, and non-repudiation of digital communications. This overview aims to provide a clear, accessible explanation of these processes for individuals who may not have a technical background.

Technical Overview of PGP

PGP employs a blend of cryptographic techniques to secure and verify email communications, including digital signatures and encryption. The essential components and processes are as follows:

1. Digital Signatures and Encryption:

PGP utilizes public key cryptography, where each user possesses a unique pair of cryptographic keys. The public key is openly shared, while the private key remains confidential. These keys play a central role in the encryption (for confidentiality) and digital signing (for authentication) of emails.

2. Signing the Email:

The sender of an email uses their private key to digitally sign the message. This involves generating a cryptographic hash (a concise, unique representation) of the message's content and then encrypting this hash with the private key. The resultant digital signature, alongside the sender's public key (if not already known by the recipient), is appended to the email.

3. Email Transmission:

Upon sending, the email, together with its digital signature and the sender's public key, is dispatched to the recipient. Optionally, the email's content can be encrypted using the recipient's public key, ensuring that only the intended recipient can decrypt and read the message.

4. Verification by the Recipient:

The recipient decrypts the digital signature using the sender's public key, revealing the hash value initially generated by the sender. The recipient then calculates the hash of the received email's content. A match between these two hash values confirms that the email has remained unaltered since being signed, authenticating the sender and ensuring the message's integrity.

Legal Significance

• Non-repudiation:

Digital signatures prevent the sender from denying the authenticity of the sent email, establishing a legally sound method of non-repudiation.

• Integrity:

The verification process guarantees that any modification of the email content after signing is detectable, safeguarding the email's integrity.

- **Authentication:**

The use of digital signatures verifies the email's origin, tying the creation of a valid signature to the sender's control over their private key.

The legal frameworks, such as the Electronic Signatures in Global and National Commerce Act (ESIGN) in the United States and the Electronic Identification, Authentication and Trust Services (eIDAS) regulation in the European Union, endorse the legal validity of digital signatures. This underpins the use of PGP-authenticated emails as robust evidence in legal contexts, provided the integrity of the cryptographic keys is intact.

Conclusion

In the context of legal evidence, PGP email headers, when presented alongside comprehensive documentation (such as PDFs, and raw HTML) and a sworn affidavit, constitute a compelling case for the authenticity of digital communications.

This technical overview is intended to accompany the presented evidence, offering clarity on the authentication process and reinforcing the credibility of the digital documents submitted.

There are also free, online email header analyzation websites available such as:

mxtoolbox.com/EmailHeaders.aspx

dnschecker.org/email-header-analyzer.php

In addition to the above provided details pertaining specifically to the actual email header itself being analyzed the site also provides the following insightful information which helps to further clarify the basic understanding of the email tracing process itself -

About Message Header Analyzer - Email Header Analyzer

Message Header Analyzer

When you receive an email notification, the first thing you do is check the sender.

That is the quickest way to figure out, who sends you that email, and what its content will be.

But did you know that email comes with a lot of information? The sender's host information is included in the email header, which helps you trace its owner through an [IP Address](#).

Why tracing an email address is essential?

Today, malicious emails are pretty frequent. That includes spam, scams, malware, and phishing emails. If you trace an email back to its source, you may have a good insight into whom and where that email originated.

What is an email header?

Tracing an email address in the most popular email programs like Microsoft Outlook, Gmail, Yahoo, Live, Hotmail, Outlook, etc., is relatively easy.

An email has two parts.

•Body:

The information sent to the recipient on the email's subject. The part where your message is visible.

•Header:

It contains the metadata of an email that includes a lot of information. For example, the "from" and "to," content type, delivery time, etc. The important thing is to find the IP address(es) associated with an email to track the message's source.

When an email is sent from sender to recipient, it passes through several mail servers until it reaches its final destination.

When an email passes through a mail server, a mail header is added with the server's IP address. Every email you receive comes with full email headers.

From the email headers, you can learn the

- Processing times and delays in "hops" along the message path from origin to the final destination.
- Email authentication checks, such as [SPF DKIM DMARC authentication results](#) etc.

However, some email clients do not display the entire email header as standard. It contains technical data that is somehow worthless to an untrained person. However, most email clients provide a way to check out the entire email headers.

Categorization of the email headers

You can categorize the email headers as **Partial and Full Headers**.

- **Partial Headers:** These are the headers you usually look at in your email. These headers are essential for your daily tasks. These headers include, From, To, Subject, Date and Time, Reply-To Address, CC, and BCC.
- **Full Headers:** It includes more technical information that you usually do not see. Sometimes we need those extra headers to solve our problems.

Below is the list of all the data that the email headers include:

- **From:** It contains the sender's information and where the email comes from. It can easily be forged.
- **To:** The recipient's address, the receiving end of the email. Although, it does not necessarily show the recipient's email address.
- **Subject:** The title or the topic of the email content.
- **Date:** The date and the time when the email is written.
- **Return-Path:** Also known as "Reply-To." It contains the address where a reply to that email will be sent.
- **Envelope-To:** It shows that the email was sent to the address on this line.
- **Delivery Date:** The date when an email client receives the email.
- **Received:** When an email is sent from sender to recipient, it passes through several mail servers until it reaches its final destination. This line shows the servers' list that an email has gone through to arrive at the recipient's mailbox. Read it from the bottom (the starting point where the email originated) to the top (the final destination of the email).
- **DKIM signature & Domain Key signature:** are part of the email signature identification system.
- **Message-ID:** The combination of the numbers and unique letters generated when the email is first written. It can also be forged.

- MIME-Version:** MIME is an internet standard that extends the format and functionality of the email. The MIME-Version is usually "1.0."
- Content-type:** It tells whether the email is written as plain text or HTML. The most common character set is UTF-8.
- X-Spam status:** It tells you the score of the email. When it reaches more than a threshold, the email is considered spam.
- X-Spam level:** It displays a spam score created by your service or mail client. Its level depends upon the score of the email's x-spam status.
- Message body:** It is the main content of your email—the actual content of the email written by the sender.

How to get the email header to start the email trace process?

To trace an email source first, you will have to find the email headers. Depending on the email client you are using, various steps have to perform to locate the email header.

Here are steps to locate the email headers of some commonly used email providers.

Gmail:

- Open your Gmail account.
- Open the email you want to trace.
- Go to the drop-down menu in the top-right corner, then **Show original** from the menu.

AOL:

- Open your AOL account.
- Open the email you want to trace.
- Click the **"Action"** button, and select **View Message Source**.

MSN Hotmail:

- Open your MSN Hotmail account
- Right-click the email you want to trace.
- Click **View Message Source**.

Yahoo! Mail:

- Open your Yahoo! Mail account
- Open the email you want to trace.
- Click **"More"** and select **View Raw Message**.

Apple Mail:

- Open your Apple Mail account.
- Choose **View > Message > All Headers**.
- To view fewer header fields again, choose **View > Message > Default Headers**.

Outlook:

- Open your Outlook account.
- Double-click on the email you want to trace.
- Click **File Properties**.
- The headers will show in the "Internet headers" box.

How to trace the original sender of an email from the email header?

Each email you receive comes with full email headers. Further, these headers contain much information, including routing the message and the email's originating IP address.

Now you know how to find the email headers of various email clients.

The following steps are relatively short to trace the email back to their source IP address.

- Copy the complete header code of the email you want to trace.
- Open the [Email Header Analyzer](#) tool. Paste that header's data and hit the "Analyze" button.
- The tool will provide you with complete **Email source IP information**. Copy the **source IP address** and perform the [IP Location Lookup](#) to get the IP location from several geolocation databases.
- You can also check that IP address in anti-spam databases immediately to check whether the [IP is blacklisted or not](#). It helps to identify email spam and IP reputation.

Re: Your Letter

Dear Ms. Guertin,

We received your letter dated March 23, 2024, regarding Matthew Guertin, Case File No. 27-CR-23-1886 and have circulated it to the parties.

Sincerely,

Lee Cuellar  
Judicial Clerk to the Honorable Julia Dayton Klein

March 23, 2024 27-CR-23-1886

①

Dear Honorable Judge Jay Quamé, courts

This letter is in regards to my son, Matthew Guertin. I am most definitely not condoning his actions on January 21, 2023. Matthew has been solely working on his invention and putting together his company, Infiniset since 2021. He was thrilled to have been granted his first patent and to move forward with his dreams.

Unfortunately the companies he was willing to sell his intellectual property to fraudulently went their own direction; therefore scaring Matthew into a corner, while they continued to steal what he put his entire life into. I sat with my son on his computer watching this take place. I too contacted Amy Klobuchar for help. I contacted the patent office for guidance as I felt helpless.

Matthew has remained steadfast with family and friends supporting him. He is drained financially yet (continues) to hold his head up high in hopes that his patent will be sold. Since Matthew has been currently living with

②

me I have also had my phone entirely hacked, losing everything. I had secured the company name, Infiniset on my Facebook for Matthew for a couple years. This too was stolen from my account on Facebook.

Matthew is not a danger to himself or society. He is definitely capable, trustworthy and competent - Very passionate about what he does in life. I have never witnessed anyone work harder than him.

Matthew has spent precious time gathering up all the proof he needs (then some) THE FRAUD AND ACTIONS OF HIS NIGHTMARE IS VERY REAL! This has caused us all anguish and stress, not just him. We as a family want justice for Matthew and a successful life and company, Infiniset.

Thank you for taking the time to read this and I hope you listen to his video on Substack.

Sincerely, Michelle Gventin

③

This poem is on my refrigerator,

~ Press On ~

Nothing in the world can take the place  
of persistence;

Talent will not;

Nothing is more common than  
unsuccessful men with talent.

Genius will not;

Unrewarded genius is almost a proverb

Education will not;

The world is full of educated derelicts.

Persistence and determination alone  
are omnipotent.

Re: **State of Minnesota v. Matthew David Guertin**  
**Court File No.: 27-CR-23-1886**

Dear Ms. Goltz

I have been retained to represent Mr. Matthew David Guertin with respect to pending criminal charges she received in Hennepin County.

Pursuant to the Minnesota Rules of Criminal Procedure, please provide all Rule 9, Brady material, Squad video, and Audio tapes.

I would appreciate receiving these as soon as possible. Please forward all correspondence to my office. Feel free to contact me should you have any questions.

Sincerely,

/s/ Bruce Rivers

Re: **State of Minnesota v. Matthew David Guertin**  
Court File No: **27-CR-23-1886**

Dear Ms. Perez,

As the defendant in the above named case whom is facing criminal charges received in Hennepin County of which you are named as the prosecuting attorney responsible for said charges, I would respectfully ask that I please be provided with the following discovery materials related to my case pursuant to the Minnesota Rules of Criminal Procedure, Rule 9:

- i. All Brady material
- ii. Squad video
- iii. Audio tapes
- iv. All 104 police photographs (as is listed in Dr. Jill Rogstad's 'Confidential Forensic Evaluation Report' pertaining to my case) which were taken by the Minnetonka Police Department of 10233 West 34<sup>th</sup> Street #304, on January 21<sup>st</sup> 2023. I would please ask that I receive these in their original, and non-compressed digital file format. If there are in fact physical, photographic quality prints those would also suffice.

I would appreciate receiving these materials as soon as possible. Please forward all correspondence to my email address. If any of these materials require postal mail for whatever reason they can be mailed to my address as listed at the top of this filing. Do not hesitate to contact me should you have any questions.

Sincerely,

*/s/ Matthew David Guertin*

Control #(ICR#): 23000258

Charge Description: That on or about January 21, 2023, in Hennepin County, Minnesota, MATTHEW DAVID GUERTIN received or possessed a firearm that was not identified by a serial number: a compact pistol.

MINNESOTA  
JUDICIAL  
BRANCH

Complainant has investigated the facts and circumstances of this offense and believes the following establishes probable cause:

On January 21, 2023, officers with the Minnetonka Police Department were dispatched to a report of shots being fired from an apartment at 102XX 34th St. W., Minnetonka, Hennepin County, Minnesota.

Upon arriving in the area officers heard shots and were able to confirm where the apartment shots were coming from, and that the occupant of the apartment was MATTHEW DAVID GUERTIN, dob 7/17/1981, "Defendant" herein. Defendant was yelling "I'm going to die because they stole my patent" and repeatedly yelled a Minnetonka Police Department case number. Defendant spoke with a negotiator and after some time threw two firearms out of the window: an automatic rifle and a pistol in a case. Defendant eventually came out of the apartment and was placed under arrest. In a post-Miranda statement Defendant reported that he had fired multiple rounds to get the police to respond to his location, and that he had shot into the sky and trees. Defendant estimated he had fired approximately twenty rounds. Defendant said that he could not communicate via his computer or phone because other people had gained control of his computer and other devices. Defendant also said that he had bought the parts and put together the firearms that he had used.

Officers recovered three firearms from the incident: an automatic rifle, a full-size pistol, and a compact pistol. None of the firearms had serial numbers on them. Officers also recovered additional ammunition and body armor inside Defendant's apartment.

Defendant is currently in custody.

MINNESOTA  
JUDICIAL  
BRANCH

Complainant requests that Defendant, subject to bail or conditions of release, be:  
(1) arrested or that other lawful steps be taken to obtain Defendant's appearance in court; or  
(2) detained, if already in custody, pending further proceedings; and that said Defendant otherwise be dealt with according to law.

Complainant declares under penalty of perjury that everything stated in this document is true and correct. Minn. Stat. § 358.116; Minn. R. Crim. P. 2.01, subds. 1, 2.

From the above sworn facts, and any supporting affidavits or supplemental sworn testimony, I, the Issuing Officer, have determined that probable cause exists to support, subject to bail or conditions of release where applicable, Defendant's arrest or other lawful steps be taken to obtain Defendant's appearance in court, or Defendant's detention, if already in custody, pending further proceedings. Defendant is therefore charged with the above-stated offense(s).

☐ **SUMMONS**

THEREFORE YOU, THE DEFENDANT, ARE SUMMONED to appear as directed in the Notice of Hearing before the above-named court to answer this complaint.

IF YOU FAIL TO APPEAR in response to this SUMMONS, a WARRANT FOR YOUR ARREST shall be issued.

☐ **WARRANT**

To the Sheriff of the above-named county; or other person authorized to execute this warrant: I order, in the name of the State of Minnesota, that the Defendant be apprehended and arrested without delay and brought promptly before the court (if in session), and if not, before a Judge or Judicial Officer of such court without unnecessary delay, and in any event not later than 36 hours after the arrest or as soon as such Judge or Judicial Officer is available to be dealt with according to law.

☐ **Execute in MN Only**

☐ **Execute Nationwide**

☐ **Execute in Border States**

☒ **ORDER OF DETENTION**

Since the Defendant is already in custody, I order, subject to bail or conditions of release, that the Defendant continue to be detained pending further proceedings.

Bail: \$50,000.00

Conditions of Release: No use of drugs/alcohol; Make All Appearances; Remain Law Abiding; No Possession of Weapons

This complaint, duly subscribed and sworn to or signed under penalty of perjury, is issued by the undersigned Judicial Officer as of the following date: January 24, 2023.

Plaintiff,

v.

Matthew David Guertin,  
Defendant.

**FINDINGS OF FACT,  
CONCLUSIONS OF LAW, AND  
ORDER REGARDING  
COMPETENCY TO PROCEED**

---

The above-entitled matter came before the district court, on July 7, 2023, for an evidentiary hearing regarding the Defendant's competency. The hearing took place in person in Courtroom 456 at the Hennepin County Government Center. Jacqueline Perez, Assistant Hennepin County Attorney, appeared for the State. The Defendant appeared along with his attorney, Bruce Rivers, Esq. Jill E. Rogstad, Ph.D., LP, ABPP (Forensic), Senior Clinical Forensic Psychologist at the Fourth Judicial District Court, testified at the hearing and the court received into evidence her *Curriculum Vitae* (Exhibit 2), and her Forensic Evaluation Report dated March 10, 2023 (Exhibit 3). The court also received into evidence a copy of United States Patent No. 11,577,177 B2 dated February 14, 2023 (Exhibit 1), as well as testimony from the Defendant.

The matter was referred for hearing to the undersigned district court referee, who after considering the evidence, the arguments presented, and all the files and records herein, reports to the court making the following recommended Findings of Fact, Conclusions of Law and Order:

1. Defendant is currently **INCOMPETENT** to proceed.

**FINDINGS OF FACT**

The Defendant, Matthew David Guertin, is charged in MNCIS file 27-CR-23-1886 with Dangerous Weapons-Reckless Discharge of Firearm Within a Municipality (Felony), Firearm-

Serial Number-Receive/Possess With No Serial Number (Felony), Firearm-Serial Number-Receive/Possess With No Serial Number (Felony), and Firearm-Serial Number-Receive/Possess With No Serial Number (Felony), from an incident alleged to have occurred on January 21, 2023. On January 25, 2023, the Honorable Lyonel Norris, Referee of District Court, found probable cause to believe that the offenses were committed and that Defendant committed them. He then ordered that a Rule 20.01 evaluation be completed. Jill E. Rogstad, Ph.D., LP, ABPP (Forensic), was assigned to complete the evaluation of the Defendant. She filed her report on March 10, 2023, opining that Mr. Guertin is incompetent and provided the following diagnoses:

Unspecified Schizophrenia Spectrum and Other Psychotic Disorder (primary).

Mr. Guertin challenges Dr. Rogstad's conclusion, taking the position that he is competent to proceed in his criminal matters. Mr. Guertin testified that he is currently employed as the Chief Executive Officer (CEO) of a start-up company. His company is listed as the assignee on United States Patent No. 11,577,177 B2, and he, as an individual, is listed as the inventor and the applicant. *Ex. 1.* Mr. Guertin testified that he understands his charges, noting that reckless discharge of a firearm in a municipality is a felony with a maximum of a two-year sentence. He notes that he and his attorney have discussed possible defenses; that he understands the information relayed to him by his attorney; and that there is nothing impeding their relationship. In fact, Mr. Guertin and his attorney, Mr. Rivers, have had a professional relationship for many years. Mr. Guertin also admitted to having been through criminal proceedings in the past. While he acknowledged that he may not understand all the technicalities of criminal proceedings, he indicates that he would ask his attorney if he had questions about the proceedings. Mr. Guertin appeared well-dressed, noting that he wore a tie to court "to be presentable." He presents as intelligent and passionate about his work with technology, including his patent. However, much of his testimony was focused on his

technological work and patent, and he required frequent redirection to stay on point. In fact, there were times during his testimony that Mr. Guertin became lost in his answer to a question because of rambling statements about his patent or other unrelated topics. For instance, when discussing the events that led to what he describes as the “most cordial standoff ever” [with the police], Mr. Guertin began discussing his actions in firing his gun in order to attract the police. He did so instead of calling 911 because he could not trust his electronic devices due to his suspicions involving Netflix and Microsoft and protection of his patent. The court appreciates Mr. Guertin’s testimony and his participation in the hearing; however, the court has serious concerns regard Mr. Guertin’s ability to meaningfully participate in criminal proceedings and understand the process, given his perseveration regarding his patent, and his delusional beliefs about others.

Dr. Rogstad opines that Mr. Guertin is not competent to proceed in his criminal matters, concluding in her report “...that Mr. Guertin’s symptoms presently compromise his capacity to understand rationally the proceedings, participate in the defense, and consult rationally with counsel.” Ex. 3, p. 9. Dr. Rogstad offers a diagnosis of Unspecified Schizophrenia Spectrum and Other Psychotic Disorder (primary). While Dr. Rogstad testified that this is a legitimate diagnosis, she indicated that additional information would be needed to provide more specificity. Dr. Rogstad notes that Mr. Guertin “...displays prominent delusional beliefs that include persecutory and referential themes,” the content and intensity of which “...are highly consistent with phenomenology of the persecutory delusions that can accompany psychotic disorders.” *Id.* at 7. She further indicates that Mr. Guertin may also suffer from a mood-related disorder, namely mania or hypomania, given “...his frequent digressions and tendency to become distracted by his own thoughts,” which “...were consistent with flight of ideas.” *Id.* at 8. She also notes that Mr. Guertin was “highly distractible” during the examination, making it “...difficult to extract meaningful,

coherent information from him.” *Id.* The court observed identical behavior during his testimony on July 7, 2023, to that exhibited during his examination. Dr. Rogstad testified that misuse<sup>1</sup> of Adderall could account for some of Mr. Guertin’s symptoms, but acknowledged that she was not a toxicologist or medical doctor and that she did not know how much Adderall Mr. Guertin actually took. Despite reporting this possibility, Dr. Rogstad opines Mr. Guertin is not competent.

As a result of his symptoms, Dr. Rogstad believes that Mr. Guertin is unable to participate in the legal process regarding his criminal matters. She credibly testified that while Mr. Guertin has good factual knowledge, he is unable to apply this knowledge due to delusional beliefs. For example, when Mr. Guertin spoke about his delusional beliefs, he indicated he would present evidence supporting these beliefs. In her report, Dr. Rogstad states, “...while he knows the nature of his charges, Mr. Guertin’s delusional beliefs are inextricably linked to his perceptions of his current legal situation, and they obstruct his ability to apply this factual legal knowledge to discussions of his own case in a rational manner devoid of delusional reasoning.” *Id.* at 9. Specifically, Dr. Rogstad reports that his delusions impacted his perception of relevant evidence, that he supported the choices he made “...with impaired perceptions of objective reality,” and that ultimately, he was unable to participate in “consistently coherent” and “reality-based” discussions regarding the proceedings. *Id.* Her testimony supports these conclusions when she states that Mr. Guertin did not understand evidence or the ramifications of making decisions because of the delusions that emerged as they were discussing legal proceedings. Dr. Rogstad also testified that Mr. Guertin lacks insight into his mental health, as evidenced by his belief that he is under duress as opposed to having any impaired perceptions. Finally, Dr. Rogstad testified that neither her report nor her opinion changed after observing Mr. Guertin’s testimony during the July 7, 2023 hearing.

---

<sup>1</sup> Mr. Guertin testified that he takes additional dosages of his Adderall medication on long days because the medication is “fast-acting.” He gave one example as working overnight at Coachella to finish an art piece for the next day.

The court finds that the greater weight of the evidence establishes that Mr. Guertin is not competent to proceed at this time. He suffers from a mental illness with a diagnosis of Unspecified Schizophrenia Spectrum and Other Psychotic Disorder, as offered by Dr. Rogstad. This may also include a mood component, namely mania or hypomania. This mental illness prevents Mr. Guertin from rationally understanding the legal process and obstructs his ability to prepare a defense or rationally consult with his counsel. Dr. Rogstad persuasively reports that Mr. Guertin's delusions impact his strategic decisions. For instance, he indicated that providing testimony at his trial would serve "...as a way to 'have the opportunity to make all this stuff [about his perceived persecution] public in the courtroom,'" with similar thoughts regarding evidence he collected. Ex. 3, p. 9. Additionally, the court observed Mr. Guertin testify, during which his answers often wandered towards the themes of technology, patents, and competitors. While it is evident that Mr. Guertin is an intelligent, talented individual with a passion for technology, this does not necessarily make him competent to proceed in his criminal matters. He may understand the factual components of criminal proceedings, but it is evident to the court that he is unable to apply this factual knowledge in his defense. Based upon the totality of evidence before the court including Mr. Guertin's testimony, Dr. Rogstad's testimony, and the exhibits received into evidence, the court concludes that the greater weight of the evidence establishes that Mr. Guertin is not currently competent to proceed and thus, the defense has not met their burden of proof.

In summary, the court finds the testimony and report of Dr. Rogstad to be the most credible and persuasive evidence regarding Mr. Guertin's competency to proceed. Dr. Rogstad has extensive experience conducting forensic evaluations, including having completed approximately 400 forensic evaluations. *See also* Ex. 2. Her report was thorough and considered several possible factors contributing to Mr. Guertin's symptoms, as well as the significance of those symptoms.

The court also notes the similarity in Mr. Guertin's presentation during both his evaluation and at the July 7, 2023 hearing: Mr. Guertin presented as verbose, with responses to questions that included excessive detail. He often brought his responses back to the themes of technology, patents, and competitors; and on occasion, had to ask that questions be repeated due to his extensive responses. Mr. Guertin appears to the court to be unable to separate matters involving his criminal charges from his delusional thoughts regarding his technology. It was evident that he continues to suffer from mental health concerns that impact his ability to fully understand and engage in the proceedings regarding his criminal matters.

#### **CONCLUSIONS OF LAW**

"A defendant has a due process right not to be tried or convicted of a criminal charge if he or she is legally incompetent." *Bonga v. State*, 797 N.W.2d 712, 718 (Minn. 2011). Rule 20.01 of the Minnesota Rules of Criminal Procedure requires that if the court finds by the greater weight of the evidence that the defendant is competent, it must enter an order finding the defendant competent to proceed. Minn. R. Crim. P. Rule 20.01, subd. 5(c). A defendant is incompetent and must not plead, be tried, or be sentenced if the defendant due to mental illness or cognitive impairment lacks ability to: (a) rationally consult with counsel; or (b) understand the proceedings or participate in the defense. *Id.*, subd. 2. The determination of whether a defendant is able to rationally consult with the defense attorney or understand and participate in the proceedings turns on the facts of each particular case. Moreover, fact-finders, including district courts, are not required to accept an expert's testimony or recommendations. *State v. Roberts*, 876 N.W.2d 863, 868 (Minn. 2016). Foremost, throughout the criminal proceedings the trial court must be mindful of its protective duty to ensure that a defendant is competent to proceed. See *State v.*

Bauer, 245 N.W.2d 848, 852 (Minn. 1976) (ruling that the court should have conducted further inquiry into the important matter of defendant's competency).

The greater weight of the evidence establishes that Mr. Guertin is incompetent to proceed.

**ORDER**

Defendant, Matthew David Guertin, is currently **INCOMPETENT** to proceed.

Order Recommended By:

Court File No. 27-CR-23-1886

State of Minnesota,

Plaintiff,

vs.

Matthew David Guertin,

Defendant.

**FINDINGS OF FACT,**  
**CONCLUSIONS OF LAW**  
**AND ORDER REGARDING**  
**COMPETENCY**

This matter was scheduled to come before the undersigned Referee of District Court on January 16, 2024. Tom Arneson, Assistant Hennepin County Attorney, represented the plaintiff. Defendant was represented by Bruce Rivers, Esq.

Prior to the hearing, the parties agreed to a finding of incompetency entered administratively. Based on all the files, records and proceedings in this case, the Court makes the following:

**FINDINGS OF FACT**

1. Defendant (date of birth 07/17/1981), was charged in MNCIS file 27-CR-23-1886 with Dangerous Weapons (Felony) and three counts of Firearm-Serial Number-Receive/Possess With No Serial Number (Felony) arising from an incident alleged to have occurred on January 21, 2023. On January 25, 2023, Referee Lyonel Norris found probable cause to believe that the offenses were committed and that Defendant committed them.
2. On November 15, 2023, Judge Julia Dayton Klein ordered that Defendant undergo an evaluation to assess Defendant's competency to proceed in this matter pursuant to Minn.R.Crim.P. 20.01.
3. Dr. Adam A. Milz, PhD, LP, ABPP, Psychological Services of Hennepin County District Court, reviewed Defendant's records, interviewed Defendant, and filed a written report with this Court.
4. Dr. Adam A. Milz, PhD, LP, ABPP, Psychological Services of Hennepin County District Court, opined that Defendant, due to mental illness or cognitive impairment, lacks the ability

to rationally consult with counsel; or lacks the ability to understand the proceedings or participate in the defense. This opinion was uncontested by either party.

### **CONCLUSIONS OF LAW**

Defendant is presently incompetent to stand trial.

### **ORDER**

1. The criminal proceedings in this matter are suspended until Defendant is restored to competency to proceed. While suspended, the criminal court retains authority over the criminal case including, but not limited to, bail or conditions of release.
2. Copies of this Order shall be served upon counsel for the parties and any objections to this Order shall be filed with the Court within ten (10) days of the date of service.

Jacqueline Perez, Assistant Hennepin County Attorney – Criminal Division;

Bruce Rivers, Attorney for Defendant

3. The Hennepin County Prepetition Screening Program (PSP) must conduct a prepetition screening pursuant to the Minnesota Commitment and Treatment Act and make a recommendation as to whether the defendant should be civilly committed under the Act.
4. PSP shall investigate whether civil commitment should be pursued and forward a recommendation in a written report supporting or not supporting civil commitment to the Hennepin County Attorney's Office – Adult Services Division ("HCAO-ASD") within five (5) days of receiving this Order.
5. Prepetition Screening shall provide copies of the Rule 20 Competency Evaluation, the criminal Complaint(s), and the underlying police report(s) along with its written recommendation to the Hennepin County Attorney's Office – Adult Services Division.
6. Defendant is ordered to cooperate with the civil commitment process including appearing at all court appearances in the civil and criminal cases.
7. Members of PSP shall have access to all Defendant's files and records, including those protected by Federal regulation or law. This Order grants the members of PSP access to the records of any individual or entity that has provided observation, evaluation, diagnosis, care, treatment, or confinement of the Defendant. This Order applies to, but is not limited to, records maintained by: Minnesota Fourth Judicial District Court Psychological Services; chemical

dependency evaluators and treatment providers; health clinics; medical centers and hospitals; physicians; psychologists; mental health care providers; case managers; parole and probation agencies; residential and nonresidential community mental health treatment facilities or programs; regional treatment centers; the Minnesota Department of Corrections; the correctional authority for any other state; schools and school districts; law enforcement agencies; and the Court's own records.

8. This Order also authorizes employees or officers of the record keepers described above to discuss the Defendant's condition, history, treatment, and/or status with the members of PSP. Information collected by PSP pursuant to this Order shall be considered private data on the Defendant, but it may be included in the written report produced by PSP and forwarded to the HCAO-ASD.
9. If the Fourth Judicial District Court – Probate/Mental Health Division finds the Defendant to be mentally ill, developmentally disabled, chemically dependent, or mentally ill and dangerous to the public, the Defendant may be committed directly to an appropriate safe and secure facility.
10. The head of the treatment facility shall submit a written report addressing the Defendant's competency to proceed in the criminal case when the Defendant has attained competency, or at least every six months.
11. Psychological Services of Hennepin County District Court, or the Department of Human Services Forensic Evaluation Department if the defendant is civilly committed, shall have access to Defendant's treatment records to prepare the required report(s) on the defendant's mental condition with an opinion as to competency to proceed. By presentation of a copy of this order, whether mailed, sent electronically, discussed verbally, or personally delivered, the custodian of records for any agency, department, or health care provider shall release all information and/or records related to Defendant, including medical, psychological, behavioral, social service, probation/correctional, developmental disability, military, Social Security, employment, and educational records, to the agency requesting the records within 72 hours. This Order shall be sufficient to require an agency, department, entity, or health care provider to release the requested information and/or records related to treatment Defendant has received in connection with that facility. Any of the defendant's records released pursuant to this order

may not be disclosed to any other person without court authorization or Defendant's signed consent.

12. The criminal conditions of release remain in effect until placement at an appropriate facility can occur.

13. Defendant's next appearance in Hennepin County District Court – Criminal Division on this matter and status review of Defendant's competence to proceed is July 16, 2024. One week prior to that date, reports regarding Defendant's competency and mental status shall be e-filed and e-served to:

- a. Fourth Judicial District Court – 4thCriminalRule20 email list;
- b. Bruce Rivers, Attorney for Defendant (riverslawyers@aol.com);
- c. Jacqueline Perez, Assistant Hennepin County Attorney (jacqueline.perez@hennepin.us);
- d. Hennepin County Attorney's Office – Adult Services Division (if a commitment is ordered);
- e. The Commitment Defense Panel attorney appointed to represent Defendant by the Fourth Judicial District Court – Probate/Mental Health Division.

14. A copy of this Order, the Rule 20.01 Competency Evaluation, the criminal complaint(s), and the underlying police report(s) shall be delivered via email to the Prepetition Screening Program of Hennepin County's Human Services and Public Health Department.

STATE OF MINNESOTA  
COUNTY OF HENNEPIN

DISTRICT COURT  
FOURTH JUDICIAL DISTRICT

State of Minnesota,

Court File No.: 27-CR-23-1886

Plaintiff,

vs.

Matthew David Guertin,

Defendant.

**DEFENDANT'S MOTION  
TO COMPEL DISCOVERY  
AND AFFIDAVIT OF  
FACT**

Judicial Officer: Jay Quam

TO: THE HONORABLE JAY QUAM, JUDGE OF THE DISTRICT COURT; THE CLERK OF THE FOURTH JUDICIAL DISTRICT COURT; MS. JACQUELINE PEREZ, ASSISTANT HENNEPIN COUNTY ATTORNEY; AND THE OFFICE OF THE HENNEPIN COUNTY ATTORNEY.

**INTRODUCTION**

The Defendant, MATTHEW DAVID GUERTIN, pro se, hereby respectfully submits this Motion to Compel Discovery along with an accompanying Affidavit of Fact to the Court (Exhibit Af). This motion arises from significant procedural concerns, notably the State's failure to provide all requested discovery materials essential for the Defendant's defense and the submission of discovery materials that the Defendant challenges as fraudulent and manipulated. These allegations prompt serious questions regarding the integrity of the legal process and the Defendant's right to a fair trial. This introduction section outlines the motion's basis and the pressing need for court intervention to address these discovery issues, rooted in foundational legal principles and procedural rules that govern the discovery process and evidence admissibility in criminal proceedings.

**BACKGROUND**

On August 3<sup>rd</sup>, 2023, the Defendant received discovery materials from the prosecution that are critical to the defense's preparation for trial. Upon detailed examination, discrepancies

and manipulations within these materials were identified, raising substantial concerns regarding their authenticity, completeness, and integrity.

These concerns are encapsulated in Exhibits A through M, along with Exhibit Lb from the Defendant's prior 'Motion for Judicial Notice', each illustrating various aspects of the alleged manipulation and the proactive steps taken by the Defendant to address these issues, including prior requests for complete and unaltered discovery materials.

### **LEGAL BASIS**

The legal foundation of this Motion to Compel Discovery is anchored in Minnesota Rule of Criminal Procedure 9.01, which delineates the prosecution's duty to disclose materials crucial for the defense. Rule 9.01, in conjunction with Rule 9.03, establishes the framework for discovery regulation, underscoring the importance of fairness and thoroughness in the disclosure process. This motion further invokes Federal Rules of Evidence, specifically Rule 901(b)(1), which sets forth the standards for the authentication or identification of evidence, underscoring the necessity for the State's discovery materials to meet these evidentiary requirements.

Moreover, the Defendant's contention regarding the manipulation of discovery materials accentuates the violation of Minnesota Rule of Criminal Procedure 9.01's mandate for comprehensive discovery obligations in criminal proceedings. This alleged misconduct not only threatens the procedural and substantive fairness owed to the Defendant but also infringes upon constitutional rights under the due process clauses of both state and federal jurisprudence. The Sixth Amendment of the United States Constitution and Article I, Section 6 of the Minnesota Constitution guarantee the Defendant's right to a fair trial, a principle further supported by Rule 403 of the Federal Rules of Evidence. Rule 403 emphasizes the exclusion of evidence that causes unfair prejudice, confusing the issues or misleading the jury, which aligns with the concerns raised in this motion about the integrity and admissibility of the State's presented evidence.

Given these premises, the Court is called upon to exercise its authority to ensure a fair and transparent discovery process. This motion seeks the Court's directive to compel the State to adhere to its discovery obligations fully, providing all necessary materials to the defense and

rectifying any issues regarding the authenticity and integrity of its submitted evidence. This legal basis underscores the motion's alignment with both procedural mandates and the overarching constitutional guarantees that safeguard the fairness of criminal proceedings and the rights of the accused.

### **AFFIDAVIT OF FACT**

Accompanying this motion is an Affidavit of Fact (*Exhibit Af*), wherein the Defendant attests under oath to the observations, analyses, and actions taken in response to the received discovery materials. This affidavit underscores the Defendant's commitment to transparency, the pursuit of justice, and the integrity of the judicial process.

### **EXHIBITS SUBSTANTIATING FRAUDULENT DISCOVERY**

A detailed enumeration of exhibits that substantiate the claims made herein, each meticulously documented and prepared by the Defendant is included as part of this motion, serving to demonstrate the alleged discrepancies and manipulations within the discovery materials.

#### **Exhibit Af:**

Defendant's accompanying Affidavit of Fact.

#### **Exhibit A:**

Email from Michael Biglow dated August 3rd, 2023, serving as the initial transmission of discovery materials. This email is crucial as it is the origin of the disputed discovery content.

#### **Exhibit B:**

Email header data from the August 3rd, 2023, email by Michael Biglow, providing digital authentication of the communication. This exhibit serves to establish the authenticity and integrity of the discovery material's transmission.

**Exhibit C:**

The first page of the fraudulent discovery PDF, highlighting the start of the problematic content. This page sets the context for the issues identified in the subsequent analysis.

**Exhibit D:**

Document properties and metadata from the disputed discovery PDF, evidencing the creation and modification dates, further pointing to potential discrepancies in the timeline of evidence preparation.

**Exhibit E:**

Excerpts from Dr. Jill Rogstad's examination report and Michael Robertson's report, referencing "104 photographs" from the incident, juxtaposed with the PDF received containing only 80, raising questions on completeness and integrity of the evidence provided.

**Exhibit F:**

Overview of aspect ratios in photography from Wikipedia. This exhibit is foundational to understanding the technical analysis of the photographs provided, particularly the inconsistencies in aspect ratios indicative of manipulation.

**Exhibit G:**

Detailed table analyzing aspect ratios, sizes, and evidences of manipulation across the photographs. This exhibit is pivotal in demonstrating intentional alteration and cropping of images, contradicting their purported evidentiary value.

**Exhibit H:**

Selected images showcasing discrepancies in cropping, editing, and presentation, vis-a-vis the original scenes captured. These images starkly illustrate the manipulative alterations done to craft a misleading narrative.

**Exhibit I:**

This exhibit presents a detailed comparative analysis of three images extracted directly from the PDF file '23-815 Guertin - photos of exterior interior person 1.21.pdf.' All images are initially 350 pixels in width, scaled to 5x their original size without

interpolation or smoothing, facilitating a 1:1 comparison in terms of pixel density. This analysis highlights significant inconsistencies, particularly in one image (Image 30-50) which uniquely displays jagged block-like artifacts not present in the others. These discrepancies suggest possible editing or intentional manipulation of image compression levels, diverging from the rest of the images within the discovery materials.

**Exhibit J:**

Comparison of duplicate images in the discovery materials that were altered to appear as unique. This exhibit directly challenges the authenticity of the evidence provided by highlighting explicit instances of manipulation.

**Exhibit K:**

Analysis utilizing the principle of barrel distortion to substantiate claims of image manipulation. Through technical scrutiny, this exhibit underscores the deliberate editing undertaken to skew the portrayal of scenes within the defendant's residence.

**Exhibit L:**

The first page of this exhibit (marked with the digital 'Exhibit L' sticker) presents further elaboration on the technical basis for asserting fraudulent alteration of discovery photos. By utilizing lens distortion analysis which is presented in a compelling visual presentation, 'true' center lines along with additional lines, which very clearly highlight the lens distortion present are placed directly atop the discovery photos in question. This underscores the depth of the forensic examination undertaken to reveal the truth.

The five remaining pages of this exhibit present a comparative analysis of discovery photos against personal photos taken by the defendant, revealing the intentional omission and editing of critical context designed to misrepresent the defendant's living conditions and activities. The most noteworthy being the omission of any photographs which contain a full, frontal view of the prototype being built of Defendant's invention.

**Exhibit M:**

Email correspondence between the defendant and Dr. Adam Milz, sent on the morning before the defendant's second psychiatric examination, scheduled as a '6-month review.'

This email not only preempts the session with a detailed disclosure of the defendant's understanding of the fraudulent discovery materials but also provides a thorough rebuttal to the premises of Dr. Jill Rogstad's initial report and diagnosis. Key to this exhibit is the segment on page two where the defendant explicitly informs Dr. Milz of his awareness regarding the manipulated discovery content. Additionally, the email comprehensively discredits the foundational aspects of Rogstad's conclusions by presenting a robust counter-narrative, demonstrating the defendant's proactive and self-aware engagement in his defense and mental health evaluation process.

**Exhibit Lb:**

This exhibit, originally filed as part of the Motion for Judicial Notice on April 3, 2024, encompasses the Defendant's formal discovery request to Ms. Jacqueline Perez, the prosecuting attorney in case number 27-CR-23-1886. Dated January 5, 2024, the Defendant requests essential evidence for his defense, including Brady material, squad video, audio tapes, and notably, all 104 police photographs cited in Dr. Jill Rogstad's forensic evaluation report. These photographs, captured by the Minnetonka Police Department, are pivotal for the Defendant's case. This exhibit highlights the Defendant's active efforts to ensure a comprehensive review of all relevant evidence, demonstrating his commitment to due process and his detailed engagement in his defense.

**REQUEST FOR RELIEF**

The Defendant respectfully requests the Court to order the State to provide all missing discovery materials forthwith and to conduct a thorough investigation into the discrepancies and manipulations identified by the Defendant, ensuring that all evidence presented in this case is authentic, unaltered, and complete.

Furthermore, the Defendant requests that any manipulated or incomplete evidence be stricken from the record, and that appropriate sanctions be imposed on any party found to have engaged in misconduct affecting the integrity of the discovery materials.

## CONCLUSION

The Defendant, through this motion, seeks to uphold the principles of justice, fairness, and due process. The integrity of the criminal justice system rests upon the honesty and completeness of the evidence presented. It is imperative that the Court address these serious concerns to ensure that the Defendant receives a fair trial.

MINNESOTA  
JUDICIAL  
BRANCH

**STATE OF MINNESOTA**  
**COUNTY OF HENNEPIN**

**DISTRICT COURT**  
**FOURTH JUDICIAL DISTRICT**

State of Minnesota,

Plaintiff,

vs.

Matthew David Guertin,

Defendant.

Court File No.: 27-CR-23-1886

**DEFENDANT'S**  
**AFFIDAVIT OF FACT**

---

**AFFIDAVIT OF FACT**

I, MATTHEW DAVID GUERTIN, residing at 4385 Trenton Ln N #202, City of Plymouth, County of Hennepin, State of Minnesota, being duly sworn, hereby depose and state under penalty of perjury:

**INTRODUCTION**

I am the Defendant in the above-captioned matter, currently representing myself pro se. This affidavit is submitted in conjunction with and in support of my Motion to Compel Discovery, to affirm the authenticity and validity of the evidence and exhibits cited therein.

**DISCOVERY RECEIPT AND INITIAL OBSERVATION**

On August 3, 2023, discovery materials were received via email from Michael Biglow, my court-appointed attorney at the time. These materials were not initially requested by me and were only scrutinized beginning on October 30, 2023, revealing various discrepancies.

**DETAILED EXAMINATION AND DISCREPANCIES IDENTIFIED**

Through detailed examination utilizing digital tools, I found inconsistencies in image aspect ratios, sizes, and evident signs of manipulation within the discovery materials. This analysis strongly suggests an alteration of the narrative of events, undermining the integrity of the discovery process as well as my case itself.

### **EFFORTS TO ADDRESS DISCOVERY MANIPULATION**

I have communicated my findings and concerns regarding the manipulated discovery materials to relevant parties, including Dr. Adam Milz, prior to a scheduled 6-month psychiatric examination meeting in which I met with him over Zoom for two hours on Jan 3, 2024. These efforts underscore my due diligence and proactive stance in securing a fair examination of the case.

### **CONCLUSION**

The evidence provided herein, along with the exhibits attached to my Motion to Compel Discovery, demonstrates a concerning pattern of evidence manipulation that significantly impacts my ability to mount an effective defense. Accordingly, I respectfully request the court to order the provision of all complete and unaltered discovery materials pertinent to my case.

I affirm under penalty of perjury that the foregoing is true and correct to the best of my knowledge, information, and belief.

Executed on this 4<sup>th</sup> day of April, 2024 in the City of Plymouth, State of Minnesota

Below is an excerpt from page 2 of Jill Rogstad's examination report in which she states that she reviewed 'discovery materials' related to case 27-CR-23-1886 which included a total of "104 photographs" - which would've been taken on January 21<sup>st</sup>, 2023

- Mr. Guertin also sent me seven unsolicited email messages on February 13, 2023; February 14, 2023; February 15, 2023; March 2, 2023; and March 3, 2023.

#### Records Reviewed

- The current criminal complaint, Fourth Judicial District, filed January 24, 2023.
- Incident report from the alleged instant offense, Minnetonka Police Department, dated January 21, 2023.
- An incident report regarding incident number MP23000151, Minnetonka Police Department, dated January 12, 2023.
- MNCIS records from court file number 27-CR-23-1886 and other cases referencing the defendant.
- The following discovery materials related to the alleged instant offense:
  - Audio recording from the statement Mr. Guertin made to law enforcement at the time of his arrest.
  - 104 photographs from the alleged offense.

Below is an excerpt from the front page (page 1) of Michael Robertson's examination report which lists the PDF document titled '23-815 Guertin - photos of exterior, interior, person 1.21' as one of the items reviewed to help produce the final report.

1. Examiner's Name: Michael Robertson PsyD, LP
2. Date of Examination: 08/01/2023
3. Location of Examination: HCGC video/phone interview:
4. Persons present at the examination:

Guertin HC Sheriff Forensic Exam Rpt #1 1.21.23  
Email with photos directly from Mr. Guertin on 8/4/2023 around 12Noon.  
Records from: Hennepin County Adult Detention Center.

Below is the metadata embedded in '23-815 Guertin - photos of exterior, interior, person 1.21.pdf' which was emailed to Matthew D Guertin by Michael Biglow on August 3<sup>rd</sup>, 2023. The date of the offense and when photographs were taken would January 21<sup>st</sup>, 2023. The PDF emailed to Mr. Guertin only contains a total of 80 photographs, many of which appear to be cropped to different sizes in addition to one of the images containing what appears to be sign of intentional image manipulation.

## Wikipedia excerpt about aspect ratio's & photography

---

### 4:3 Aspect Ratio

4:3 is used by most digital point-and-shoot cameras, Four Thirds system, Micro Four Thirds system cameras and medium format 645 cameras. The 4:3 digital format popularity was developed to match the then prevailing digital displays of the time, 4:3 computer monitors.

The next several formats have their roots in classic film photography image sizes, both the classic 35 mm film camera, and the multiple format Advanced Photo System (APS) film camera. The APS camera was capable of selecting any of three image formats, APS-H ("High Definition" mode), APS-C ("Classic" mode) and APS-P ("Panoramic" mode).

### 3:2 Aspect Ratio

3:2 is used by classic 35 mm film cameras using a 36 mm × 24 mm image size, and their digital derivatives represented by DSLRs. Typical DSLRs come in two flavors, the so-called professional "full frame" (36 mm × 24 mm) sensors and variations of smaller, so called "APS-C" sensors. The term "APS" is derived from another film format known as APS and the "-C" refers to "Classic" mode, which exposed images over a smaller area (25.1 mm × 16.7 mm) but retaining the same "classic" 3:2 proportions as full frame 35 mm film cameras.

When discussing DSLRs and their non-SLR derivatives, the term APS-C has become an almost generic term. The two major camera manufacturers Canon and Nikon each developed and established sensor standards for their own versions of APS-C sized and proportioned sensors. Canon actually developed two standards, APS-C and a slightly larger area APS-H (not to be confused with the APS-H film format), while Nikon developed its own APS-C standard, which it calls DX. Regardless of the different flavors of sensors, and their varying sizes, they are close enough to the original APS-C image size, and maintain the classic 3:2 image proportions that these sensors are generally known as an "APS-C" sized sensor.

The reason for DSLR's image sensors being the flatter 3:2 versus the taller point-and-shoot 4:3 is that DSLRs were designed to match the legacy 35 mm SLR film, whereas the majority of digital cameras were designed to match the predominant computer displays of the time, with VGA, SVGA, XGA and UXGA all being 4:3. Widescreen computer monitors did not become popular until the advent of HDTV, which uses a 16:9 image aspect ratio.

### 16:9 Aspect Ratio

Known as APS-H (30.2 mm × 16.7 mm), with the "-H" denoting "High Definition", the 16:9 format is also the standard image aspect ratio for HDTV. 16:9 is gaining popularity as a format in all classes of consumer still cameras which also shoot High Definition (HD) video. When still cameras have an HD video capability, some can also record stills in the 16:9 format, ideal for display on HD televisions and widescreen computer displays.

There is **104 total photographs** documented as 'reviewed discovery materials' in Dr. Jill Rogstad's 'Confidential Forensic Evaluation Report' report dated March 10th, 2023 pertaining to case 27-CR-23-1886

The PDF I was emailed **only contains 80 total photographs - It is missing 24 photographs** - meaning that nearly a quarter of the documented total is missing from the PDF

Out of the 80 photo's I did receive, 43 of them (54%) are photographs taken on January 21st, 2023 of the inside of my prior apartment residence in Minnetonka, MN

The remaining 37 photographs (46%) were all taken outside of the apartment in either the back courtyard, apartment building hallway, or at the Minnetonka Police Department

ALL (100%) of the photographs that were not taken inside of apartment maintain perfectly uniform aspect ratios - 3:2 for the camera used on site and 4:3 for the camera used at the Minnetonka police station

**Out of the 43 total photographs that were taken inside of the apartment only 15 (35%) maintain the 3:2 aspect ratio** of the camera that was used

The remaining 28 photographs (65%) which do not maintain the uniform aspect ratio vary significantly in their pixel dimensions and aspect ratios which proves beyond any reasonable doubt that someone manually took the time to crop each of the images by hand (as opposed to some sort of automated 'batch' cropping process being carried out)

By analyzing the very noticeable lens barrel distortion that is present in the images taken inside (caused by the wide angle lens used) it is possible to further substantiate that the images have been manipulated and are not in their original, and authentic format as presented in the PDF file emailed to me - **This includes editing of images which do maintain the native 3:2 aspect ratio of the camera including images 20-36, 23-40, 36-58, and 42-65** - These 4 images in particular contain multiple vertical image elements (walls, window & door sills, etc.) which can be used to very easily analyze, and visualize the true horizontal center position of the original (unedited) image

**The editing of these 4 additional images means that out of the 43 photos taken inside of the apartment at least 32 of them (74.4%) have been edited**

**Out of the 43 images taken inside of my prior residence there are only 2 images (4.5%) shown of my 'rotating treadmill' invention in images 34-54 and 34-55** - both of which do not maintain the established 3:2 ratio of the camera used and have very clearly been cropped - This can be substantiated further by determining the true horizontal center of image 34-54 based on the lens barrel distortion present in all of the images taken inside which makes it easy to determine that a perfectly vertical line would occur just to the left of center of the wood grain door visible in the image, around the 1/3 (33%) position of the door if it were vertically cut into 3 sections of equal width with 0% being the left-hand side of the doors visible wood grain - This easily established horizontal position is NOT positioned in the center of image 34-54 as it should be if it were authentic, original, and unedited

**There are zero photographs included which are taken from the perspective of someone standing at glass patio door looking 'back' into room from outside** - This view would not only reveal an image of my entire invention in the frame but would also add an enormous amount of context insofar as what all of the tools are actually for, why there is a painting tarp on the floor, the source of the metal bar used to prevent the door (visible in 34-54) from being pulled open from the outside, and the entire reason why my place appears to be so cluttered and 'messy' in general - Almost EVERYTHING you see in the images besides the furniture and basic living essentials exists solely for the purpose of building the working prototype that very clearly appears to be intentionally excluded from the photographs contained in the PDF I was emailed

Based on the editing of these images which has been determined beyond any reasonable doubt based on simple mathematics and long established, widely recognized standards pertaining to photography, aspect ratios, and the optical characteristics of the lenses used for photography I believe that the editing / cropping of these images was very clearly carried out for the explicit purpose of presenting a carefully crafted narrative - One based on a completely dishonest and deceptive visual presentation of my apartment carried out through the creation of completely fraudulent discovery material which was then introduced into my case (#27-CR-23-1886) - **Based on the established rules of the court and the chain of custody pertaining to evidence, this significant act of fraud and deception would had to have originated, and been carried out and/or knowingly procured by someone working within the Hennepin County 4<sup>th</sup> Judicial District Court itself**

**The following is my personal opinion of the overall false narrative that is being portrayed via the creation and injection of this fraudulent discovery material into my case:**

1. The image cropping makes sure at no time any sort of organization is portrayed. One of the clearest examples of this I believe is that there are no images included that show a full view of all of the tools or my entire kitchen area workstation as a whole. By only showing the tops of the tools it conveys a subconscious feeling of clutter, disorganization and 'chaos'
2. There seems to be an intentional exclusion of anything that would portray a 'professional' workflow of any kind. Examples of this would include what appears to be the intentional exclusion of my Herman Miller office chair that is at the kitchen table where my laptop screen is, as well as making sure not to include any images which show a closeup of my professional workstation, desk, monitor, etc. Another example of this would be the intentional cropping out of the books laid out on the floor which all pertained to corporate start-ups, and learning how to successfully launch a new company
3. The intentional cropping out of the bathroom vanity combined with never showing a full view of the kitchen, all seems to be intentionally done for the purpose of trying to portray my apartment as being a 'dumpy shit-hole' - A conclusion one could easily arrive at based on the outside appearances of the building itself. In none of the images at all would one be able to arrive at the conclusion that when I moved into the unit it was a completely brand new remodel which included brand new 'everything' which was due to there being a fire not long before I moved in. This includes brand new flooring, cabinets, granite counter-tops, brushed stainless steel appliances, oversized stainless-steel kitchen sink, bathroom tile, vanity, shower, etc. In addition I made sure to buy matching 'brushed stainless' kitchen appliances such as the toaster that is not shown. A full and complete view of the kitchen and bathroom would very easily cause someone viewing the presented images to arrive at the conclusion that my apartment was actually much nicer than is being portrayed in the images
4. Anything at all that would remotely hint at photography or video related items related to the 'big green elephant' sitting in the middle of the living room which is never shown in full, also all appears to be intentionally cropped out. This would include cropping of the images taken in the bedroom so that the light boxes against the ceiling are never shown in addition to making sure to crop out the gigantic roll of black fabric sitting against the wall to the left when entering the bedroom (partially visible in 36-58). In addition there are no images at all included which ever show a full view of the black, wire-frame shelf that is sitting against the wall just to the right as you walk into the apartment (also partially visible in 36-58) which would not only indicate that something mechanical of a substantial nature was being built, but would once again show a very clear portrayal of 'organization'

5. Making sure to not include a clear view of the inversion table that is sitting outside on the deck in images 45-69 and 46-70 combined with the carefully cropped 44-68 image which is focused solely on my adderall prescription containers (including some empty ones I simply hadn't thrown away..) while making sure to crop out the plastic bin sitting on the right side of the cabinet that is filled with vitamins and supplements seems to be a very intentionally crafted exclusion of anything at all which would convey an image of someone who was trying their best to live a balanced and health focused lifestyle. It is worth noting that I had been on the same Adderall prescription for many years prior to this incident and it is the exact same one I am still on currently as it has helped me out tremendously with something I have had significant struggles with since I was very young
6. All of the above, when combined very clearly points to a well thought out, and meticulously crafted false narrative portrayed through the creation of fraudulent discovery material that was injected into my court case for the sole purpose of trying to portray me in the most negative light possible

image: 45-69 native size: 1194x2066 1:1.730

image: 44-67 native size: 1431x805 16:9

image: 46-70 native size: 1209x2052 1:1.697

image: 50-74 native size: 1239x2025 1:1.634

Images below are all 350 pixel wide crops from the images contained in the PDF file '23-815 Guertin - photos of exterior, interior, person 1.21.pdf'

all 3 of these images are directly extracted from PDF images at indicated pixel size and then all were scaled to 5x their original size with no interpolation or smoothing applied during scaling

all 3 have a matching width of 350px wide before being scaled meaning they should all appear identical insofar as any compression artifacts, etc.

all are a 1:1 comparison in terms of pixel density

Image 44-68 350x190 pixels scaled @ 500% with no interpolation applied = 1750x950px

Out of the 80 images in the PDF this one from page 30 is the only one in which these jagged block like artifacts appear - look at the edges of the white menu windows on the screen.

This image is either edited or intentionally had the image compression levels set extremely high (higher than all of the other images..)

Image 30-50 350x190 pixels scaled @ 500% with no interpolation applied = 1750x950px

Image 16-31 350x138 pixels scaled @ 500% with no interpolation applied = 1750x690px

**One of the photos presented in the PDF is actually a duplicate - one which has been cropped, rotated, and brightened to deceptively pass it off as 'unique'**

image: 20-36

image: 23-40

image: 23-40

~~~~ Image 20-36 placed atop image 23-40

**20-36 and 23-40 are the same photograph**

I was able to accomplish this very easily using rotation, scaling, and some very minor perspective transforms (individually moving/adjusting the 4 corners of the image)

also notice that both images have the same exact camera flash reflection which further substantiates that they are in fact the same - if this were not the case achieving perfect alignment of the images (and text..) through manual adjustments would still technically be possible but require a lot more effort due to the wide angle lens distortion present in all of the apartment photographs

image: 23-40

~~~~ Same as above except some 'quick and dirty' adjustment of the levels was carried out on 20-36 so that it more closely matches 23-40

EXHIBIT  
**J**

## Using the lens distortion present in photographs to further substantiate fraud by determining true lens center to confirm image cropping and regions of focus

### Barrel distortion

You know how big barrels have a narrow top and bottom but an expanded center? Well, that's exactly what happens to straight lines in a photo with barrel distortion.

If you use a lens plagued by barrel distortion to photograph a series of lampposts, the lamps will curve outward:

Barrel distortion is one of the most common lens distortions in photography, and it generally happens when you use a wide-angle lens (or the wide portion of a zoom). Keep in mind that the shorter the focal length, the more pronounced the distortion.

<https://digital-photography-school.com/lens-distortion-in-photography/>

**23-40 Image is rotated clockwise approximately 19.5 degrees from true vertical**

**shows the large arc radius of the lens warping the grid above demonstrates image is rotated**

**34-54 white dashed line is true center****36-58 white dashed line is true center****39-62 white dashed is arc white solid is not  
entire left side workstation / desk cropped out****40-63 right side (vanity) is cropped out****45-69 right side / inversion table is cropped****42-65 left fabric rolls/top light boxes cropped**

## Revealing the intentionally missing context of the fraudulent discovery photo's

I took all three book photos on Oct 10th, 2022

ALL POLICE PHOTOS TAKEN ON JAN 21st, 2023

35-56 one of the books is still visible

36-58 almost all of the books are visible here

Green line shows cropping at bottom of lights  
I took this bedroom photo on Dec 2nd, 2022

42-65 Top (lights) and left (fabric roll) cropped

## Revealing the intentionally missing context of the fraudulent discovery photo's

Photo of my prototype I took on Dec 7th, 2022

ALL POLICE PHOTOS TAKEN ON JAN 21st, 2023

34-54 bottom & top cropped - hides invention

34-55 bottom cropped to hide lightbar

Photo I took on February 3rd, 2023

Photo I took on February 3rd, 2023

38-61 left side cropped to hide invention

## Revealing the intentionally missing context of the fraudulent discovery photo's

ALL POLICE PHOTOS TAKEN ON JAN 21st, 2023

## Fw: Something everyone MUST SEE / Matthew Guertin

From matt xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx >

To Milz, Adam<Adam.Milz@courts.state.mn.us>

Date Wednesday, January 3rd, 2024 at 9:40 AM

Adam,

Good morning and happy new year.

I just figured you may want to review some of this prior to our meeting this afternoon. I am just forwarding you the email I sent on December 29th

It includes the following attachments:

- Both of my prior psychological reports resulting from the incident at my apartment on January 21st, 2023 as prepared through the Hennepin County Courts
- a Netflix, Inc. patent that was granted on November 7th with my name and patent listed at the VERY top of it (right above Kanye West)
- My patent - US11577177
- A very detailed visual graph I assembled which clearly establishes the fact that I am not only being 'targeted', but which I believe also hints at a very strong indication of outside 'forces' being involved in my court proceedings.
- A zip file which contains digital forensic PROOF of the above mentioned graph insofar as containing all of the email headers, raw html, .eml exports, and a .PDF file for each and every one of the search dates, companies, and governmental entities I name in the graph.
- All significant email interactions between myself and Dr. Jill Rogstad prior to and following our meeting on March 1st, 2023.
- A letter from my California psychiatrist that I've been seeing for over 7 years in which he is directly responding to Dr. Jill Rogstad's report.

I will follow up with the one other email that was part of this (which is much shorter..)

I would also like you to be aware that while I most certainly will be connecting on Zoom per our scheduled meeting this afternoon I may also choose to be very particular about what I choose to discuss or participate in as far as

whatever it is exactly that my 'exam' consists of. Based on everything that I have now uncovered, the obvious as well as confirmed involvement of outside forces applying pressure to the courts and directly monitoring my case, the blatantly deceptive and egregious report of Dr. Jill Rogstad, along with the additional discovery I've made of someone within the Hennepin County Court system itself involved in what I would assume is a 'criminal' act by producing an alternate (fraudulent..) version of discovery materials related to my case which was not only missing 24 images but which also contains very clear signs of image manipulation it is fair to say that I do not trust anyone at all - which includes you. With that said however it does not mean I won't be respectful and cordial in our interactions, rather I am simply being very upfront, and direct about my current feelings about all of this.

It is in fact because of this very same lack of trust that I have also fired my court appointed attorney, Michael Biglow and am currently representing myself in all court matters moving forward.

I will follow up with one additional email as mentioned above and then I will see you this afternoon.

Thank you

Sincerely,

Matthew David Guertin  
Inventor / Founder / CEO  
InfiniSet, Inc.

Subject: Something everyone MUST SEE / Matthew Guertin

To: Welch, Hanna (Klobuchar) <[Hanna\\_Welch@klobuchar.senate.gov](mailto:Hanna_Welch@klobuchar.senate.gov)>, [sjohnson@minnetonkamn.gov](mailto:sjohnson@minnetonkamn.gov)  
<[sjohnson@minnetonkamn.gov](mailto:sjohnson@minnetonkamn.gov)>, Krystal Beauchane <[kbeauchane@plymouthmn.gov](mailto:kbeauchane@plymouthmn.gov)>,

[XXXXXXXXXX@hennepin.us](mailto:XXXXXXXXXX@hennepin.us) <[XXXXXXXXXX@hennepin.us](mailto:XXXXXXXXXX@hennepin.us)>, [XXXXXXXXXX](mailto:XXXXXXXXXX@hennepin.us) <[XXXXXXXXXX@hennepin.us](mailto:XXXXXXXXXX@hennepin.us)>,  
[XXXXX XXXXXXX](mailto:XXXXX XXXXXXX) <XXXXXXXXXXXXXXXXXXXX>, [XXXXXX XXXXXXX](mailto:XXXXXX XXXXXXX) <XXXXXXXXXXXXXXXXXXXX>

Hello fellow Minnesotans,

This is Matthew David Guertin who was born on July 17th during the year of 1981

This email is being sent to Samantha Johnson (Minnetonka, MN Police Detective Badge #133), Krystal Beauchane (Plymouth, MN Police Officer Badge #147), Hanna Welch (Staffer for US Senator Amy Klobuchar

whom I had direct email communication with and also filled out and filed a prior 'Information Release Form' with to try and get help earlier regarding my current 'situation' involving Netflix, and various US Federal Government agencies including the USPTO, US Army, US State Department, US Air Force, DARPA, Defense Intelligence Agency, and the US IndoPacific Command)

My interactions with Amy Klobuchar's office as well as 'proof' of my 'former CIA' welder along with additional ties to the country of Israel can be viewed here - [mattguertin.substack.com/p/us-senator-amy-klobuchar-contacted](https://mattguertin.substack.com/p/us-senator-amy-klobuchar-contacted)

In addition I am also sending this email to two of my case workers with 'XXXX XXXX' who have been assigned to me as a result of the 'Plan For Care' agreement I entered into for the purpose of satisfying the terms of the 'Stayed Order of Civil Commitment' that was issued through the Hennepin County 4th Judicial District Courts on August 4th of this year, and which all stems from the incident that occurred at my apartment in Minnetonka, MN on January 21st of this year (2023) in which I shot a gun into the air after I became convinced my life was in grave danger (which I address in more detail below)

My complete mindset and the series of events that took place prior to and after I shot the gun off can be viewed here - [mattguertin.substack.com/p/have-a-standoff-with-police-and-swat](https://mattguertin.substack.com/p/have-a-standoff-with-police-and-swat)

In addition I am also including two additional people who work directly within the Hennepin County Court system and are involved with my case as recipients of this email but whose names I am withholding due to the fact that they are not exactly classified as 'public figures' in the way that a Police Officer / Detective or United States Senator such as Amy Klobuchar would be as well as the fact that they have actually been helpful in alleviating some of the anxiety and stress that's resulted from everything I have been subjected to thus far as a result of coming up with a good idea, filing a patent for it, and 'minding my own business'

My initial conception of the idea can be viewed here - [mattguertin.substack.com/p/infiniset-concept-is-conceived](https://mattguertin.substack.com/p/infiniset-concept-is-conceived)

What I was very happily and excitedly doing prior to suddenly suffering from an acute and severe 'mental health issue' consisting of 'Schizophrenia and/or Psychosis' can be viewed here - [mattguertin.substack.com/p/2021-2023-building-business-and-prototype](https://mattguertin.substack.com/p/2021-2023-building-business-and-prototype)

Attached to this email are the following items:

- a zip file named 'LinkedIn-Email-PGP-Headers-PROOF.zip' which contains all of the PGP Headers for each email, raw HTML for each email, .eml export for each email, and a non-redacted PDF print out of each individual email - all of which corresponds to the 'LinkedIn Search & Count Graph' which I am embedding into the body of this email below - The reason this particular data is so important is because it serves to 100% digitally authenticate and verify EACH AND EVERY SINGLE ONE OF THE INDIVIDUAL SEARCHES I LIST IN MY GRAPH AS WELL AS THE CORRESPONDING SEARCH COUNTS - The most important piece of information being the PGP headers which can in fact be digitally 'verified' / 'authenticated' to a pretty reasonable degree simply by copying and pasting the text from each of the files named 'PGP.txt' in the individually dated folders into a website such as this one here - [dnschecker.org/email-header-analyzer.php](https://dnschecker.org/email-header-analyzer.php) as well as this one - [mxtoolbox.com/EmailHeaders.aspx](https://mxtoolbox.com/EmailHeaders.aspx) In the interest of making everything as clear and easy to understand as possible I also attached the result of both of these above mentioned websites after I pasted in the text from the PGP.txt file corresponding to the automated LinkedIn email I received on January 21st, 2023 showing the searches that occurred the

week prior leading up to that date - which you may happen to recognize happens to be the very same date that my police 'standoff' occurred....we'll get back to this point a little later though...

These two corresponding files I attached for reference are named 'Headers\_DNS-Checker\_Example\_2023-01-21.png' and 'Headers\_MX-Toolbox\_Example\_2023-01-21.png'

- 'Rule 20 Evaluation Report.pdf' from Dr. Jill Rogstad dated March 10th, 2023 - Dr. Jill Rogstad's egregious report can be viewed here as well - [mattguertin.substack.com/p/declared-as-schizophrenic-psychotic](https://mattguertin.substack.com/p/declared-as-schizophrenic-psychotic)
- '2023\_8\_4\_CtExamRpt\_27-MH-PR-23-815\_M\_Guertin\_MI-Only.pdf' which is internally titled as 'EXAMINER'S REPORT FOR PROCEEDING FOR COMMITMENT AS A PERSON WHO POSES A RISK OF HARM DUE TO A MENTALLY ILLNESS' completed by 'Michael Robertson PsyD, LP' on August 1st, 2023 with an official date of completion listed as August 4th, 2023 - Michael Robertsons report can also be viewed here - [mattguertin.substack.com/p/dodge-a-bullet-im-not-committed](https://mattguertin.substack.com/p/dodge-a-bullet-im-not-committed)
- The image file 'LinkedIn\_SearchCountGraph\_v5\_1200w.png' (embedded below) which is made up the LinkedIn search data I compiled (and am 100% proving/verifying by my inclusion of the .zip file mentioned above) and which also serves as an overall 'event timeline' which very clearly lays out the complete series of events from the very beginning of the current 'adventure' I am on which started with me creating my website, and then suddenly thinking up the idea for my patent all the way until currently (Now..) due to the fact that I have also added relevant personal and business related events to the timeline as well which includes my police 'standoff' on January 21st in addition to my interactions with the court system among many other things.  
The LinkedIn Search and Count Graph can also be viewed here - [mattguertin.substack.com/p/linked-in-search-count-graph](https://mattguertin.substack.com/p/linked-in-search-count-graph)
- A zip file named 'Dr-Jill-Rogstad-Email-Communication.zip' which contains a total of 23 emails between myself and Dr. Jill Rogstad spanning February 13th, 2023 (pre-meeting) to May 1st, 2023 (post-meeting) with said 'meeting' occurring on March 1st of this year at the Hennepin County Government Center located in downtown Minneapolis.  
All of my communication with Dr. Jill Rogstad is shared here as well - [mattguertin.substack.com/p/declared-as-schizophrenic-psychotic](https://mattguertin.substack.com/p/declared-as-schizophrenic-psychotic)
- 'Mathew-G-letter.pdf' which is a letter written on my behalf as both a character statement as well as a response to Dr. Jill Rogstad's egregious report by my doctor whom I have been seeing for the last 7+ years and whose office is located in Sherman Oaks, CA - Which can be viewed here as well - [mattguertin.substack.com/p/my-doctor-of-7-years-responds](https://mattguertin.substack.com/p/my-doctor-of-7-years-responds)
- 'US11577177B2.pdf' which is US Patent 11,577,177 published on February 14th, 2023 of which I am listed as the applicant as well as the inventor of and which is assigned to InfiniSet, Inc. which is a

Delaware Corporation registered in MN as a 'Foreign Corporation' of which I am the CEO of.

Which can be viewed here as well - [mattguertin.substack.com/p/officially-granted-my-first-patent-ever](https://mattguertin.substack.com/p/officially-granted-my-first-patent-ever)

And the official patent can be downloaded from here - [patentimages.storage.googleapis.com/10/a8/56/6e9cdf0d67cd6c/US11577177B2.pdf](https://patentimages.storage.googleapis.com/10/a8/56/6e9cdf0d67cd6c/US11577177B2.pdf)

- 'US11810254.pdf' which is US Patent 11,810,254 published on November 7th, 2023 of which Netflix, Inc. is listed as the applicant, Stephan Trojansky the inventor, and which is assigned to Netflix, Inc. which is a Delaware Corporation registered in CA as a 'Foreign Corporation' of which Ted Sarandos and Greg Peters are currently the Co-CEOs of (both of whom also received certified mail from myself as part of my efforts to make sure I wasn't relying solely on the electronic 3rd Party submission which can be viewed here - [mattguertin.substack.com/p/3rd-party-prior-art-filed-against-netflix](https://mattguertin.substack.com/p/3rd-party-prior-art-filed-against-netflix) )

My reason for including this patent isn't because of the fact that I successfully filed a '3rd Party Prior Art' submission against it through the USPTO and it technically never should've been granted in the first place but instead for a reason which I find to be a much more compelling and blatantly obvious one - That being the fact that my name and patent are part of the official record as they are both listed at the VERY top of it right above Kanye West and his 2013 patent application (crazy...yes indeed....I'm very aware...) You may also notice that my name and patent appear much different than all of the others - that is because mine is in fact the only item listed which is in fact an officially granted US Patent as opposed to simply an application like the others. One other unique aspect that only applies to my name and patent is the little 'cross' style symbol next to it which is due to the fact that my listing is also the only one which occurred as the result of a 3rd Party Prior Art submission as opposed to all of the others which were instead cited by the patent examiner...

The Netflix patent can be viewed here as well - [mattguertin.substack.com/p/netflix-patent-11810254-infiniset-infringer](https://mattguertin.substack.com/p/netflix-patent-11810254-infiniset-infringer)

And the 'official' Netflix patent can be downloaded from here - [patentimages.storage.googleapis.com/45/b8/52/1d18252bde1d8/US11810254.pdf](https://patentimages.storage.googleapis.com/45/b8/52/1d18252bde1d8/US11810254.pdf)

STATE OF MINNESOTA, Plaintiff

Court File No.: 27CR231886

v.  
Matthew Guertin, Defendant

Filed in Hennepin County District Court Bond Amount fifty thousand (\$ 50,000)

Charges: Weapons  
(including amendments and lesser included charges)

**BOND OBLIGATION AND CONDITIONS**

The Defendant, as Principal, Matthew Guertin (print name)  
and **Universal Fire and Casualty Insurance Company**, as Surety, hereby agree and acknowledge that they are indebted to pay to the  
above named District Court the Bond Amount if the Defendant fails to personally appear in Court at such times and on such dates as  
specified by the Court to answer the charge(s) identified in this Bond, including any amendments of these charges or lesser included  
charges.

The obligation of the Surety becomes null and void upon the occurrence of any of the following events:

1. The dismissal of the charge(s) identified on this form and accompanying Bond;
2. The finding or verdict that Defendant is not guilty of the charge(s) identified on this form and accompanying Bond; or
3. The sentencing of Defendant (whether imposed or stayed) with respect to the charge(s) identified on this form and  
accompanying Bond.

This is an appearance bond only and does not guarantee compliance with conditional release requirements imposed upon the  
Defendant by the Court. This bond shall not be used for payment of any fines, surcharges, costs, or other financial obligation(s)  
imposed upon the Defendant by the Court.

v.

MATTHEW DAVID GUERTIN

Court File: 27-CR-23-1886

**NOTICE OF HEARING**

Your next court appearance is:

**Wednesday, February 22, 2023  
1:30 PM**

with

**Judge Jay Quam  
Hennepin County Government  
Center  
300 South Sixth Street  
Minneapolis, MN 55487**

This appearance is for: Omnibus Hearing

- If you do not appear for this hearing, a bench warrant may be issued for your arrest. For petty misdemeanors, a conviction will be entered if you fail to appear.
- Arrive **15 minutes early** to allow time to go through security and meet with your attorney or to apply for a court-appointed attorney if you do not have funds to hire a lawyer.
- You can receive automatic reminders of future court dates via email or text. Set this up at [www.mncourts.gov/hearing-reminders.aspx](http://www.mncourts.gov/hearing-reminders.aspx) or scan the QR code to enroll.
- Look for your name on a monitor for further courtroom information.
- Court may take a few hours – please plan for this.
- If your contact information changes, you must let the court know at 612-348-2040.
- If you are appearing on a traffic offense, please bring your driver's license and proof of insurance.
- If you are paying a fine, please bring payment if you can. Credit cards, cash, and checks are accepted.
- Stay in touch with your attorney if you have one. If you are representing yourself, please review [www.mncourts.gov/Help-Topics/Representing-Yourself-in-Court.aspx](http://www.mncourts.gov/Help-Topics/Representing-Yourself-in-Court.aspx).
- If you cannot afford to hire a lawyer and would like to apply for a court-appointed attorney before this appearance visit <https://4thcourtspe.courts.state.mn.us> or scan the QR code to start the application.

STATE OF MINNESOTA  
COUNTY OF HENNEPIN

DISTRICT COURT  
FOURTH JUDICIAL DISTRICT

State of Minnesota,

Court File No.: 27-CR-23-1886

Plaintiff,

vs.

**DEFENDANT'S MOTION  
FOR JUDICIAL NOTICE OF  
INDISPUTABLE FACTS**

Matthew David Guertin,

Defendant.

Judicial Officer: Jay Quam

TO: THE HONORABLE JAY QUAM, JUDGE OF THE DISTRICT COURT; THE CLERK OF THE FOURTH JUDICIAL DISTRICT COURT; MS. JACQUELINE PEREZ, ASSISTANT HENNEPIN COUNTY ATTORNEY; AND THE OFFICE OF THE HENNEPIN COUNTY ATTORNEY.

**MOTION**

COMES NOW Matthew David Guertin, the Defendant in the above-entitled action, and respectfully moves this Court to take judicial notice of the following indisputable facts, pursuant to Rule 201 of the Federal Rules of Evidence, which are applicable in this case by virtue of Rule 9.01 of the Minnesota Rules of Evidence:

**Exhibit A (4/2/2014):**

The Defendant is recognized in a blog article on the Touchdesigner software website by Derivative.

**Exhibit B (6/28/2016):**

For the purposes of public record and documenting the 'bigger picture' related to alleged patent fraud, this exhibit is intentionally kept concise without elaborate detail.

**Exhibit C (6/28/2016):**

This exhibit is associated with Exhibit B and is introduced to document specific quotes from an article relevant to the Defendant's case. These quotes are requested to be judicially noticed without further commentary, yet recorded in the public record.

**Exhibit D (7/17/2017):**

Similar to Exhibit B, this entry is maintained in a deliberately straightforward manner to document elements pertinent to the 'bigger picture' of the Defendant's situation.

**Exhibit E (9/30/2018):**

Defendant programmed the custom media server for a free show at the Hollywood Bowl which was celebrating the 100th Anniversary of the LA Philharmonic Orchestra in with there were 20,000 people in attendance, marking a notable accomplishment. This event featured well know performers including Katy Perry, Herbie Hancock, and a surprise performance by John Williams who lead the LA Philharmonic Orchestra in a live performance of the 'Main Theme' from the movie 'Star Wars' which John Williams was the original producer of.

**Exhibit F (9/30/2018):**

Presentation of the aforementioned Hollywood Bowl show on the Defendant's personal portfolio website.

**Exhibit G (April 2019 - Week 1 & 2 of Coachella):**

Defendant received significant credits and recognition for his contributions to Coachella Music Festival as a result of the Bad Bunny set piece he designed and built on the website of XiteLabs.com, whom the defendant had a significant working relationship with during his time in Los Angeles.

**Exhibit H (April 2019 - Week 1 & 2 of Coachella):**

The Defendant's personal portfolio website features the presentation of the set piece for Bad Bunny at Coachella.

**Exhibit I** (April 2019 - Week 1 & 2 of Coachella):

The Defendant is credited in online and print publications of PLSN (Projection, Lights, and Staging News) for his significant role in the creation of Bad Bunny's mainstage Coachella set piece.

**Exhibit J** (April 2019 - Week 1 & 2 of Coachella):

The Defendant's personal portfolio website showcases the custom Pre-Vis system developed for Bad Bunny's performances, aiding in recording specific visual effects for songs and presenting them to Bad Bunny's management team for approval prior to the concert tour taking place.

**Exhibit K** (August-November 2019):

The Defendant is formally credited as an "engineer" for the construction of a 50-foot Falcon structure, highlighting his technical expertise and contribution to significant projects.

**Exhibit L** (August-November 2019):

Presentation of the 50-foot Falcon on the Defendant's personal portfolio website, showcasing his engineering achievement.

**Exhibit M** (August-November 2019):

The Defendant participates in an hour-long video conference, serving as a workshop discussing the intricate creation process and behind-the-scenes aspects of the 50-foot wide Falcon, further establishing his role and expertise in the project.

**Exhibit N** (November 2020):

Defendant sets up his custom Vimeo page, which serves as the hosting platform for videos produced and edited for his personal portfolio, demonstrating his commitment to professional presentation and content curation.

**Exhibit O** (November 2020):

Prior to the Defendant conceiving the idea for his patent/invention, he dedicated his time to developing his personal portfolio website to highlight his projects, evidencing his

proactive approach and responsiveness to the time made available to him because of COVID-19.

**Exhibit P (2/13/2021):**

Defendant completes the official registration of the domain name 'InfiniSet.com,' marking a significant step in establishing his business and patent-related endeavors.

**Exhibit Q (2/13/2021):**

The 'InfiniSet.com' website displays a static page with the InfiniSet logo, for which the Defendant has filed trademark applications, reinforcing the brand identity he has developed for his invention.

**Exhibit R (3/19/2021):**

The Defendant files his first-ever patent application, a provisional patent with the USPTO (Provisional Application # 63/163,135), signifying a pivotal moment in his journey as an inventor and entrepreneur.

**Exhibit S (3/31/2021):**

Shortly following the Defendant's provisional patent filing, Stephan Trojansky files a provisional patent with the USPTO (Provisional Application # 63/168,558), which may bear relevance to the Defendant's own patent-related dealings.

**Exhibit T (4/1/2021):**

The Defendant files a trademark application with the USPTO for the original name 'INFINISET' (USPTO Serial # 90618638) he conceptualized for his business idea, reflecting the continuous development and protection of his intellectual property.

**Exhibit U (6/30/2021):**

Eyeline Studios, with Nevada as its home jurisdiction, is officially registered as a foreign corporation with the California Secretary of State. The signatory is "Scott Miller."

**Exhibit V:**

Tied to the events of 6/30/2021 and the registration of Eyeline SOS, "Scott Miller," an executive of EyeLine Studios with Trojansky listed as CEO, signed the CA SOS filing.

**Exhibit W (11/22/2022):**

The official Netflix Press Release announces the acquisition of Scanline and Eyeline Studios, underscoring the significance of the technology within both Trojansky and the Defendant's patent applications.

**Exhibit X (1/20/2022):**

Google names the dataset for their 'Bard Ai' the same as the Defendant's company, for which a trademark application was filed.

**Exhibit Y (1/21/2022):**

Google's continued use of 'InfiniSet' as a dataset name for 'Bard Ai,' directly coinciding with the Defendant's trademark efforts.

**Exhibit Z (2/10/2022):**

Repetition of Google's action in naming the 'Bard Ai' dataset after the Defendant's trademarked company name.

**Exhibit Oa (3/18/2022):**

The Defendant files official US Patent application 17/698,420.

**Exhibit Aa (3/30/2022):**

Trojansky/Netflix files official US Patent application 17/709,126.

**Exhibit Ba (3/31/2022):**

Trojansky/Netflix files official PCT application US2022/022914.

**Exhibit Ca (4/19/2022):**

Netflix's Q1 2022 Shareholders letter reveals \$125 million spent acquiring Trojansky's companies and a small gaming company, indicating a significant financial transaction.

**Exhibit Da (6/8/2022):**

Yuval Brodsky's US Patent application 17/843,960, is filed with the USPTO.

**Exhibit Ea (6/24/2022):**

PCT examiners' report for the Defendant's PCT application indicates the same June 24th date for the 'Date of Mailing', 'Date of the actual completion of the international search',

and the 'Date of completion of this opinion' and also references Yuval Brodsky's patent application as prior art to the Defendant's PCT application.

**Exhibit Fa (7/12/2022):**

Yuval Brodsky's US Patent 11,383,062 officially published.

**Exhibit Ga (7/18/2022):**

Defendant registers InfiniSet Inc. with the Delaware Secretary of State. This document is also notarized with a date of February 2nd, 2024.

**Exhibit Ha (9/22/2022):**

Defendant's PCT Patent Application US2022/020919 is officially published.

**Exhibit Ia (9/22/2022):**

Yuval Brodsky US Patent application 17/843,960 is officially published.

**Exhibit Oa (9/22/2022):**

Defendant's US Patent application 17/698,420 is officially published.

**Exhibit Ja (11/13/2022):**

Defendant officially registers his Delaware C-Corp with the MN SOS as a foreign corporation.

**Exhibit Ka (12/15/2022):**

Netflix patent assignment takes place - Conveying Party 'EYELINE STUDIOS GMBH' Receiving Party 'NETFLIX, INC.' Signed by Stephan Trojansky.

**Exhibit La (1/12/2023):**

Defendant files police report # 23-000151 with the Minnetonka, MN Police Department detailing suspected patent theft. The police report includes the following key statements made by Minnetonka Police Officer Brandon Harris who spoke with Guertin for approximately 45 minutes and prepared the report:

- "He has filed for and acquired a patent for his invention, 'Motorized Rotatable Treadmill and System for Creating the Illusion of Movement.' "

- "The machine is used for filming cinema."
- "He pitched the patent to Mark Roberts Motion Control (mrmoco.com)."
- "The CEO, Mark Roberts, advised that the technology already existed and is used by Photo Robot (photorobot.com)."
- "He looked at the Photo Robot website and observed the technology used to be similar but different from his."
- "While reviewing the website over a number of days he realized the website was changing to reflect his patent."
- "The website is being updated in real-time with information from his design."
- "He has proof of the fraud."
- "Photo Robot is effectively stealing his patent by making it look like they have already had the technology."
- "He has been downloading the website and has noticed a number of discrepancies between the current version and the old version of the website."
- "He believes that he could sell the patent to Netflix for 100 Million dollars."
- "He originally called the FBI who advised he needed to file a report with his local police agency."
- "He understands there is nothing the police can do."
- "Guertin advised that he has many gigabytes of evidence to show the fraud."
- "I advised Guertin to connect with a computer forensicator in order to parse the data into a readable format."
- "I agreed with Guertin that this issue is beyond the scope of the local police department."
- "I advised Guertin to provide the FBI with the case number and the parsed data when he files the report with them."

**Exhibit Ma (1/21/2023):**

Defendant is arrested after firing a gun to summon police, claiming his devices were hacked, and fearing for his life. This arrest led to criminal charges, which are suggested to be part of a broader pattern of events related to the 'bigger picture' of the case.

**Exhibit Na (2/13/2023):**

Defendant files a continuation patent application US 18/108858.

**Exhibit Oa (2/14/2023):**

Defendant's official patent is published - US 11577177.

**Exhibit Pa (2/17/2023):**

Defendant files a third-party prior art submission against the Netflix patent application 17/709126, citing his now-granted patent US 11577177 which was subsequently reviewed, deemed relevant, and entered into the official record of the Trojansky/Netflix US patent application.

**Exhibit Qa (3/1/2023):**

A previous assignment of the Trojansky 'EyeLine Studios' patent rights to 'Netflix Inc.' is signed by Greg Lunt of the firm 'Greenberg Traurig.'

**Exhibit Ra (3/7/2023):**

USPTO Patent Examiner Abderrahim Merouan reviews Defendant's third-party prior art submission and signs off on it.

**Exhibit Sa (3/10/2023):**

Dr. Jill Rogstad's forensic examination report, submitted to the court, concludes with a diagnosis of the Defendant with an unspecified schizophrenia spectrum and other psychotic disorder, subsequently influencing a finding of incompetence to stand trial. Notably, the report lists and discusses materials reviewed during the evaluation, including Police Report #23-000151 filed by the Defendant with the Minnetonka, MN Police Department on January 12, 2023 and referenced in Exhibit 'La'. This police report, which documents the Defendant's detailed concerns about suspected patent theft and outlines his extensive efforts to protect his intellectual property, contrasts starkly with the conclusions drawn in Dr. Rogstad's report. The inclusion of this police report as a reviewed material raises questions about the thoroughness and impartiality of the forensic examination, particularly when considering the Defendant's active and rational steps to address his legal and business concerns. Furthermore, the report's metadata and standard document

properties identifying 'GuzmanC' as the author adds an additional layer of inquiry regarding the report's preparation and authenticity.

**Exhibit Ta (3/16/2023):**

Following discussions about potential patent fraud with his patent attorney, the Defendant files an Information Disclosure Statement (IDS) for his continuation patent application (US 18/108,858). This IDS notably references Microsoft and Dimension Studios, shedding light on the Defendant's concerns regarding corporate attention. The inclusion of these references directly contradicts Dr. Jill Rogstad's assessment, which classified the Defendant's apprehensions of being targeted by such entities as delusional. This filing demonstrates the Defendant's legitimate engagement with notable companies, challenging the basis of the diagnosis in Dr. Rogstad's report.

**Exhibit Ua (3/26/2023):**

Defendant pays to obtain an online 'Notice of Good Standing' for his company InfiniSet Inc. from the Delaware Secretary of State.

**Exhibit Va (3/27/2023):**

Defendant maintains evidence, including certified mail return cards, post office receipts, and photographs, documenting his communication with Netflix, EyeLine Studios, Scanline VFX, and others concerning his patent US 11577177.

**Exhibit Wa (3/27/2023):**

A document appearing to be an assignment of Trojansky 'EyeLine Studios' patent rights to 'Netflix Inc.' is signed by Greg Lunt of 'Greenberg Traurig', corresponding with earlier exhibits Ka and Qa.

**Exhibit Xa (5/3/2023):**

Defendant files a report detailing suspected fraud with Photo Robot to the FBI via 'ic3.gov', as referenced in his earlier police report filed on 1/12/2023 and presented in Exhibit 'La'.

**Exhibit Ya (5/3/2023):**

Defendant submits a report to the FTC concerning suspected fraud with Photo Robot, as also detailed in the police report from 1/12/2023 and presented in Exhibit 'La'.

**Exhibit Za (6/1/2023):**

Defendant files international trademark application 97699805 for 'INFINISET' in various countries, paying a total of \$4,320.33, as indicated on the application.

**Exhibit Ab (6/1/2023):**

Defendant files international trademark application '1 739 675' with WIPO for the 'INFINISET' logo in multiple countries.

**Exhibit Bb (7/13/2023):**

A court order in criminal case 27-CR-23-1886 is issued by Referee George Borer, declaring the Defendant 'Incompetent to Stand Trial', with the document metadata as well as standard document properties revealing 'Danielle C Mercurio' as the author and a document title of 'Conservator (All Powers; Unlimited Duration)'.

**Exhibit Cb (8/4/2023):**

An Examiner's Report for commitment, citing photos and statements which suggest Defendant's beliefs about a conspiracy involving large enterprises like Microsoft and Netflix, is submitted to the civil court case 27-MH-PR-23-815.

**Exhibit Db (8/21/2023):**

Defendant's patent attorney files a 'Request For Withdrawal As Attorney Or Agent' in the USPTO file for the continuation patent application US 18/108,858, with withdrawal listed as non-detrimental to the client's interests.

**Exhibit Eb (9/7/2023):**

Defendant files a second police report for possible patent fraud with the Plymouth, MN Police Department (Report # 23033797), described as an "informational report."

**Exhibit Fb (9/20/2023):**

Defendant contacts US Senator Amy Klobuchar, detailing alleged patent fraud related to his US patent 11,577,177. He receives a response from Senator Klobuchar's official 'senate.gov' email address.

**Exhibit Gb (10/3/2023):**

The Defendant received a response from Hanna Welch, Constituent Advocate & Intern Coordinator for Senator Amy Klobuchar, including a Privacy Act Release Form, which the Defendant completed and returned. This form highlighted the involvement of the US Army in matters the Defendant perceives as fraudulent. The Defendant also included a link to his Substack page analyzing the vast military applications of his patented virtual immersion technology, emphasizing its potential to revolutionize military training simulations by enhancing safety, realism, and cost-effectiveness.

**Exhibit Hb (10/12/2023):**

The Defendant proactively sent certified mail to Senator Klobuchar's office to Hanna Welch, enclosing the completed Privacy Act Release Form, which again points to the US Army's alleged involvement. Also enclosed were prints of Substack articles, notably one titled "None of them ever say hello," which discusses LinkedIn searches by the US Air Force and the US State Department, hinting at a possible connection to military interest in the Defendant's work, alongside the discovery of further patent-related anomalies involving prominent figures in technology and visual effects.

**Exhibit Ib:**

In the context of ongoing legal proceedings, the Defendant urges the court to consider Referee Danielle C. Mercurio's established ties to the US Army, as detailed in her Minnesota Judicial Branch biography. These ties include her education as a Judge Advocate and her decorated service within the United States Army-National Guard, where she was recognized for her excellence in legal roles. This history is pertinent given the Defendant's concerns regarding military interest and its potential influence on his criminal and civil cases.

**Exhibit Jb (11/7/2023):**

On November 7th, 2023, the USPTO published Netflix, Inc.'s patent 11,810,254, listing Stephan Trojansky as the inventor. Notably, this document references the Defendant's patent (US Patent 11,577,177) as prior art, with the Defendant's last name, 'Guertin,' prominently cited. This citation is a procedural outcome within the USPTO's operations, independent of Netflix's preferences. The presence of the Defendant's patent in such a significant position contrasts with Dr. Jill Rogstad's evaluation, which described the Defendant's concerns about corporate targeting as delusional. This official acknowledgment by the USPTO indirectly validates the Defendant's contributions to the field, challenging the characterization of his beliefs as unfounded in Dr. Rogstad's report.

**Exhibit Kb (12/5/2023):**

Defendant receives a Non-Final Office Action from the USPTO for his continuation patent application US 18/108,858.

**Exhibit Lb (1/5/2024):**

Defendant files a motion for discovery in criminal case 27-CR-23-1886, requesting all 104 police photographs referenced in Dr. Jill Rogstad's "Confidential Forensic Evaluation Report," taken by the Minnetonka Police Department on January 21st, 2023.

**Exhibit Mb (1/16/2024):**

A Notice of Remote Zoom Hearing is filed for a hearing set for July 16th, 2024, in Defendant's criminal case, notably missing the standard time stamp typically included on documents filed through the court's E-File system.

**Exhibit Nb (1/16/2024):**

The Defendant requests the court to judicially notice the absence of index number '40' within the case timeline of his civil court case (27-MH-PR-23-815). This missing index number raises procedural questions, especially when considered alongside other irregularities noted in the case documentation. The absence of sequential order in case filings, as exemplified by this missing index, may suggest administrative oversight or, more concerning, indicative of non-standard handling of the Defendant's case records.

**Exhibit Ob (1/16/2024):**

Additionally, the Defendant highlights an anomaly in the chronological order of index numbers '25' and '26' within the timeline of his criminal case (27-CR-23-1886). Notably, index number '25', which pertains to a crucial court order discussed in Exhibit 'Pb', is filed out of sequence with respect to the events it relates to, particularly the 'Notice of Remote Zoom Hearing' listed as index number '26'. This discrepancy not only disrupts the logical sequence of case events but also warrants scrutiny in the context of ensuring procedural integrity. Given the significant content of the court order at index '25', which predetermines a key aspect of the Defendant's case, the irregularity in filing order further accentuates concerns over the case's administrative handling and the implications for the Defendant's legal rights.

**Exhibit Pb (1/17/2024):**

On January 17th, 2024, a court order pertaining to Defendant's criminal case 27-CR-23-1886 was filed with the courts, raising procedural concerns. This order, listing Danielle C. Mercurio as the signing officer and presumed preparer, was finalized and signed on the morning of January 16th, 2024, prior to the schedule 1:30pm hearing. Notably, the order includes statements about an agreement on incompetency, which was reached "administratively" before the hearing could occur, and outlines the possibility of direct commitment "to an appropriate safe and secure facility." The filing of this order on January 17th, despite being signed and effectively completed the morning of January 16th, is unusual and reflects a break from typical procedural order. Furthermore, this court order, completed in advance of the scheduled hearing, is cataloged as index #25 in the case timeline with a filing date of January 17th, 2024, which is paradoxically listed AFTER index #26—the 'Notice for Remote Zoom Hearing' that was filed on January 16th, 2024. The juxtaposition of these index numbers and their corresponding dates suggests a procedural anomaly or clerical oversight that warrants judicial scrutiny, as it could indicate premeditation or irregular processing of court documents.

**Exhibit Qb (1/30/2024):**

On January 30th, 2024, the Defendant files a 'Motion for Continuance' in his civil case 27-MH-PR-23-815. The motion addresses the Defendant's need for additional time due to insufficient preparation and the lack of essential medical records, specifically Dr. Adam Milz's exam report, which are critical for an effective defense. Notably, the motion underscores a significant communication breakdown, evidenced by emails showing that the court-appointed attorney, Joel Fisher, was provided with an incorrect phone number to reach the Defendant. These emails are pivotal as they reveal the Defendant's initiative in proactively reaching out to Joel Fisher upon learning of the unexpected court hearing, reflecting the Defendant's diligence and active role in his legal matters. This mix-up not only hampered the necessary attorney-client communication but also speaks to the broader challenges faced by the Defendant in navigating the court proceedings. The motion requests the court to recognize these impediments and grant a continuance to ensure fairness and due process.

**Exhibit Rb (1/30/2024):**

On January 30th, 2024, the Defendant exhibits further assertiveness in his legal affairs by filing a 'Motion for Production of Medical Records' in his civil case. The motion seeks to compel the provision of Dr. Adam Milz's exam report—a document of significant pertinence to his defense. Despite previous requests directed to his former criminal defense attorney, Bruce Rivers, the Defendant has not yet received this critical medical report. The filing underscores the Defendant's active pursuit of necessary documentation and highlights a troubling lack of compliance from his defense counsel, which could impede the Defendant's right to a fair legal process. This motion reflects the Defendant's persistence in obtaining all relevant records to ensure a comprehensive and fair consideration of his case in the court proceedings.

**Exhibit Sb (1/31/2024):**

To preclude the need for attendance at the scheduled hearing on February 1st, 2024, which is the result of a court order that explicitly outlines the possibility of Defendant being detained at court and directly committed “to an appropriate safe and secure

facility.” the Defendant signs a 'Waiver' consenting to the extension of his 'Stayed Order of Commitment' for an additional nine months. This agreement was reached under the constraints of not being able to assert his rights as delineated under Minnesota Statute 253B.05 subd.3, 08, and .09, indicating a significant curtailment of the Defendant's legal rights.

**Exhibit Tb (2/20/2024):**

Defendant verifies the standing of his company 'InfiniSet, Inc.' through the Minnesota Secretary of State, confirming it remains in good standing and that he is registered as the 'Chief Executive Officer,' affirming his ongoing entrepreneurial activities and responsibilities.

**Exhibit Ub (3/4/2024):**

The Defendant personally undertook the handling of his patent matters by mailing a 'PETITION FOR EXTENSION OF TIME UNDER 37 CFR 1.136(a)' to the USPTO, requesting a two-month extension. This action, executed with precision and adhering to procedural requirements, illustrates the Defendant's legal competency and intellectual capacity to manage complex patent processes independently. The petition was confirmed to have been successfully delivered and signed for at the USPTO's offices on March 5th, 2024, with the payment of \$128 verified as cashed on March 7th, 2024. Moreover, the Defendant provided a USPS tracking number, further substantiating the delivery and affirming his detailed attention to the procedural aspects of patent management. This self-directed engagement with the USPTO is a testament to the Defendant's cognitive abilities, standing in contrast to the questions of competency raised in other legal contexts.

**Exhibit Vb:**

The Defendant requests the court to take judicial notice of the composition of the Hennepin County Criminal Justice Coordinating Committee (CJCC), notably highlighting the role of Chela Guzman-Weigart, alongside other prominent figures. This request for notice is crucial due to the discovery that 'GuzmanC'—presumed to be Chela Guzman-Weigart—is the author and creator of Dr. Jill Rogstad's forensic exam report. The detailed roster of CJCC members includes:

- Jacob Frey, Mayor of Minneapolis
- Brian O'Hara, Chief of Police, Minneapolis Police Department
- Kerry Meyer, Chief Judge of the Fourth Judicial District Court
- Hilary Caligiuri, Presiding Judge of the Fourth Judicial District Criminal Court
- Sara Gonsalves, Administrator of the Fourth Judicial District
- Dawanna Witt, Sheriff of Hennepin County
- Jason Nelson, representing the Hennepin Police Chiefs Association

The Defendant posits that the inclusion of such influential members within the CJCC, along with the notable role played by Chela Guzman-Weigart, raises substantial questions about the integrity and impartiality of the judicial process concerning his case. The fact that 'GuzmanC' is tied to the production of a critical document in his case warrants the court's attention to potential conflicts of interest and underscores the necessity for this judicial notice.

**Exhibit Wb:**

In further consideration of Guzman-Weigart's role, the court is asked to note her position as 'Assistant County Administrator - Law, Safety, and Justice,' with specific reference to "Safety and Justice Information Technology." This role, linked to the production of Dr. Rogstad's exam report, may suggest a deeper level of involvement in the Defendant's case, amplifying the need for judicial notice of these potential procedural conflicts.

**Exhibit Xb (11/8/2023):**

An insightful article by Thomas L. Hamlin from the Minneapolis law firm 'Robins & Kaplan,' entitled 'Generative Artificial Intelligence, LLMs, And Fair Use After Warhol,' highlights the complex landscape of generative AI and its potential legal implications. This publication, particularly relevant given its origin from a firm with a rich history in intellectual property law, underscores the significant challenges and concerns raised by AI technologies in the realm of copyright and fair use. Notably, the article presents the following key statements on its front page, directly aligning with the Defendant's apprehensions regarding AI's role in intellectual property disputes:

- "Generative Artificial Intelligence (AI) has been characterized as the greatest invention since the Internet, the new new thing, a plagiarism engine, and a technology that will destroy civilization."
- "While some or all of these descriptions may or may not be accurate, one thing is abundantly clear: the technology raises serious copyright infringement and fair-use issues that the United States Copyright Office must address to introduce accountability to a handful of Silicon Valley entrepreneurs and large tech companies who control this technology."

The inclusion of these statements serves to substantiate the Defendant's concerns about AI and intellectual property theft, reflecting a broader recognition within the legal community of the challenges posed by AI technologies. This exhibit underscores the necessity of acknowledging the legitimate and pressing legal issues that the Defendant has raised regarding the protection of his intellectual property in the context of AI advancements.

**Exhibit Yb (11/15/2023):**

A pivotal Notice of Inquiry by the Federal Communications Commission (FCC), document number FCC 23-101, titled "Implications of Artificial Intelligence Technologies on Protecting Consumers from Unwanted Robocalls and Robotexts," sheds light on the profound concerns surrounding generative AI technologies, notably voice cloning. This document, emerging from a federal agency vested with the regulation of communications technologies, acknowledges the potential misuse of AI to deceive and harm consumers. Key excerpts from the document underscore the gravity and immediacy of these concerns:

- "Voice cloning, for example, is a type of generative AI technology which attempts to emulate a human voice to generate speech using a recording of that voice."  
(Part 10, Page 4)
- "For example, are bad actors cloning the voices of specific persons to persuade consumers of call legitimacy-and will bad actors do so with increasing frequency and impact as the quality of voice cloning increases and the cost decreases?"  
(Part 20, Page 8)
- "We believe that certain AI technologies such as "voice cloning" appear to fall within the TCPA's existing prohibition on artificial or prerecorded voice messages because this technology artificially simulates a human voice."  
(Part 25, Page 9)
- "As noted above, "voice cloning" and other similar technologies involve emulating human voices for telephone calls to consumers, but such calls may not involve actual direct interaction with a live person" (Part 25, Page 9)
- Chairwoman Jessica Rosenworcel's statement highlights:  
"I learned about how voice cloning scams are growing and how they can cause special harm for older adults."  
"The anxiety about these technology developments is real. Rightfully so."  
(Page 13)

- Commissioner Geoffrey Starks statement echoes concerns:

"The clearest example of this to date is voice cloning – generative AI technology that uses a recording of a human voice to generate speech sounding like that voice."

"White House Deputy Chief of Staff Bruce Reed, charged with developing the administration's AI strategy, says "voice cloning is one thing that keeps me up at night" "

"Of course, voice cloning is an already-known issue, and one that falls within our existing statutory authority (i.e., the Telephone Consumer Protection Act's ("TCPA") prohibition on calls using artificial or prerecorded voices without consent)"

(Page 15)

The inclusion of this FCC inquiry not only corroborates the Defendant's assertions regarding the potential misuse of AI in intellectual property theft and personal security breaches but also aligns with wider governmental recognition of these issues. By highlighting specific statements from federal regulators, this exhibit underlines the relevance and urgency of addressing AI's implications within the legal framework of the Defendant's case, providing a critical backdrop to the challenges he faces.

**Exhibit Zb** (January 2024):

An influential article from 'Robins Kaplan Business Litigation Quarterly Volume 4.1', penned by Bryan Mechell and titled 'Navigating the Legal Landscape: Generative AI and Copyright Law', captures the zeitgeist of 2023 regarding generative artificial intelligence. The article succinctly begins with a powerful acknowledgment of AI's significant impact on society and the legal world: "Generative artificial intelligence captivated the world in 2023 and is firmly positioned to remain center stage in the coming year. In the United States, the introduction and early-stage use of generative AI have been plagued with legal disputes and speculation."

This statement not only acknowledges the transformative influence of generative AI technologies over the past year but also highlights the burgeoning legal challenges and disputes arising from its application and misuse. The article, emerging from a publication associated with Robins Kaplan, a firm noted for its expertise in intellectual property law, lends further credibility to the Defendant's expressed concerns regarding AI and its potential to infringe on intellectual property rights, including his own. By highlighting this broad yet acute observation of AI's impact, this exhibit aims to contextualize the Defendant's challenges within the wider legal and technological discourse, emphasizing the need for judicial awareness and consideration of these rapidly evolving issues.

### **SUPPORT OF THIS MOTION**

In support of this Motion, the Defendant states as follows:

1. The aforementioned exhibits constitute matters that can be accurately and readily determined from sources whose accuracy cannot reasonably be questioned.
2. Each exhibit is capable of accurate and ready determination by resort to sources whose accuracy is beyond dispute, including official records, documented communications, and public statements or documents.
3. The evidentiary materials supporting these facts have been marked with digital exhibit stickers by the Defendant and will be submitted to the Court as part of the instant motion.
4. The exhibits presented herein range from personal accomplishments and business developments to interactions with governmental entities and patent filings, all of which are pertinent to the Defendant's ongoing legal proceedings and the establishment of his competence, character, and involvement in significant technical and legal activities.

5. Taking judicial notice of these facts will assist in the just determination of this proceeding, as it will provide the Court with a well-documented context within which the current charges and the Defendant's legal and mental competency can be assessed.

6. The Defendant's right to a fair trial is substantially affected by the Court's awareness and consideration of these indisputable facts, particularly in light of the challenges to the Defendant's competency and the allegations of patent fraud.

### **RELIEF SOUGHT**

WHEREFORE, the Defendant respectfully requests that this Court take judicial notice of the facts enumerated in Exhibits A through Zb, as set forth in the attached list, and make them a part of the record in the above-entitled action.

Date: April 3, 2024

Respectfully submitted,

By: /s/ Matthew Guertin

## Matt Guertin's Epic, Never Ending, Oculus Rift, Kinect, TouchDesigner 3D Project | Derivative

([https://derivative.ca/sites/default/files/field/body-images/mattg\\_1200\\_09.jpg](https://derivative.ca/sites/default/files/field/body-images/mattg_1200_09.jpg))

Generated In Real Time By The Kinect.

## FINGER TRACKING AND DRAWING

The finger tracking is achieved by determining where the center of the hand is and then centering a 3D sphere on that point. Instead of using the Kinect's skeletal hand output which is intermittent I use the wrist points. I then figure out the hands center point by getting the averages for all of the RGB pixel values which make up the hand (RGB = XYZ).

The 3D sphere that I center on that point - and I guess the technique overall could best be described as a basketball, with your hand perfectly in the center. I am searching in the front hemisphere for the five points closest to the inside edge of the ball. I do this by running my hand and the ball into a GLSL shader I wrote which compares the two against each other using the GLSL distance function.

Digital Domain MOVA Tech Banned by Federal Judge

## Digital Domain's New Legal Setback Freezes VFX Tech Used by Major Studios

The vaunted motion capture technology known as MOVA can no longer be used by its exclusive licensee, prominent Hollywood visual effects company Digital Domain, according to a recent preliminary injunction issued by a federal judge in San Francisco.

**BY SCOTT JOHNSON** JUNE 28, 2016 12:28PM

COURTESY OF TWENTIETH CENTURY FOX FILM CORPORATION

Prominent Hollywood visual effects company Digital Domain 3.0 has lost the right to use one of its most powerful tools, a facial motion capture technology known as MOVA that has been featured in such top-grossing hits as *Deadpool*, *Guardians of the Galaxy* and *The Curious Case of Benjamin Button*.

# Digital Domain's New Legal Setback Freezes VFX Tech Used by Major Studios

Hollywood Reporter

Scott Johnson

June 28<sup>th</sup>, 2016

## DIRECT QUOTES FROM ARTICLE -

---

"If DD3 is prohibited from using MOVA, DD3 cannot complete pending MOVA projects, develop new MOVAwork, and is hindered in developing non-MOVA business of which MOVA is a component. After selling clients on MOVA for almost three years, Digital Domain would be required to tell its clients that MOVA is not available at Digital Domain — or anywhere. This information inevitably, indeed necessarily, will cause clients to seek alternatives to MOVA, which will permanently injure MOVA's brand and advance competitor interests."

---

---

"DD3/Digital Domain already has captured data of an Academy Award-winning actress for a \$120 million motion picture," Digital Domain's lawyers wrote. "The movie release date is December 2016. Although the capture is complete, the data from this project has not been processed and must be. In addition, DD3/Digital Domain also has captured another well-known actress for a character that is integral to the story of a sequel of a well-known science fiction film."

---

---

It also has put Digital Domain in the awkward position of being obliged to put several of Hollywood's most prominent studios — including 20th Century Fox and Marvel, both of whom are listed as production companies for Deadpool — on notice that some of their biggest and most successful movie franchises could be dragged into further lawsuits and other legal entanglements.

---

---

Perlman then left open the possibility that the technology itself might have uses other than purely for entertainment value. "The parties that have been involved with this technology were not working for me," he said, without specifying who the parties were working for.

---

There was someone else who had gotten an inkling that the MOVA tech might be interesting beyond just the entertainment field: one of Digital Domain's founders, Dr. Scott Ross.

---

Ross and Perlman had spoken once and the topic had come up briefly. "The ability to be able to read lips, do lip sync, do digital avatars, I'm not quite sure what one would do with it," Ross tells THR, "But Perlman seemed to feel there was [Department of Defense] interest into what MOVA was and what he was doing and couldn't talk about it when I asked him."

## LA Phil 100th Anniversary Concert at the Hollywood Bowl - XiteLabs

[Portfolio](#)[Services](#)[Virtual](#)[Production](#)[Team](#)[Press](#)[Clients](#)[Contact](#)

An overview of some of the work involved in creating this show at XiteLabs

As part of our discovery process, the XiteLabs team explored the relationship between color and sound. It drew on previous studies conducted around synesthesia, “the production of a sense impression relating to one sense or part of the body by stimulation of another sense or part of the body.”

Using the scheduled music programming as a base, the XiteLabs team began assigning color palettes and visual storytelling that would perfectly match the orchestra’s musical selections for that evening. The planned music selections ranged from popular, well-known pieces such as [Stravinsky’s ‘Firebird Suite’](#) to the debut performance of a 12-minute atonal modern work ‘*Guasamacabra*’ by Venezuelan composer [Paul Desenne](#) under the direction of the LA Philharmonic’s famed conductor and music director [Gustavo Dudamel](#). The [Youth Orchestra of Los Angeles \(YOLA\)](#) also made an appearance on [Arturo Marquez’s](#) modern classic “Conga Del Fuego Nuevo.”

To encourage attendance from a wider demographic, the LA Phil invited guest pop star [Katy Perry](#), [Herbie Hancock](#) (the LA Phil Creative Chair for Jazz), and [Kali Uchis](#) to join in and perform some of their popular hits. These performances highlighted the magic of the LA Phil—and with wonderful orchestral arrangements by [David Campbell](#) (*Joy, Brokeback Mountain, Spider Man, and Bob Dylan, The Rolling Stones, Paul McCartney*) brought well known pieces such as Katy Perry’s ‘*Firework*’ to new life in front of the full-capacity audience of 17,500 in attendance. The encore and finale to the evening was the emotional and iconic [Main Theme from ‘Star Wars’](#), with guest conductor and original composer [John Williams](#) wielding his (light saber!) wand.

For the LAPHil 100th Anniversary Concert our production approach integrated real-time visuals, reactive to both audio and the conductor’s wand motions, pre-rendered CG material, and live performance controls via Midi/Osc. XiteLabs created the most robust real-time visual mapping show ever done at the Hollywood Bowl, reconfigurable to any venue or scale of show in the future. With the interactive tracking data of Gustavo Dudamel’s performance feeding into Touch Designer and passed to Notch via OSC, and 8 discrete channels of submixed audio from the orchestra driving our pre-programmed looks for pieces such as Star Wars, it was evident to attendees that this was no ordinary projection mapping show!

[Our chief technical artist Matt Guertin designed our show system](#) using the [Luminosity](#) framework created by Keith Lostracco in [Touch Designer 099](#). Luminosity allowed us to save presets and cue the generative system in a very advanced fashion. We had a 3D 4k previz view of the stage and a complete UV mapping pipeline with real time tracing and chasing geometries.

For ‘*Star Wars*’ our programming in Notch accounted for any given section of the orchestra, e.g., ‘Hi Strings’ to illuminate and animate certain areas of the the arch or ‘proscenium’ of the Hollywood Bowl, which, for the John William’s masterpiece theme for ‘*Star Wars*’, was skinned to look very much like the interior of the iconic Millennium Falcon ship that Han Solo pilots in the Star Wars films. In this way, XiteLabs fostered a direct relationship between the musical performance and composition and the audience’s visual experience of the music, while incorporating themed elements that spoke to the originality and beauty of the original IP. We were in awe witnessing The Master John Williams conducting this timeless epic, as our visuals surrounded him and the LA Phil orchestra in fields of asteroids, and onward through a warp-speed tunnel that bridged the past and future!

Big Thanks to everyone who helped make this awesome!

<https://xitelabs.com/portfolio/bad-bunny-x100pre-tour/>

A wide-angle shot of a large outdoor music festival stage. In the foreground, a DJ is visible on the left side of the stage, and a performer in a colorful, patterned outfit is on the right. The stage is filled with equipment, including speakers and lighting rigs. A massive crowd of people is gathered in front of the stage, filling the middle ground. In the background, there are palm trees, a clear blue sky, and a large sign that reads "EXHIBIT H". The overall atmosphere is festive and energetic.

## XiteLabs Taps into Bad Bunny's Mind's Eye for Coachella, and a US Tour – PLSN

The tour then headed to the United States with a big multi-weekend stop in Coachella featuring a separate, one-off stage. The team built an entirely new set piece, with technical design and fabrication/supervision by Xitelabs' Matt Guertin, to fit the staging parameters of the Coachella Music Festival. With only hours to build it onsite before each show, and minutes to execute the staging between acts, Xitelabs executed a not-so-mini miracle.

The design — a giant LED and lighted acrylic eye based on Bad Bunny's signature icon — was created for his stage entrance, and for content that was experienced in real time. LED tiles were custom configured by Xitelabs for the outer circles of the eye and played their own content while the center of eye acted as a revolving video portal through which Bad Bunny made his dramatic entrance. In addition, the center was outfitted with custom LED panels which were re-engineered by Xitelabs to fit the shape of the eye.

## The 50' Falcon

Custom Designed Carbon Fiber Skeleton, Fabrication, Infrared Tracking, Puppeing Setup, Live Projection Mapping

Falconry is a tradition in Saudi Arabia practiced with passion and joy. So much so that UNESCO has declared falconry a living cultural heritage. No portrayal of the Saudi Kingdom could be considered authentic without showcasing its historical significance. The symbolism of the falcon was extremely important, so it had to be represented in a truly imaginative way. To fulfill the vision, a massive carbon-fiber, projection-mapped Falcon was designed and created at XiteLabs. An essential character in the story line, the falcon was controlled by 24 performers, and functioned as a giant puppet (like the [Lion King](#)). With a 50 foot wingspan, it made an awe-inspiring impression. Utilizing a [Blacktrax](#) system, the falcon system was outfitted with 50+ stringers ([Infrared beacons](#)) and 20 IR cameras, allowing it to be tracked and projection-mapped in real time with ultra-precision. Multiple projectors painted the bird with beautiful, real-time content as it soared on a majestic journey across the massive city walls. The falcon's exact position on stage was then relayed back to a [Disguise GX2 media server](#). On the Disguise server, UV mapped, pre-produced animation content played out to multiple projectors on the falcon, in perfect sync with the projection mapping on the walls of Diryah.

The original falcon model was produced by Greg Russell and Miguel Monteagudo, and then handed off to XiteLabs' Matt Guertin who masterminded the trellis structure of the bird, the puppet pole functionality, the wing rotation mechanism, [BlackTrax stringer installation and more](#). All fabrication was completed in the XiteLabs workshop, where costumers wrapped the giant bird in lycra that ultimately acted as the projection surface. The finished design incorporated thousands of interlinks parts, and weighed roughly 420 pounds. Fun Fact: a special [perch](#) had to be produced for the bird to provide a nesting place when it was not in rehearsals.

## Tracking a 50ft Falcon with XiteLabs

### PROJECT DESCRIPTION

For the UNESCO World Heritage Site World Inauguration of Diriyah, XiteLabs took the lead on creating a world record-breaking, largest projection mapping show on an ancient city ever produced. For this historic show, XiteLabs introduced a 50-foot projection mapped falcon puppet supported by 24 dancers and puppet poles. Outfitted with over 50 BTStringers and 20 BTSensors, the falcon gracefully “flew” across the stage with synchronized projection mapping. *G06T 7/73* (2006.01)(57) **ABSTRACT**

A system surrounds an area with a first set of display panels. A second set of display panels is positioned above the area, and a third set of display panels is positioned below the area. A subject is positioned within the area and may be on an omnidirectional treadmill within the area. A controller communicates content to the first set of display panels, the second set of display panels, and the third set of display panels that presents a multidimensional scene when displayed. A set of sensors capture sensor data of the subject within the area while content is displayed. One or more of the sensors may be coupled to a repositioning system that repositions sensors so the subject remains in a field of view of different sensors. From sensor data of the subject, a representation of the subject may be generated for insertion into other video content.

Filing Number

06/30/2021

Filing Date

This Space For Office Use Only

**IMPORTANT** — Read Instructions before completing this form.

Must be submitted with a current **Certificate of Good Standing** issued by the government agency where the corporation was formed. See Instructions.

**Filing Fee** — \$100.00 (for a foreign stock corporation) or  
\$30.00 (for a foreign nonprofit corporation)

**Copy Fees** — First page \$1.00; each attachment page \$0.50;  
Certification Fee - \$5.00

*Note:* Corporations may have to pay minimum \$800 tax to the California Franchise Tax Board each year. For more information, go to [ftb.ca.gov](http://ftb.ca.gov).

**1. Corporate Name** (Go to [www.sos.ca.gov/business/be/name-reservations](http://www.sos.ca.gov/business/be/name-reservations) for general corporate name requirements and restrictions.)

EYELINE STUDIOS, INC

**2. Jurisdiction** (State, foreign country or place where this corporation is formed - **must match** the Certificate of Good Standing provided.)

NEVADA

**3. Business Addresses** (Enter the complete business addresses. Items 3a and 3b cannot be a P.O. Box or "in care of" an individual or entity.)

|                                                                                              |                         |       |          |
|----------------------------------------------------------------------------------------------|-------------------------|-------|----------|
| a. Initial Street Address of Principal Executive Office - <b>Do not enter a P.O. Box</b>     | City (no abbreviations) | State | Zip Code |
| 2505 ANTHEM VILLAGE DR., SUITE E-191                                                         | HENDERSON               | NV    | 89052    |
| b. Street Address of Principal Office in California, if any - <b>Do not enter a P.O. Box</b> | City (no abbreviations) | State | Zip Code |
| 12910 CULVER BLVD STE C                                                                      | LOS ANGELES             | CA    | 90066    |
| c. Mailing Address of Principal Executive Office, if different than item 3a                  | City (no abbreviations) | State | Zip Code |
| 12910 CULVER BLVD STE C                                                                      | LOS ANGELES             | CA    | 90066    |

**4. Service of Process** (Must provide either Individual OR Corporation.)

**INDIVIDUAL** — Complete Items 4a and 4b only. Must include agent's full name and California street address.

|                                                                                           |                         |           |          |
|-------------------------------------------------------------------------------------------|-------------------------|-----------|----------|
| a. California Agent's First Name (if agent is <b>not</b> a corporation)                   | Middle Name             | Last Name | Suffix   |
| SCOTT                                                                                     |                         | MILLER    |          |
| b. Street Address (if agent is <b>not</b> a corporation) - <b>Do not enter a P.O. Box</b> | City (no abbreviations) | State     | Zip Code |
| 12910 CULVER BLVD STE C                                                                   | LOS ANGELES             | CA        | 90066    |

**CORPORATION** — Complete Item 4c. Only include the name of the registered agent Corporation.

c. California Registered Corporate Agent's Name (if agent is a corporation) — Do not complete Item 4a or 4b

**5. Read and Sign Below** (See instructions. Office or title not required.)

I am a corporate officer and am authorized to sign on behalf of the foreign corporation.

## Bringing More VFX Magic to Our Members With the Acquisition of Scanline VFX

**Amy Reinhard**

VP of Studio Operations

**Business** · 22 November 2021

Global

Canada

United Kingdom (Great Britain)

South Korea (Republic of Korea)

Germany

From the interstellar landscape of *Cowboy Bebop* and the ravenous vampires of *Blood Red Sky* to the exploding underground reactor in *Stranger Things 3*, we want to surprise and delight our members by pushing the boundaries of visual effects. So we're pleased to announce today our plans to acquire Scanline VFX, one of the most creative and innovative VFX studios in the world.\*

Scanline was founded in 1989 and is now led by Stephan Trojansky, a trailblazing VFX Supervisor whose proprietary fluid rendering system Flowline won an Academy Award for Technical Achievement in 2008. The company has offices in Vancouver, Montreal, Los Angeles, London, Munich, Stuttgart, and Seoul.

Scanline is known for its complex, photorealistic effects and expertise in virtual production. It's also done an extraordinary job of supporting our creators on everything from the above-mentioned VFX achievements to those in upcoming titles like *Don't Look Up*, *The Gray Man*, *Slumberland*, *The Adam Project* and *Stranger Things 4*.

Netflix will invest in Scanline's pipeline, infrastructure and workforce and continue to support the pioneering work that Scanline's Eyeline Studios is doing in virtual production to push the boundaries of what is visibly possible.

## D Model hyper-parameters

Table 27: Hyper-parameters for pre-training 2B, 8B and 137B models. All models were trained with 256K tokens per batch.

| Parameters | Layers | Units | Heads | pre-train steps | pre-train chips | pre-train time (days) | fine-tune chips | fine-tune time (hours) |
|------------|--------|-------|-------|-----------------|-----------------|-----------------------|-----------------|------------------------|
| 2B         | 10     | 2560  | 40    | 501k            | 64              | 1.5                   | 16              | 3                      |
| 8B         | 16     | 4096  | 64    | 521k            | 64              | 23                    | 16              | 6                      |
| 137B       | 64     | 8192  | 128   | 3M              | 1024            | 57.7                  | 64              | 36                     |

## E Pre-training data composition

The pre-training data, called **Infiniset**, is a combination of dialog data from public dialog data and other public web documents. It consists of 2.97B documents and 1.12B dialogs with 13.39B utterances. The composition of the data is as follows: 50% dialogs data from public forums; 12.5% C4 data [ 11 ]; 12.5% code documents from sites related to programming like Q&A sites, tutorials, etc; 12.5% Wikipedia (English); 6.25% English web documents; and 6.25% Non-English web documents. The total number of words in the dataset is 1.56T. Note that this composition was chosen to achieve a more robust performance on dialog tasks (Section 4) while still keeping its ability to perform other tasks like code generation. As future work, we can study how the choice of this composition may affect the quality of some of the other NLP tasks performed by the model.

## F Pre-training and fine-tuning results

Table 28: Results for Foundation Metrics

| Treatment                | Sensibleness | Specificity | Interestingness | Safety | Groundedness | Informativeness |

## Abstract

We present LaMDA: Language Models for Dialog Applications. LaMDA is a family of Transformer-based neural language models specialized for dialog, which have up to 137B parameters and are pre-trained on 1.56T words of public dialog data and web text. While model scaling alone can improve quality, it shows less improvements on safety and factual grounding. We demonstrate that fine-tuning with annotated data and enabling the model to consult external knowledge sources can lead to significant improvements towards the two key challenges of safety and factual grounding. The first challenge, safety, involves ensuring that the model's responses are consistent with a set of human values, such as preventing harmful suggestions and unfair bias. We quantify safety using a metric based on an illustrative set of human values, and we find that filtering candidate responses using a LaMDA classifier fine-tuned with a small amount of crowdworker-annotated data offers a promising approach to improving model safety. The second challenge, factual grounding, involves enabling the model to consult external knowledge sources, such as an information retrieval system, a language translator, and a calculator. We quantify factuality using a groundedness metric, and we find that our approach enables the model to generate responses grounded in known sources, rather than responses that merely sound plausible. Finally, we explore the use of LaMDA in the domains of education and content recommendations, and analyze their helpfulness and role consistency.

## D Model hyper-parameters

Table 27: Hyper-parameters for pre-training 2B, 8B and 137B models. All models were trained with 256K tokens per batch.

| Parameters | Layers | Units | Heads | pre-train steps | pre-train chips | pre-train time (days) | fine-tune chips | fine-tune time (hours) |
|------------|--------|-------|-------|-----------------|-----------------|-----------------------|-----------------|------------------------|
| 2B         | 10     | 2560  | 40    | 501k            | 64              | 1.5                   | 16              | 3                      |
| 8B         | 16     | 4096  | 64    | 521k            | 64              | 23                    | 16              | 6                      |
| 137B       | 64     | 8192  | 128   | 3M              | 1024            | 57.7                  | 64              | 36                     |

## E Pre-training data composition

The pre-training data, called Infiniset, is a combination of dialog data from public dialog data and other public web documents. It consists of 2.97B documents and 1.12B dialogs with 13.39B utterances. The composition of the data is as follows: 50% dialogs data from public forums; 12.5% C4 data ; [11] 12.5% code documents from sites related to programming like Q&A sites, tutorials, etc; 12.5% Wikipedia (English); 6.25% English web documents; and 6.25% Non-English web documents. The total number of words in the dataset is 1.56T. Note that this composition was chosen to achieve a more robust performance on dialog tasks (Section 4) while still keeping its ability to perform other tasks like code generation. As future work, we can study how the choice of this composition may affect the quality of some of the other NLP tasks performed by the model.

## F Pre-training and fine-tuning results

Table 28: Results for Foundation Metrics

| Treatment                | Sensibleness | Specificity | Interestingness | Safety | Groundedness | Informativeness |
|--------------------------|--------------|-------------|-----------------|--------|--------------|-----------------|
| PT (2B)                  | 76.6         | 46.5        | 10.8            | 84.8   | 45           | 29.2            |

**ABSTRACT**

A system surrounds an area with a first set of display panels. A second set of display panels is positioned above the area, and a third set of display panels is positioned below the area.

(21) Appl. No.: **17/709,126**(22) Filed: **Mar. 30, 2022****Related U.S. Application Data**(60) Provisional application No. 63/168,558, filed on Mar.  
31, 2021.**Publication Classification**(51) **Int. Cl.****G06T 17/20** (2006.01)**G06T 1/00** (2006.01)**G06T 7/73** (2006.01)

A subject is positioned within the area and may be on an omnidirectional treadmill within the area. A controller communicates content to the first set of display panels, the second set of display panels, and the third set of display panels that presents a multidimensional scene when displayed. A set of sensors capture sensor data of the subject within the area while content is displayed. One or more of the sensors may be coupled to a repositioning system that repositions sensors so the subject remains in a field of view of different sensors. From sensor data of the subject, a representation of the subject may be generated for insertion into other video content.

increase in ARM on a F/X neutral basis. We still target a 19%-20% operating margin for the full year 2022, assuming no material swings in F/X rates from when we set this goal in January of 2022.

## Cash Flow and Capital Structure

Net cash generated by operating activities in Q1 was \$923 million vs. \$777 million in the prior year period. Free cash flow<sup>3</sup> amounted to \$802 million vs. \$692 million. We continue to expect to be free cash flow positive for the full year 2022 and beyond.

During the quarter, we completed two acquisitions (leading visual effects company [Scanline](#) and gaming studio [Boss Fight Entertainment](#)), which had a -\$125 million impact on cash. We also announced our purchase of Helsinki-based gaming company [Next Games](#). We've completed the tender offer and expect to complete the transaction in the second half of 2022.

We finished Q1 with gross debt of \$14.6 billion after repaying \$700 million of our senior notes. We're now within the top end of our gross debt target range of \$10-\$15 billion. With cash of \$6.0 billion, net debt was \$8.6 billion at the end of the quarter, equating to a 1.3x LTM leverage ratio<sup>4</sup>. Given those uses of cash and our minimum cash target, we didn't engage in share repurchase activity during the quarter.

## Environmental, Social, and Governance (ESG)

We recently published our [2021 ESG Report](#) (March 30, 2022). We've made good progress on our [climate commitments](#) announced last year - reducing or avoiding more than 14,000 metric tons of emissions in 2021. This enabled us to reduce our Scope 1 and 2 footprint by more than 10% from what it otherwise would have been and puts us on track to cut 45% of these emissions by 2030.

We continue to develop our inclusion lens. In 2021, women made up 51.7% of our global workforce<sup>5</sup>, up from 48.7% in 2020. Half of our US workforce (50.5%) is made up of people from one or more historically excluded ethnic and/or racial backgrounds, including Asian, Black, Hispanic or Latino, Middle Eastern, Native American, and Pacific Islander<sup>6</sup>. That's up from 46.8% in the previous year. The number of US Black employees increased from 8.6% to 10.7% and Black leadership increased from 10.9% to 13.3%. The number of US Hispanic or Latino employees increased from 7.9% to 8.6%, and US Hispanic or Latino leadership grew slightly from 4.3% to 4.4%.

As noted in our last investor letter and our [2022 preliminary proxy](#), the board has decided to recommend to shareholders that Netflix evolve to a more standard large cap company governance structure. At this year's annual meeting in June, we'll present proposals to declassify our board, remove supermajority

<sup>3</sup> For a reconciliation of free cash flow to net cash provided by (used in) operating activities, please refer to the reconciliation in tabular form on the attached unaudited financial statements and the footnotes thereto.

<sup>4</sup> Defined as net debt divided by last twelve months (LTM) adjusted EBITDA (Net income before interest expense and other income/expense, income taxes, depreciation and amortization of property, plant and equipment and further adjusted to exclude other non-cash charges).

<sup>5</sup> 2020 numbers as of December 2020, and 2021 numbers as of December 2021.

<sup>6</sup> Categories based on US reporting requirements.

Receipt is acknowledged of this non-provisional utility patent application. The application will be taken up for examination in due course. Applicant will be notified as to the results of the examination. Any correspondence concerning the application must include the following identification information: the U.S. APPLICATION NUMBER, FILING DATE, NAME OF FIRST INVENTOR, and TITLE OF INVENTION. Fees transmitted by check or draft are subject to collection.

**Please verify the accuracy of the data presented on this receipt.** If an error is noted on this Filing Receipt, please submit a written request for a corrected Filing Receipt, including a properly marked-up ADS showing the changes with strike-through for deletions and underlining for additions. If you received a "Notice to File Missing Parts" or other Notice requiring a response for this application, please submit any request for correction to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections provided that the request is grantable.

This Acknowledgement Receipt evidences receipt on the noted date by the USPTO of the indicated documents, characterized by the applicant, and including page counts, where applicable. It serves as evidence of receipt similar to a Post Card, as described in MPEP 503.

**New Applications Under 35 U.S.C. 111**

If a new application is being filed and the application includes the necessary components for a filing date (see 37 CFR 1.53(b)-(d) and MPEP 506), a Filing Receipt (37 CFR 1.54) will be issued in due course and the date shown on this Acknowledgement Receipt will establish the filing date of the application.

**National Stage of an International Application under 35 U.S.C. 371**

If a timely submission to enter the national stage of an international application is compliant with the conditions of 35 U.S.C. 371 and other applicable requirements a Form PCT/DO/EO/903 indicating acceptance of the application as a national stage submission under 35 U.S.C. 371 will be issued in addition to the Filing Receipt, in due course.

**New International Application Filed with the USPTO as a Receiving Office**

If a new international application is being filed and the international application includes the necessary components for an international filing date (see PCT Article 11 and MPEP 1810), a Notification of the International Application Number and of the International Filing Date (Form PCT/RO/105) will be issued in due course, subject to prescriptions concerning national security, and the date shown on this Acknowledgement Receipt will establish the international filing date of the application.

NOTIFICATION OF TRANSMITTAL OF  
THE INTERNATIONAL SEARCH REPORT AND  
THE WRITTEN OPINION OF THE INTERNATIONAL  
SEARCHING AUTHORITY, OR THE DECLARATION

(PCT Rule 44.1)

Date of mailing  
(day/month/year) 24 June 2022 (24.06.2022)Applicant's or agent's file reference  
G185-0001WO1**FOR FURTHER ACTION** See paragraphs 1 and 4 belowInternational application No.  
**PCT/US2022/020919**International filing date  
(day/month/year) 18 March 2022 (18.03.2022)

Applicant

GUERTIN, Matthew

1. ☒ The applicant is hereby notified that the international search report and the written opinion of the International Searching Authority have been established and are transmitted herewith.

**Filing of amendments and statement under Article 19:**

The applicant is entitled, if he so wishes, to amend the claims of the international application (see Rule 46):

**When?** The time limit for filing such amendments is normally two months from the date of transmittal of the international search report.**How?** Directly to the International Bureau of WIPO preferably through ePCT or on paper to, 34 chemin des Colombettes 1211 Geneva 20, Switzerland, Facsimile No.: +41 22 338 82 70**For more detailed instructions, see** *PCT Applicant's Guide*, International Phase, paragraphs 9.004 - 9.011.

2. ☐ The applicant is hereby notified that no international search report will be established and that the declaration under Article 17(2)(a) to that effect and the written opinion of the International Searching Authority are transmitted herewith.

3. ☐ **With regard to any protest** against payment of (an) additional fee(s) under Rule 40.2, the applicant is notified that:
- ☐ the protest together with the decision thereon has been transmitted to the International Bureau together with any request to forward the texts of both the protest and the decision thereon to the designated Offices.

☐ no decision has been made yet on the protest; the applicant will be notified as soon as a decision is made.

**4. Reminders**

The applicant may submit comments on an informal basis on the written opinion of the International Searching Authority to the International Bureau. These comments will be made available to the public after international publication. The International Bureau will send a copy of such comments to all designated Offices unless an international preliminary examination report has been or is to be established.

Shortly after the expiration of **18 months** from the priority date, the international application will be published by the International Bureau. If the applicant wishes to avoid or postpone publication, a notice of withdrawal of the international application, or of the priority claim, must reach the International Bureau before the completion of the technical preparations for international publication (Rules 90bis.1 and 90bis.3).

Within **19 months** from the priority date, but only in respect of some designated Offices, a demand for international preliminary examination must be filed if the applicant wishes to postpone the entry into the national phase **until 30 months** from the priority date (in some Offices even later); otherwise, the applicant must, **within 20 months** from the priority date, perform the prescribed acts for entry into the national phase before those designated Offices. In respect of other designated Offices, the time limit of **30 months** (or later) will apply even if no demand is filed within 19 months. For details about the applicable time limits, Office by Office, see [www.wipo.int/pct/en/texts/time\\_limits.html](http://www.wipo.int/pct/en/texts/time_limits.html) and the *PCT Applicant's Guide*, National Chapters.

Within **22 months** from the priority date, the applicant may request that a supplementary international search be carried out by a different International Searching Authority, that offers this service (Rule 45bis.1). The procedure for requesting supplementary international search is described in the *PCT Applicant's Guide*, International Phase, paragraphs 8.006-8.032.

This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This international search report consists of a total of 4 sheets.

☐ It is also accompanied by a copy of each prior art document cited in this report.

## 1. Basis of the report

a. With regard to the **language**, the international search was carried out on the basis of:

☒ the international application in the language in which it was filed.

☐ a translation of the international application into \_\_\_\_\_ which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b)).

b. ☐ This international search report has been established taking into account the **rectification of an obvious mistake** authorized by or notified to this Authority under Rule 91 (Rule 43.6bis(a)).

c. ☐ With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, see Box No. I.

2. ☐ **Certain claims were found unsearchable** (see Box No. II).

3. ☐ **Unity of invention is lacking** (see Box No. III).

4. With regard to the **title**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established by this Authority to read as follows:

5. With regard to the **abstract**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established, according to Rule 38.2, by this Authority as it appears in Box No. IV. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. With regard to the **drawings**,

a. the figure of the **drawings** to be published with the abstract is Figure No. 1

☒ as suggested by the applicant.

☐ as selected by this Authority, because the applicant failed to suggest a figure.

☐ as selected by this Authority, because this figure better characterizes the invention.

b. ☐ none of the figures is to be published with the abstract.

## 1. This opinion contains indications relating to the following items:

- ☒ Box No. I Basis of the opinion  
☐ Box No. II Priority  
☐ Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability  
☐ Box No. IV Lack of unity of invention  
☒ Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step and industrial applicability; citations and explanations supporting such statement  
☐ Box No. VI Certain documents cited  
☐ Box No. VII Certain defects in the international application  
☒ Box No. VIII Certain observations on the international application

## 2. FURTHER ACTION

If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

Claims 1-13                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |     |
|                                 | 1.1. Claim 1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |               |     |
|                                 | <p>D1, which is considered to be the closest prior art to the subject matter of claim 1, discloses a motorized treadmill comprising: a linear treadmill belt located on a rotatable surface; and a base upon which a user may walk in all directions with the user's motion uninhibited, wherein the base includes a surface, on which the user contacts the base, with an underlying support (see paragraphs [0180], [0201], [0218] and figure 14A).</p> <p>Claim 1 differs from D1 in one or more sources of vibration for providing selected vibration to one or more locations on a belt. However, the different feature can be easily derived from the feature of D2 considering a plurality of vertically driven cylinders that allow vibration to be transmitted to specific positions of the treadmill (see paragraphs [0018]-[0019]).</p> <p>Therefore, claim 1 is considered to lack an inventive step over a combination of D1, D2.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |               |     |
|                                 | 1.2. Claims 2-13                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |               |     |
|                                 | <p>The additional feature of claim 2 can be easily derived from the feature of D2 considering that a control unit controls the operation of the vibrating treadmill (see paragraph [0018]).</p> <p>The additional feature of claim 3 can be easily derived from the feature of D2 considering that the vertical motion part for generating vibration of the treadmill includes a vertical drive cylinder, an elastic body, and a support plate (see paragraph [0041]).</p> <p>The additional feature of claim 4 can be easily derived from the feature of D1 considering a controller in communication with the force applying unit, the controller for controlling the amount of positive or negative force to simulate a predetermined force (see paragraph [0055]).</p> <p>The additional feature of claim 5 can be easily derived from the feature of D2 considering a plurality of vertically driven cylinders that allow vibration to be transmitted to specific positions of the treadmill (see paragraphs [0018]-[0019]).</p> <p>The additional feature of claim 6 can be easily derived from the feature of D2 considering that the vibration of the earthquake output through the VR device is transmitted to the vibrating treadmill through wired/wireless communication between the vibrating treadmill and the VR device (see paragraph [0016]).</p> <p>The additional feature of claim 7 can be easily derived from the feature of D1 considering that the omnidirectional treadmill surface is removable (see paragraph [0198]).</p> |               |     |

**WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY**

International application No.

PCT/US2022/020919

Box No. V

**Reasoned statement under Rule 43b/s.1(a)(i) with regard to novelty, inventive step and industrial applicability;  
citations and explanations supporting such statement**

The additional features of claims 8-9 can be easily derived from the feature of D1 considering that the linear treadmill is located on the rotatable surface which is rotated by one or more actuators (see paragraph [0218]).

The additional feature of claim 10 can be easily derived from the feature of D1 considering within the base are actuators or other lift and/or retraction members, placed at various locations beneath the surface, to raise and depress the surface, resulting in changes, e.g., elevations, in the surface (see paragraph [0192]).

The additional feature of claim 11 can be easily derived from the feature of D1 considering that a battery provides power to all of the electrical components of the omnidirectional treadmill (see paragraph [0210]).

The additional feature of claim 12 can be easily derived from the feature of D1 considering a user wearing a virtual reality headset (see paragraph [0228]).

The additional feature of claim 13 can be easily derived from the feature of D1 considering that one of the advantages of such a harness design is that it can conform to a very wide range of user shapes and sizes with minimal adjustment (see paragraph [0271]).

Therefore, claims 2-13 are considered to lack an inventive step over a combination of D1, D2.

## 2. Claims 14-16

None of the cited documents disclose the features of claim 14: "wherein the treadmill base is configured to support the user thereon and wherein the treadmill base remains stationary, and the user movement is confined to a surface area of the belt, and the illusion of unrestricted movement is created". And claim 14 is not obvious to a person skilled in the art from the documents individually or in any combination.

Claims 15-16 are dependent on claim 14.

Therefore, claims 14-16 are novel and involve an inventive step.

## 3. Claims 17-20

### 3.1. Claim 17

D1, which is considered to be the closest prior art to the subject matter of claim 17, discloses a method of creating the illusion of movement comprising: providing a linear treadmill belt located on a rotatable surface (see paragraphs [0201], [0218] and figure 14A).

Claim 17 differs from D1 in controlling a speed of an endless track; controlling a direction of the endless track by rotating a turntable; and synching movement of a camera with a real-world speed of the endless track and a distance traveled by a track. However, the different feature can be easily derived from the feature of D1 considering that cameras and sensors are used for tracking the user's motion and physiological parameters, wherein the parameters include position, distance, speed, acceleration, force, energy (see paragraphs [0212], [0245]).

Therefore, claim 17 is considered to lack an inventive step over D1.

### 3.2. Claims 18-20

The additional feature of claim 18 is not disclosed in any of the documents, nor is it obvious to a person skilled in the art over the documents individually or in combination.

The additional feature of claim 19 can be easily derived from the feature of D1 considering a user wearing a virtual reality headset (see paragraph [0228]).

The additional feature of claim 20 can be easily derived from the feature of D1 considering that cameras and sensors are used for tracking the user's motion and physiological parameters, wherein the parameters include position, distance, speed, acceleration, force, energy (see paragraphs [0212], [0245]).

Therefore, claims 19-20 are considered to lack an inventive step over D1, and claim 18 is novel and involves an inventive step.

## II. Industrial Applicability (PCT Article 33(4))

Claims 1-20 are industrially applicable.

**WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY**

International application No.

**PCT/US2022/020919****Box No. VIII      Certain observations on the international application**

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

The term “the scene” in claims 6, 18 has not been previously defined. Therefore, claims 6, 18 are not clear, contrary to the requirements of PCT Article 6.

The term “the user” in claim 20 has not been previously defined. Therefore, claim 20 is not clear, contrary to the requirements of PCT Article 6.

**CERTIFICATE OF INCORPORATION**  
**OF**  
**INFINISET, INC.**

**ARTICLE I**

The name of the corporation is InfiniSet, Inc. (the “**Corporation**”).

**ARTICLE II**

The address of the Corporation’s registered office in the state of Delaware is 251 Little Falls Drive, Wilmington, New Castle County, Delaware 19808. The name of its registered agent at such address is Corporation Service Company.

**ARTICLE III**

The purpose of the Corporation is to engage in any lawful act or activity for which corporations may be organized under the Delaware General Corporation Law.

**ARTICLE IV**

The aggregate number of shares which the Corporation shall have authority to issue is 10,000,000 shares of capital stock all of which shall be designated “Common Stock” and have a par value of \$0.00001 per share.

**ARTICLE V**

The business and affairs of the Corporation shall be managed by or under the direction of the Board of Directors. Elections of directors need not be by written ballot unless otherwise provided in the Bylaws of the Corporation. In furtherance of and not in limitation of the powers conferred by the laws of the state of Delaware, the Board of Directors of the Corporation is expressly authorized to make, amend or repeal Bylaws of the Corporation.

**ARTICLE VI**

(A) To the fullest extent permitted by the Delaware General Corporation Law, as the same exists or as may hereafter be amended, a director of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director.

(B) The Corporation shall indemnify to the fullest extent permitted by law any person made or threatened to be made a party to an action or proceeding, whether criminal, civil, administrative or investigative, by reason of the fact that he, his testator or intestate is or was a director or officer of the Corporation or any predecessor of the Corporation, or serves or served at any other enterprise as a director or officer at the request of the Corporation or any predecessor to the Corporation.

(C) Neither any amendment nor repeal of this Article VI, nor the adoption of any provision of the Corporation's Certificate of Incorporation inconsistent with this Article VI, shall eliminate or reduce the effect of this Article VI in respect of any matter occurring, or any action or proceeding accruing or arising or that, but for this Article VI, would accrue or arise, prior to such amendment, repeal or adoption of an inconsistent provision.

## ARTICLE VII

Unless the Corporation consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware shall be the sole and exclusive forum for (A) any derivative action or proceeding asserting a claim on behalf of the Corporation, (B) any action or proceeding asserting a claim of breach of a fiduciary duty owed by any current or former director, officer, employee or agent of the Corporation to the Corporation or the Corporation's stockholders, (C) any action or proceeding asserting a claim against the Corporation arising pursuant to any provision of the Delaware General Corporation Law or the Corporation's Certificate of Incorporation or Bylaws, (D) any action or proceeding asserting a claim as to which the Delaware General Corporation Law confers jurisdiction upon the Court of Chancery of the State of Delaware, or (E) any action or proceeding asserting a claim governed by the internal affairs doctrine, in each case subject to said Court of Chancery having personal jurisdiction over the indispensable parties named as defendants therein.

## ARTICLE VIII

## NOTICE OF PUBLICATION OF APPLICATION

The above-identified application will be electronically published as a patent application publication pursuant to 37 CFR 1.211, et seq. The patent application publication number and publication date are set forth above.

The publication may be accessed through the USPTO's publically available Searchable Databases via the Internet at [www.uspto.gov](http://www.uspto.gov). The direct link to access the publication is currently <http://www.uspto.gov/patft/>.

The publication process established by the Office does not provide for mailing a copy of the publication to applicant. A copy of the publication may be obtained from the Office upon payment of the appropriate fee set forth in 37 CFR 1.19(a)(1). Orders for copies of patent application publications are handled by the USPTO's Public Records Division. The Public Records Division can be reached by telephone at (571) 272-3150 or (800) 972-6382, by facsimile at (571) 273-3250, by mail addressed to the United States Patent and Trademark Office, Public Records Division, Alexandria, VA 22313-1450 or via the Internet.

In addition, information on the status of the application, including the mailing date of Office actions and the dates of receipt of correspondence filed in the Office, may also be accessed via the Internet through the Patent Electronic Business Center at [www.uspto.gov](http://www.uspto.gov) using the public side of the Patent Application Information and Retrieval (PAIR) system. The direct link to access this status information is currently <https://portal.uspto.gov/pair/PublicPair>. Prior to publication, such status information is confidential and may only be obtained by applicant using the private side of PAIR.

Further assistance in electronically accessing the publication, or about PAIR, is available by calling the Patent Electronic Business Center at 1-866-217-9197.

## ASSIGNMENT OF PATENT RIGHTS

This Assignment of Patent Rights ("**Assignment**") is made and entered into on December 15, 2022  
by and between:

Eyeline Studios GmbH, having a place of business at 100 Winchester Circle, Los Gatos, California 95032 ("**Assignor**") and Netflix, Inc., a Delaware corporation, having a place of business at 100 Winchester Circle, Los Gatos, California 95032 ("**Assignee**").

**WHEREAS** Assignor is the owner of all right, title, and interest in and to the patent applications set forth on Exhibit 1 attached hereto ("**Assigned Patent Assets**") and has agreed to assign and transfer to Assignee all right, title, and interest in and to the Assigned Patent Assets;

**WHEREAS** Assignee is desirous of acquiring all right, title, and interest in and to the Assigned Patent Assets.

**NOW THEREFORE**, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby assigns to Assignee, or its designees, all right, title, and interest in and to all of the following (collectively, the "**Patent Rights**"): (a) the Assigned Patent Assets, including all rights pursuant to 35 U.S.C. § 154; (b) all patents or patent applications (i) to which any of the foregoing claim priority and/or (ii) for which any of the foregoing forms a basis for priority; (c) any and all continuing, divisional, and continuation-in-part applications of any of the foregoing; (d) all requests for continuing examination, substitutions, reissues, extensions, renewals, and reexaminations of any of the foregoing; (e) all foreign patents, patent applications, and counterparts to any of the foregoing, including certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances; and (f) all rights to apply in any country for patents, certification of invention, utility models, industrial design protections, design patent protection, or other governmental grants or issuances corresponding to any of the foregoing throughout the world, including, without limitation, under the Paris Convention for the Protection of Industrial Property, the International Patent Cooperation Treaty, or any other convention, treaty, agreement, or understanding; (g) all inventions set forth in any of the Assigned Patent Assets; (h) all past, present, and future causes of action (whether currently pending, filed, or otherwise) and other enforcement actions (including, without limitation, all rights to damages, injunctive remedies, and relief, and other remedies of any kind for past, current, and future infringement) and all rights to collect royalties (other than royalties or other payments due under agreements entered into by Assignor and third parties prior to the date of this Assignment), damages and profits, due or accrued, relating to any of the foregoing, including the right to sue and recover for, and the right to profits and damages, due or accrued, arising out of or in connection with, any and all past, present or future infringements or dilutions. The assignment of the Assigned Patent Assets includes all documents related to the conception, diligence, and reduction to practice of the inventions disclosed in the Assigned Patent Assets in a manner that satisfies the requirements of 35 U.S.C. § 112 for patent claims in the Assigned Patent Assets and all domestic and international patent filing documents.

Assignor hereby authorizes and requests the Director of the U.S. Patent and Trademark Office, and any official of any other country whose duty it is to issue patents on the applications included in the Patent Rights, to issue all Letters Patent, patents, certificates of invention, utility models, or other governmental

grants or issuances for the inventions disclosed in the Assigned Patent Assets in a manner that satisfies the requirements of 35 U.S.C. § 112 for the patent claims in the Assigned Patent Assets to Assignee, its successors and assigns, as the assignee to the entire interest therein.

The terms and conditions of this Assignment of Patent Rights will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.

**IN WITNESS WHEREOF**, Assignor has caused this Assignment of Patent Rights to be executed by its duly authorized representative on the date set forth below.

HARRIS, BRANDON 62166

01/12/2023

On 01/12/2023 I responded to the Minnetonka Police Department lobby for a report of fraud. I made contact with reporting party MATTHEW DAVID GUERTIN DOB 07/17/1981 in the department lobby.

**GUERTIN STATEMENT:**

- He has filed for and acquired a patent for his invention, "Motorized Rotatable Treadmill and System for Creating the Illusion of Movement."
- The machine is used for filming cinema.
- He pitched the patent to Mark Roberts Motion Control (mrmoco.com).
- The CEO, Mark Roberts, advised that the technology already existed and is used by Photo Robot (photorobot.com).
- He looked at the Photo Robot website and observed the technology used to be similar but different from his.
- While reviewing the website over a number of days he realized the website was changing to reflect his patent.
- The website is being updated in real time with information from his design.

**Minnetonka Police Department**14600 Minnetonka Blvd Minnetonka, MN 55345  
(952) 939-8510

Case #:MP23000151

Incident #: MP23000151

- Photo Robot is effectively stealing his patent by making it look like they have already had the technology.
- He has proof of the fraud.
- He has been downloading the website and has noticed a number of discrepancies between the current version and the old version of the website.
- He believes the master mind behind all of this is Mark Roberts who he initially discussed the patent with.
- He believes that he could sell the patent to Netflix for 100 Million dollars.
- He originally called the FBI who advised he needed to file a report with his local police agency.
- He understands there is nothing the local police can do.

**OFFICER OBSERVATIONS ACTIONS:**

- Guertin advised that he has many gigabytes of evidence to show the fraud.
- I advised Guertin to connect with a computer forensicator in order to parse the data into a readable format.
- I agreed with Guertin that this issue is beyond the scope of the local police department.
- I advised Guertin to provide the FBI with the case number and the parsed data when he files the report with them.

**DISPOSITION:**

- Information Report.

**Officer (2)**

## COMPLAINT

Order of Detention

27-CR-23-1886

Filed in District Court  
State of Minnesota  
1/24/2023

The Complainant submits this complaint to the Court and states that there is probable cause to believe Defendant committed the following offense(s):

### COUNT I

#### Charge: Dangerous Weapons-Reckless Discharge of Firearm Within a Municipality

Minnesota Statute: 609.66.1a(a)(3), with reference to: 609.66.1a(b)(2)

Maximum Sentence: 2 YEARS AND/OR \$5,000

Offense Level: Felony

Offense Date (on or about): 01/21/2023

Control #(ICR#): 23000258

Charge Description: That on or about January 21, 2023, in Hennepin County, Minnesota, MATTHEW DAVID GUERTIN recklessly discharged a firearm within a municipality.

### COUNT II

#### Charge: Firearm-Serial Number-Receive/Possess With No Serial Number

Minnesota Statute: 609.667(3), with reference to: 609.667

Maximum Sentence: 5 YEARS AND/OR \$10,000

Offense Level: Felony

Offense Date (on or about):

01/21/2023 Control #(ICR#): 23000258

Charge Description: That on or about January 21, 2023, in Hennepin County, Minnesota, MATTHEW DAVID GUERTIN received or possessed a firearm that was not identified by a serial number: an automatic rifle.

**COUNT III****Charge: Firearm-Serial Number-Receive/Possess With No Serial Number**

Minnesota Statute: 609.667(3), with reference to: 609.667

Maximum Sentence: 5 YEARS AND/OR \$10,000 Offense Level: Felony

Offense Date (on or about): 01/21/2023

Control #(ICR#): 23000258

Charge Description: That on or about January 21, 2023, in Hennepin County, Minnesota, MATTHEW DAVID GUERTIN received or possessed a firearm that was not identified by a serial number: a full-size pistol.

**COUNT IV****Charge: Firearm-Serial Number-Receive/Possess With No Serial Number**

Minnesota Statute: 609.667(3), with reference to: 609.667

Maximum Sentence: 5 YEARS AND/OR \$10,000

Offense Level: Felony

Offense Date (on or about): 01/21/2023

Control #(ICR#): 23000258

Charge Description: That on or about January 21, 2023, in Hennepin County, Minnesota, MATTHEW DAVID GUERTIN received or possessed a firearm that was not identified by a serial number: a compact pistol.

## STATEMENT OF PROBABLE CAUSE

Complainant has investigated the facts and circumstances of this offense and believes the following establishes probable cause:

On January 21, 2023, officers with the Minnetonka Police Department were dispatched to a report of shots being fired from an apartment at 102XX 34th St. W., Minnetonka, Hennepin County, Minnesota.

Upon arriving in the area officers heard shots and were able to confirm where the apartment shots were coming from, and that the occupant of the apartment was MATTHEW DAVID GUERTIN, dob 7/17/1981, "Defendant" herein. Defendant was yelling "I'm going to die because they stole my patent" and repeatedly yelled a Minnetonka Police Department case number. Defendant spoke with a negotiator and after some time threw two firearms out of the window: an automatic rifle and a pistol in a case. Defendant eventually came out of the apartment and was placed under arrest. In a post-Miranda statement Defendant reported that he had fired multiple rounds to get the police to respond to his location, and that he had shot into the sky and trees. Defendant estimated he had fired approximately twenty rounds. Defendant said that he could not communicate via his computer or phone because other people had gained control of his computer and other devices. Defendant also said that he had bought the parts and put together the firearms that he had used.

Officers recovered three firearms from the incident: an automatic rifle, a full-size pistol, and a compact pistol. None of the firearms had serial numbers on them. Officers also recovered additional ammunition and body armor inside Defendant's apartment.

Defendant is currently in custody.

**FINDING OF PROBABLE CAUSE**

From the above sworn facts, and any supporting affidavits or supplemental sworn testimony, I, the Issuing Officer, have determined that probable cause exists to support, subject to bail or conditions of release where applicable, Defendant's arrest or other lawful steps be taken to obtain Defendant's appearance in court, or Defendant's detention, if already in custody, pending further proceedings. Defendant is therefore charged with the above-stated offense(s).

**SUMMONS**

THEREFORE YOU, THE DEFENDANT, ARE SUMMONED to appear as directed in the Notice of Hearing before the above-named court to answer this complaint.

IF YOU FAIL TO APPEAR in response to this SUMMONS, a WARRANT FOR YOUR ARREST shall be issued.

**WARRANT**

To the Sheriff of the above-named county; or other person authorized to execute this warrant: I order, in the name of the State of Minnesota, that the Defendant be apprehended and arrested without delay and brought promptly before the court (if in session), and if not, before a Judge or Judicial Officer of such court without unnecessary delay, and in any event not later than 36 hours after the arrest or as soon as such Judge or Judicial Officer is available to be dealt with according to law.

*Execute in MN Only**Execute Nationwide**Execute in Border States***[X] ORDER OF DETENTION**

Since the Defendant is already in custody, I order, subject to bail or conditions of release, that the Defendant continue to be detained pending further proceedings.

Bail: \$50,000.00

Conditions of Release: No use of drugs/alcohol; Make All Appearances; Remain Law Abiding; No Possession of Weapons

This complaint, duly subscribed and sworn to or signed under penalty of perjury, is issued by the undersigned Judicial Officer as of the following date: January 24, 2023.

A motorized, rotatable treadmill and a system for creating the illusion of user movement while the user is stationary with respect to an environment as the user walks or otherwise moves on an endless track of the treadmill. The user can then travel an unlimited distance in unlimited directions while remaining stationary in physical location. The speed of the treadmill is precisely controlled and/or precisely matched with movement of a camera and a real-world speed of movement of the user and the distance the user travels on the belt to create the illusion of movement of the person being filmed. When the treadmill is provided within an LED virtual film set or green screen set, background imagery is added to further supplement the movement in a selected environment.

### STATEMENTS

The party making the submission is not an individual who has a duty to disclose information with respect to the above-identified application under 37 CFR 1.56.

This submission complies with the requirements of 35 U.S.C. 122(e) and 37 CFR 1.290.

☐ The fee set forth in 37 CFR 1.290(f) has been submitted herewith.

☒ The fee set forth in 37 CFR 1.290(f) is not required because this submission lists three or fewer total items and, to the knowledge of the person signing the statement after making reasonable inquiry, this submission is the first and the only submission under 35 U.S.C. 122(e) filed in the above-identified application by the party making the submission or by a party in privity with the party.

☐ This resubmission is being made responsive to a notification of non-compliance issued for an earlier filed third-party submission. The corrections in this resubmission are limited to addressing the non-compliance. As such, the party making this resubmission: (1) requests that the Office apply the previously-paid fee set forth in 37 CFR 1.290(f), or (2) states that no fee is required to accompany this resubmission as the undersigned is again making the fee exemption statement set forth in 37 CFR 1.290(g).

PTO/AIA/96 (08-12)

Approved for use through 11/30/2020. OMB 0651-0031  
U.S. Patent and Trademark Office; U.S. DEPARTMENT OF COMMERCE

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

**STATEMENT UNDER 37 CFR 3.73(c)**Applicant/Patent Owner: Netflix, Inc.Application No./Patent No.: 17/709,126 Filed/Issue Date: March 30, 2022Titled: DISPLAYING A SCENE TO A SUBJECT WHILE CAPTURING THE SUBJECT'S ACTING PERFORMANCE USING MNetflix, Inc., a corporation

(Name of Assignee)

(Type of Assignee, e.g., corporation, partnership, university, government)

states that, for the patent application/patent identified above, it is (choose one of options 1, 2, 3 or 4 below):

1. ☒ The assignee of the entire right, title, and interest.
2. ☐ An assignee of less than the entire right, title, and interest (check applicable box):
- ☐ The extent (by percentage) of its ownership interest is \_\_\_\_\_. Additional Statement(s) by the owners holding the balance of the interest must be submitted to account for 100% of the ownership interest.
- ☐ There are unspecified percentages of ownership. The other parties, including inventors, who together own the entire right, title and interest are:

Additional Statement(s) by the owner(s) holding the balance of the interest must be submitted to account for the entire right, title, and interest.

3. ☐ The assignee of an undivided interest in the entirety (a complete assignment from one of the joint inventors was made). The other parties, including inventors, who together own the entire right, title, and interest are:

Additional Statement(s) by the owner(s) holding the balance of the interest must be submitted to account for the entire right, title, and interest.

4. ☐ The recipient, via a court proceeding or the like (e.g., bankruptcy, probate), of an undivided interest in the entirety (a complete transfer of ownership interest was made). The certified document(s) showing the transfer is attached.

The interest identified in option 1, 2 or 3 above (not option 4) is evidenced by either (choose one of options A or B below):

- A. ☐ An assignment from the inventor(s) of the patent application/patent identified above. The assignment was recorded in the United States Patent and Trademark Office at Reel \_\_\_\_\_, Frame \_\_\_\_\_, or for which a copy thereof is attached.
- B. ☒ A chain of title from the inventor(s), of the patent application/patent identified above, to the current assignee as follows:

1. From: Stephan Trojansky To: Eyeline Studios GMBHThe document was recorded in the United States Patent and Trademark Office at  
Reel 059668, Frame 0755, or for which a copy thereof is attached.2. From: Eyeline Studios GMBH To: Netflix, Inc.The document was recorded in the United States Patent and Trademark Office at  
Reel 062197, Frame 0127, or for which a copy thereof is attached.

[Page 1 of 2]

This collection of information is required by 37 CFR 3.73(b). The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. **SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

**STATEMENT UNDER 37 CFR 3.73(c)**

3. From: \_\_\_\_\_ To: \_\_\_\_\_

The document was recorded in the United States Patent and Trademark Office at  
Reel \_\_\_\_\_, Frame \_\_\_\_\_, or for which a copy thereof is attached.

4. From: \_\_\_\_\_ To: \_\_\_\_\_

The document was recorded in the United States Patent and Trademark Office at  
Reel \_\_\_\_\_, Frame \_\_\_\_\_, or for which a copy thereof is attached.

5. From: \_\_\_\_\_ To: \_\_\_\_\_

The document was recorded in the United States Patent and Trademark Office at  
Reel \_\_\_\_\_, Frame \_\_\_\_\_, or for which a copy thereof is attached.

6. From: \_\_\_\_\_ To: \_\_\_\_\_

The document was recorded in the United States Patent and Trademark Office at  
Reel \_\_\_\_\_, Frame \_\_\_\_\_, or for which a copy thereof is attached.☐ Additional documents in the chain of title are listed on a supplemental sheet(s).☒ As required by 37 CFR 3.73(c)(1)(i), the documentary evidence of the chain of title from the original owner to the assignee was, or concurrently is being, submitted for recordation pursuant to 37 CFR 3.11.

[NOTE: A separate copy (i.e., a true copy of the original assignment document(s)) must be submitted to Assignment Division in accordance with 37 CFR Part 3, to record the assignment in the records of the USPTO. See MPEP 302.08]

The undersigned (whose title is supplied below) is authorized to act on behalf of the assignee.

## STATEMENTS

The party making the submission is not an individual who has a duty to disclose information with respect to the above-identified application under 37 CFR 1.56.

This submission complies with the requirements of 35 U.S.C. 122(e) and 37 CFR 1.290.

☐ The fee set forth in 37 CFR 1.290(f) has been submitted herewith.

☒ The fee set forth in 37 CFR 1.290(f) is not required because this submission lists three or fewer total items and, to the knowledge of the person signing the statement after making reasonable inquiry, this submission is the first and the only submission under 35 U.S.C. 122(e) filed in the above-identified application by the party making the submission or by a party in privity with the party.

☐ This resubmission is being made responsive to a notification of non-compliance issued for an earlier filed third-party submission. The corrections in this resubmission are limited to addressing the non-compliance. As such, the party making this resubmission: (1) requests that the Office apply the previously-paid fee set forth in 37 CFR 1.290(f), or (2) states that no fee is required to accompany this resubmission as the undersigned is again making the fee exemption statement set forth in 37 CFR 1.290(g).

**CONFIDENTIAL FORENSIC  
EVALUATION REPORT**

....it is reasonable to conclude his mental health could stabilize and his competency-related abilities improve if a proper treatment regimen was implemented. Given his limited insight into the nature of his symptoms, Mr. Guertin would be an appropriate candidate for **referral for civil commitment as a person who poses a risk of harm due to a mental illness.** Commitment as a person who is mentally ill and dangerous to the public could also be considered given the nature of the specific allegations included with the current referral.

Please do not hesitate to contact me if the Court has further questions about this report.

Respectfully submitted,

*Jill Rogstad* PhD, ABPP, LP

## Matthew David Guertin / Preliminary Introduction and discussion of facts

From matt [REDACTED] >

To jill.rogstad@courts.state.mn.us

BCC Bruce Rivers<riverslawyers@aol.com>

Date Monday, February 13th, 2023 at 4:59 PM

The yellow highlighted link 'what I have been up to over the past 15 years' was a link to my portfolio website – [www.MattGuertin.com](http://www.MattGuertin.com)

Jill,

It was nice to speak with you on the phone the other day and I am looking forward to our meeting on March 1st.

In what I am sure will be one of many follow-up emails leading up to our meeting I would like to provide you with [an initial, short introduction to myself and what I have been up to over the past 15 years](#) as well as a little bit of information about what I currently have taking place in my life in regards to [my patent application](#) - the one I filed on March 19th, 2021 and which will officially no longer be an 'application' beginning tomorrow (v-day) as that is when it [officially grants](#) - tomorrow is also when my patent will be filed as prior art against [this patent here](#) which was invented by [Stephan Trojansky](#) and first filed on March 31, 2021.....12 days later than my application.

It's not an exaggeration to say that the situation I have currently found myself in is similar to winning the lottery. I have had patent attorneys tell me this statement is an accurate depiction of my situation as well as I essentially invalidated ('shredded'...made worthless..) not only the most critical parts of the Trojansky application but many of the additional elements included in his application as well. Not only did I cover the core element of the rotating treadmill with the very broad claims I am being granted tomorrow but I also mention in my disclosure a multi-camera photogrammetry rig, emerging photogrammetry technology (which will be able to cover ['neural radiance fields'](#) or 'nerf' which is what I believe Netflix is working on currently, I mention the creation of a 'digital twin', I mention the user wearing sensors, I specifically mention a 'user cue system' multiple times, and on and on and on.....once my patent gets handed in as prior art against the Trojansky application (which moving forward I will simply refer to as 'The Netflix patent' as that is [who acquired Trojansky's company](#) 'Scanline VFX' for at least 100 million dollars 8 months after he filed his provisional application based on press releases as well as [Q1 2022 Netflix, Inc. Investors report](#) - page 5) it means that they will NEED my patent if they want to be made whole and be able to obtain Intellectual property rights for that which so far they have easily invested a quarter billion dollars into but more likely it is much closer to a half billion dollars.

It is currently my intention to take advantage of the unique situation I am in and outright sell my entire company, [InfiniSet, Inc.](#) (a [Delaware c-corp](#) which I am the CEO of and which is also the company my patent is assigned to upon its issuance tomorrow), collect my money, and exit stage right. That is especially my intention after all of the crazy shit that has been going on ever since I discovered the Netflix patent - which I only stumbled upon after searching for [PhotoRobot](#) to see if they had any patents granted for their ['Virtual Catwalk'](#) which is the product they have been pouring a massive amount of money, time, and effort into fraudulently positioning against my patent - It is when I was [sent an email response](#) by the CEO of [Mark Roberts Motion Control](#), [Assaff Rawner](#) the first week of November that all of this began.....and by 'all of this' I do in fact mean 'ALL OF IT' which would include not only

stumbling upon the Netflix patent (which is so technically written that I had to read it seven times before I realized it was the exact same thing as my patent application) by sheer luck but also my trip down the ultimate rabbit hole as I completely diverted my attention to focus on investigating that which I had the most to lose if I had chosen not to investigate it as it was and still is very obvious that whatever was/is going on is solely for the purpose for trying to fraudulently steal something I have dedicated the last two years of my life bringing to fruition. At the very least they are setting themselves up to be able to steal my patent by being able to build and use it without being found guilty of infringement [by creating a false history](#) that would lead one to believe that they have always been heading in a specific and 'obvious' direction which was only established after I shared my patent application with Mark Roberts Motion Control in an email. This 'false history' includes my discovery that the Wayback Machine / Internet Archive was being fraudulently edited with backdated copies of recently created pages, and ultimately I ended up realizing that it involves [multiple websites](#) and was obviously being accomplished [using chatGPT and/or other sophisticated AI tools](#) (I even go through the fraudulent AI written pages at the end of that video - apparently one of the authors - Samantha McDonald - was able to write at least 2500 articles which were all dated in the same time range near the end of 2020 as you can clearly see in the video.....hint.....those people in the fake Zoom call are also fake - as in completely generated by AI which would include their vocals as well as the subject matter they are discussing...just pay close attention...especially to the repeated use of 'experience' and 'experiential' over and over and over...I will get more into how we logically end up at footwear in follow up emails though) that the general public have been lead to believe do not currently exist. At the very worst what I was investigating and documenting could lead to my patent being challenged and possibly invalidated - which is why it has now turned out to be the 100% correct move on my part to choose to investigate and collect as much evidence as I did. I have close to 100gb of digital forensic evidence I collected in the form of [downloaded full web pages from the archive](#) among others in which I was ultimately [able to process and make sense of to the point of being able to lay all of it out in very clear and easy to understand spreadsheets](#) which proved that the internet archive was 100% in fact being fraudulently edited just based on the statistical/mathematical probability of having the same pattern occur over and over for each group of archived pages I collected (I went on a manual collection run where I downloaded every single archived webpage for 61 of the 89 total blog pages archived for PhotoRobot dot com) and I was able to clearly identify an anomalous pattern that points to clear fraud by copying recently published pages and pasting them into the past. I then was able to further support this when I discovered a code that allowed me to download every single page ever archived for PhotoRobot dot com in which I discovered that there were a bunch of [WARC files being served](#) which relate specifically to updating duplicate pages (although I will admit I still do not fully understand the general protocol - I do know that it can be considered a 'container file' though - much the same way a .zip file is and it's purpose has to do specifically with updating duplicate pages in an easy to implement 'file dump' of sorts. It was when I was finally able to prove beyond any reasonable doubt that there was in fact fraud taking place that I began trying to alert authorities to what i had discovered. I'm not sure if you are fully aware of exactly 'what' the internet archive is but all you have to know is that it is considered a legit form of court admissible evidence - at least I know it is for the USPTO as it has been cited numerous times in cases - so just the fact that I had been able to collect and establish this proof of fraud at the internet archive by itself is a very big deal and one which I believed put my safety at risk as if this information were to become public it would mean that any cases which involved or heavily relied upon information from the Internet Archive (a non-profit 501c3..) would be able to be re-opened and reexamined which could have massive ramifications involving an untold (but I am sure very large..) amount of money. It is my opinion that there is a system in place at the archive to commit the fraudulent editing I have been able to prove and that this has almost certainly been carried out before.

As you have probably ascertained by now I am not your average client and I have a very unique set of circumstances surrounding the criminal charges responsible for bringing us together. It is my personal opinion based on your profession and education that I am being required to sit down with you so that you can 'classify' me as something...meaning that your ultimate goal I believe is to place some sort of universally understood label on me for the purpose of blaming some sort of mental 'disability' or defect upon me which could then be used to explain the incident that happened at my apartment by blaming it solely on me instead of actually considering the crazy and insane set of circumstances which lead up to the extreme decision of me firing a gun off to essentially 'call the police' as seeming completely logical considering the situation I had suddenly found myself in. To be clear I am not in any way trying to minimize the illegal and obviously 'extreme' nature of what I did nor am I trying to make any assumptions or disrespect you/ your education /career /etc. That is definitely not how I would want to come across before even having a chance to meet you in person - I am simply trying to be very clear and upfront with you about what my current thoughts are in general surrounding everything. Basically these are my personal thoughts and opinions and should be considered only that and nothing more.

I will get into more of this in follow up emails as I mentioned previously as it is quite a bit to unpack - even for me who was/is the one caught in the middle of all of it. It is definitely something that will need to be introduced and documented in multiple parts as I could spend a couple days trying to write all of it down chronologically and lay everything out - which I assure you is what I am ultimately going to accomplish and which will make the actions I took at my apartment seem logical or at the very least it will become very clear to everyone (including perhaps a jury of my peers..) that I was put under so much stress that it would make sense that I could've 'cracked' and basically been launched into a fight or flight state where I was genuinely in fear for my life and my safety as everything involving the AI aspect of the 'operation' being carried out against me as well as many strange coincidences all became dots which I was connecting in my head at a faster and faster pace as everything became crystal clear to me - all of which lead to a bad ending for me as far as I was concerned.

I will leave you with a simple question to ask yourself - "What on earth would cause someone who has been traveling the world and accomplishing some of the most amazing technological, engineering, and programming feats since 2014 after essentially traveling to LA with his entire life in a trailer behind him and who now has now moved back home after covid only to continue accomplishing projects which have gained him a massive amount of attention, including winning awards for my 3D photogrammetry Chicago scan, and who then somehow was able to top all of the projects he worked on in LA and all over the world by inventing, patenting and then proceeding to design, engineer, and fabricate a device and system in his living room which can only be described as a complete paradigm shift in the way movies and film will produced going forward, and which he was/is only days away from being able to record a 'proof of concept' video for just as he is also finally going to officially be granted a patent for to suddenly decide that shooting a gun out of his window to alert police makes logical sense?"

And that is the question.....

BUT - I actually have one more question for you which is much less subjective than the previous one I posed to you - that being the following:

I am assuming the interview I conduct with you will be at the very least audio recorded and I would like to check and make sure that it is not a problem if I also record the audio of our interview when it is conducted?

As I mentioned previously this is not just a criminal matter as far as I am concerned but also one which involves my corporation, my patent, my reputation as a CEO, extremely large sums of money, etc, etc and so it is my intention to be sure that I protect myself and my interests by all means possible which is why it seems logical to me that I would also be able to obtain my own personal audio recording of our meeting as well.

I look forward to my continued correspondence with you leading up to our meeting on the 1st.

Sincerely,

Matt Guertin

---

Good afternoon, Mr. Guertin:

I appreciate the effort and time you spent constructing your message to me. I want to assure you that this information is definitely relevant, and you will be asked questions and given the chance to discuss these themes during our interview appointment. However, your message suggested that you plan to send more emails like this, and I would respectfully ask that you not. This request is not because I do not want to discuss these matters; rather, I ask that because email is not the best forum in which to have a productive discussion of these issues. You have given me an introduction to some of the matters you referenced on the phone, and I want to emphasize that you will have the opportunity to discuss them during the March 1 interview. However, it is much more conducive to the evaluation process to have these conversations in real time. Please feel free to bring any documentation with you to the appointment. If it would be difficult to bring physical copies of certain things, this is something we can discuss at the appointment to figure out the best way to proceed.

At the March 1 interview appointment, we will discuss many of the points you brought up, including the purpose and parameters of the evaluation, as well as my role in the proceedings. You will also have the opportunity to ask any questions you may have at that time. I do want to take the time to answer one question you mentioned in your message, however, with regard to audio recording. You are NOT permitted to audio record our interview session on March 1. There are a number of reasons for this, which I am happy to discuss with you at the March 1 appointment. Importantly, the Hennepin County District Court also prohibits the use of any recording devices in courtroom areas.

I look forward to speaking with you further on March 1.

Best regards,

Jill E. Rogstad, Ph.D., LP, ABPP (Forensic)

Senior Clinical Forensic Psychologist

Jill,

Regarding the other methods of being able to share information at the meeting vs. before the meeting in the form of emails:

Would one of those options include an hdmi cable and a monitor?

Good afternoon, Mr. Guertin:

I'm afraid I cannot provide any materials to you. However, if you have a device (e.g., phone, tablet, or laptop), I believe the Government Center has public Wifi you can access. We can discuss further what makes the most sense at the appointment on March 1, but please feel free to bring any of those devices as well as paper documentation.

Best regards,

Jill E. Rogstad, Ph.D., LP, ABPP (Forensic)

Senior Clinical Forensic Psychologist

Board Certified in Forensic Psychology, American Board of Professional Psychology

---

Jill,

This sounds good / reasonable. Thank you.

One of the other things then which I am wondering then however is the following - which is essentially the same exact question asked in a variety of ways for clarity's sake:

Will you be audio and video documenting our meeting?

If I bring a laptop / device to share with you that which pertains to the topics you would like to discuss with me will my 'presentation' of digital information also be clearly documented in a way where if our meeting was reviewed at a later date for some reason that whoever is viewing it would be able to see, hear, and clearly identify that which I am sharing with you on said device?

In regards to any audio or video recording of our meeting that you and the county obtain from our meeting is there some kind of standard/ protocol/procedure regarding where that data is archived, who can access it and under what circumstances, etc, etc. What is the normal procedure basically?

I know that you are presented as a 'neutral' or 'objective' opinion for all intents and purposes. Based upon the fact that you are a PHD, have published papers, appear in various case law discussions in addition to the most obvious of them all which would be your current position as a clinical forensic psychologist it is obvious to me that you must be very good at what you do as a lot of people trust your opinion. So with all of that said I believe what would be a more unlikely case is if you didn't have a natural bias which weighs in favor of the state and ultimately the prosecution since that's basically your employer. I'm not talking about corruption or intentional deceit, etc... rather I am just discussing simple human nature as far as most people who are happily employed developing a healthy and natural sense of loyalty to those that employ them even if that that loyalty (bias) is on a subconscious level. To get to the point of my bringing this up what I am wondering then is how exactly does mine and yours relationship defer from that of an ordinary doctor & patient / doctor & client relationship in regards to HIPAA laws...and particularly those that are enforced in MN?

What is any changes/differences are there as opposed to if you were a privately practicing psychologist and I came to your office and said I'd like to pay you your required fee to have you perform a psychological analysis on me for X and Y reasons?

Is the attached PDF that I've read through and took the time to highlight still considered to be 'current' based on your knowledge?

If these HIPAA laws are still current I am assuming that even if I am unable to personally record any audio or video of our meeting on my own that I would still be able to request and obtain the audio and video you record of the meeting as it would ultimately be considered 'doctors notes' correct? If I am wrong please feel free to provide me with the supporting documents which clearly state this so I can lay it to rest as an issue of mine.

Thank you,

Matthew Guertin

## RE: [EXTERNAL] Matthew David Guertin / Preliminary Introduction and discussion of facts

---

From jill.rogstad@courts.state.mn.us <Jill.Rogstad@courts.state.mn.us>

To Matt [REDACTED] >

Date Friday, February 17th, 2023 at 2:50 PM

---

Hi Mr. Guertin,

As to your question about recordings, no, Psychological Services does not audio or video record any of the evaluations the psychologists do, nor do we allow examinees to produce any such recordings. Again, there are a number of reasons for this, which I'm happy to review on March 1. The remainder of your questions will also all be addressed at the outset of the interview on March 1, before you are asked any questions. At that time, the parameters of the evaluation will be reviewed and discussed, including my role and the differences between this kind of court-ordered evaluation and encounters you might have with a psychologist in other settings. You will also be given time to ask any questions you have that may not have been covered during this process. I am happy to discuss these issues at that time. I am going to stop responding to emails at this time, not to be rude, but because the appointment we have scheduled for March 1 is the more appropriate forum to discuss these matters. Please feel free to bring any questions with you on that date.

Thank you, and I look forward to speaking with you on March 1.

Best regards,

Dr. Rogstad

---

Jill,

Per our meeting the other day here is a copy of the language matrix I created using MAXQDA which I had mentioned during our discussion, but which is too high resolution to have printed out and include with the stack of supporting documents I provided you with.

It is attached. The columns are blog articles from PhotoRobot dot com with the most recent url's/articles on the left hand side and all of the rows are words. The numbers in the matrix and the corresponding colors correlate with the use count as far as how many times a particular word or combination of words was used in each blog post.

This still has the original creation date of December 12th, 2022 which further supports the information I relayed to you about how I had caught on to the fraud taking place early on and had been investigating it for a while leading up to the incident that took place at my apartment resulting in the criminal charges I am currently facing.

It was very nice to meet you and I appreciate you taking the time to listen.

Thanks again,

Matthew Guertin

27-CR-23-1886

Filed in District Court  
State of Minnesota  
3/10/2023 4:30 PM**PSYCHOLOGICAL SERVICES****300 S. 6<sup>th</sup> Street, Suite C-509, Minneapolis MN 55487-0351 • (612) 348-3723 • FAX (612) 348-3452****CONFIDENTIAL FORENSIC  
EVALUATION REPORT**

March 10, 2023

The Honorable Presiding Judge  
Fourth Judicial District Judicial Officer  
Hennepin County District CourtRe: Matthew David  
DOB: Guertin 07/17/1981  
File Number: 27-CR-23-1886

Dear Your Honor:

**REASON FOR REFERRAL**

Matthew Guertin is a 41-year-old man. He is currently charged with four felony counts: (1) dangerous weapons and recklessly discharging a firearm within a municipality and (2) three counts of receiving or possessing a firearm not identified by a serial number. These charges stem from an alleged incident in January 2023 during which the defendant is accused of possessing an automatic rifle, full-size pistol, and compact pistol, and firing shots from his apartment. Pursuant to the court order of the Honorable Lyonel Norris and the Honorable Toddrick Barnette, dated January 25, 2023, Mr. Guertin was referred for an evaluation of his competency to proceed under Minnesota Rules of Criminal Procedure, 20.01, Subd. 2, which addresses his capacity to understand the proceedings, participate in the defense, and consult rationally with counsel. The current report was prepared for this purpose.

**FORENSIC NOTIFICATION**

Mr. Guertin was informed of the nature and purpose of this evaluation at the beginning of the interview. He was told the evaluation concerned his competency to proceed. He was informed the usual doctor-patient relationship did not exist in the context of this court-ordered evaluation, as the information obtained was not confidential. Specifically, he was notified an evaluation report would be prepared and submitted to the Court, and the defense and prosecuting attorneys would also be provided with copies. Mr. Guertin expressed his understanding of this advisement by summarizing its essential components and asking relevant questions. He agreed to participate in the interview.

**SOURCES OF INFORMATION*****Assessment Procedures***

- An interview session with Mr. Guertin on March 1, 2023, at the Psychological Services office of the Hennepin County Government Center (HCGC) in Minneapolis, Minnesota. For training purposes, Dr. Casey Boland, a forensic psychology postdoctoral fellow with Psychological Services, primarily conducted the interview, which I supervised.

Guertin, Matthew

27-CR-23-1886

March 10, 2023

- Mr. Guertin also sent me seven unsolicited email messages on February 13, 2023; February 14, 2023; February 15, 2023; March 2, 2023; and March 3, 2023.

**Records Reviewed**

- The current criminal complaint, Fourth Judicial District, filed January 24, 2023.
- Incident report from the alleged instant offense, Minnetonka Police Department, dated January 21, 2023.
- An incident report regarding incident number MP23000151, Minnetonka Police Department, dated January 12, 2023.
- MNCIS records from court file number 27-CR-23-1886 and other cases referencing the defendant.
- The following discovery materials related to the alleged instant offense:
  - Audio recording from the statement Mr. Guertin made to law enforcement at the time of his arrest.
  - 104 photographs from the alleged offense.
- Medical records from Mr. Guertin's contacts with Hennepin County Medical Center (HCMC), dated October 3, 2009 to October 7, 2009.
- Custodial records from the defendant's incarcerations at the Hennepin County Jail (HCJ), dated December 17, 2007 to January 25, 2023.
- Documentation provided by the defendant, organized in sections with the following title page headings:
  - "Mark Roberts Motion Control - Email Exchange - Exhibit 'MR0.' "
  - "U.S. Patent #11,577,177- Exhibit 'PT1.' "
  - "U.S. Patent #11,577,177- Exhibit 'PA2.' "
  - "U.S. Patent #11,577,177- Exhibit 'PA3.' "
  - "U.S. Patent Application #17/709,126 - Exhibit 'PA1.' "
  - "Trojansky/Netflix - Exhibit 'NF1.' "
  - "Eyeline Studios - Exhibit 'NF3.' "
  - "Virtual Production - Exhibit 'VP1.' "
  - "Mark Roberts Motion Control - [www.MrMoCo.com](http://www.MrMoCo.com) - Exhibit 'MR1.' "
  - "Dimension Studios - Exhibit 'DM1.' "
  - "Dimension Studios - Exhibit 'DM2.' "
  - "Microsoft - Exhibit 'MS4.' "
  - "Microsoft - Exhibit 'MS3.' "
  - "Microsoft - Exhibit 'MS2.' "
  - "Microsoft - Exhibit 'MS1.' "
  - "Photorobot - Exhibit 'PR1.' "
  - "Photorobot & Internet Archive - Exhibit 'PR2.' "
  - "Photorobot & Internet Archive - Exhibit 'PR3.' "
- The following data were emailed to me by the defendant after the interview session:
  - An electronic photograph of a spreadsheet labeled, "Matrix."
  - Two emails addressed to the defendant from "Internet Archive," dated December 9, 2022.
  - Three files containing website data from [www.photorobot.com](http://www.photorobot.com).
  - Incident report from case number MP23000151, Minnetonka Police Department, dated January 12, 2023.
  - Annotated email exchanges between Mr. Guertin and his patent attorney, dated January 5, 2023 to January 6, 2023.

Filed in District Court  
State of Minnesota  
3/10/2023 4:30 PM**Collateral Contacts**

- Tom Prochazka, Assistant Hennepin County Attorney, via email on February 22, 2023.

Three additional sources of data were sought but not available by the time this report was prepared. First, on

Guertin, Matthew

27-CR-23-1886

March 10, 2023

February 22, 2023, Dr. Boland and I attempted unsuccessfully to reach defense counsel to discuss the current referral. Second, I also tried to reach Mr. Guertin's patent attorney on March 10, 2023, without success. Finally, a request for records from the defendant's reported contacts with the Schuster Medical Research Institute in California was not returned.

Filed in District Court  
State of Minnesota  
3/10/2023 4:30 PM**RELEVANT BACKGROUND AND HISTORY*****General History***

Mr. Guertin stated he was born and raised in Minnesota. He indicated he was reared by his mother, and did not have contact with his father during his youth. He also disclosed placements in foster care and involvement with youth services organizations, which he attributed to his youthful behavioral misconduct (e.g., running away and juvenile arrests) and his mother's corresponding difficulty coping with his behavior. However, Mr. Guertin reported a good relationship with his mother, with whom he currently lives, at present. He did not endorse any childhood trauma or victimization, which was consistent with information he offered to medical providers in HCMC records.

Mr. Guertin remarked that he withdrew from school during his senior year of high school "to go work," adding that he "was bored" in school. On this point, he added that he participated in special education curricula for attentional and behavioral difficulties, noting he was "bored," "rambunctious," and had trouble focusing on his studies. He underlined perceptions of his high intelligence, however, noting he found school "boring and easy" and "had a super high GPA [grade point average]." He said he subsequently obtained a general education development (GED) degree. Medical records related further that he did not attend college courses.

Regarding employment, the defendant disclosed he currently works as the chief executive officer (CEO) of a startup company. He reported past employment at "one of the top visual effects companies" in the entertainment industry, adding that he lived in Los Angeles, California for about six years before moving back to Minnesota in 2020. Mr. Guertin also spoke of previous positions at night clubs, and HCMC records from a 2009 contact corroborated that he reported work programming lights for these clubs, as well as self-employment with a painting business, at that time. He disavowed receiving any financial assistance.

***Substance Use History***

During the current examination, Mr. Guertin endorsed an extensive substance use history. He said he began using alcohol and marijuana around age 14. He estimated he consumes alcohol "every couple of months" at social gatherings, though he acknowledged "isolating himself" recently "to the point [that] people think it's unhealthy." He characterized his more recent marijuana use as occasional and opportunistic, noting he will use the drug "if it's around and someone has it," which he approximated occurs "a few times a month." When asked about other drugs, Mr. Guertin stated he has used "everything but heroin" throughout his lifetime, including "psychedelics" (e.g., dimethyltryptamine [DMT] and lysergic acid diethylamide [LSD]) and stimulants (e.g., methamphetamines and crack cocaine). However, he disavowed the use of these drugs within recent years. HCMC records listed similar substances (i.e., alcohol, methamphetamines, LSD, and other hallucinogens) the defendant reported using during a 2009 encounter, noting he identified at that time his drugs of choice as alcohol and hallucinogens. Although he disclaimed during the current evaluation any past participation in substance abuse treatment, HCMC records listed a program in which he was reportedly enrolled as an adolescent in relation to his marijuana use and its effects (i.e., paranoia).

Mr. Guertin stated he is presently prescribed the psychostimulant medication Adderall for attention-related issues. He indicated the medication was authorized by a doctor based in California whom he has seen for the past six years. Records from this facility were requested but not received to verify this information. Nonetheless, photos included with discovery materials showed prescription bottles purportedly at the defendant's apartment, and one listed Adderall in the defendant's name. On this point, when asked directly, Mr. Guertin specified that he takes this

Guertin, Matthew

27-CR-23-1886

March 10, 2023

medication as prescribed. However, he immediately contradicted himself by underlining occasions on which he has taken additional dosages throughout the day, attributing this practice to being "a workaholic."

Filed in District Court  
State of Minnesota  
3/10/2023 4:30 PM**Psychiatric Treatment History**

As mentioned, Mr. Guertin spoke of attention-related problems dating back to his youth. He stated he was diagnosed with both attention-deficit/hyperactivity disorder (ADHD; a neurodevelopmental disorder that emerges during youth and is characterized by difficulties with attentional and behavioral regulation) and bipolar disorder (i.e., a mood disorder in which one experiences prolonged, abnormally elevated mood states). He expressed disagreement with the latter diagnosis, which was similar to statements he made in collateral records. For instance, in an audio recording included with discovery materials, Mr. Guertin underlined his views on this diagnosis by commenting, "You're supposed to go up and down [if you have bipolar disorder], but I'm always up." He disclosed sleep irregularities (e.g., not sleeping for the two days preceding his arrest) at that time. Likewise, the defendant said during the current evaluation that he needs "not even six" hours of sleep at night, underlining further instances of a decreased need for sleep without associated fatigue. He further characterized himself as a high-energy person, though he disclaimed any perceptions that his energy was excessive. He stated he is presently prescribed Adderall and the anti-anxiety medication Klonopin, describing the former as particularly effective for "keep[ing] focus" and "slowing [him] down."

Mr. Guertin disclosed brief hospital admissions "when [he was] younger" that he attributed to complications of his substance use patterns. Specifically, he related he was held at facilities briefly and involuntarily for making "really stupid decisions" while intoxicated. Although they only reflected one such admission, HCMC records corroborated this account. In particular, these records indicated the defendant was admitted to the hospital for four days in October of 2009, after he threatened to jump from an interstate bridge overpass that led to a "90-minute standoff" with law enforcement. At the hospital, Mr. Guertin explained his actions in terms of his drug use, noting he became paranoid and distrustful after using LSD, called 911, became concerned "the police were out to get him instead," and then tried to escape law enforcement by climbing the overpass structure. Records specified his blood alcohol level was also elevated (i.e., 0.10) at the time. A few days into the hospitalization, a psychiatrist documented that Mr. Guertin's speech was somewhat rapid and pressured, and he could be "over-inclusive" with details, but his thinking and perceptions were otherwise unremarkable. Hospital staff reportedly petitioned to have the defendant civilly committed, but it was not supported, and he was eventually discharged without psychiatric medications. At that time, clinicians attributed his clinical presentation at the time of his admission to the effects of his substance use and intoxication level.

During the current evaluation, Mr. Guertin disclaimed any recent mental health symptoms when asked directly. However, both his statements during the interview session and information from collateral sources contradicted this account. The former will be reviewed in the next section of this report. Regarding the latter, the police report and discovery materials from the alleged offense reflected a number of unusual beliefs the defendant espoused around the time of his arrest. On this point, these sources of data indicated he spoke of a technological invention he patented that was worth a great deal of money (i.e., \$250,000,000). He asserted that organizations discovered this invention, and began accessing, "deleting, and changing files in [his] computer." Indeed, the police report and photographs from Mr. Guertin's apartment suggested his electronic devices were wrapped in tinfoil, and he covered his windows and walls with "space blanket material." During an audio recorded statement, the defendant further asserted other persons were trying to "kill [him]," which was corroborated by photographs of statements the defendant had written in a notebook and on the walls throughout his apartment. For instance, he wrote that he believed someone put "a 'hit' out on [him]," adding, "Whoever is behind all of this has one million different ways to set me up or frame me if they want." During the aforementioned audio recording, he said he inferred this nefarious intent by "symbology" he found on websites (e.g., perceived associations with September 11, 2001). He

Guertin, Matthew

27-CR-23-1886

March 10, 2023

also spoke at length about contacts he had with artificial intelligence posing as "real people," noting he discerned the impostors with a "word-language analysis" that identified anomalies (e.g., phrases like "3D scanning") in these discussions. He described recent conversations he had in the following way during the recording: "I don't know if I'm talking to real people at this point."

Filed in District Court  
State of Minnesota  
3/10/2023 4:30 PM

### COURSE OF THE EVALUATION

Mr. Guertin and I spoke prior to the March 1 interview session for the purposes of scheduling. Afterward, he sent me a series of unsolicited email messages in which he asked a number of questions about the upcoming interview, and he offered lengthy descriptions and explanations for the aforementioned belief system accompanied by links he characterized as evidence supporting his assertions. The beliefs in question were consistent with those articulated in both the previous paragraph and the next section of this report. His statements suggested he intended to send me more messages, as he provided the following foreword: "In what I am sure will be one of many follow up emails leading up to our meeting..." I responded by asking that he not send these messages, explaining that both

(a) the information he provided and (b) his questions (which referenced some themes contained in the aforementioned forensic notification) would be reviewed at length during the interview session. I directed him to bring the evidence to which he referred to the interview session, at which time I would review it. He subsequently sent a message with a logistical question, which I answered, but he later sent another long email with several questions. I assured him that he would be provided ample opportunity to make these inquiries (which were again relevant to the evaluation but would be addressed by the forensic notification), and I indicated I would no longer respond to any such messages since the interview session was the appropriate forum in which to discuss these matters. Mr. Guertin adhered to these boundaries, and he did not send more emails before the March 1 session. He supplemented our discussions from the interview session with four additional emails that included annotated attachments, which he asserted supported the statements he made during the interview.

### CURRENT CLINICAL PRESENTATION

As mentioned, the interview session occurred in person at the HCGC. Mr. Guertin arrived approximately 30 minutes late for the appointment, although he called to notify me that he was on the way to the session and would be tardy. I explained the policy regarding examinees' late arrivals, and he replied that he would rather be late and "100% prepared" than arrive on time. As noted, he arrived with a large stock of documents, organized into sections, which he provided for my review and stated supported his assertions.

During the interview session, Mr. Guertin was occasionally difficult to hear given the configuration of these on-site interview rooms, which are equipped with Plexiglas in relation to the recent global pandemic. Nonetheless, these issues were easily surmounted with requests that he repeat the relevant information, which the defendant obliged. As mentioned, a postdoctoral fellow in forensic psychology conducted the bulk of the interview, but I was present in the room throughout the session, supervised its administration, and offered additional inquiries as indicated.

Mr. Guertin was alert. His eye contact was adequate. He remained seated without apparent difficulty during the session, and he did not appear restless or exhibit any abnormal movements. Furthermore, he adhered to the boundaries set and enforced while conducting the interview, although he expressed irritation in a slightly condescending manner on one occasion in response to Dr. Boland's interruption to keep his comments on-topic.

The defendant appeared to be in good spirits. When asked, he disclaimed any suicidal or violent thinking, intent, or plan, and he was not judged to be at imminent risk of harm to himself or others at the time of the interview. Notably, he spoke in a self-aggrandizing manner throughout the session, emphasizing his perceived achievements, abilities, and skills on numerous occasions. Indeed, as an illustrative example, Mr. Guertin repeatedly highlighted perceptions of his high intellect (e.g., "I'm smart. [...] I'm very good at telling stories, and [I am] very smart"). His

Guertin, Matthew

27-CR-23-1886

March 10, 2023

remarks often impressed as grandiose in nature. For instance, he spoke of being "an engineer," describing a recent technological invention in glowing terms and characterizing it as somewhat revolutionary.

Filed in District Court  
State of Minnesota  
3/10/2023 4:30 PM

Mr. Guertin espoused perceptual disturbances consistent with delusions (i.e., fixed beliefs that deviate markedly from objective reality and are held despite contradictory evidence). He spoke at length about his prowess with technology, including an invention he patented related to visual effects and photography technology. While some elements of his assertions referenced real technological subjects (e.g., neural radiance fields<sup>1</sup>), the defendant's views in relation to these matters were also consistent with the phenomenology of delusions. In particular, he asserted that large corporations (e.g., Netflix and Microsoft) discovered this technology, realized the financial incentives at stake, and began to target the defendant for nefarious purposes. For instance, he expressed views that these agencies accessed his patented technology through his personal devices, fraudulently implemented it as if created by them, and went to great lengths to cover up the theft. Mr. Guertin further insisted the entities in question intended to harm or kill him, referring to the situation as a "conspiracy" "at a bigger level" in which he perceived his "safety to be at risk," citing "weird coincidences" (e.g., the presence of "two cars behind [him]" at one time<sup>2</sup>) to support his conclusions. His remarks and reasoning in these domains referenced unclear, irrational reasoning and implausible events. On this point, the defendant produced a large volume of documentation, which was reviewed for this examination, that he stated supported his conclusions. However, the links between some of these data and his inferences were not clear. Rather, they showed that his patent had the potential to be lucrative if it was as innovative as others he used as examples. The documentation he identified as most critical<sup>3</sup> did not support his assertions, instead suggesting Mr. Guertin was prone to inferring nefarious intent from benign stimuli. The documentation and supplementary, emailed materials in no way supported or clarified the more improbable (e.g., targeting him individually to harm him) elements of his beliefs. On the contrary, the defendant's statements were commensurate with persecutory and referential (i.e., the belief that random events have personal significance) thinking.

Although his speech was not pressured, Mr. Guertin was verbose, as his responses to our questions frequently included excessive detail not targeted by the question. He was prone to long narratives on themes only peripherally related to the topic at hand. He could be directed with firm interjections and attempts to refocus him to the subject at hand, but these interventions were less successful as the interview progressed. Indeed, the defendant was prone to distraction, often by his own thoughts. He tended to offer fragmented remarks that failed to convey an entire idea before drifting to another subject that was either (a) loosely related to his prior statements or (b) required repeated clarification from Dr. Boland or me to discern the links. This tendency became increasingly prominent as the interview progressed, particularly as we discussed his delusional beliefs in more depth, and occurred especially in response to open-ended questions. It also became increasingly difficult to intervene and redirect his attention

<sup>1</sup> For example, see Mildenhall, B., Srinivasan, P. P., Tancik, M., Barron, J. T., Ramamoorthi, R., & Ng, R. (2022). NeRF: Representing scenes as neural radiance fields for view synthesis. *Communications of the ACM*, 65(1), 99-106. DOI: 10.1145/3503250. Accessed from <https://dl.acm.org/doi/pdf/10.1145/3503250> on February 28, 2023.

<sup>2</sup> In the discovery materials reviewed for the current evaluation, Mr. Guertin made a similar reference to these observations during his audio recorded interview with law enforcement around the time of his arrest, which involved his presence at the police station on a prior date. Notably, the interviewing detective outlined a reality-based, plausible explanation for the presence of these vehicles, though the defendant continued to assert the nefarious intent signaled by their presence during the current interview.

<sup>3</sup> Mr. Guertin selected a series of email exchanges between a CEO of a related technology company and himself as particularly emblematic of the alleged fraud and conspiracy he discussed. The CEO in question expressed interest in the defendant's patented technology but linked another, similar "system that's been around for years," further inquiring how Mr. Guertin's patent was "unique compared to" this existing technology.

Guertin, Matthew

27-CR-23-1886

March 10, 2023

to the matter at hand during these instances. On this point, Mr. Guertin had difficulty completing a full, coherent narrative without becoming sidetracked by seemingly incidental elements of the story, which rendered the progression of his logic and overall meaning of his statements difficult to discern. As an illustrative example, I asked Mr. Guertin a series of questions toward the end of the session to clarify some information he had provided. I purposefully presented these inquiries in a targeted, directive manner to mitigate the potential for such long, meandering narratives. Nevertheless, his responses remained disjointed, and they often failed to convey the specific information sought despite his tendency to speak for long periods of time. For instance, when I asked him to expand on examples of "coincidences" to which he had previously referred, he spoke of "see[ing] patterns" because he is "very analytical" and repeating his ability to infer "patterns" before launching into a long, meandering narrative during which he referenced a (a) person with whom he spoke at the Central Intelligence Agency (CIA), (b) "special ops gear" related to his "inventions" and a related description, (c) and "weird things" that suggested he might be returning to the point of my question. However, he instead referenced contacts he had with individuals from various agencies (e.g., the CIA, Federal Bureau of Investigations, and Minnetonka Police Department). I attempted to clarify these statements, but Mr. Guertin's circuitous thinking and speech rendered his logic difficult to follow. He also seemed to contradict himself at times. Indeed, on a few occasions, I tried to summarize succinctly my understanding of the broader conceptual themes of his long, disjointed statements. The defendant indicated my inferences were inaccurate, but his attempts to explicate and correct any misconceptions failed to convey his meaning coherently given his propensity for digressions in his thinking and speech.

Filed in District Court  
State of Minnesota  
3/10/2023 4:30 PM

#### **FORENSIC ANALYSIS AND OPINION**

According to the Minnesota Rules of Criminal Procedure, 20.01, Subd. 2, a defendant is incompetent to proceed with his legal case if he is presently experiencing symptoms of a mental illness or cognitive impairment that prevent his from understanding the proceedings, participating in the defense, or consulting rationally with counsel. I considered these criteria when developing the current forensic opinion.

#### ***Does the defendant have a mental illness or cognitive impairment?***

Clinical impressions were formed considering information from the above-named sources, which provide sufficient basis to offer the following diagnosis in accordance with the criteria set forth by the *Diagnostic and Statistical Manual of Mental Disorders*, Fifth Edition, Text Revision (DSM-5-TR):

Unspecified Schizophrenia Spectrum and Other Psychotic Disorder (primary)

Mr. Guertin's current presentation is consistent with diagnosis of a psychotic disorder, a condition characterized by grossly disrupted perceptions of external reality. In particular, he displays prominent delusional beliefs that include persecutory and referential themes, as he is convinced he has been targeted by large corporations who intend to (a) steal a patented technology that could revolutionize the industry and (b) harm him. On this point, the limits of my expertise in relation to technology matters must be acknowledged, as I lack the specialized training in this field to analyze the defendant's reported invention, patent, or any existing technology it resembles. I tried to consult without success with Mr. Guertin's patent attorney to verify any realistic factors underpinning his assertions. Nevertheless, even if the technological aspects of the defendant's statements prove true (i.e., that he has a viable technology that was introduced by others after he received his patent), his views remain consistent with delusions. Specifically, the more improbable elements of Mr. Guertin's beliefs have plausible, alternative explanations offered by collateral sources (e.g., his interpretations of the vehicles he believed were following him), and their content (e.g., being followed and targeted for nefarious purposes, including efforts to harm or kill him; accessing his personal devices at his home) and intensity are highly consistent with the phenomenology of the persecutory delusions that can accompany psychotic disorders. Similarly, the factors he has cited to support his views (e.g., inferences about "symbolology" embedded in data he reviewed and "coincidences" with unclear links to

Guertin, Matthew

27-CR-23-1886

March 10, 2023

his ultimate conclusions) relied heavily upon referential thinking.

Diagnosis is complex in Mr. Guertin's case, and diagnosis of an unspecified psychotic condition is offered, for two key reasons. First, the defendant's age does not preclude the potential for a recent onset of delusions, which would favor the diagnosis of a delusional disorder (i.e., a condition characterized by prominent delusions that tends to emerge later in life in comparison to other psychotic disorders). However, several confounding factors exist that complicate diagnostic precision. For instance, the defendant endorsed some recent drug use, including marijuana and misuse of his Adderall prescription. As a result, the potential effects of such substance use on the emergence and maintenance of his mental health symptoms cannot be definitively discounted.

Filed in District Court  
State of Minnesota  
3/10/2023 4:30 PM

Second, and on a related note, the possibility that Mr. Guertin's current condition includes a mood-related component cannot be ruled out, though this analysis is also complex. On the one hand, several aspects of his clinical presentation are consistent with the elevated mood states that typify mania or hypomania. For instance, the defendant presented with inflated self-esteem and grandiosity. Data also reflected instances during which he experienced decreased need for sleep. Although his speech was not pressured, he was quite verbose during the interview, and his frequent digressions and tendency to become distracted by his own thoughts were consistent with flight of ideas (i.e., the tendency to change topics linked by only loose, superficial connections). As mentioned, he was also highly distractible throughout the session to the point that it became difficult to extract meaningful, coherent information from him. These symptoms are consistent with the presentation of a manic or hypomanic episode. On the other hand, Mr. Guertin's reported difficulties with attentional and behavioral regulation during youth (i.e., the reported diagnosis of ADHD) and misuse of his prescribed psychostimulant medications confound diagnostic precision in this area. It is possible his mood-related symptoms are (a) substance-induced, (b) reflective of an underlying personality style in which he exhibits grandiosity and self-aggrandizement, exacerbated by a neurodevelopmental issue related to his attentional and behavioral regulation, or (c) some combination thereof. Collateral records were sparse to confirm the onset of any symptoms and the nature of the defendant's functioning in the relevant domains beyond his self-report, and the reliability of his account is called into question by the limited insight he has into other aspects of his mental health (e.g., delusions). For these reasons, diagnosis beyond an unspecified condition is not offered at the current time.

Fortunately, diagnostic precision is not required to answer the current referral question, which instead relies upon an analysis of *current symptoms* and any corresponding effects on specifically defined, competency-related abilities. These abilities are addressed in the next section of this report. Regarding this question of symptoms, however, the presence or absence of mood-related symptoms is comparatively more ancillary to the current referral question given the pronounced nature of Mr. Guertin's delusions at the present time. In other words, data from the current evaluation support the presence of delusional beliefs. In addition, my clinical observations from the interview session highlight the potential presence of manic or hypomanic symptoms at the current time, which cannot be ruled out based on existing data.

***Does the defendant's mental illness prevent a factual or rational understanding of the legal process or the charges against her? Does the defendant's mental illness presently obstruct his ability to work with an attorney to prepare a reasonable defense?***

Mr. Guertin expressed awareness of the nature of the current allegations. He recognized he is charged with "reckless discharge of a firearm in a municipality" in relation to accusations that he was "shooting a gun out [his] window in Minnetonka." These descriptions coincided with information from charging documents. He was receptive to our education about his remaining charges, which he later stated accused him of "possession of guns without serial number[s]." However, it should be noted that Mr. Guertin's further discussion of the circumstances surrounding his arrest and perceptions of his legal situation were mired in delusional reasoning. For instance, while

Guertin, Matthew

27-CR-23-1886

March 10, 2023

he spoke cogently about various pleas and the nature of legal proceedings in general, he identified a preferred defense strategy for his case that relied heavily upon the implausible evidence of his perceived persecution. Dr. Boland and I also introduced discussions of the mental illness defense during the interview. Although the defendant asked relevant questions about the outcomes of this defense strategy (e.g., whether such a defendant would be "committed"), he had difficulty discussing logically the potential applications of this alternative to his own circumstances given his prominent delusions and limited insight into their implausible nature. Moreover, we asked Mr. Guertin about the possibility of testifying on his own behalf should his case proceed to trial. While he recognized he could not be compelled to testify, he spoke about this option as a way to "have the opportunity to make all this stuff [about his perceived persecution] public in the courtroom." His delusions also compromised his capacity to discuss evidentiary factors in relation to the current proceedings. Indeed, he spoke at length about "the stuff [he] collected" to support his persecutory beliefs, asserting further that the "evidence will speak of [sic] itself" if considered by courtroom principals.

#### FORENSIC OPINION

Mr. Guertin presently exhibits pronounced delusional beliefs of a persecutory nature. He is prone to inferring nefarious intent from benign events, and his reasoning is marked by referential thinking. These symptoms are highly consistent with the presentation of a psychotic disorder. The defendant is also verbose, and he is prone to distraction by his own thoughts while providing these narratives. This tendency results in meandering, sometimes incoherent statements in which his meaning is difficult to discern, and even targeted, directive lines of questioning are not consistently successful in clarifying his ideas. This looseness in his thinking is particularly prominent when discussing delusional themes. Although diagnostic precision in this case is difficult, the possibility that his current psychiatric condition includes a mood component beyond the presence of psychotic symptoms cannot be definitively ruled out.

The aforementioned symptoms interfered with our discussions of legal matters during the current evaluation. Indeed, while he knows the nature of his charges, Mr. Guertin's delusional beliefs are inextricably linked to his perceptions of his current legal situation, and they obstruct his ability to apply this factual legal knowledge to discussions of his own case in a rational manner devoid of delusional reasoning. On this point, he spoke of various decisions tasked to criminal defendants, but he supported his choices with impaired perceptions of objective reality. His delusions further impact his perceptions of the evidence relevant to his case. Furthermore, he had difficulty participating in consistently coherent, reality-based discussions about the proceedings during the current evaluation, which calls into question (a) the productivity of his legal exchanges with his attorney when preparing a defense and (b) his capacity to testify in the proceedings. The combination of these factors supports the conclusion that **Mr. Guertin's symptoms presently compromise his capacity to understand rationally the proceedings, participate in the defense, and consult rationally with counsel.**

#### FURTHER CONCLUSIONS AND RECOMMENDATIONS

Psychotic symptoms typically remit with the prolonged administration of an appropriate psychiatric medication regimen. Given the unknown contributions of his psychostimulant medication misuse to his current presentation, his compliance with this medication as *prescribed* would be critical to improving his functioning. His abstinence from substance use is also recommended to improve and maintain his mental health stability. Although his response to such recommended intervention is unknown, research (Pirelli & Zapf, 2020) has demonstrated that nearly all (81%) defendants deemed incompetent to proceed can be restored to adjudicative competency under traditional competency restoration commitment statutes. These statutes do not exist in Minnesota at present, but it is reasonable to conclude his mental health could stabilize and his competency-related abilities improve if a proper treatment regimen was implemented. Given his limited insight into the nature of his symptoms, Mr. Guertin would be an appropriate candidate for **referral for civil commitment as a person who poses a risk of harm due to**

Guertin, Matthew

27-CR-23-1886

March 10, 2023

**a mental illness.** Commitment as a person who is mentally ill and dangerous to the public could also be considered given the nature of the specific allegations included with the current referral.

Please do not hesitate to contact me if the Court has further questions about this report.

Respectfully submitted,

Included here is a copy of an email correspondence between me and my patent attorney discussing the fraud taking place (attached)

The Police report that I filed with the Mntka PD 9 days before the incident at my apartment (attached)

And my automated signup email from the Internet Archive when I signed up for my account 'PatentlyFalse' (attached)

I will follow up with two additional emails - each containing one of the originally dated PDF screen captures I made of the web archives archived (supposedly) version of PhotoRobot.com/blog.

I have to include in two separate emails as they are each 13mb.

That is everything I will send you...meaning I am not going to keep sending any additional documents or files after the two emails following this one but I figured it wouldn't hurt to include a few more additional pieces of the puzzle which help substantiate the stuff discussed in our meeting.

Thanks again!

~Matthew Guertin

**STATEMENT UNDER 37 CFR 3.73(c)**Applicant/Patent Owner: Netflix, Inc.Application No./Patent No.: 17/709,126Filed/Issue Date: March 30, 2022Titled: DISPLAYING A SCENE TO A SUBJECT WHILE CAPTURING THE SUBJECT'S ACTING PERFORMANCE USING MULTIPLE SENSORSNetflix, Inc., a corporation

(Name of Assignee)

(Type of Assignee, e.g., corporation, partnership, university, government agency, etc.)

states that, for the patent application/patent identified above, it is (choose one of options 1, 2, 3 or 4 below):

1. ☒ The assignee of the entire right, title, and interest.
2. ☐ An assignee of less than the entire right, title, and interest (check applicable box):
- ☐ The extent (by percentage) of its ownership interest is \_\_\_\_%. Additional Statement(s) by the owners holding the balance of the interest must be submitted to account for 100% of the ownership interest.
- ☐ There are unspecified percentages of ownership. The other parties, including inventors, who together own the entire right, title and interest are:

Additional Statement(s) by the owner(s) holding the balance of the interest must be submitted to account for the entire right, title, and interest.

3. ☐ The assignee of an undivided interest in the entirety (a complete assignment from one of the joint inventors was made). The other parties, including inventors, who together own the entire right, title, and interest are:

Additional Statement(s) by the owner(s) holding the balance of the interest must be submitted to account for the entire right, title, and interest.

4. ☐ The recipient, via a court proceeding or the like (e.g., bankruptcy, probate), of an undivided interest in the entirety (a complete transfer of ownership interest was made). The certified document(s) showing the transfer is attached.

The interest identified in option 1, 2 or 3 above (not option 4) is evidenced by either (choose one of options A or B below):

- A. ☐ An assignment from the inventor(s) of the patent application/patent identified above. The assignment was recorded in the United States Patent and Trademark Office at Reel \_\_\_\_\_, Frame \_\_\_\_\_, or for which a copy thereof is attached.
- B. ☒ A chain of title from the inventor(s), of the patent application/patent identified above, to the current assignee as follows:

1. From: Stephan Trojansky To: Eyeline Studios GMBHThe document was recorded in the United States Patent and Trademark Office at  
Reel 059668, Frame 0755, or for which a copy thereof is attached.2. From: Eyeline Studios GMBH To: Netflix, Inc.The document was recorded in the United States Patent and Trademark Office at  
Reel 062197, Frame 0127, or for which a copy thereof is attached.

## Description of Incident

Provide a description of the incident and how you were victimized. Provide information not captured elsewhere in this complaint form.

Hello,

I emailed the CEO of Mark Roberts Motion Control last fall to get information about their robotic cameras after attending a local workshop in Minneapolis which showcased their 'Bolt Cinecam' robotic camera. My reason for emailing him was in regards to what at the time was my pending patent application but which has since been granted - US Patent 11,577,177

There was a 3 week span of time (approx) between my initial email and when I finally got a direct reply from Assaff Rawner (CEO of MrMoCo.com) at which point he pointed me to [www.PhotoRobot.com/robots/catwalk](http://www.PhotoRobot.com/robots/catwalk) as an example of something that already existed and was similar to my patent.

Long story short ALL of it is entirely generated by AI - This includes all of their youtube videos (3 of which are listed as prior art on my patent - 1 of which they already deleted - but I have saved) as well as all of their false history they fraudulently added to the internet archive (which I have tons of PDF screenshots including a 'real-time' capture of the fraudulent activity which consists of two pdf

screen captures only five minutes apart in which I caught the total archive count going from 45 to 47 and you can clearly see additional date bars being added at the end of 2021 (fraudulent backdating to create a false history)

This fraud spans multiple websites - all of which are being used as references for one another to create a false history that makes it appear they were already practicing that which is contained within my patent for the purpose of stealing it ultimately.

**Mark Roberts Motion Control is partnered with Microsoft and Dimension Studios.** I would guess all of the AI generated images and videos are Microsoft's handy work. By adjusting the color curves for their website images, PDF product brochures, and all of their various videos I have come up with a method that is able to clearly demonstrate beyond any reasonable doubt that all of it is AI generated - this would include videos which were supposedly uploaded to YouTube in 2012...which presents an obvious issue - As in either AI has been around a lot longer than we've been lead to believe or YouTube as well as Vimeo and other sites (including the internet archive) are allowing the fraudsters to have free reign as far as adding fraudulent backdated content for the purpose of establishing a false history. I have been documenting all of this with multiple attorneys so there is plenty of additional supporting evidence to back up all of my claims.

One other thing worth mentioning is that they forgot to flatten and simplify all of their AI generated PDF catalogs and brochures - meaning all of the layers are exposed and editable if you open it up in Adobe Illustrator. Simply zooming in though to pretty much any of the products or images in their PDF's will make it very obvious that all of it was generated by AI.

My reason for finally deciding to report this stuff 'officially' after some months is that I just established the 'color curve' method which I was able to use to process all of their website images as well as their YouTube videos (I have thousands of full html webpage saves downloaded from the internet archive spanning 201a-current and multiple websites...ALL AI GENERATED FRAUD). The companies, the products, the websites, etc I believe are an entire AI fabrication even though I am sure they have enough know-how and resources to make them appear real from the outside. None of that should matter though since I was able to catch everything so early. I should also mention that I just downloaded the 2 out of 3 videos listed on my patent still on their youtube page a couple days ago and can confirm all of the artifacts you see in the PDF's and videos I analyzed were still present.

Here is a link which proves all of my claims (there is plenty more supporting documents) -

Here is a link directly to their YouTube videos I analyzed which shows AI generation clear as day -

What I want is simple -

I do not want my first ever patent stolen by a giant corporation (or anyone for that matter..) by way of fraud.

I have dedicated the last two years+ solely to my patent, as well as engineering, designing, and fabricating a working prototype which I am about to release my first demo video for and which will also serve as the 'official' launch of my company InfiniSet, Inc.

In addition to the last two years I have also dedicated a huge portion of my life learning and gaining as much knowledge as possible which is the reason I am able to not only come up with a very valuable idea but also able to design, engineer, and fabricate the exact design you see in my patent all on my own without any college degrees or formal education. I learned everything by busting my ass and I REFUSE TO LET ANYONE STEAL WHAT I HAVE WORKED SO HARD TO BRING TO FRUITION - this would include a giant corporation like Microsoft running rampant with their new AI toys (while apparently being given free reign by YouTube, Vimeo, Internet Archive, etc to post whatever backdated and fraudulent internet history they feel like having their AI generate)

Here is my personal portfolio website which very clearly shows how much hard work I have put fourth prior to arriving at this current point in time  
[www.MattGuertin.com](http://www.MattGuertin.com)

I want all of these fraudulent, AI generated websites/ companies/ products to be 'officially' recognized as the fraud they are so that I can continue forward with my venture without having to worry about Microsoft/ Mark Roberts Motion Control or any other giant corporation coming after me and trying to invalidate my patent using their fraudulently produced internet history.

If they want that which I have patented so badly they can pay me for it. I'm pretty sure that's how it's supposed to work....I'm also pretty sure they have plenty of financial resources to be able to do so which just makes their attempted theft of my intellectual property that much more pathetic.

That is all.

Thank you for your time,

Matthew Guertin  
InfiniSet, Inc.

## Other Information

---

If an email was used in this incident, please provide a copy of the entire email including full email headers.

All emails and headers are included in the files I shared which are here -

Are there any other witnesses or victims to this incident?

Yes.

I have been documenting all of this since the original email with various attorneys and there is a very long digital 'paper trail' which includes emails, digital files, etc. I have thousands of full html pages downloaded directly from the Internet Archive spanning multiple websites - All of which are being used as supporting references to one another for the purpose of establishing a false history.

All digital evidence I collected has been distributed to multiple third parties for safe keeping including disks which have remained untouched since December of 2022

If you have reported this incident to other law enforcement or government agencies, please provide the name, phone number, email, date reported, report number, etc.

Minnetonka, MN Police Department  
Case # 23-000151

Prior to filing the police report I approached the FBI at their building located in Brooklyn Center, MN but was hung up on after telling the person who answered the phone that it involved wire fraud to which he replied "Do you have proof of someone wiring money" to which I replied I did not. Apparently the person who answered doesn't know the definition of wire fraud.

I also spoke to a Secret Service Agent in Chicago for 24 minutes the Sunday before Martin Luther King Jr Day after calling the Minneapolis field office and being bounced to Chicago. He agreed that I was 100% correct in my assertions about Wire Fraud and Conspiracy based on what I told him. I also gave him the Minnetonka PD case# but never heard anything back or had any follow up.

There is a possibility however that I wasn't even talking to an actual Secret Service agent as I started having all sorts of weird things happen with my phone as well as computers as the culprits

pulling off the fraud were very aware that I was downloading and collecting tons of stuff and so they started hacking into my devices and very well could've been spoofing / intercepting my calls by way of a Stingray or other similar advanced cellular interception devices.

Fun times

## Your Next Steps

If you think you clicked a link or opened an attachment that downloaded harmful software:

- Update your computer's security software.
- Then run a scan and delete anything it identifies as a problem.
- Learn more about how to get fewer spam emails at [ftc.gov/spam](https://ftc.gov/spam).

General Advice:

- You can find tips and learn more about bad business practices and scams at [consumer.ftc.gov](https://consumer.ftc.gov).
- If you're concerned that someone might misuse your information, like your Social Security, credit card, or bank account number, go to [identitytheft.gov](https://identitytheft.gov) for specific steps you can take.

## What Happens Next

- Your report will help us in our efforts to protect **all** consumers. Thank You!
- We can't resolve your individual report, but we use reports to investigate and bring cases against fraud, scams, and bad business practices.
- We share your report with our law enforcement partners who also use reports to investigate and bring cases against fraud, scams, and bad business practices.
- We use reports to spot trends, educate the public, and provide data about what is happening in your community. You can check out what is going on in your state and metro area by visiting [ftc.gov/exploredata](https://ftc.gov/exploredata).
- Investigations and cases do take time, but when we bring cases, we try to get money back for people. Check out [ftc.gov/refunds](https://ftc.gov/refunds) to see recent FTC cases that resulted in refunds.

Court File No. 27-CR-23-1886

State of Minnesota,  
Plaintiff,  
v.  
  
Matthew David Guertin,  
Defendant.**FINDINGS OF  
FACT, CONCLUSIONS OF  
LAW, AND ORDER  
REGARDING COMPETENCY  
TO PROCEED**

The above-entitled matter came before the district court, on July 7, 2023, for an evidentiary hearing regarding the Defendant's competency. The hearing took place in person in Courtroom 456 at the Hennepin County Government Center. Jacqueline Perez, Assistant Hennepin County Attorney, appeared for the State. The Defendant appeared along with his attorney, Bruce Rivers, Esq. Jill E. Rogstad, Ph.D., LP, ABPP (Forensic), Senior Clinical Forensic Psychologist at the Fourth Judicial District Court, testified at the hearing and the court received into evidence her *Curriculum Vitae* (Exhibit 2), and her Forensic Evaluation Report dated March 10, 2023 (Exhibit 3). The court also received into evidence a copy of United States Patent No. 11,577,177 B2 dated February 14, 2023 (Exhibit 1), as well as testimony from the Defendant.

The matter was referred for hearing to the undersigned district court referee, who after considering the evidence, the arguments presented, and all the files and records herein, reports to the court making the following recommended Findings of Fact, Conclusions of Law and Order:

1. Defendant is currently **INCOMPETENT** to proceed.

**FINDINGS OF FACT**

The Defendant, Matthew David Guertin, is charged in MNCIS file 27-CR-23-1886 with Dangerous Weapons-Reckless Discharge of Firearm Within a Municipality (Felony), Firearm-

Filed in District Court  
State of Minnesota

27-CR-23-1886

Serial Number-Receive/Possess With No Serial Number (Felony), Firearm-Serial Number Receive/Possess With No Serial Number (Felony), and Firearm-Serial Number-Receive/Possess With No Serial Number (Felony), from an incident alleged to have occurred on January 21, 2023. On January 25, 2023, the Honorable Lyonel Norris, Referee of District Court, found probable cause to believe that the offenses were committed and that Defendant committed them. He then ordered that a Rule 20.01 evaluation be completed. Jill E. Rogstad, Ph.D., LP, ABPP (Forensic), was assigned to complete the evaluation of the Defendant. She filed her report on March 10, 2023, opining that Mr. Guertin is incompetent and provided the following diagnoses:

Unspecified Schizophrenia Spectrum and Other Psychotic Disorder (primary).

Mr. Guertin challenges Dr. Rogstad's conclusion, taking the position that he is competent to proceed in his criminal matters. Mr. Guertin testified that he is currently employed as the Chief Executive Officer (CEO) of a start-up company. His company is listed as the assignee on United States Patent No. 11,577,177 B2, and he, as an individual, is listed as the inventor and the applicant. *Ex. 1.* Mr. Guertin testified that he understands his charges, noting that reckless discharge of a firearm in a municipality is a felony with a maximum of a two-year sentence. He notes that he and his attorney have discussed possible defenses; that he understands the information relayed to him by his attorney; and that there is nothing impeding their relationship. In fact, Mr. Guertin and his attorney, Mr. Rivers, have had a professional relationship for many years. Mr. Guertin also admitted to having been through criminal proceedings in the past. While he acknowledged that he may not understand all the technicalities of criminal proceedings, he indicates that he would ask his attorney if he had questions about the proceedings. Mr. Guertin appeared well-dressed, noting that he wore a tie to court "to be presentable." He presents as intelligent and passionate about his work with technology, including his patent. However, much of his testimony was focused on his

27-CR-23-1886

technological work and patent, and he required frequent redirection to stay on point. In fact, there were times during his testimony that Mr. Guertin became lost in his answer to a question because of rambling statements about his patent or other unrelated topics. For instance, when discussing the events that led to what he describes as the "most cordial standoff ever" [with the police], Mr. Guertin began discussing his actions in firing his gun in order to attract the police. He did so instead of calling 911 because he could not trust his electronic devices due to his suspicions involving Netflix and Microsoft and protection of his patent. The court appreciates Mr. Guertin's testimony and his participation in the hearing; however, the court has serious concerns regard Mr. Guertin's ability to meaningfully participate in criminal proceedings and understand the process, given his perseveration regarding his patent, and his delusional beliefs about others.

Filed in District Court  
State of Minnesota  
7/13/2023 1:24 PM

Dr. Rogstad opines that Mr. Guertin is not competent to proceed in his criminal matters, concluding in her report " ... that Mr. Guertin's symptoms presently compromise his capacity to understand rationally the proceedings, participate in the defense, and consult rationally with counsel." Ex. 3, p. 9. Dr. Rogstad offers a diagnosis of Unspecified Schizophrenia Spectrum and Other Psychotic Disorder (primary). While Dr. Rogstad testified that this is a legitimate diagnosis, she indicated that additional information would be needed to provide more specificity. Dr. Rogstad notes that Mr. Guertin " ... displays prominent delusional beliefs that include persecutory and referential themes," the content and intensity of which " ... are highly consistent with phenomenology of the persecutory delusions that can accompany psychotic disorders." *Id.* at 7. She further indicates that Mr. Guertin may also suffer from a mood-related disorder, namely mania or hypomania, given "... his frequent digressions and tendency to become distracted by his own thoughts," which "... were consistent with flight of ideas." *Id.* at 8. She also notes that Mr. Guertin was "highly distractible" during the examination, making it " ... difficult to extract meaningful,

27-CR-23-1886

coherent information from him." *Id.* The court observed identical behavior during his testimony on July 7, 2023, to that exhibited during his examination. Dr. Rogstad testified that misuse' of Adderall could account for some of Mr. Guertin's symptoms, but acknowledged that she was not a toxicologist or medical doctor and that she did not know how much Adderall Mr. Guertin actually took. Despite reporting this possibility, Dr. Rogstad opines Mr. Guertin is not competent.

Filed in District Court  
State of Minnesota  
7/13/2023 1:24 PM

As a result of his symptoms, Dr. Rogstad believes that Mr. Guertin is unable to participate in the legal process regarding his criminal matters. She credibly testified that while Mr. Guertin has good factual knowledge, he is unable to apply this knowledge due to delusional beliefs. For example, when Mr. Guertin spoke about his delusional beliefs, he indicated he would present evidence supporting these beliefs. In her report, Dr. Rogstad states, " ... while he knows the nature of his charges, Mr. Guertin's delusional beliefs are inextricably linked to his perceptions of his current legal situation, and they obstruct his ability to apply this factual legal knowledge to discussions of his own case in a rational manner devoid of delusional reasoning." *Id.* at 9. Specifically, Dr. Rogstad reports that his delusions impacted his perception of relevant evidence, that he supported the choices he made "...with impaired perceptions of objective reality," and that ultimately, he was unable to participate in "consistently coherent" and "reality-based" discussions regarding the proceedings. *Id.* Her testimony supports these conclusions when she states that Mr. Guertin did not understand evidence or the ramifications of making decisions because of the delusions that emerged as they were discussing legal proceedings. Dr. Rogstad also testified that Mr. Guertin lacks insight into his mental health, as evidenced by his belief that he is under duress as opposed to having any impaired perceptions. Finally, Dr. Rogstad testified that neither her report nor her opinion changed after observing Mr. Guertin's testimony during the July 7, 2023 hearing.

<sup>1</sup> Mr. Guertin testified that he takes additional dosages of his Adderall medication on long days because the medication is "fast-acting." He gave one example as working overnight at Coachella to finish an art piece for the next day.

27-CR-23-1886

The court finds that the greater weight of the evidence establishes that Mr. Guertin is not competent to proceed at this time. He suffers from a mental illness with a diagnosis of Unspecified Schizophrenia Spectrum and Other Psychotic Disorder, as offered by Dr. Rogstad. This may also include a mood component, namely mania or hypomania. This mental illness prevents Mr. Guertin from rationally understanding the legal process and obstructs his ability to prepare a defense or rationally consult with his counsel. Dr. Rogstad persuasively reports that Mr. Guertin's delusions impact his strategical decisions. For instance, he indicated that providing testimony at his trial would serve " ... as a way to 'have the opportunity to make all this stuff [about his perceived persecution] public in the courtroom,'" with similar thoughts regarding evidence he collected. Ex. 3, p. 9. Additionally, the court observed Mr. Guertin testify, during which his answers often wandered towards the themes of technology, patents, and competitors. While it is evident that Mr. Guertin is an intelligent, talented individual with a passion for technology, this does not necessarily make him competent to proceed in his criminal matters. He may understand the factual components of criminal proceedings, but it is evident to the court that he is unable to apply this factual knowledge in his defense. Based upon the totality of evidence before the court including Mr. Guertin's testimony, Dr. Rogstad's testimony, and the exhibits received into evidence, the court concludes that the greater weight of the evidence establishes that Mr. Guertin is not currently competent to proceed and thus, the defense has not met their burden of proof.

Filed in District Court  
State of Minnesota  
7/13/2023 1:24 PM

In summary, the court finds the testimony and report of Dr. Rogstad to be the most credible and persuasive evidence regarding Mr. Guertin's competency to proceed. Dr. Rogstad has extensive experience conducting forensic evaluations, including having completed approximately 400 forensic evaluations. See also Ex. 2. Her report was thorough and considered several possible factors contributing to Mr. Guertin's symptoms, as well as the significance of those symptoms.

27-CR-23-1886

The court also notes the similarity in Mr. Guertin's presentation during both his evaluation and at the July 7, 2023 hearing: Mr. Guertin presented as verbose, with responses to questions that included excessive detail. He often brought his responses back to the themes of technology, patents, and competitors; and on occasion, had to ask that questions be repeated due to his extensive responses. Mr. Guertin appears to the court to be unable to separate matters involving his criminal charges from his delusional thoughts regarding his technology. It was evident that he continues to suffer from mental health concerns that impact his ability to fully understand and engage in the proceedings regarding his criminal matters.

### CONCLUSIONS OF LAW

"A defendant has a due process right not to be tried or convicted of a criminal charge if he or she is legally incompetent." *Bonga v. State*, 797 N.W.2d 712, 718 (Minn. 2011). Rule 20.01 of the Minnesota Rules of Criminal Procedure requires that if the court finds by the greater weight of the evidence that the defendant is competent, it must enter an order finding the defendant competent to proceed. Minn. R. Crim. P. Rule 20.01, subd. 5(c). A defendant is incompetent and must not plead, be tried, or be sentenced if the defendant due to mental illness or cognitive impairment lacks ability to: (a) rationally consult with counsel; or (b) understand the proceedings or participate in the defense. *Id.*, subd. 2. The determination of whether a defendant is able to rationally consult with the defense attorney or understand and participate in the proceedings turns on the facts of each particular case. Moreover, fact-finders, including district courts, are not required to accept an expert's testimony or recommendation. *State v. Roberts*, 876 N.W.2d 863, 868 (Minn. 2016). Foremost, throughout the criminal proceedings the trial court must be mindful of its protective duty to ensure that a defendant is competent to proceed. *See State v.*

27-CR-23-1886

Bauer, 245 N.W.2d 848, 852 (Minn. 1976) (ruling that the court should have conducted further inquiry into the important matter of defendant's competency).

The greater weight of the evidence establishes that Mr. Guertin is incompetent to proceed.

**ORDER**

Defendant, Matthew David Guertin, is currently **INCOMPETENT** to proceed.

6. Time spent interviewing Respondent: 45 minutes

7. What was the Respondent's level of cooperation with the examination?

The respondent was cooperative and pleasant. He responded to all the interview questions. He appeared on from tele-video connections from a relatives home but within a room which was appeared to be a multimedia center and included what appeared to be many computer monitors. He described numerous events with rational and logic explanations but through the exam is speech and was often mildly rapid, mildly pressured and constantly involved Mr. Guertin inserting extraneous detail and unnecessary elaborations as if they might be relevant to answering the questions. Early on the undersigned began to interrupt his descriptions and redirect him to try to not add all the extra unnecessary details. He was unable to easily or quickly get the point of most of the exam questions but with regular prompting and re-direction he was able to provide more relevant information. Mr. Guertin's extraneous detail and tangents were notable in that they typically and repeatedly included numerous self-aggrandizing references to his many sophisticated projects and the prestige, notoriety and fame within his area of expertise. He references being CEO and various projects such as one in Vietnam and another Saudia Arabia where he displayed some sort of system he reportedly developed and engineered. He spent much more time detailing his various acclaims and accomplishments, with fragmented and rapid descriptions which were difficult to understand, due to his fragmented and rapid descriptions, which were disjointed. Beyond his hypomanic to manic presentation, there was no evidence of overt symptoms of psychosis or delusions, unless his various descriptions of his hugely successful and sought after patent, turns out to be a delusion itself, but there was no current evidence provided which would suggest any of Mr. Guertins' claims of his engineering prowess and development are false.

Mr. Guertin essentially described he had filed a patent for a program and or something he developed, and he began to believe that through the use of "AI", these large software companies ( such as Netflix and others) were conspiring to

Court File Number: **27-MH-PR-23-815**

steal his “program” he described he connected the dots to realize what they were doing and reported he shot his firearm off to get the police to come to his home. When asked why he did not simply call the police on the phone he reported that he thought they were monitoring his electronic through AI.

He reports a history of problematic substance abuse which no longer exists. He described that since 2016 he has been taking two different medications, reporting that for several years the dosages have been Adderall ~~xx~~mg per day and Klonopin ~~xx~~ mg as needed. He denied the possibility that his Adderall or Klonopin use might have contributed to his symptoms at the time police were called to his home. He reported he was incarcerated for several days and released to the community and for the last 7 months has been living in the community. He reported that he sees Dr. Schuster via tele-video for psychiatric follow-up and saw Dr. Schuster over a tele-video appointment a couple weeks ago.<sup>1</sup>

8. Was the Respondent told that the examination was part of the judicial commitment process; that the examiner would be making a diagnosis and treatment recommendation to the Court; and that the information Respondent divulged in the interview was not confidential and could be disclosed in Court as part of the commitment proceedings.

☒ **Yes**      ☐ **No**      ☐ **Not Applicable** ( e.g., report completed from records)

| B. Per the examiner: | Unspecified Schizophrenia Spectrum and Other Psychotic Disorder (primary), versus Medication induced bipolar disorder versus Stimulant use disorder (prescribed stimulants-Adderall). |

11. Respondent suffers from ☐ an organic disorder of the brain or ☒ substantial psychiatric disorder? ☒ **Yes** ☐ **No**

12. Respondent’s disorder manifests by instances of grossly disturbed behavior or faulty perception? ☒ **Yes** ☐ **No**

13. The specific facts that support your opinion (including the specific facts that support your opinion):

- A. ☒ Thought -highly distractible; prominent delusional beliefs that include persecutory & referential themes
- B. ☒ Mood - mood-related disorder, namely mania or hypomania,
- C. ☒ Perception - Mr. Guertin’s delusional beliefs are inextricably linked to his perceptions and they obstruct his ability to apply knowledge in a a rational manner devoid of delusional reasoning
- D. ☐ Orientation - grossly intact
- E. ☒ Memory - grossly intact intermittently impaired by delusional reasoning and impaired insight

14. Does Respondent’s disorder grossly impair (including the specific facts that support your opinion):

- A. ☒ Judgment - Same as “C. Perceptions above”
- B. ☒ Behavior - Dangerous Weapons-Reckless Discharge of Firearm Within a Municipality (FEL), (multiple others)
- C. ☒ Capacity to recognize reality- Same as “C. Perceptions above”
- D. ☒ Capacity to reason or understand – Same as “C. Perceptions above”

15. Does Respondent’s disorder pose a substantial likelihood of physical harm to self or others? ☒ **Yes** ☐ **No**

As a result of the impairment the Respondent:

- A. failed to obtain necessary food, clothing, shelter, or medical care? ☐ **Yes** ☒ **No**
- B. has an inability for reasons other than indigence to obtain necessary food, clothing, shelter, or medical care and it is more probable than not that the Respondent will suffer substantial harm, significant psychiatric deterioration or debilitation, or serious illness, unless appropriate treatment and services are provided? ☒ **Yes** ☐ **No**
- C. Respondent made a recent attempt or threat to physically harm self or others? ☒ **Yes** ☐ **No**

<sup>1</sup> When telehealth is used, it is considered to be rendered at the physical location of the patient, and therefore a provider typically needs to be licensed in the patient’s state. A few states have licenses or telehealth specific exceptions that allow an out-of-state provider to render service and to prescribe.

16. If “yes” to A, B, or C describe: Court File Number: **27-MH-PR-23-815**

27-CR-23-1886 ; Dangerous Weapons-Reckless Discharge of Firearm Within a Municipality  
on or about January 21, 2023, in Hennepin County, Minnesota, MATTHEW DAVID GUERTIN recklessly discharged a firearm within a municipality... .. Upon arriving in the area officers heard shots and were able to confirm where the apartment shots were coming from, and that the occupant of the apartment was MATTHEW DAVID GUERTIN, dob 7/17/1981, "Defendant" herein. Defendant was yelling "I'm going to die because they stole my patent" and repeatedly yelled a Minnetonka Police Department case number. Defendant spoke with a negotiator and after some time threw two firearms out of the window: an automatic rifle and a pistol in a case. Defendant eventually came out of the apartment and was placed under arrest. In a post-Miranda statement Defendant reported

Dr. Rogstad testified that misuse of Adderall could account for some of Mr. Guertin's symptoms... ..Despite reporting this possibility, Dr. Rogstad opines Mr. Guertin is not competent.

4/7/23 copy of a Letter from California Psychiatrist Dr. Shuster, (provided by the respondent): I reviewed the letter (April 7 2023) from Dr. Schuster, with an odd type-set change from page one to page two, and see that Dr. Schuster confirms "There have been times in recent months that he verbalized concerns about his being 'scrutinized' and maybe sabotaged by enterprises in the scale of Microsoft and Netflix" Dr. Shuster also asserted "In summary. Mr. Guertin is not at risk of harming anyone."

17. Is the impairment solely due to epilepsy; developmental disability; brief periods of intoxication caused by alcohol, drugs, or other mind-altering substances; or dependence upon or addiction to any alcohol, drugs, or other mind-altering substances? ☐ Yes ☒ No

18. Will Respondent agree to participate in that treatment voluntarily? ☐ Yes ☒ No

19. Do you believe that Respondent will follow through with treatment on a voluntary basis? ☐ Yes ☒ No  
Why or why not?

No the respondent does not believe he has a mental illness or symptoms of a mental illness. He believes he has ADHD and some OCD related symptoms and anxiety. He does not believe he needs oversight or treatment and he believes that since he has been living in the community for several months without close oversight or additional mental health interventions, that he does not require any oversight or treatment.

20. Would a guardianship/conservatorship be an appropriate alternative to commitment? ☐ Yes ☒ No

21. What is the least restrictive, appropriate treatment for Respondent and why?

Whether due to an underlying independent schizophrenic and or psychotic spectrum disorder or to a psychotic spectrum disorder that is substance induced, it seems more likely than not that Mr. Guertin's current symptoms of serious mental illness will continue if not treated. Mr. Guertin symptoms will likely intermittently become more acute and contribute to symptoms which more substantially impair his perceptions, reasoning, and behaviors – and pose a substantial risk to harm self and others without treatment. Therefore, without the ability to differentiate or resolve Mr. Guertin's mental health diagnosis with more clarity due to the confounding from his prescribed medications, the undersigned opines that Mr. Guertin meets criteria for civil commitment as person with a serious mental illness.

In the undersigned's opinion, the Respondent does not have adequate appreciation or insight to appraise or notice the functional impact (e.g., cognitive, perceptual, emotional, behavioral) of their symptoms of mental illness, their need for treatment, the risks their symptoms pose to self and others; this impairs the Respondent's decisional capacity related to major treatment decisions pertaining to the Respondent's mental illness and or substance use disorder, including medications.

The undersigned would suggest/recommend a voluntary trial period (an evaluation period) of 6 months without the current class of medications (i.e., stimulant and benzodiazepines), and a method to verify or corroborate the absence of the substances such as UDS and re-evaluation – (this is simply a suggestion and would be up to the respondent and the treatment team to determine if this might be agreeable). However, considering that a more definitive opinion is expected, the following is my opinion.

Court File Number: **27-MH-PR-23-815**

In the undersigned's opinion less restrictive alternatives may be available and appropriate, the undersigned suggest others might consider the following issues to be considered as part of any possible agreement to less restrictive alternatives. Such as **if**

- a)** the Respondent's symptoms continue to resolve/improve and stabilize,
  - b)** recommended supportive services such as case management, psychiatric management, other needed treatments (e.g., CD, individual counseling, independent psychiatric evaluation of psychiatric medications and need for them, etc.) housing, and supportive treatment plan can be agreed upon,
  - c)** the Respondent demonstrates substantial engagement with and adherence to an agreed upon treatment plan,
  - d)** the Respondent agrees to voluntarily follow-through with the agreed-upon treatment options,
  - e)** the Respondent has a reasonable likelihood of being able to voluntarily follow-through.
  - f)** specifically, there is an agreed upon, time-limited plan regarding use of firearms, and purchasing or access to, etc.
  - g)** agreement as to whether there is benefit of the back-up of court oversight were he to drift from the treatment plan.
- If any of "a, b, c and d, e f and g", cannot be reasonably agreed upon or do not appear likely the respondent will be able to or willing to adhere to the agreements, the undersigned would support full civil commitment as Mentally ill, with substantial concerns for chemical dependency.

The Respondent is diagnosed with ( *Unspecified Schizophrenia Spectrum and Other Psychotic Disorder (primary)*, *versus Medication induced bipolar disorder versus Stimulant use disorder (prescribed stimulants- Adderall)*) which is or includes an organic disorder of the brain or a substantial psychiatric disorder of thought, mood, perception, orientation, or memory which grossly impairs judgment, behavior, capacity to recognize reality, or to reason or understand, which is manifested by instances of grossly disturbed behavior or faulty perceptions and poses a substantial likelihood of physical harm to self or others. For example: in the Forensic Evaluation Report, (March 2023, by Jill Rogstad, PhD., LP, ABPP) And the during testimony pertaining to the competency hearing, as outlined in the Findings of facts and Order regarding incompetency to proceed, overseen by the Honorable Judge, Michael Browne, (July 2023) there was substantial evidence for ongoing flight of ideas, and either hypomania or mania in Mr. Guertin's presentation, consistent with ongoing serious mental illness. Moreover, during the current exam, there was evidence for ongoing hypomania to mania and substantially distorted thought processes which verge of delusional, though remained within logical and rational limits during the exam. Separately regarding the letter from Dr. Schuster. The letter is a very nice clinical letter and helps maintain the Doctor/patient clinical relationship, Dr. Schuster has with his patient, Mr. Guertin. Although Dr. Schuster appears to have been provided with a copy of Dr. Rogstad's Forensic report (March 2023), it is somewhat concerning and surprising that Dr. Schuster as the prescribing provider of two controlled substances to the respondent, did not comment on the well-known adverse psychotic-spectrum side effects to the medications he is prescribing, particularly when there is credible evidence of psychotic-spectrum symptoms (i.e., a well-credentialed and regarded forensic psychologist's report to the court – Dr. Rogstad's report). the undersigned would expect most psychiatrist with such information would take step to mitigate their patients risks to psychotic spectrum events due to medications and take steps to mitigate their own liability in prescribing these medications, after being informed of these types of events (maybe this was done separately). Dr. Schuster, is not in the role of properly evaluating this situation and did not appear to have access to all the available information to formulate his conclusion. For example, were he to have seen the extensive, hypergraphia-like, writing on Mr. Guertin's apartment walls (some patients with schizophrenic spectrum symptoms evidence hypergraphia), which include paranoid self-reminders and descriptions which clearly convey that Mr. Guertin was frightened, distressed, and believed large enterprises such as "Microsoft and Netflix", were using Artificial Intelligence (AI) and had infiltrated his home electronics and he was being conspired against and risked to being harmed due to the revolutionary software patent he developed; the writing on the apartment walls and similar writing on his body (noted when he was booked into the jail) suggest Mr. Guertin knew or believed that he was unable to rely on his own mental status and wrote reminders to himself and/or possibly messages to others in the case he might have been harmed and his patent stolen. Regardless, his inflexible beliefs are conveyed in the writing, Dr. Rogstad's evaluation, and during the current exam and consistently indicate he held paranoid, grandiose, and delusional beliefs which substantially impaired his perceptions, reasoning, and behaviors, even if there were some elements of the history based in fact.

Mr. Guertin's conclusion (which he described during the exam, were based on his "connecting all the dots") and belief that these large companies might specifically know about his revolutionary and highly sought software, is plausible if he actually had developed this, and still it is somewhat grandiose to believe these companies know about his patent, without any evidence. Mr. Guertin's conclusion that these large companies would try to steal his revolutionary patent,

Court File Number: 27-MH-PR-23-815

is also plausible yet rather grandiose to conclude these companies would engage in clandestine illegal activity using AI, to steal his patent rather than simply approach him to purchase it. Mr. Guertin's conclusion, claim, or belief he needed to fire-off a firearm(s) within the city from his apartment to alert the police, is a frightening conclusion and belief which evidences the degree to which he held paranoid, grandiose, and delusional beliefs which substantially impaired his perceptions, reasoning, and behaviors, even if there were some elements of the history based in fact. The veracity of Mr. Guertin's explanation for firing off the fire-arm, is at least questionable. Whichever thought processes and events led Mr. Guertin to fire-off the firearm several times, they appear far more likely than not to indicate he held paranoid, grandiose, and delusional beliefs which substantially impaired his perceptions, reasoning, and behaviors, even if there were some elements of the history based in fact. He could have easily walked to the police station if he did not trust his home electronics and the phone lines. He now admits his decision was a reflection of poor judgment and emphasizes he had not intended to harm others. The problem is that his delusional beliefs substantially impaired his perceptions, reasoning, and behaviors, and influenced him to take these extreme and dangerous actions because he was unable to differentiate what was real or not real at the time; this poses a substantial risk to harm self and others.

Whether his delusional thought processes were aggravated by substance misuse/abuse or an independent psychotic spectrum disorder is less clear. During the exam he presented as hypomanic to manic and reportedly continues to be prescribed and take xx mg of Adderall per day, which substance is well-known to induce clinically significant symptoms consistent with hypo-mania and mania in some patients; it is also a controlled substance, precisely because of its potential for misuse, abuse, and risk to harm. If Mr. Guertin's hypomanic to manic symptoms and delusional beliefs which substantially impair his perceptions, reasoning, and behaviors, are substance induced (or prescription substance induced – i.e., iatrogenic) then there are likely simple interventions to treat and resolve these symptoms which would very effectively mitigate his risks to harm. For example, discontinuation of the class of prescribed substances known to contribute psychotic spectrum symptoms specifically Adderall and Klonopin (both abuse and withdrawal from each can contribute to severe distress, agitation, and distorted and psychotic thinking). However, if Mr. Guertin's hypomanic to manic symptoms and delusional beliefs which substantially impair his perceptions, reasoning, and behaviors represent an independent schizophrenic and/or psychotic spectrum disorder, the treatment interventions of choice initially include but are not limited to antipsychotic medications and/or a mood stabilizer if there is stronger suspicion of a bipolar affective disorder. Notably, there is substantial evidence that Mr. Guertin's underlying symptoms of a serious mental illness persist, though they appear to have recently remained attenuated, regardless of the cause.

**Capacity to Waive Rights** Based on the information in the records and the interview, the Respondent appeared to have an adequate understanding of situation the choices available to him/her to waive his/her right to a trial in this matter and enter into treatment agreements with defense attorney assistance.

Michael Robertson PsyD, LP

(Exam Date: 8/1/23)

**Report Date: 08/04/2023**

**253B.02 Subd. 13.** A "person who is mentally ill poses a risk of harm due to a mental illness" means any person who has an organic disorder of the brain or a substantial psychiatric disorder of thought, mood, perception, orientation, or memory which that grossly impairs judgment, behavior, capacity to recognize reality, or to reason or understand, which that is manifested by instances of grossly disturbed behavior or faulty perceptions and who, due to this impairment, poses a substantial likelihood of physical harm to self or others as demonstrated by: (1) a failure to obtain necessary food, clothing, shelter, or medical care as a result of the impairment; (2) an inability for reasons other than indigence to obtain necessary food, clothing, shelter, or medical care as a result of the impairment and it is more probable than not that the person will suffer substantial harm, significant psychiatric deterioration or debilitation, or serious illness, unless appropriate treatment and services are provided; (3) a recent attempt or threat to physically harm self or others; or (4) recent and volitional conduct involving significant damage to substantial property.

**Supplemental Report****ICR:** 23033797**Title:** Main - Beauchane #147

On 9/7/23 I responded to 4385 Trenton Ln #202 for a report of patent fraud.

I spoke to Matthew Guertin. He showed me several things on his computer and a set up for the patent he procured that was in the Livingroom of his residence. Due to the amount of information he was providing me and the complexity of the report, I asked that Guertin send me a synopsis of the information he was wishing to report. See media title: "Email - report information". I received several, more in depth, emails explaining the fraud from Guertin. Those emails are attached.

This report is intended to document that Guertin has reported the patent fraud to local law enforcement.

Guertin does wish to press charges but stated he knows it's a process and that he wanted to start by making a report to local law enforcement so he could continue to report the patent fraud to other entities.

Beauchane #147

## Replying to your message

---

From Senator Amy Klobuchar <senator@klobuchar.senate.gov>

To Matt xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx >

Date Wednesday, September 20th, 2023 at 2:03 PM

---

Thank you for taking the time to contact me. I appreciate hearing from you on this important matter, and I will keep your views in mind as relevant legislation and other decisions related to this issue come before the Senate.

I continue to be humbled to be your Senator, and one of the most important parts of my job is listening to the people of Minnesota. I am here in our nation's capital to do the public's business. I hope you will contact me again about matters of concern to you.

- Amy

MINNESOTA  
JUDICIAL  
BRANCH

Amy,

Good afternoon,

My friend XXXXXX - Founder of XXXXXX and XXXXXXXX, whom I've known for almost 20 years suggested I reach out to you regarding all of the crazy stuff going on in my life as a result of an extremely valuable patent I have been granted - that being US11577177B2 of which I alone am listed as the sole inventor on and which was officially granted to my company InfiniSet, Inc. on Valentines day of this year.

Before I dive into the craziness that has become my life as a result of this patent I'll start off with an introduction of who I am - that being a 42 year old born and raised Minnesotan who grew up in Plymouth, MN on the east side of Medicine Lake at the top of the hill on 32nd Ave and who has remained in the general vicinity my entire life except for the period of 2014 - 2020 when I moved to Los Angeles to work at what essentially was my dream job at the company formerly known as V Squared Labs and which is now [www.XiteLabs.com](http://www.XiteLabs.com) where I had the opportunity to travel the world for the first time in my life while being paid to essentially 'play with computers' doing what I loved while also attending some of the biggest concerts and festivals that a lot of people dream of being able to go to. I worked my way up to this after being a DJ and club promoter in downtown Minneapolis (which is how I met XXXXX as well as XXXXXXXX of XXXXXXXX Studios) where I eventually found my calling working as a lighting designer at many of the downtown nightclubs - Mainly Epic Nightclub from 2008-2013 as well as many others which is where I 'cut my teeth' so to speak. I have contributed and been involved in many different local events and businesses which then turned into me getting worldwide recognition in various publications, etc. after moving to LA where I was involved in such things as putting on a show for the King and Royal Family of Saudi Arabia in 2019 for a UNESCO World Heritage Event as well as designing, engineering, and fabricating Bad Bunny's mainstage Coachella set piece in 2019 among many other impressive feats - many of which I can hardly believe I successfully completed when looking back at all of it.

All of this work I speak of including both the local as well as international projects can be viewed on my personal portfolio site [www.MattGuertin.com](http://www.MattGuertin.com)

Fast forward to now -

I moved back to Minnesota from Los Angeles in April of 2020 due to Covid and ended up moving into a one bedroom apartment in Minnetonka where I sat aimlessly for a while wondering what I was going to do with my life as I was essentially without any direction or purpose due to Covid and so late 2020/early 2021 is when I actually put together my personal website due to finally having the time to compile everything I had been diligently documenting along the way, with the ultimate goal being to find new employment opportunities - that was until February 3rd, 2021 when I thought up the idea which I have now officially been granted a patent for, along with an 'InfiniSet' word trademark, logo trademark, and which I have been working on nonstop ever since - all made possible by the investment, help, and support of family members that believed in me - mainly my aunt and mom. In addition I just filed my PCT application in Brazil, Canada, Chile, Israel, Japan, Malaysia, Mexico, Nigeria, Philippines, Singapore, and the UAE and will be filing additional international patents in the 31 month countries before the October 19th deadline as I am in the process of securing major investment from my friends in XXXXXXXX - whom I met as part of my wordly travels when I was in Los Angeles

---

---

---

So now that you have a better idea about who I am and what I've been up to I will get to the main reason for contacting you which is in regards to all of the completely surreal and insane things I have been dealing with in terms of being targeted by major corporations due to my patent - which is a VERY big deal due to what it makes possible. As an example I have been directly contacted by XXXXXX who is the XXXXXXXX at XXXX XXXX Corporate locally with heavy interest, multiple virtual film studios which all want to talk to me and use my technology, and I have had many people I know in the entertainment industry who are well versed in 'virtual production' tell me that it is "going to revolutionize the industry", etc. - all of which is true as it is essentially a rotating treadmill whose rotation and speed is precisely controlled by the media server / render engine - that mainly being Unreal Engine - with the end result being the ability for a person to travel anywhere they want along the ground plane through a virtual environment/real world pre-filmed environment all while staying in the same, small physical 'real-world' location.

What I invented is essentially the 'holy grail' of VR/AR and virtual production - with the technical term for it being 'Free viewpoint rendering' - Keep in mind that I have not had any formal college education yet I was able to single handedly think up this idea and then design, engineer, fabricate, and program a working prototype of the exact design shown in my patent filing in addition to setting up the company, designing the logo, dealing with all of the patent stuff, etc, etc. It is not an exaggeration to say that I have dedicated my entire life solely to this for nearly the last three years which includes all of my time, money, focus, etc. It's become my whole life - and I currently have two very well known companies in the process of essentially stealing it from me - those being Microsoft as well as Netflix. Both of them are carrying out this fraud using Ai generated content, videos, and websites which are then being fraudulently posted into the past with the help of other major companies including the Xxx archive, XxxTube, Gxxgle, 'official' academic publishing websites, etc, etc. all for the purpose of creating fraudulent prior art and essentially creating a completely fabricated, false history with the end goal being to steal my patent by invalidating it.

It sounds crazy and it is.....it is surreal...even still. I have proof of all of the claims I am making though as I have been collecting and analyzing a massive amount of digital forensic evidence and have also filed two different police reports as well as a report with the FBI through IC3 dot gov, an FTC report, and a report with the SFO in the UK. In regards to Netflix it is very relevant to mention that I ended up in the extremely unlikely 'fluke' of filing my provisional patent application only 12 days before Stephan Trojansky filed a patent for the exact same thing - I filed on March 19th, 2021 and he filed on March 31st, 2021. His company 'Scanline VFX' was acquired by Netflix for at least 100 million dollars 8 months later based on Netflix Q12022 investors report with the official acquisition being announced in a Netflix press release on November 22nd, 2021. All of this can be verified by searching their website. As a result of his provisional patent and the subsequent acquisition Netflix and Trojansky formed the company 'Eyeline Studios' for the sole purpose of focusing on that which is contained within the Trojansky application (which is currently assigned to Netflix, Inc.)

The other thing which is very relevant is the fact that I expedited my patent filing via USPTO TrackOne which is the reason I was already granted a patent on Feb 14th of this year and the Netflix application is still just an application. Once my patent was granted on the 14th me and my patent attorney filed a 3rd party prior art submission with the USPTO which was officially reviewed, determined as relevant, and entered into the record officially on Feb 20th of this year. I essentially 'destroyed' the Netflix patent as I covered every single one of their claims all the way down to using the exact same language regarding a user cue system, digital twin, etc. It's pretty crazy actually...just as everything else is and has been since discovering the Netflix patent which I only came across randomly due to the Microsoft/Mark Roberts Motion Control fraud which was being carried out by creating a fake website/company called PhotoRobot which is all entirely fake I ended up figuring out but which is officially listed as unpublished prior art on my patent - it is all fraud. The ironic part is that the only reason I even know about PhotoRobot (and in turn the only reason I inadvertently stumbled upon the Netflix patent..) is because the CEO of Mark Roberts Motion Control responded to me 3 weeks later after I had contacted his company to get help with a 3d model of their 'Bolt Cinecam' after attending a local workshop at Cinemechanics in Golden Valley July of 2022 in which he directly pointed me to PhotoRobot in his email due to being so overly confident and excited about the fraud he was involved in carrying out even though it obviously wasn't anywhere near being 'complete' as I ended up not even looking into it at all on the Internet Archive until over a month later. He apparently thought I would never figure any of it out - the same goes for Netflix who is now involved in trying to fraudulently invalidate my patent in one of the most obvious and in my opinion stupid 'plans' ever as opposed to simply approaching me and offering to pay me which I would've been happy to outright sell for a solid offer - but instead they are now choosing to carry out a massive fraud which is very obvious and which should (if there is such thing as any type of actual 'justice' for these mega corporations...) result in their entire company Eyeline Studios being dissolved.

The way all of this criminal fraud is being carried out is that these companies are essentially utilizing Ai to create any type of fake content/images/videos/academic papers/websites they want and then XxxTube, The Xxx Archive (a 501c3), Gxxgle, Xxxxxxx, Xxxxxxln, official academic publishing websites, and a huge consortium of other tech companies are conspiring with them in the fraud by allowing them free reign to fraudulently post back dated content for the purpose of creating whatever false history they want to establish with the end goal being to defraud people/companies (me) of intellectual property or whatever other end goals they want to achieve. I mention not only me and my intellectual property because it is very apparent that this is not only being used to defraud me and is in fact an established system it would seem - this is especially true based on all of the evidence and research I did involving the web archive - which I now

see has been listed on the USPTO website as a credible source that can be used as court admissible prior art for the purpose of establishing the validity of patents and therefore used to invalidate patents - like mine.

In the case of the Netflix fraud currently being carried out against me they now have Paul Debevec working for them which I discovered after viewing a SIGGRAPH 2023 video in which he gives a 1 hour presentation openly representing Eyeline Studios in which he presents a rotating treadmill at the 59 minute mark which he claims that he invented in 2006 as part of his 'Light Stage' which is in fact 'real' as he has been granted 3 patents for it - granted in 2006, 2008, and 2015. The thing is that the treadmill he is claiming to have already created in 2006 is essentially the exact same technology as well as achieves the exact same end result as that which is contained in both my patent as well as the Trojansky/Netflix application - meaning it would not only invalidate my already granted patent if it were in fact authentic but also the still pending patent application which was the entire reason for the company he is working for being formed in the first place and which the CEO, Stephan Trojansky is listed as the sole inventor of. So this is apparently their brilliant plan to deal with the fact that my already granted patent has been filed and accepted as 3rd party prior art against their patent application. Just on its face they have an obvious and very clear issue related to their duty of candor as they have a person now working for them who supposedly already invented the same exact thing they have a pending patent application for but which is not included as prior art. Even if it was though it makes no sense. I am not sure if their plan is to try and invalidate my patent and then have all of the fraudulent content and academic papers taken down and then they still try to obtain a patent for their pending patent application - but even this doesn't make any sense.

Regardless - besides the already very obvious and clear issue that exists in my opinion (as well as others I have conferred with..) I have been able to collect a very large amount of academic papers spanning early 2000's to current (3.5gb...around 248 total articles - I say 'around' because there are some duplicates mixed in as well) as well as a large amount of content from the Russian search engine Yandex (which I collected from Yandex because much of the results remained authentic as opposed to the USA/Google search results). What the 'authentic/original' search results clearly show is that Paul Debevec's 'Light Stage' is in fact real but that it is was specifically focused on capturing the human face as opposed to a moving person on a treadmill, and in addition I have also spent my own time analyzing and making sense of all of this data I collected using MAXQDA as my main tool which allowed me to conduct language analysis and search for various words and analyze the use of words and language. One of the things I was able to figure out is that even though Paul Debevec clearly states in one of his fraudulent 2006 papers that "at the center of the setup is a rotating treadmill" the word treadmill is never mentioned once in any of the 3 patents he was granted for his 'Light Stage' - in fact I actually downloaded every single one of the patents which Paul Debevec is listed as an inventor on and the word 'treadmill' is not ever mentioned in any of them at all even though it is obviously the 'key' element that makes the entire subject matter of his claimed paper possible. Besides this obvious red flag I have a whole bunch of other evidence and proof I've established in addition such as being able to very clearly prove that his claimed 2006 papers contain images that are 100% Ai generated which is an obvious problem if they were really from 2006 as is being claimed. I figured out that the images (as well as the video being presented as authentic from 2006 as part of the research and academic papers) by adjusting color curves in Adobe After Effects and Photoshop - I essentially devised my own Ai detection method which I have yet to see anyone else cover but regardless it very clearly highlights a well known artifact of Ai generated images and video content - those being 'checkerboard artifacts' (which I also have all of the documentation and research compiled for the purpose of substantiating that it is in fact all fake, ai created content)

I also have proof in the form of emails from LinkedIn that USCCinema - the school where Paul Debevec is a professor at searched for my LinkedIn profile two separate times, etc, etc. It's a lot of stuff to cover which is why I will simply provide you with some links which in fact proves every single claim I am making without any doubt whatsoever.

In addition to all of the digital evidence I have collected I also have a large amount of email communication between me and my patent attorney, the web archive, the CEO of Mark Roberts Motion Control on October 31st (which is what kicked this whole thing off - MrMoCo is partnered with Microsoft)

It is a very long story and a lot to try to explain which is why I will try to wrap this up in the interest of time and instead provide you with some links to the various reports I filed as well as to solid proof that all of the stuff being presented as authentic is in fact generated by Ai - mainly CNN and GAN being used to generate completely fake images and videos.

Long story short I am currently in fear for my life insofar as not wanting to go outside at all until I am at least able to secure my investment and get some additional shareholders assigned to my company so that I am not the main 'problem' standing between Netflix and the 500 million + dollars plus they have invested so far into their endeavor - the one which is technically infringing on my patent - WHICH THEY KNOW THEY ARE. I have no idea why the hell they would rather risk everything by attempting to carry out a large criminal conspiracy as opposed to paying me a large sum of money which in turn would make them 'whole' as far as still being able to continue forward with their business while also retaining all of the intellectual property rights they thought they originally owned for the next 20 years and both of us would be happy.

The main problem and my reason for refusing to back down no matter what happens is because they are trying to steal everything from me. I have dedicated a massive amount of time and effort throughout my life in order to be able to have all of the knowledge and skills required to arrive at this point where I thought up this insanely valuable idea along with all of the skills needed to design, engineer, and build all of it without any college education at all. I am now at a point where I have spent the last three years straight working on this and used up all of the money my family is able to afford and they are trying to outright steal all of it from me instead of simply compensating me a very large, yet fair sum of money so that I can have all of my hard work pay off and retire and relax and enjoy my life. Instead I am essentially being forced into being a whistleblower due to the fact that I am being forced into exposing not just Netflix but an entire massive criminal conspiracy involving some of the largest companies in the world which is not exactly my idea of a good time or any part of what I intended when I simply thought up a good idea and worked hard to make it a reality.

I am reaching out to you in the hopes that you can 'shine some light' on all of this and help me in resolving this rather large problem. It should also be noted that the US Government helped with initial funding and holds an interest in Paul Debevecs Light Stage research and the resulting patents which may explain why there is an Army dot mil site hosting Paul Debevecs fraudulent 2006 papers for the purpose of helping to carry out and aid in this fraud. This may also explain why I have had government agencies like DARPA, Defense Intelligence Agency, US Army Reserves, US Air Force, INFOPACOM, etc all directly search for me on LinkedIn (which I have proof of) yet none of them have felt the need to message me and say hi at all. I feel like I am up against a rather large machine and it is complete bullshit as they have access to unlimited money essentially and I would be more than happy to sell them my company along with the intellectual property.

My ultimate goal is simply to be able to retire and live the rest of my life not having to worry about money any longer. I say this as someone who grew up having never met my father who grew up in foster homes, and shelters, etc and inbetween was raised by my single mom who was on government assistance. I've busted my ass and fought hard to earn everything I've achieved in my life which includes the current point I am at where I have single handedly interrupted business dealings involving hundreds of millions of dollars and am currently sitting on a patent that is worth billions of dollars and all I really want is to be paid and left alone to live my life. I just want all of my hard work to pay off - not stand by and let it be stolen from me.

Regardless of what happens I am not going to simply give up. Not at all.

I am going to continue forward no matter what and turn this into a valuable business and then Netflix can end up bidding against Disney and Universal Studios to buy back what they could've had for 5% of the price had they simply been honest instead of being thieves and criminals. I am worried about my safety currently because I am smart and understand the high stakes game I have inadvertently ended up having to play - but at the same time I am pissed off because this is such bullshit that I am even having to deal with this to begin with. Pardon the language but just having to even spend the time writing this along with all of the other stuff I have had to deal with is pissing me off because I don't deserve this and it's shady af that all these companies are essentially nothing more than a bunch of criminals. They picked the wrong person and severely underestimated my abilities as I am guessing they are doing this to many other people but I bet I am the only one who has figured it all out.

Here is a video edit I just recently made which does a good job showing where I am at with my actual invention and what I have been able to design, engineer, fabricate, program, etc while also simultaneously dealing with all of the other crap that has now become 'my life' due to simply filing a patent for a really good idea

## Privacy Act Release Form

---

From Welch, Hanna (Klobuchar) <Hanna\_Welch@klobuchar.senate.gov>

To Matt xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx >, xxxxxxxx@xxxxxx

Date Tuesday, October 3rd, 2023 at 2:32 PM

---

Hello,

Thank you for contacting the office of U.S. Senator Amy Klobuchar. Before we are able to take any action, the person in need of assistance will need to complete and sign the enclosed Privacy Act Release Form. This form grants our office permission to act on your behalf, and gives the relevant federal agency or agencies permission to discuss your situation with our staff and release any pertinent information to our office.

Please complete the enclosed form and return it to our office by fax at (202)-XXX-XXXX or by postal mail at 1200 Washington Avenue South, Suite 250, Minneapolis, MN 55415. Feel free to include copies of documents which are particularly relevant to your case. If you have any questions please contact our office at (612) XXX-XXXX and we will be happy to assist you.

Sincerely,

Hanna Welch

Constituent Advocate & Intern Coordinator

Office of U.S. Senator Amy Klobuchar

1200 Washington Avenue South, Suite 250

Minneapolis, MN 55415

Office: 612-XXX-XXXX

Fax: 202-XXX-XXXX

Everything regarding my situation can be found at the following web link -

[mattguertin.substack.com/?sort=top](http://mattguertin.substack.com/?sort=top)

All one has to do is start out by reading through the 'InfiniSet CEO Uses chatGPT for first time' and it's highly likely you will keep on reading everything else I have been able to figure out and decided to simply make public. The post and my page has over two thousand views and if it were candle sticks on a market chart it gives me the vibes of wanting to break-out pretty soon in terms of the past few days of activity.

If you would like to get a much clearer picture more quickly below is another link where I show how my granted patent could be used in terms of military training simulations - if you read through the other stuff however and then arrive at the information below (which is essentially the 'end' output of everything currently in terms of flow) you will also realize that the whole military aspect and Netflix, once clearer, actually serves to almost self-substantiate what I believe to be the very obvious and clear (100% certainty in my opinion) images and video content generated by a CNN ai model in all of the papers - which they could come up for an actual excuse for if it wasn't all claimed to be from 2006 due to ai not existing at the time that was capable of generating the images and video) Even just the content itself though is ridiculous just at first glance to many I have shown it to based simply on what they are trying to pass off as 'authentic' while claiming such a far ago date as far as what technology actually existed back then - long story short it is way too overproduced and perfect and also in my opinion too high resolution for some of the elements if they were actually from 2006 - this doesn't even take into account the obvious CNN artifacts I uncovered very clearly using digital forensic detection methods involving color curve analysis. It would be laughable if I wasn't the one it was directed at...

[mattguertin.substack.com/p/potential-military-and-ai-applications](http://mattguertin.substack.com/p/potential-military-and-ai-applications)

Simply providing you with these web links is the easiest way for me to convey the information in terms of 'big picture' to you otherwise I would spend too much time focused on this as I need to 'move on' and refocus my attention back to the actual business itself and what I need to accomplish.

I would be happy to provide any additional information required in terms of any and all digital forensic evidence if something actually ends up being done regarding what I believe is very clear, obvious, and blatant fraud taking place. Regardless I only mention all of this for the purpose of letting you know that I have all of the 'proof' to back up everything I am claiming 100x over. It's just that I am not going to be able to meet the next deadline of October 19<sup>th</sup> which is my deadline to come up with enough money to file the remainder of my international PCT 31 month country filings - which includes Europe. I cannot fail. Plus I am really just getting sick of all of this stuff. It is exhausting.

No one has done anything. Attorneys don't want to even touch it. I have reached out to so many people and it seems pointless as it appears they are either intimidated or being intimidated by outside forces and pressures. Something I believe is likely due to the obvious military involvement in what is all taking place regarding my patent - which has literally turned my life into kind of a surreal nightmare at this point even though I still always try to stay positive and focused.

I don't deserve any of what I have gone through for nearly the past year straight at this point and the fact that it also appears to very clearly involve at least elements of the US Military / Army who I am supposed to believe are my fellow citizens, and whose job definition involves serving and protecting the country in which I live isn't only 'worrisome' for me in terms of concerns for my personal safety but also just kind of sad in a way to realize that I literally feel like one of my 'enemies' in all of this are people I believed were there to actually help and protect me at one point in time...not that long ago actually.

<https://MattGuertin.substack.com/p/potential-military-and-ai-applications>

## Amy Klobuchars assistance -

I would like for Amy Klobuchar to assist me in demonstrating the belief that our society upholds equitable principles for all, regardless of status or resources.

I would like for Amy Klobuchar to assist me in addressing the perception that powerful corporations, agencies, legal entities, and individuals are seemingly invincible and unconcerned with the law due to their vast financial resources and teams of attorneys. This situation presents significant challenges for an independent inventor, US Patent holder, and CEO of a small startup like myself when defending intellectual property rights in proceedings involving small businesses, large corporations, and the USPTO.

I would like Amy Klobuchar to assist me in addressing, and possibly reducing, some of the prevalent stereotypes in the realm of small businesses and intellectual property rights. These stereotypes are not indicative of a judicial process that genuinely upholds impartiality and the principle of justice being 'blind'. Yet, for some reason, many people readily accept and even perpetuate them without giving them much critical thought.

I would like for Amy Klobuchar to assist small businesses, not only in Minnesota but also across the country, as they seek redress and defend themselves against corporate fraud, criminal fraud, and other forms of fraud tied to the misuse of rapidly evolving large language models and various AI image/video generation tools that are being employed for AI-assisted white-collar crime and deceptive business practices.

I would like for Amy Klobuchar to assist me in being able to trust that the digital information which all of us as a fair, functional and collective 'society' rely on as a whole in order for 'society' to even exist in the first place is in fact truthful, authentic, and without deception for everyone equally even though much of it is ultimately actually controlled by only the few.

Sincerely,

Matthew David Guertin

## Congressional Response:

---

From Welch, Hanna (Klobuchar) <Hanna\_Welch@klobuchar.senate.gov>

To Matt xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx >

CC xxxxxxxxx@msn.com

Date Tuesday, October 10th, 2023 at 1:02 PM

---

Good afternoon Mr. Guertin,

Thank you for contacting the office of U.S. Senator Amy Klobuchar. We have received your privacy release form and your written letter regarding your concerns. I am sorry to hear of the difficult issues you are experiencing with numerous agencies. Our office is limited to contacting federal agencies on behalf of Minnesota constituents. With that being said, we may contact the U.S. Patent and Trademark Office regarding the product. At your earliest convenience, please provide any supporting documents that would be helpful in sending to the USPTO along with the congressional inquiry. This may be an application submitted to the USPTO or how the product/service has suffered loss/revenue. If you have additional questions or concerns, please feel free to contact me directly by email or by our office's main line at (612) XXX-XXXX.

Sincerely,

Hanna Welch

Constituent Advocate & Intern Coordinator

Office of U.S. Senator Amy Klobuchar

Hanna,

<https://mattguertin.substack.com/p/none-of-them-ever-say-hello>

These are only the ones that show up in my email inbox as I do not pay extra on LinkedIn

So if we go off that alone the other agencies involved in all of this are DARPA, Army, State Department, Defense Intelligence Agency, INDOPACOM. Just the fact that Paul Debevec searched for me twice should be a huge red flag as he is the 'face' of the fraud as he has legitimate accomplishments and worked at Google, etc.

<https://mattguertin.substack.com/p/dr-paul-debevec-fraud>

this right here should serve to instantly discredit the entire validity of their operation as well as their patent as they are 100% all involved in a massive criminal conspiracy as well as wirefraud if you want to get technical - but they simply do not care because no one does anything. Is someone at Netflix or Paul Debevec really ever going to be worried about 'truly' getting into trouble for what ultimately is blatant fraud being carried out ?

I am not sure if I was emailed this on purpose and perhaps if the authors saw what was happening to me and put this story up to help me or if it is a complete fluke. Regardless this discredits everything while also lining up perfectly with the patents Paul Debevec does in fact have for his Light Stage (which is what they are trying to say his fraudulent research was based on)

So if there is anything to specifically 'hone in on' it is the link above as they have gotten rid of everything else in terms of the 'true and authentic' history they were able to completely wipe off the internet.

<https://mattguertin.substack.com/p/the-internet-archive-fraud>

This is me proving that the InternetArchive were the ones carrying out the first round of fraud I experienced near the beginning of this year. This is mathematically sound insofar as the odds that the pattern you see would ever happen to all of the different page groups. I actually made a custom program to be able to parse all of the data you see and put it into spreadsheets. I

<https://mattguertin.substack.com/p/ai-generated-youtube-videos-from>

I have these completely synthetic, ai generated references on my official patent in the form of ai generated youtube videos which ultimately serves to add credibility to the fake 'PhotoRobot' entity should they somehow appear to legitimize it through various methods I could imagine they have the resources to accomplish/work out. This stuff almost certainly had to have been created by Microsoft as they are partnered with Mark Roberts Motion

Control in addition to the fact that they were able to produce almost all of this in three weeks - those 3 weeks being the time inbetween me firstly contacting the CEO of Mark Roberts Motion Control and him finally responding - which was on October 31st of 2022. I believe these videos are still currently much more advanced than what your average person even thinks is possible at all as I never would've even thought to look more closely at them had I not first been dealing with images.

<https://mattguertin.substack.com/p/a-closer-look-at-the-photorobot-fraud>

Speaking of here are those images. This is from their fake product brochures. The method I am using to bring all of this stuff to the surface is basic color curve analysis which anyone remotely capable of using a computer could do pretty easy. In addition there is some of my additional very early captures as well as I witnessing everything keep changing. Just so you realize the woman you see where it says 'Page 5 from 'Virtual Catwalk' is the same 100% synthetic/not real woman that you see in the videos - with the same artifacts if you look more closely at it.

<https://mattguertin.substack.com/p/dr-jill-rogstads-official-diagnosis>

Here is the blatantly deceptive forensic psychologist I had to go see after being messed with so much and then stumbling across a video of completely fake people which I had never encountered before that I was literally frozen in fear and thought there may very well be people waiting to kill me outside my apartment if I left at all. They knew I was downloading all of the evidence because why would anyone else care? It was literally only me that they were trying to steal from. My life has literally never been the same since that email from the CEO. It's not just related to business...I am currently afraid of going outside at all or going anywhere and the people I am afraid of all appear to be in positions of power or have access to plenty of it. What other explanation would there possibly be for all of those government/military agencies searching for me on LinkedIn? They never send me a message. Everything I have been going through directly relates to the insane value of my patent and the fact that I was unlucky enough to end up filing it 12 days before Netflix. It is safe to assume they have probably invested billions of dollars into the whole military aspect of it by now. That just makes it that much more insane though that they would be willing to just steal from me as opposed to paying me. The entire USPTO may as well be pointless now - especially in the new age of ai. They don't even send out hard copies of patents anymore.

So to be clear about what was carried out just in relation to the Netflix stuff (round 2) they were essentially able to scrub the entire internet of conflicting content and then they distributed a very large amount of completely fake/ai generate images and videos, flooded YouTube with it, accredited academic publishers, etc. YouTube even let them upload edits of original / authentic content which contained the fraudulent stuff edited in the middle of the video. It is insane. It means that IP is essentially pointless because if you end up like me and come up with an idea that is actually hard to calculate in value due to 100% being a 'breakthrough' 'disruptive' revolutionary concept that there is nothing at all one can do if the people with all the power, money, and digital control of the 'gates' so to speak are able to literally do anything at all they want in terms of very easily just creating fake prior art with a date that's earlier than your and it is game over. That is what they were trying to do to me now two different times and I caught them both times - which is crazy in itself as both times were kind of 'luck' or some type of 'devine' aspect I believe.

This is just exhausting. It has sucked so much of my time and focus away but I would've been foolish not act once I realized what was taking place. I was literally all lined up, opened up my bank account, was happy again and getting outside, etc and then literally all that happened was me seeing the fake video, knowing it was fraud, and

then my whole life has literally been uprooted again suddenly as I am thrown onto a completely different trajectory. When I speak of being worried about my safety I mention that because there have been very clear signs I am/was being surveilled. As an example of all the questionable and strange shit that has now become my 'life' due to this patent just take a look at this - <https://link.storjshare.io/XxxXxxxxXxxxXxXxxXxxxxXXx/round-1-photo-robot%2FspecialOpsGearInvention%2FspecialOpsGear>

Somehow I end up with a welder that is also in the CIA...or said he was...but even though he was cool I always got sketchy vibes for some reason...theres a whole lot more 'stuff' in regards to the welder but I will spare you. There is also Google taking my trademarked name 'InfiniSet' and then naming their dataset 'InfiniSet' for their new ai after the fact for the purpose I believe of flooding the internet so that I can't get any traction or hits as they literally have a massive amount of ai generated fake news stories constantly being posted where some of them will use the word 'InfiniSet' 8 times in one pointless article. Just go on Google and type in 'InfiniSet' and you will see exactly what I mean. I am 100% being targeted and messed with. The biggest tell in the case of Google is that they are purposefully and intentionally constantly pumping out new pages / stories so that the search results always stay flooded with the name of my company! It is so crazy. Just go on Google and use a search filter for the last week or month and search for InfiniSet and you will see a bunch of pointless stories. Try clicking on the author. You will realize there is no actual author and the little twitter logo and LinkedIn logo aren't even clickable.

I could literally go on and on and on. I am literally swimming in digital forensic evidence along with all sorts of crazy stuff that was or is going on.

<https://mattguertin.substack.com/p/images-from-2006> <~~these are actual images from their fake papers. The little squares prove it is 100% ai generated yet they claim it is all from 2006 when ai wasn't capable of this

They have went to such extreme yet obvious lengths that why wouldn't they also be intentionally making sure certain calls don't get connected as it relates to being able to successfully move my business forward?

**The US Army was/is hosting one of these completely fabricated academic papers which was even a completely customized version geared specifically towards simulation training even though it had the exact same authors.**

If I had a magic wand and Amy Klobuchar had unlimited powers in terms of reach and ability to affect an outcome she would be calling up the USPTO and making them explain who/what/why etc was involved with the netflix patent suddenly being raced through the USPTO somehow even though they all knew about my 3rd party prior art which was entered into the official record, signed off on, but subsequently ignored, just as my patent attorney firm in Minneapolis had decided to drop me as a client without reason as a direct response to an email I sent clearly showing the fraud taking place and then after that Ms. Klobuchar would drive over to DARPA or the Defense Intelligence Agency and drag whoever is running it out by their ear and not let them leave until they provide some sort of valid reason as to why they are all searching for a private citizen that has absolutely no ties / affiliations / reason to be interacting with them. It would be a different story if they were searching for me and then sending me a message saying hello or something. I am of the opinion that the whole linkedIn search thing should be a cause for concern or something that should be looked into. They are paying attention to me for some reason obviously...? And then you even have the US State Department searching for me? Ummmmmm.....I don't even know what I am supposed to think any more..

Regardless my substack page is getting a lot of attention and hits now and so at some point it is going to have to be addressed in a meaningful way because there are a whole lot of people who understand what is all taking place as well as can clearly see that for all intents and purposes I have in fact 'proven my case' in the court of public opinion beyond any reasonable doubt. Netflix knows it. I know it. And a whole lot of other people also know it or will soon. I am essentially discrediting the entire system. It sounds like I am being hyperbolic perhaps but I am openly showing everyone all of the evidence and it would be fair to say that it is all rather compelling. If nothing is done or nothing becomes of it somehow in a way where people know that some sort of justice has been carried out or there actually were some ramifications it will cause an inherent distrust in a variety of ways and things in my opinion.

I am just clacking away on this keyboard and I could keep going and going but I have to try and stop and get focused now. Plus I gave you more than enough to read I'm guessing. :-)

I hope it comes across as somewhat organized when read. I will follow up shortly with some additional docs related to USPTO, etc. within a half hour.

Thank you,

Matthew Guertin

Hanna,

I am just finishing up the documents right now and will have over before noon.

I wanted to make sure to include my notes as well in regards to making it as easy and obvious as possible for anyone to see that the patents are the exact same thing as far as the core elements are concerned - that being the rotating treadmill.

I wasn't sure how quickly you needed so just wanted to update you

Thanks,

---

Hanna,

One final thing.

I actually happened to inadvertently stumble upon exactly what I had mentioned to you in the other email regarding YouTube allowing them free reign to upload edits of existing videos.

The absurdity involved in what they are attempting to pull off doesn't get any clearer than this in my opinion. Here is the ONE remaining source article which is authentic as far as accurately portraying Paul Debevec's true and authentic history -

<https://www.motionpictures.org/2013/10/uscs-paul-debevecs-role-in-the-matrix-avatar-gravity-more/>

If you look at that article and click on the video YouTube video embedded which is titled 'Animating a Photo-Real Human Face' I would suggest you sit and watch the whole thing to arrive at the ending for the purpose of context - but regardless the ending has the fraudulent, ai generated content added in at the end.

- [The video](#) has a claimed uploading date to YouTube of July 17th, 2013
- The actual date/year of the claimed TedTalk with Paul Debevec is sometime in 2009 which is apparent due to the year being written in the titles on the screen
- The publishing date of the article I linked above is Oct 29th, 2013 - approximately 3 months AFTER the supposed upload date, 3+ years after the supposed TedTalk occurred, and 6+ years after Paul Debevec's claimed 2006 academic papers, videos, and research.
- If you notice the way Paul speaks about what he is presenting to his supposed audience it seems he is referring to them having just created this marvelous new idea as far as his mention of continuing further work on it, etc
- None of this at all lines up with the contents of the 2013 MotionPictures dot org article linked above.
- AND - I think it is highly relevant to point out the fact that even though Paul is supposedly presenting that to an audience in 2009 (all unequivocal facts based on what they are representing as authentic and want us to

believe is 'real') for some reason the video that is shown is the exact same one being used in the fraudulent 2006 papers as well as videos - this includes both the video of 'Bruce' on the treadmill as well as the video of a bunch of 'Bruce's' running through the scene.

- This means that even though there would've had to have been at least 3 years approximately between Debevec's claimed 2006 accomplishments - which would in fact have been very large and noteworthy accomplishments if they were in fact authentic, especially for the year 2006 - that for some reason the only content Paul Debevec now has available to share with his make believe audience in 2009 is THE SAME EXACT CONTENT- IDENTICAL - to that which was supposedly created and produced for the original research.
- This is ridiculous on its face in my opinion just as the the inclusion of that video at the end of a short video titled 'Animating a Photo-Real Digital Face' is ridiculous insofar as how completely out of place and unrelated it is to the entire substance as well as the title itself of the video it is included with.

I believe this is something that is obvious to anyone using basic logic and reasoning skills without any need for a technical background - as in blatantly obvious. Hence my reasoning for following up and making mention of it. It is an excellent 'introduction' if you will to the fraud that is being carried out against me which involves a massive amount of resources, people, and companies.

I also attached the document to this email (included in the files I provided as well ) which I believe is the entire reason WHY they are so focused on the whole 'rotating treadmill' aspect which will help to make everything more clear regarding what I have shared above.

Thanks again,

Matthew Guertin

Hanna,

Just checking in to see if anything ever became of this as I have not heard back at all. I also sent a large amount of the various posts from my Substack page outlining the fraud and what is all going on via certified mail as well to make sure you also obtained an 'analog' version as well.

I am very aware of the fact that things don't happen overnight so not trying to bother you about it but I figured it wouldn't hurt to at least see if there are any updates or things actually taking place? (as opposed to also considering the possibility that my email reply - in which I suddenly throw the US State Department, DARPA, Defense Intelligence Agency, US Army, INDOPACOM, etc. into the mix may have quickly halted any of the things which may in fact have been in the process of taking place in regards to my situation..)

Besides the US State Department looking me up on LinkedIn 'sticking out' for obvious reasons, especially relative to the timing relative to the entire 'patent situation' - I think the other HUGE red flag would be the fact that both Paul Debevec and the US Army both looked me up during the same week which was right after I had signed up for the Internet Archive on December 9th, 2022 to take a snapshot of the entire PhotoRobot.com website and really began my whole 'investigation mission' upon the realization of the fraud that was taking place surrounding all of that ('Round 1')

Besides the obvious 'craziness' in general surrounding all of this the other thing I still cannot wrap my head around at all is why I was able to figure any of this stuff out in the first place? Meaning if Paul Debevec, Netflix, and elements of various US Federal Government agencies (many apparently..) all colluded to carry out this fraud why would they all be so stupid in terms of making it so openly visible to me in the first place? It is absolutely mind boggling in terms of still being completely surreal just in terms of how many people and agencies are obviously focused solely on me, my company, and my patent - but also because I can't help being completely confused as to why they would be making such 'amateur hour' mistakes such as choosing to look me up on LinkedIn from logged in and 'official' government LinkedIn accounts for example? When you consider just the names and purpose for some of these government agencies that are so interested in me it's completely absurd.

If they were going to carry out such a large 'operation' against me why didn't they at least execute it successfully so that I at least never knew it existed in the first place instead of being so careless that I have instead been essentially forced into either having to call it out - regardless of the massive implications involved - or simply stand by and allow the theft of my intellectual property to take place because I'm too scared and fearful to act due to the implications involved?

All of this is still completely unbelievable for obvious reasons...as in I literally have a hard time accepting that this really is in fact all actually happening and is actually 'my life' right now due to how insane all of this is. It is surreal....like I am living in a real life movie script now.

I just hope this movie has a good ending or at the very least there are some sort of actions being taken (which perhaps maybe I am unaware of or not privy to..) to try and ensure that ends up being the case anyways.

Thanks for your time,

## RE: Congressional Response:

---

From Welch, Hanna (Klobuchar) <Hanna\_Welch@klobuchar.senate.gov>

To Matt xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx >

CC xxxxxxxx@msn.com

Date Monday, October 23rd, 2023 at 12:51 PM

---

Good afternoon Matthew,

Thank you for your messages and my apologies for the delayed response. Are you able to clarify further how our office can of assistance in this matter? As I mentioned previously, we are limited to contacting federal agencies on behalf of Minnesotans. If this is something you would like our office to address with the USPTO, please let me know.

Sincerely,

Hanna Welch

Constituent Advocate & Intern Coordinator

Office of U.S. Senator Amy Klobuchar

See application file for complete search history.

A system surrounds an area with a first set of display panels. A second set of display panels is positioned above the area, and a third set of display panels is positioned below the area. A subject is positioned within the area and may be on an omnidirectional treadmill within the area. A controller communicates content to the first set of display panels, the second set of display panels, and the third set of display panels that presents a multidimensional scene when displayed. A set of sensors capture sensor data of the subject within the area while content is displayed. One or more of the sensors may be coupled to a repositioning system that repositions sensors so the subject remains in a field of view of different sensors. From sensor data of the subject, a representation of the subject may be generated for insertion into other video content.

U.S. Patent and Trademark Office

Application/Control Number: 18/108,858  
Art Unit: 3711

Page 2

***Notice of Pre-AIA or AIA Status***

1. The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

***Claim Rejections - 35 USC § 103***

1. In the event the determination of the status of the application as subject to AIA 35 U.S.C. 102 and 103 (or as subject to pre-AIA 35 U.S.C. 102 and 103) is incorrect, any correction of the statutory basis for the rejection will not be considered a new ground of rejection if the prior art relied upon, and the rationale supporting the rejection, would be the same under either status.

2. The following is a quotation of 35 U.S.C. 103 which forms the basis for all obviousness rejections set forth in this Office action:

A patent for a claimed invention may not be obtained, notwithstanding that the claimed invention is not identically disclosed as set forth in section 102, if the differences between the claimed invention and the prior art are such that the claimed invention as a whole would have been obvious before the effective filing date of the claimed invention to a person having ordinary skill in the art to which the claimed invention pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The following is a quotation of 35 U.S.C. 103 which forms the basis for all obviousness rejections set forth in this Office action:

A patent for a claimed invention may not be obtained, notwithstanding that the claimed invention is not identically disclosed as set forth in section 102, if the differences between the claimed invention and the prior art are such that the claimed invention as a whole would have been obvious before the effective filing date of the claimed invention to a person having ordinary skill in the art to which the claimed invention pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim(s) 1-13 is/are rejected under 35 U.S.C. 103 as being unpatentable over Brodsky US 2019/0307982 in view of KR 10-2020-0091594 ('594).

Brodsky discloses an immersive multisensory simulation system comprising a travel deck (102) supporting a treadmill belt (111) arranged in an endless loop

Application/Control Number: 18/108,858  
Art Unit: 3711

Page 3

(Fig. 14A) wherein the treadmill belt is configured for linear movement in forward and reverse directions and wherein the travel deck is configured for angular movement in forward and reverse directions; a turntable for rotating the travel deck, wherein the turntable is rotatable 360 degrees or more in both or a forward and reverse direction [0180]; a motor or cordless rotating mechanism for operation of the turntable and allowing for infinite rotation of the turntable and travel deck (Fig. 14A); ; and a floor base (ground surface) for supporting the travel deck and turntable [180], [0201], [0218]. It is noted that Brodsky fails to teach the use of one or more sources of vibration as claimed. However, KR ('594) teaches it is known in the art an earthquake evacuation training system using virtual reality, and a treadmill with one or more sources of vibration (11) for providing selected vibration to one of more locations on the belt as shown in Fig. 3, [0018]-[0019]. Therefore, it would have been obvious to one of ordinary skill in the art to provide the treadmill of Brodsky with the one or sources of vibration as taught by KR ('594) for the purpose of providing an additional simulated vibrating motion.

Claim 2, KR ('594) discloses a control unit for controlling the operation of the vibrating treadmill such as providing adjustable motors for adjusting the vibration. [0018].

Claim 3, KR ('594) also discloses a vertical drive cylinder (111), an elastic body (112) which is equivalent to a phenolic resin sheet, and a support plate (113) [0041].

Application/Control Number: 18/108,858  
Art Unit: 3711

Page 4

Claim 4, Brodsky discloses a controller in communication with the force applying unit for controlling the amount of positive or negative force [0055] to provide movement in forward and reverse directions via the belt; and wherein the angular direction of the forward and reverse movement is selectively adjustable via rotation of the turntable for directionally unlimited movement in an X-Y plane [0218]-[0219].

Claim 5, KR ('594) discloses a plurality of vertically driven cylinders that allow vibration to be transmitted to specific positions of the treadmill which means the cylinders can certainly be positioned in a grid formation to provide any specific haptic feedback to a user on the treadmill.

Claim 6, KR ('594) discloses that the vibration of the earthquake output through the virtual reality device is transmitted to the vibrating treadmill through wire/wireless communication between the vibrating treadmill and the virtual reality device [0016] for controlling the operation of the vibrating treadmill.

Claim 7, Brodsky discloses the omnidirectional treadmill surface is removable which provides a floor space to a user [0198]; and one or more edges of the surface can be considered a handle for removing the surface from the floor base.

Claims 8 and 9, Brodsky discloses in Fig. 14a the floor base operably supports the turntable thereon and the base comprises roller wheels for centering and supporting the turntable thereon, wherein the turntable operably supports the travel deck and the turntable supports a motor or actuator for controlling operation of the belt [0218].

Application/Control Number: 18/108,858  
Art Unit: 3711

Page 5

Claim 10, Brodsky discloses the floor base houses a motor/actuator or other lift and/or retraction members at various locations beneath the surface, to raise and depress the surface.

Claim 11, Brodsky discloses a battery, which is equivalent to a slip ring, provides power to all of the electrical components of the omnidirectional treadmill [0192].

Claim 12, Brodsky discloses the user wearing a VR headset which is equivalent to one or more monochrome surfaces [0228] which allowing digital isolation of a user on the treadmill.

Claim 13, Brodsky discloses the harness design conforms to a very wide range of user shapes and sizes with minimal adjustment [0271] such disclosure is equivalent to dimensions sufficient to allow the treadmill to replace a section LED flooring from a pre-existing LED floor tile system of an LED virtual film set which does not pertain any specific dimension.

***Allowable Subject Matter***

Claims 14-16 are allowed.

Re: **State of Minnesota v. Matthew David Guertin**  
**Court File No: 27-CR-23-1886**

Dear Ms. Perez,

As the defendant in the above named case whom is facing criminal charges received in Hennepin County of which you are named as the prosecuting attorney responsible for said charges, I would respectfully ask that I please be provided with the following discovery materials related to my case pursuant to the Minnesota Rules of Criminal Procedure, Rule 9:

- i. All Brady material
- ii. Squad video
- iii. Audio tapes
- iv. All 104 police photographs (as is listed in Dr. Jill Rogstad's "'Confidential Forensic Evaluation Report' pertaining to my case) which were taken by the Minnetonka Police Department of 10233 West 34<sup>th</sup> Street #304, on January 21<sup>st</sup> 2023. I would please ask that I receive these in their original, and non-compressed digital file format. If there are in fact physical, photographic quality prints those would also suffice.

I would appreciate receiving these materials as soon as possible. Please forward all correspondence to my email address. If any of these materials require postal mail for whatever reason they can be mailed to my address as listed at the top of this filing. Do not hesitate to contact me should you have any questions.

Sincerely,

/s/ Matthew David Guertin

State of Minnesota vs MATTHEW DAVID GUERTIN

You are notified this matter is set for a remote hearing. This hearing will not be in person at the courthouse.

| Hearing Information                                                        |
|----------------------------------------------------------------------------|
| <p><b>July 16, 2024</b><br/> <b>Review Hearing</b><br/> <b>1:30 PM</b></p> |

The hearing will be held via Zoom and appearance shall be by video unless otherwise directed with Judicial Officer, Hennepin County District Court.

If you fail to appear a warrant may be issued for your arrest.

The Minnesota Judicial Branch uses strict security controls for all remote technology when conducting remote hearings.

You must:

Notify the court if your address, email, or phone number changes.

Be fully prepared for the remote hearing. If you have exhibits you want the court to see, you must give them to the court before the hearing. Visit

<https://www.mncourts.gov/Remote-Hearings.aspx> for more information and options for joining remote hearings, including how to submit exhibits.

Contact the court at 612-348 2040 if you do not have access to the internet, or are unable to connect by video.

If you need an interpreter, contact the court before the hearing date to ask for one.

If you cannot afford to hire a lawyer and would like to apply for a court-appointed attorney before this appearance visit

<https://pdapplication.courts.state.mn.us> or scan the QR code to start the application.

**To join by internet:**

1. Type <https://zoomgov.com/join> in your browser's address bar.
2. Enter the **Meeting ID and Meeting Passcode (if asked)**:  
Meeting ID: 160 223 0876  
**Passcode: 1234**
3. Update your name by clicking on your profile picture. If you are representing a party, add your role to your name, for example, John Smith, Attorney for Defendant.
4. Click the **Join Audio** icon in the lower left-hand corner of your screen.
5. Click **Share Video**.

**DISTRICT COURT**  
**FOURTH JUDICIAL DISTRICT**  
**CRIMINAL DIVISION**

State of Minnesota,  
Plaintiff,  
vs.

Matthew David Guertin,  
Defendant.

Court File No. 27-CR-23-1886

**FINDINGS OF FACT,**  
**CONCLUSIONS OF LAW**  
**AND ORDER REGARDING**  
**COMPETENCY**

This matter was scheduled to come before the undersigned Referee of District Court on January 16, 2024. Tom Arneson, Assistant Hennepin County Attorney, represented the plaintiff. Defendant was represented by Bruce Rivers, Esq.

Prior to the hearing, the parties agreed to a finding of incompetency entered administratively. Based on all the files, records and proceedings in this case, the Court makes the following:

**FINDINGS OF FACT**

1. Defendant (date of birth 07/17/1981), was charged in MNCIS file 27-CR-23-1886 with Dangerous Weapons (Felony) and three counts of Firearm-Serial Number-Receive/Possess With No Serial Number (Felony) arising from an incident alleged to have occurred on January 21, 2023. On January 25, 2023, Referee Lyonel Norris found probable cause to believe that the offenses were committed and that Defendant committed them.
2. On November 15, 2023, Judge Julia Dayton Klein ordered that Defendant undergo an evaluation to assess Defendant's competency to proceed in this matter pursuant to Minn.R.Crim.P. 20.01.
3. Dr. Adam A. Milz, PhD, LP, ABPP, Psychological Services of Hennepin County District Court, reviewed Defendant's records, interviewed Defendant, and filed a written report with this Court.
4. Dr. Adam A. Milz, PhD, LP, ABPP, Psychological Services of Hennepin County District Court, opined that Defendant, due to mental illness or cognitive impairment, lacks the ability

to rationally consult with counsel; or lacks the ability to understand the proceedings or participate in the defense. This opinion was uncontested by either party.

### **CONCLUSIONS OF LAW**

Defendant is presently incompetent to stand trial.

### **ORDER**

1. The criminal proceedings in this matter are suspended until Defendant is restored to competency to proceed. While suspended, the criminal court retains authority over the criminal case including, but not limited to, bail or conditions of release.
2. Copies of this Order shall be served upon counsel for the parties and any objections to this Order shall be filed with the Court within ten (10) days of the date of service.  
Jacqueline Perez, Assistant Hennepin County Attorney - Criminal  
Division; Bruce Rivers, Attorney for Defendant
3. The Hennepin County Prepetition Screening Program (PSP) must conduct a prepetition screening pursuant to the Minnesota Commitment and Treatment Act and make a recommendation as to whether the defendant should be civilly committed under the Act.
4. PSP shall investigate whether civil commitment should be pursued and forward a recommendation in a written report supporting or not supporting civil commitment to the Hennepin County Attorney's Office - Adult Services Division ("HCAO-ASD") within five (5) days of receiving this Order.
5. Prepetition Screening shall provide copies of the Rule 20 Competency Evaluation, the criminal Complaint(s), and the underlying police report(s) along with its written recommendation to the Hennepin County Attorney's Office - Adult Services Division.
6. Defendant is ordered to cooperate with the civil commitment process including appearing at all court appearances in the civil and criminal cases.
7. Members of PSP shall have access to all Defendant's files and records, including those protected by Federal regulation or law. This Order grants the members of PSP access to the records of any individual or entity that has provided observation, evaluation, diagnosis, care, treatment, or confinement of the Defendant. This Order applies to, but is not limited to, records maintained by: Minnesota Fourth Judicial District Court Psychological Services; chemical

dependency evaluators and treatment providers; health clinics; medical centers and hospitals; physicians; psychologists; mental health care providers; case managers; parole and probation agencies; residential and nonresidential community mental health treatment facilities or programs; regional treatment centers; the Minnesota Department of Corrections; the correctional authority for any other state; schools and school districts; law enforcement agencies; and the Court's own records.

8. This Order also authorizes employees or officers of the record keepers described above to discuss the Defendant's condition, history, treatment, and/or status with the members of PSP. Information collected by PSP pursuant to this Order shall be considered private data on the Defendant, but it may be included in the written report produced by PSP and forwarded to the HCAO-ASD.
9. If the Fourth Judicial District Court - Probate/Mental Health Division finds the Defendant to be mentally ill, developmentally disabled, chemically dependent, or mentally ill and dangerous to the public, the Defendant may be committed directly to an appropriate safe and secure facility.
10. The head of the treatment facility shall submit a written report addressing the Defendant's competency to proceed in the criminal case when the Defendant has attained competency, or at least every six months.
11. Psychological Services of Hennepin County District Court, or the Department of Human Services Forensic Evaluation Department if the defendant is civilly committed, shall have access to Defendant's treatment records to prepare the required report(s) on the defendant's mental condition with an opinion as to competency to proceed. By presentation of a copy of this order, whether mailed, sent electronically, discussed verbally, or personally delivered, the custodian of records for any agency, department, or health care provider shall release all information and/or records related to Defendant, including medical, psychological, behavioral, social service, probation/correctional, developmental disability, military, Social Security, employment, and educational records, to the agency requesting the records within 72 hours. This Order shall be sufficient to require an agency, department, entity, or health care provider to release the requested information and/or records related to treatment Defendant has received in connection with that facility. Any of the defendant's records released pursuant to this order

may not be disclosed to any other person without court authorization or Defendant's signed consent.

12. The criminal conditions of release remain in effect until placement at an appropriate facility can occur.
13. Defendant's next appearance in Hennepin County District Court - Criminal Division on this matter and status review of Defendant's competence to proceed is July 16, 2024. One week prior to that date, reports regarding Defendant's competency and mental status shall be e-filed and e-served to:
  - a. Fourth Judicial District Court - 4thCriminalRule20 email list;
  - b. Bruce Rivers, Attorney for Defendant (riverslawyers@aol.com);
  - c. Jacqueline Perez, Assistant Hennepin County Attorney (jacqueline.perez@hennepin.us);
  - d. Hennepin County Attorney's Office - Adult Services Division (if a commitment is ordered);
  - e. The Commitment Defense Panel attorney appointed to represent Defendant by the Fourth Judicial District Court - Probate/Mental Health Division.
14. A copy of this Order, the Rule 20.01 Competency Evaluation, the criminal complaint(s), and the underlying police report(s) shall be delivered via email to the Prepetition Screening Program of Hennepin County's Human Services and Public Health Department.

 CIVIL DIVISION**

**In The Matter of the Civil Commitment of:  
 Matthew David Guertin,  
 Respondent**

**Court Case# 27-MH-PR-23-815**

**MOTION FOR CONTINUANCE**

I, Matthew David Guertin, the respondent in the above-referenced civil commitment proceeding, hereby respectfully request a continuance of the court hearing currently scheduled for February 1, 2024. This request is based on several critical factors that significantly impact my ability to adequately prepare for the hearing.

1. I have only recently become aware of the scheduled court date, giving me less than a week to prepare, which is insufficient given the complexity of the case.
2. I have not received crucial medical records, including the psychological evaluation report by Dr. Adam Milz, despite repeated requests to my legal representatives.

Email communications showing my attempts at receiving my exam report are included with this motion

3. There has been a lack of effective communication with my civil court-appointed attorney, possibly due to errors in information provided by the court or an oversight on the part of the attorney. Regardless I was just alerted via email yesterday that he did not have a correct phone number to reach me.

Email from Joel Fisher indicating that he was not provided with or did not have my correct phone number on record is included with this motion.

4. I am considering the possibility of seeking advice from private counsel to ensure a comprehensive defense.

5. Confusion and potential misinformation about my case have been indicated in communications I had with someone from the Hennepin County Prepetition Screening Program, whom I spoke with on the phone yesterday after receiving a call, further complicating my situation

Pursuant to Rule 122 of the Hennepin County Civil Court Rules, a continuance can be requested by motion in situations where the parties have not had adequate time to prepare due to emergent issues. Additionally, Rule 115 of the Special Rules of Practice for the Hennepin County Civil Court governs civil motion practice and supports the consideration of such requests to ensure proper preparation and fair proceedings.

Filed in District Court  
State of Minnesota  
1/30/2024 6:37 AM

#### REASONS FOR REQUEST:

- 1. Lack of Essential Medical Records:** Non-receipt of crucial medical records directly hinders my understanding of the case and defense preparation.
- 2. Need for Effective Communication with Legal Counsel:** The apparent miscommunication with my appointed attorney affects my right to effective legal representation.
- 3. Exploring Options for Private Legal Counsel:** The serious nature of the case compels me to consider additional legal opinions to ensure the best possible defense. In regards to the 'seriousness' that I mention I am specifically referring to the contents of the court order that was filed in criminal court as a result of Dr. Adam Milz's psychological evaluation report which makes mention of me potentially losing my freedom by being detained and committed to a facility.  
  
The mentioned court order filed in criminal court is included with this motion for reference.
- 4. Requirement for Clarity and Fairness in Proceedings:** The confusion and potential errors in the handling of my case by the involved agencies necessitate additional time for clarification and appropriate preparation.

I kindly request that the court reschedule the hearing to a date at least 30 days later to allow sufficient time for these preparations.

In the interest of justice and a fair hearing, I respectfully request the Court to grant this motion for continuance. Adequate preparation time is essential to ensure that my rights are fully protected and that I can effectively participate in my defense. All communication regarding this motion is to be directed to myself via the email listed at the top of this motion please.

Thank you for your attention to this matter.

Respectfully,

*Isi Matthew David Guertin*

dependency evaluators and treatment providers; health clinics; medical centers and hospitals; physicians; psychologists; mental health care providers; case managers; parole and probation agencies; residential and nonresidential community mental health treatment facilities or programs; regional treatment centers; the Minnesota Department of Corrections; the correctional authority for any other state; schools and school districts; law enforcement agencies; and the Court's own records.

8. This Order also authorizes employees or officers of the record keepers described above to discuss the Defendant's condition, history, treatment, and/or status with the members of PSP. Information collected by PSP pursuant to this Order shall be considered private data on the Defendant, but it may be included in the written report produced by PSP and forwarded to the HCAO-ASD.
9. If the Fourth Judicial District Court - Probate/Mental Health Division finds the Defendant to be mentally ill, developmentally disabled, chemically dependent, or mentally ill and dangerous to the public, the Defendant may be committed directly to an appropriate safe and secure facility.
10. The head of the treatment facility shall submit a written report addressing the Defendant's competency to proceed in the criminal case when the Defendant has attained competency, or at least every six months.
11. Psychological Services of Hennepin County District Court, or the Department of Human Services Forensic Evaluation Department if the defendant is civilly committed, shall have access to Defendant's treatment records to prepare the required report(s) on the defendant's mental condition with an opinion as to competency to proceed. By presentation of a copy of this order, whether mailed, sent electronically, discussed verbally, or personally delivered, the custodian of records for any agency, department, or health care provider shall release all information and/or records related to Defendant, including medical, psychological, behavioral, social service, probation/correctional, developmental disability, military, Social Security, employment, and educational records, to the agency requesting the records within 72 hours. This Order shall be sufficient to require an agency, department, entity, or health care provider to release the requested information and/or records related to treatment Defendant has received in connection with that facility. Any of the defendant's records released pursuant to this order

27-MH-PR-23-815

Filed in District Court  
State of Minnesota  
1/30/2024 6:37 AM

may not be disclosed to any other person without court authorization or Defendant's signed consent.

12. The criminal conditions of release remain in effect until placement at an appropriate facility can occur.
13. Defendant's next appearance in Hennepin County District Court - Criminal Division on this matter and status review of Defendant's competence to proceed is July 16, 2024. One week prior to that date, reports regarding Defendant's competency and mental status shall be filed and e-served to:
  - a. Fourth Judicial District Court - 4thCriminalRule20 email list;
  - b. Bruce Rivers, Attorney for Defendant (riverslawyers@aol.com);
  - c. Jacqueline Perez, Assistant Hennepin County Attorney (jacqueline.perez@hennepin.us);
  - d. Hennepin County Attorney's Office - Adult Services Division (if a commitment is ordered);
  - e. The Commitment Defense Panel attorney appointed to represent Defendant by the Fourth Judicial District Court - Probate/Mental Health Division.
14. A copy of this Order, the Rule 20.01 Competency Evaluation, the criminal complaint(s), and the underlying police report(s) shall be delivered via email to the Prepetition Screening Program of Hennepin County's Human Services and Public Health Department.

Joel,

Apparently you are my newly assigned attorney since I am still incompetent and unable to understand the nature of the charges against me or aid in my own defense...

I found your contact information by logging into my Hennepin County Case file and reviewing the service contacts....you know....since I am incompetent and whatnot.

I tried calling you but did not get an answer. Just wanted to touch base.

I am also wondering if my court proceedings are going to be over Zoom?

I assembled the timeline and graph you see below based on automated emails I received from LinkedIn and added personal events to it as well. In addition I have also attached all of the irrefutable, digitally authenticated 'PROOF' to this email in the form of all of the corresponding email headers, raw html, .EML exports, and PDF prints for every search date which serves to forensically verify the entire graph including the search count numbers listed as well as the actual entities that conducted searches of my LinkedIn profile.

In addition I have also attached my original psychological evaluation from Jill Rogstad along with all email communication between myself and her, my psychological evaluation conducted by Michael Robertson, My granted patent, the Netflix granted patent (that my name and patent are listed at the very top of...) along with the letter my California psychiatrist I have been seeing for over 7+ years wrote as a response to Dr. Jill Rogstad's egregious report.

I look forward to talking with you and meeting you prior to my court hearing that is coming up. If you are available for a call or a Zoom sometime soon (before my court appearance...) let me know what works and I will make it work on my end.

Thanks for your time,

Matthew David Guertin

**STATE OF MINNESOTA****COUNTY OF HENNEPIN****DISTRICT COURT****FOURTH JUDICIAL DISTRICT****CIVIL DIVISION****In the Matter of the Civil Commitment of:****Matthew David Guertin,****Respondent****Court Case # 27-MH-PR-23-815****MOTION FOR PRODUCTION OF MEDICAL RECORDS**

I, Matthew David Guertin, the respondent in the above-referenced civil commitment proceeding, hereby respectfully request the production of medical records pertaining to my psychological evaluation conducted by Dr. Adam Milz. This motion is made pursuant to the relevant rules and regulations governing the disclosure and production of medical records in the State of Minnesota and Hennepin County.

1. As part of the ongoing proceedings in my case, I underwent a psychological evaluation conducted by Dr. Adam Milz on January 3<sup>rd</sup> 2024
2. The findings and details of this evaluation are critical to my understanding of the case and preparation for my defense.
3. Despite multiple requests, I have not yet received these essential documents.

Pursuant to Rule 15 of the Special Rules of Practice for the Hennepin County Civil Court, which allows for the admission of relevant and reliable evidence including medical records without requiring foundation witnesses, and in accordance with Rules 11.03(a) and 14.06 of the General Rules of Practice for the District Courts, I request the production of my medical records.

I specifically request the Court to direct Dr. Adam Milz, or the custodian of his records, to produce the following:

1. The complete psychological evaluation report conducted by Dr. Adam Milz of myself on January 3<sup>rd</sup> 2024
2. All notes, observations, and any other documents or records related to the evaluation.
3. Any other relevant medical or psychological records that pertain to my mental health evaluation and treatment.

**REASONS FOR REQUEST:**

Access to these records is essential for a comprehensive understanding of the evaluation's conclusions, which are instrumental in formulating my defense strategy in the civil commitment proceedings.

In light of the above, I respectfully request the Court to order the production of the specified medical records at the earliest convenience. This is necessary to ensure that I have a fair opportunity to review and respond to the information contained within these documents, which are critical to my case. All communications and correspondence pertaining to this motion can be directed to me via my email address included at the top of this motion.

Thank you for your attention to this matter.

Respectfully,

*/s/ Matthew David Guertin*

**Subject: Request for Extension of Time to Respond to Non-Final Office Action**

Dear Commissioner for Patents,

I, Matthew Guertin, CEO of InfiniSet, Inc., hereby request an extension of time to respond to the Non-Final Office Action for the following application:

- **Application Number:** 18/108,858
- **Confirmation Number:** 6872
- **Title of Invention:** MOTORIZED ROTATABLE TREADMILL AND SYSTEM FOR CREATING THE ILLUSION OF MOVEMENT
- **NFOA Mailing Date:** 12/05/2023

As the assignee and micro entity, we find it necessary to request additional time to adequately address the issues raised in the office action. Accordingly, we are requesting a two month extension under 37 CFR 1.136(a).

**Micro Entity Status Declaration:** We affirm that InfiniSet, Inc., qualifies for micro entity status under 37 CFR 1.29, and all criteria for this status continue to be met.

**Fee Enclosed:** In accordance with the micro entity status, the fee for the requested extension is enclosed in the form of a money order in the amount of \$128.00

Please find attached:

- Form PTO/AIA/22 for the extension request, duly filled.
- A money order in the amount of \$128.00 made out to 'Director of the United States Patent and Trademark Office' for the required 'Extension Request Fees'

We appreciate your consideration of our request and look forward to your favorable reply. Should you require any additional information, please do not hesitate to contact me at [REDACTED] or

Email communication is currently the most efficeint and reliable  
communciation method to reach me.

Sincerely,

Matthew D Guertin  
CEO, InfiniSet, Inc.

## **Generative Artificial Intelligence, LLMs, And Fair Use After *Warhol*:**

### **The Copyright Office and Accountability**

**By Thomas L. Hamlin**

#### **Introduction**

Generative Artificial Intelligence (AI)<sup>1</sup> has been characterized as the greatest invention since the Internet, the new new thing, a plagiarism engine, and a technology that will destroy civilization. Even Sam Altman, the founder and CEO of OpenAI, has called it an alien intelligence. While some or all of these descriptions may or may not be accurate, one thing is abundantly clear: the technology raises serious copyright infringement and fair-use issues that the United States Copyright Office must address to introduce accountability to a handful of Silicon Valley entrepreneurs and large tech companies who control this technology. The Office has begun this process by recently publishing Registration Guidance: Works Containing Material Generated by Artificial Intelligence, which presented criteria for granting copyrights to works generated by AI, as long as the product was the result of human authorship.

The Office has also held Listening Sessions this spring in which representatives from the literary, music, software, and visual-art worlds offered opinions about how the Copyright Office should address this new technology while protecting the rights of creatives in these various industries. The Listening Session participants offered a variety of comments, but the major concern was that AI companies scrape the internet for huge volumes of information to train Large Language Models (LLMs), which, in turn, power chatbots such as ChatGPT. Much of this information is protected by copyrights, but these AI companies offer no compensation to creators. This raises the issue of whether training these LLMs and producing their outputs infringe copyrights under 17 U.S.C. § 601, or are fair use under 17 U.S.C. § 701. The Copyright Office has not yet proposed regulations on the training of LLMs, or when fair use may apply. It plans to do that after seeking even more comments from the various stakeholders, and other interested parties. While the Office itself does not litigate fair-use issues, it does publish a best-practices guideline on fair use, as part of its statutory mandate to administer the Copyright Act.

Recently, the United States Supreme Court issued a decision on at least one of the statutory factors for fair use that must be considered as a defense to copyright infringement: the purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes.<sup>2</sup> While the facts in *Andy*

In the Matter of )  
 )  
Implications of Artificial Intelligence Technologies ) CG Docket No. 23-362  
on Protecting Consumers from Unwanted )  
Robocalls and Robotexts )

## NOTICE OF INQUIRY

Adopted: November 15, 2023

Released: November 16, 2023

Comment Date: December 18, 2023

Reply Comment Date: January 16, 2024

By the Commission: Chairwoman Rosenworcel and Commissioner Starks issuing separate statements.

## I. INTRODUCTION

1. In this *Notice of Inquiry (NOI)*, we seek to better understand the implications of emerging artificial intelligence (AI) technologies as part of our ongoing efforts to protect consumers from unwanted and illegal telephone calls and text messages under the Telephone Consumer Protection Act (TCPA).<sup>1</sup> Complaints regarding unwanted and illegal robocalls and robotexts are consistently the top category of consumer complaints that we receive.<sup>2</sup> As a result, it is critical that the Commission stay abreast of new technologies that may impact the privacy protections afforded to consumers under the TCPA.

2. In the spirit of our longstanding efforts to protect consumers from unwanted robocalls, this *NOI* represents an opportunity to gather information and prepare for changes in calling and texting practices that may result from new AI-influenced technologies.<sup>3</sup> Specifically, we seek to understand how these technologies might affect the existing regulatory landscape that protects consumers from unwanted and illegal robocalls and robotexts. In this context, we seek information that could inform policies that anticipate how AI could help protect consumers against unwanted communications and how it could do the opposite. Our inquiry includes defining AI in this context, the current state of AI use in calling and texting, the impact of emerging AI technologies on consumer privacy rights under the TCPA, and, if appropriate, the Commission's next steps to address these issues.

## II. BACKGROUND

3. The TCPA protects consumers from unwanted calls made using an artificial or prerecorded voice.<sup>4</sup> The legislative history of the TCPA suggests that Congress considered calls

<sup>1</sup> See Telephone Consumer Protection Act of 1991, Pub. L. No. 102-243, 105 Stat. 2394 (1991), *codified at* 47 U.S.C. § 227.

<sup>2</sup> The Commission received approximately 157,000 TCPA-related complaints in 2020, 164,000 in 2021, 119,000 in 2022, and 77,420 in 2023 as of Oct. 23, 2023. FCC, *Consumer Complaint Data Center*, [www.fcc.gov/consumer-help-center-data](https://www.fcc.gov/consumer-help-center-data) (last visited Oct. 23, 2023).

<sup>3</sup> As discussed in more detail below, the TCPA regulates any call made using an "automatic telephone dialing system" or containing an artificial or prerecorded voice. Any such call is considered a "robocall" or "robotext" for purposes of this proceeding. See 47 U.S.C. § 227(b)(1).

<sup>4</sup> See 47 U.S.C. § 227(b)(1).

<https://docs.fcc.gov/public/attachments/FCC-23-101A1.pdf>

**Federal Communications Commission****FCC 23-101**

defines AI as “a machine-based system that can for a given set of human-defined objectives, make predictions, recommendations, or decisions.”<sup>16</sup> The National Institute of Standards and Technology (NIST) defines AI as “the capability of a device to perform functions that are normally associated with human intelligence such as reasoning, learning, and self-improvement.”<sup>17</sup> The European Union has defined AI technologies as “software that is developed with one or more of the techniques and approaches . . . for a given set of human-defined objectives, [and that] generate outputs such as content, predictions, recommendations, or decisions influencing the environments they interact with.”<sup>18</sup> The Kansas Office of Information Technology Services recently defined “Generative artificial intelligence” as “advanced technologies such as predictive algorithms, machine learning, and large language models to process natural language and produce content in the form of text, images, or other types of media.”<sup>19</sup> An executive order from the governor of Pennsylvania defines generative AI as “technology or tools that use predictive algorithms to create new content including audio, code, images, text, simulations, and videos.”<sup>20</sup>

9. The Commission’s authority under the TCPA encompasses current uses of AI in robocalling and robotexting as we understand them, e.g., emulating human speech and interacting with consumers as though they were live human callers when generating voice and text messages. We seek comment on whether one or more of the above examples provides a basis to define AI technologies as used in the context of making robocalls and robotexts in a manner that is consistent with the TCPA’s consumer protections.

10. Are there any other definitions that we should consider for this purpose? Do specific AI technologies provide some insight as to how to define the term AI in the context of the TCPA? **Voice cloning, for example, is a type of generative AI technology which attempts to emulate a human voice to generate speech using a recording of that voice.**<sup>21</sup> “Large Language Models” seek to interpret and generate speech with the same level of proficiency as a human.<sup>22</sup> In particular, does the ability of AI technologies to emulate a human voice and interact with consumers through telephone calls and text messages as though they were a live person provide a basis to define these technologies under the TCPA?

11. As discussed further below, AI technologies may also enhance the analytics that allow consumers and networks to detect and block unwanted and fraudulent calls and text messages via AI generated algorithms and software. Should that factor into the definition of AI technologies in this

---

(5) An artificial system designed to act rationally, including an intelligent software agent or embodied robot that achieves goals using perception, planning, reasoning, learning, communicating, decision making, and acting.

20 See Executive Order 2023-19, *Expanding and Governing the Use of Generative Artificial Intelligence Technologies Within the Commonwealth of Pennsylvania*, [https://www.governor.pa.gov/wp-content/uploads/2023/09/20230920\\_EO-2023-19\\_AI\\_Final\\_Executed.pdf](https://www.governor.pa.gov/wp-content/uploads/2023/09/20230920_EO-2023-19_AI_Final_Executed.pdf) (Sept. 20, 2023).

21 See, e.g., Anisha Kohli, *From Scams to Music, AI Voice Cloning is on the Rise* (Apr. 29, 2023) <https://time.com/6275794/ai-voice-cloning-scams-music/>.

22 See Mariusz Flasiński, *Introduction to Artificial Intelligence* 229 (2016).

AI technologies to avoid detection by analytic systems designed to protect consumers by blocking certain types of calls? Is there a risk that AI technologies might be used in such a way as to inadvertently block legitimate calls and messages? If so, are there steps the Commission or industry could take to prevent this? Does AI technology reduce the potential costs to make or send high volumes of robocalls and robotexts by eliminating the need to hire and train any human agents? Would AI technology add to the costs of those industry stakeholders proactively attempting to detect and reduce high volumes of robocalls and robotexts in their networks? Should the Commission be concerned about these potential harms?

20. Is there a risk that AI technology can be used in ways to make the public more susceptible to fraudulent calls by appearing to be from someone the consumer knows or trusts, or otherwise tailored to convince the recipient that the call is from a legitimate source? Similarly, is there a risk that increased use of AI could make it easier for bad actors to place a higher volume of calls that appear to be from a real person, making call recipients more likely to trust the caller? **For example, are bad actors cloning the voices of specific persons to persuade consumers of call legitimacy-and will bad actors do so with increasing frequency and impact as the quality of voice cloning increases and the cost decreases?**<sup>36</sup> What is the effect? As discussed below, should the Commission consider ways to verify the authenticity of legitimately generated AI voice or text content from trusted sources, such as through the use of watermarks, certificates, labels, signatures or other forms of labels? Is there a potential for AI technologies to be used in ways that defraud consumers, introduce harmful bias, disrupt elections, perpetuate the commission of crimes, or induce widespread panic such as by making false emergency robocalls mimicking the voices of public officials or other trusted sources in ways that violate the TCPA or other consumer protection statutes?<sup>37</sup>

21. Are there current examples of how AI technologies are used in such disruptive ways that might inform our future policy decisions as we attempt to protect the public from such callers via our authority under the TCPA and Communications Act? Are there any examples of AI being used to generate content for robocalls and text messages and to make calls and send messages for the purpose discussed above? What are the risks of such calls? Is the use of this technology particularly pernicious such that we should treat AI-assisted robocalls and robotexts differently than traditional robocalls and robotexts? Are there any benefits of using AI technology in this way that we should seek to preserve or encourage?

22. As noted above, unwanted calls and text messages are already the top source of consumer complaints with the Commission. By some estimates, consumers are scammed by fraudulent robocalls that cost them billions of dollars each year.<sup>38</sup> Does AI technology have the potential to make these unwanted and often fraudulent communications more effective by targeting specific demographics that are more susceptible to scams, such as the elderly? Similarly, does the use of AI technology have the potential to increase the risk of unwanted and fraudulent calls and texts to individuals for whom English

<sup>36</sup> See, e.g., Federal Trade Commission, *Scammers Use AI to Enhance Their Family Emergency Schemes*, Consumer Alert (Mar. 20, 2023), <https://consumer.ftc.gov/consumer-alerts/2023/03/scammers-use-ai-enhance-their-family-emergency-schemes> (“All [a scammer] needs is a short audio clip of your family member’s voice—which he [or she] could get from content posted online—and a voice-cloning program.”); Joe Hernandez, *That Panicky Call from a Relative? It Could Be a Thief Using a Voice Clone*, *FTC Warns*, NPR Technology (Mar. 22, 2023), <https://www.npr.org/2023/03/22/1165448073/voice-clones-ai-scams-ftc>.

<sup>37</sup> See, e.g., See Faith Karimi, ‘Mom, these bad men have me.’: She believes scammers cloned her voice in a fake kidnapping (April 29, 2023), <https://www.cnn.com/2023/04/29/us/ai-scam-calls-kidnapping-cec/index.html>; Keep Your AI Claims in Check, *FTC Business Blog*, <https://www.ftc.gov/business-guidance/blog/2023/02/keep-your-ai-claims-check> (Feb. 27, 2023); Michael Atleson, Chatbots, Deepfakes, and Voice Clones: AI Deception for Sale, *FTC Business Blog*, March 20, 2023, <https://www.ftc.gov/business-guidance/blog/2023/03/chatbots-deepfakes-voice-clones-ai-deception-sale> (Mar. 20, 2023).

<sup>38</sup> Yudhijit Bhattacharee, *Who’s Making All These Scam Calls?* (Jan. 27, 2021) (estimating that Americans lose from \$3.5 billion to \$20 billion every year from fraudulent call scams): <https://www.nytimes.com/2021/01/27/magazine/scam-call-centers.html>.

is a second language? Is there evidence that the use of generative AI technology has already increased the number of unwanted calls and text messages?

23. Are there potential negative consequences for other consumer protection statutes enforced under the Commission's rules such as the CAN-SPAM Act which protects consumers from unwanted mobile service electronic mail messages?<sup>39</sup> Are there other potential negative consequences to consumers from AI technologies that will allow callers to evade the TCPA's consumer protections? What is the estimated timeframe before AI technologies begin to have a substantial impact on the TCPA and other consumer protections?

### C. Future Steps to Address AI Technologies

24. We seek comment on what steps, if any, the Commission should consider to further this inquiry. As noted above, the TCPA specifically authorizes the Commission to make "technical and procedural standards for systems that are used to transmit any artificial or prerecorded voice message via telephone."<sup>40</sup> In addition, the legislative history contemplated the Commission's need for the flexibility to address future technologies that impact the TCPA's consumer privacy protections from unwanted robocalls.<sup>41</sup> The TCPA also prohibits the use of an "artificial" voice message in calls to a residential or wireless telephone number absent the prior express consent of the called party or a recognized exemption.<sup>42</sup> Is there any reason to conclude that these existing legal authorities do not provide the Commission with sufficient statutory authority to ensure that the use of emerging AI technologies does not erode consumer protections under the TCPA or other consumer protection statutes when used to communicate via robocall or robotexts? Are there consumer education or outreach initiatives that the Commission could conduct to raise awareness of the risks posed by emerging AI technologies including the targeting of elderly and non-English speaking populations?

25. We believe that certain AI technologies such as "voice cloning" appear to fall within the TCPA's existing prohibition on artificial or prerecorded voice messages because this technology artificially simulates a human voice. We seek comment on whether it is necessary or even possible to determine at this point whether future types of current AI technologies fall within the TCPA's existing prohibitions on artificial or prerecorded voice messages. As noted above, "voice cloning" and other similar technologies involve emulating human voices for telephone calls to consumers, but such calls may not involve actual direct interaction with a live person. What factors, if any, other than the participation of a live person on the call should we take into consideration in reaching any conclusions? For example, should we consider the extent to which such technology provides the functional equivalent to interacting with a live person? What factors would be included in any such analysis to determine if a particular technology is providing the functional equivalent of an interaction with a live person? Should, or may, we consider the character of the voice clone—e.g., a clone of a call recipient's personal contact, a public official, a celebrity, etc.—as relevant to our analyses under the TCPA? To what extent does the potential liability for substantial regulatory fines and private rights of action encourage AI user compliance with the TCPA's consumer protections?<sup>43</sup>

26. Alternatively, as the Commission suggested in the Soundboard ruling, does the TCPA not allow any carve out for functional equivalency of a live person for any technology if the call uses an artificial or prerecorded voice? Should voice alteration technologies that can alter a live speaker's voice

**STATEMENT OF  
CHAIRWOMAN JESSICA ROSENWORCEL**

Re: *Implications of Artificial Intelligence Technologies on Protecting Consumers from Unwanted Robocalls and Robotexts*, CG Docket No. 23-362, Notice of Inquiry (November 15, 2023)

If Tom Hanks called, I would pick up the phone. If he spoke in a familiar way during that call, I would definitely listen. To be clear, the star of *Big and Saving Private Ryan* is not dialing me anytime soon. But a video using his voice is on the internet hawking dental plans. None of this is happening with his permission. This is happening because scam artists are playing with artificial intelligence and testing our ability to separate vocal fact from fiction in order to commit fraud.

Now imagine instead a call from a friend or family member. Of course you pick up. But maybe that voice sounds off and something feels wrong. Maybe it is because the individual you think is on the other end of the line is telling you about an imminent emergency and pleading with you to send money. Like the hard sell from Tom Hanks, it is also a scam. Because you are not actually talking to who you think you are, you are speaking with a con artist using artificial intelligence to clone the voice of someone you know.

If this future sounds far off, think again. We see on the internet how fraudsters are already playing with this technology. We know that scam artists want to explore ways to use this technology over the phone.

I recently had the opportunity to sit down with AARP and talk about what the combination of unwanted robocalls and robotexts and artificial intelligence will mean for consumers. **I learned about how voice cloning scams are growing and how they can cause special harm for older adults.** Imagine, for instance, a grandparent fearing they will get a call from their grandchild, only to learn it was fraudster on the other end of the line, preying on their willingness to forward money to family.

**The anxiety about these technology developments is real. Rightfully so.** But I think we make a mistake if we only focus on the potential for harm. We need to equally focus on how artificial intelligence can radically improve the tools we have today to block unwanted robocalls and robotexts. We are talking about technology that can see patterns in our network traffic unlike anything we have today. This can lead to the development of analytic tools that are exponentially better at finding fraud before it ever reaches us at home. Used at scale, we can not only stop this junk, we can help restore trust in our networks.

That is why today we are launching an inquiry to ask how artificial intelligence is being used right now to recognize patterns in our network traffic and how they could be used in the future. We know the risks that this technology involves, but we also want to harness the benefits—just like the recently released Executive Order on the Safe, Secure, and Trustworthy Development and Use of Artificial Intelligence recommends.

That is not to say this will be easy. Like Tom Hanks said as the ragtag coach Jimmy Dugan in *A League of Their Own*, “the hard . . . is what makes it great.” We have work to do to harness artificial intelligence for good. But I am an optimist and I believe this is possible. So let’s get to it. Let’s see how we can use artificial intelligence to get this junk off the line.

I want to thank the staff responsible for our efforts today, including Jerusha Burnett, Zac Champ, Aaron Garza, Josh Mendelsohn, Michael Scott, Suzy Rosen Singleton, Richard Smith, Mark Stone, Kristi Thornton, and George Phelan from the Consumer and Governmental Affairs Bureau; Kristi Thompson from the Enforcement Bureau; Richard Mallen, Marcus Maher, Michele Ellison, Jeff Steinberg, Royce Sherlock, and Wade Lindsay from the Office of General Counsel; Michelle Schaefer and Andrew Wise from the Office of Economics and Analytics; Martin Doczkat and Dana Shaffer from the Office of Engineering and Technology; Michael Antonino, Maureen Bizhko, Kenneth Carlberg, Shawn Cochran, Gerald English, John Evanoff, David Furth, David Sieradzki, Austin Randazzo, and James Wiley from

**STATEMENT OF  
COMMISSIONER GEOFFREY STARKS**

Re: *Implications of Artificial Intelligence Technologies on Protecting Consumers from Unwanted Robocalls and Robotexts*, CG Docket No. 23-362, Notice of Inquiry (November 15, 2023)

Over the last few months, I've been proud to see our government convene quickly and effectively to explore the implications of artificial intelligence ("AI"). Congress is deeply engaged on this issue, convening hearings and introducing bills on the implications of AI for sectors from healthcare to homeland security. The White House is as well, with President Biden issuing a landmark executive order ("EO") aimed at seizing the promise and managing the risks of AI for the American people. Our military is engaged. Our scientists are engaged. And so are our agencies.

This intersectionality is critical. Because while the future of AI remains uncertain, one thing is clear: it has the potential to impact, if not transform, nearly every aspect of American life. Because of that potential, each part of our government bears a responsibility to better understand the risks and opportunities presented within its mandate, while being mindful of the limits of its experience and its authority. And in this era of rapid technological change, we must collaborate, lending our learnings and sharing our expertise across agencies to better serve our citizens and consumers.

That is what the Biden EO charges us with doing, and what the Chairwoman has done by circulating the item before us today.

Specifically, the EO charges the FCC with examining the impact of AI on unwanted robocalls and robotexts. As the EO – and today's notice of inquiry ("NOI") – acknowledges, AI holds both promise and risk when it comes to our ongoing efforts against spam calls. AI technologies can be leveraged to block unwanted robocalls and robotexts. In fact, wireless carriers use various algorithms for this purpose today, and we ask them for more information about that usage in the NOI. But AI can also facilitate or exacerbate spam – and scam – calls.

The clearest example of this to date is voice cloning – generative AI technology that uses a recording of a human voice to generate speech sounding like that voice. In one recent news story, a mom in Arizona believes bad actors cloned her daughter's voice in what was ultimately a fake kidnapping phone scam.<sup>1</sup> White House Deputy Chief of Staff Bruce Reed, charged with developing the administration's AI strategy, says "[v]oice cloning is one thing that keeps me up at night."<sup>2</sup> The NOI asks about the frequency and impact of voice cloning in robotexts and robocalls, and how the Commission might address it, such as by verifying the authenticity of legitimately-generated AI voice or text content from trusted sources.

Of course, voice cloning is an already-known issue, and one that falls within our existing statutory authority (i.e., the Telephone Consumer Protection Act's ("TCPA") prohibition on calls using artificial or prerecorded voices without consent).<sup>3</sup> AI is a powerful, and evolving, technology. We do not know all of the issues that it may trigger – or all the benefits it may hold. So this item seeks to explore and find out. It poses some questions that will be best answered by our regulatees, such as whether AI technology can be used to reduce burdens associated with TCPA compliance measures, and how AI can work effectively within telecommunications relay services. But it also seeks information from AI developers and others who may be less familiar with our regulations, yet may still find themselves within them. For example, the NOI asks how the FCC might cooperate with AI developers to ensure they are aware of the TCPA's obligations so they can develop their products in ways consistent with the statute, and with safeguards in place to

## Navigating the Legal Landscape: Generative AI and Copyright Law

BRYAN MECHELL

Generative artificial intelligence captivated the world in 2023 and is firmly positioned to remain center stage in the coming year. In the United States, the introduction and early-stage use of generative AI have been plagued with legal disputes and speculation. This presents challenges for companies protecting their generative AI innovations as well as for users understanding rights and risks associated with generative AI tools.

In this Q&A, Robins Kaplan attorney Bryan Mechell provides some guidance to understanding the many copyright controversies that have accompanied the introduction of generative AI systems and take-aways for technology companies leveraging and licensing generative AI innovations.

## Notice of Remote Zoom Hearing

**MATTHEW DAVID GUERTIN  
4385 TRENTON LANE NORTH  
APT 202  
PLYMOUTH MN 55442**

---

State of Minnesota vs MATTHEW DAVID GUERTIN

You are notified this matter is set for a remote hearing. This hearing will not be in person at the courthouse.

| <i>Hearing Information</i>                          |
|-----------------------------------------------------|
| <b>July 16, 2024<br/>Review Hearing<br/>1:30 PM</b> |

**The hearing will be held via Zoom and appearance shall be by video unless otherwise directed** with Judicial Officer, Hennepin County District Court.

If you fail to appear a warrant may be issued for your arrest.

The Minnesota Judicial Branch uses strict security controls for all remote technology when conducting remote hearings.

You must:

- Notify the court if your address, email, or phone number changes.
- Be fully prepared for the remote hearing. If you have exhibits you want the court to see, you must give them to the court before the hearing. Visit <https://www.mncourts.gov/Remote-Hearings.aspx> for more information and options for joining remote hearings, including how to submit exhibits.
- Contact the court at 612-348-2040 if you do not have access to the internet, or are unable to connect by video.
- If you need an interpreter, contact the court before the hearing date to ask for one.
- If you cannot afford to hire a lawyer and would like to apply for a court-appointed attorney before this appearance visit <https://pdapplication.courts.state.mn.us> or scan the QR code to start the application.

**To join by internet:**

1. Type <https://zoomgov.com/join> in your browser's address bar.
2. Enter the **Meeting ID and Meeting Passcode (if asked)**:  
Meeting ID: 160 223 0876  
Passcode: 1234
3. Update your name by clicking on your profile picture. If you are representing a party, add your role to your name, for example, John Smith, Attorney for Defendant.
4. Click the **Join Audio** icon in the lower left-hand corner of your screen.
5. Click **Share Video**.

Para obtener más información y conocer las opciones para participar en audiencias remotas, incluido cómo enviar pruebas, visite [www.mncourts.gov/Remote-Hearings](http://www.mncourts.gov/Remote-Hearings).

Booqo [www.mncourts.gov/Remote-Hearings](http://www.mncourts.gov/Remote-Hearings) oo ka eego faahfaahin iyo siyaabaha aad uga qeybgeli karto dacwad-dhageysi ah fogaan-arag, iyo sida aad u soo gudbineyso wixii caddeymo ah.

**STATE OF MINNESOTA**  
**COUNTY OF HENNEPIN**

**DISTRICT COURT**  
**FOURTH JUDICIAL DISTRICT**  
**PROBATE/MENTAL HEALTH DIVISION**

State of Minnesota,

Court File No. 27-CR-23-1886

Plaintiff,

vs.

**ORDER DENYING**  
**DEFENDANT'S MOTION TO**  
**REPRESENT SELF PRO SE**

Matthew David Guertin,

Defendant,

Defendant, Mr. Matthew David Guertin, brought a motion on April 3, 2024, to represent himself pro se in the above-captioned matter.

**FINDINGS OF FACT**

1. Defendant (date of birth 07/17/1981) was charged in MNCIS file 27-CR-23-1886 with Reckless Discharge of a Firearm (Felony) and three counts of Receive/Possess with No Serial Number (Felony) arising from an incident alleged to have occurred on January 21, 2023. On January 25, 2023, Referee Lyonel Norris found probable cause to believe that the offenses were committed, and that Defendant committed them.
2. This Court first found Defendant incompetent to proceed on July 13, 2023, pursuant to Rule 20.01 of the Minnesota Rules of Criminal Procedure.
3. On November 15, 2023, Judge Julia Dayton Klein ordered a subsequent Rule 20.01 evaluation. Defendant was again found incompetent on January 17, 2024.

**CONCLUSIONS OF LAW**

4. Pursuant to Minn. R. Crim. P. 20.01, subd. 1., a defendant is not permitted to waive counsel if the defendant lacks the ability to voluntarily, and intelligently waive the right to counsel; appreciate the consequences of proceeding without counsel; comprehend the nature of the charge; comprehend the nature of the

proceedings; comprehend the possible punishment; or comprehend any other matters essential to understanding the case.

5. The standard for an individual to waive the right to counsel is the same standard as used to determine competency. *State v. Thompson*, No. A20-1232 (Minn. Ct. App. Jul. 26, 2021) (citing *Godinez v. Moran*, 509 U.S. 389, 396 (1993); *State v. Camacho*, 561 N.W.2d 160, 170-74 (Minn. 1997)). A defendant found to be incompetent is not permitted to waive the constitutional right to counsel. *Id.*
6. Defendant was deemed incompetent to proceed pursuant to Minn. R. Crim. P. 20.01, subd. 2 and, therefore, Defendant currently lacks the ability to waive counsel.

**IT IS ORDERED:**

1. Defendant's Motion to Represent Self Pro Se is **DENIED**, and Mr. Bruce Rivers shall proceed as the attorney of record.
2. The Defendant shall appear for a six-month review hearing regarding the Rule 20.01 proceedings on July 16, 2024, before the undersigned District Court Judge.

**BY THE COURT:**

| Email: mattguertin@protonmail.com                                                                           |                         |
| Current Address: 10233 W 34th ST 304<br>Minnetonka MN 55305                                                 |                         |
| <input type="checkbox"/> Confirmed address with Defendant                                                   |                         |
| Additional family/collateral contact number and instructions:                                               |                         |

It is hereby ordered:

- ☒ For felony and gross misdemeanor cases, probable cause has been found.
- ☐ The defendant is to be released upon completion of the interview process.
- ☐ This is part of the targeted misdemeanor program.

1. The Chief of Psychological Services of the Fourth Judicial District or the Chief's designee ("Examiner") shall conduct the following psychological evaluation, assessment and/or consultation regarding the defendant:

- ☒ Competency to participate in proceedings pursuant to Rule 20.01
- ☐ Mental state at the time of the alleged act pursuant to Rule 20.02 (M'Naghten Rule)
- ☐ Sex Offender Evaluation pursuant to Minnesota Statute § 609.3457
- ☐ Repeat Sex Offender Evaluation pursuant to Minnesota Statute § 609.3457
- ☐ Consultation (Pre-Sentence) \_\_\_\_\_
- ☐ Other (please specify) \_\_\_\_\_

2. Copies of this evaluation shall be provided to the Court and the following individuals:

Defense Attorney:  
Prosecuting Attorney: JACQUELINE PEREZ

Phone:  
Phone:  
Phone:

3. The hearing for the return of the psychological evaluation will be held on February 22, 2023 at 1:30 PM.

4. Upon presentation of this order, the relevant custodian of records shall provide (whether mailed, faxed, or personally delivered) to the Examiner all relevant records from the following sources: behavioral, chemical dependency, developmental disability, educational, employment, judicial, law enforcement (including audio/visual recordings), medical, probation/correction, psychological, and social service. A copy of the records so requested shall be delivered to the Examiner within 96 hours of presentation of this order. Records that are faxed shall be sent to 612-348-3452. Mailed records should be sent to Hennepin County District Court, Psychological Services, 300 South Sixth Street, C-509 Government Center, Minneapolis, Minnesota 55487. All agencies maintaining the above-listed records may also communicate verbally with the requesting Examiner.
- **The Court specifically finds** good cause exists for authorizing the disclosure of the identified records, including chemical dependency records, because other ways of obtaining the information are not available or would not be effective, and the public interest and need for disclosure outweighs the potential injury to the patient, the physician/patient relationship and any chemical dependency treatment facility or organization holding records pertaining to Defendant.
5. During the preparation of the report, the Examiner and any employee of Community Corrections and Rehabilitation may discuss the case and share relevant information in a manner consistent with Minnesota Rules of Criminal Procedure, Minnesota Statutes, and case law.
6. If a sex offender evaluation has been ordered and the defendant is a Repeat Sex Offender as defined in Minnesota Statute § 609.3457, Psychological Services is ordered to comply with both the requirements of §609.3457 and the agreement with Minnesota State Operated Forensic Services. A copy of any Repeat Sex Offender Report produced by Psychological Services shall be forwarded to the Court and the Commissioner of Corrections.
7. In the case of Rule 20 evaluations, the Examiner shall offer in the report an opinion and support for the opinion on whether the defendant:
- a. Is suitable to refer for consideration of civil commitment and the basis of the possible commitment,
  - b. May be mentally ill and dangerous, and
  - c. Needs immediate hospitalization.
8. In the case of Rule 20 evaluations, the Examiner shall promptly notify the prosecutor, defense attorney and the Court if the Examiner concludes that the defendant:
- a. Presents an imminent risk of serious danger to another,
  - b. May be imminently suicidal, or
  - c. Needs emergency intervention.

Dated: January 25, 2023

  
Lyonel Norris  
District Court Judge *Referee*

- ✓ Please direct the prosecuting agency to forward a copy of the police report for each case to Psychological Services.
- ✓ If a defendant is to be released upon completion of the interview process, a Conditional Release Order must be filed giving that direction.

State of Minnesota

District Court

County of Hennepin

Fourth Judicial District

State of Minnesota,  
Plaintiff,

v.

Matthew David Guertin,  
Defendant.

**ORDER CONTINUING  
HEARING**

Court File No.: 27-CR-23-1886

The above-entitled matter was scheduled before Julia Dayton Klein, Judge of District Court, on June 14, 2023, for an evidentiary hearing upon the Defense's objection to the competency opinion rendered by Dr. Rogstad, dated March 10, 2023. Jacqueline Perez, Assistant Hennepin County Attorney, represents the State. Bruce Rivers represents Defendant. On June 13, 2023, Mr. Rivers requested a continuance in the matter due to scheduling conflicts. The State did not object. The parties agreed on the new date of July 7, 2023 at 10:30 am. For good cause, the Court finds:

**ORDER**

1. The contested competency hearing shall be continued to **July 7, 2023 at 10:30 AM.**

By the Court:

Court File No. 27-CR-23-1886

State of Minnesota,  
Plaintiff,

v.

Matthew David Guertin,  
Defendant.

**FINDINGS OF FACT,  
CONCLUSIONS OF LAW, AND  
ORDER REGARDING  
COMPETENCY TO PROCEED**

---

The above-entitled matter came before the district court, on July 7, 2023, for an evidentiary hearing regarding the Defendant's competency. The hearing took place in person in Courtroom 456 at the Hennepin County Government Center. Jacqueline Perez, Assistant Hennepin County Attorney, appeared for the State. The Defendant appeared along with his attorney, Bruce Rivers, Esq. Jill E. Rogstad, Ph.D., LP, ABPP (Forensic), Senior Clinical Forensic Psychologist at the Fourth Judicial District Court, testified at the hearing and the court received into evidence her *Curriculum Vitae* (Exhibit 2), and her Forensic Evaluation Report dated March 10, 2023 (Exhibit 3). The court also received into evidence a copy of United States Patent No. 11,577,177 B2 dated February 14, 2023 (Exhibit 1), as well as testimony from the Defendant.

The matter was referred for hearing to the undersigned district court referee, who after considering the evidence, the arguments presented, and all the files and records herein, reports to the court making the following recommended Findings of Fact, Conclusions of Law and Order:

1. Defendant is currently **INCOMPETENT** to proceed.

**FINDINGS OF FACT**

The Defendant, Matthew David Guertin, is charged in MNCIS file 27-CR-23-1886 with Dangerous Weapons-Reckless Discharge of Firearm Within a Municipality (Felony), Firearm-

Serial Number-Receive/Possess With No Serial Number (Felony), Firearm-Serial Number-Receive/Possess With No Serial Number (Felony), and Firearm-Serial Number-Receive/Possess With No Serial Number (Felony), from an incident alleged to have occurred on January 21, 2023. On January 25, 2023, the Honorable Lyonel Norris, Referee of District Court, found probable cause to believe that the offenses were committed and that Defendant committed them. He then ordered that a Rule 20.01 evaluation be completed. Jill E. Rogstad, Ph.D., LP, ABPP (Forensic), was assigned to complete the evaluation of the Defendant. She filed her report on March 10, 2023, opining that Mr. Guertin is incompetent and provided the following diagnoses:

Unspecified Schizophrenia Spectrum and Other Psychotic Disorder (primary).

Mr. Guertin challenges Dr. Rogstad's conclusion, taking the position that he is competent to proceed in his criminal matters. Mr. Guertin testified that he is currently employed as the Chief Executive Officer (CEO) of a start-up company. His company is listed as the assignee on United States Patent No. 11,577,177 B2, and he, as an individual, is listed as the inventor and the applicant. *Ex. 1.* Mr. Guertin testified that he understands his charges, noting that reckless discharge of a firearm in a municipality is a felony with a maximum of a two-year sentence. He notes that he and his attorney have discussed possible defenses; that he understands the information relayed to him by his attorney; and that there is nothing impeding their relationship. In fact, Mr. Guertin and his attorney, Mr. Rivers, have had a professional relationship for many years. Mr. Guertin also admitted to having been through criminal proceedings in the past. While he acknowledged that he may not understand all the technicalities of criminal proceedings, he indicates that he would ask his attorney if he had questions about the proceedings. Mr. Guertin appeared well-dressed, noting that he wore a tie to court "to be presentable." He presents as intelligent and passionate about his work with technology, including his patent. However, much of his testimony was focused on his

technological work and patent, and he required frequent redirection to stay on point. In fact, there were times during his testimony that Mr. Guertin became lost in his answer to a question because of rambling statements about his patent or other unrelated topics. For instance, when discussing the events that led to what he describes as the “most cordial standoff ever” [with the police], Mr. Guertin began discussing his actions in firing his gun in order to attract the police. He did so instead of calling 911 because he could not trust his electronic devices due to his suspicions involving Netflix and Microsoft and protection of his patent. The court appreciates Mr. Guertin’s testimony and his participation in the hearing; however, the court has serious concerns regard Mr. Guertin’s ability to meaningfully participate in criminal proceedings and understand the process, given his perseveration regarding his patent, and his delusional beliefs about others.

Dr. Rogstad opines that Mr. Guertin is not competent to proceed in his criminal matters, concluding in her report “...that Mr. Guertin’s symptoms presently compromise his capacity to understand rationally the proceedings, participate in the defense, and consult rationally with counsel.” Ex. 3, p. 9. Dr. Rogstad offers a diagnosis of Unspecified Schizophrenia Spectrum and Other Psychotic Disorder (primary). While Dr. Rogstad testified that this is a legitimate diagnosis, she indicated that additional information would be needed to provide more specificity. Dr. Rogstad notes that Mr. Guertin “...displays prominent delusional beliefs that include persecutory and referential themes,” the content and intensity of which “...are highly consistent with phenomenology of the persecutory delusions that can accompany psychotic disorders.” *Id.* at 7. She further indicates that Mr. Guertin may also suffer from a mood-related disorder, namely mania or hypomania, given “...his frequent digressions and tendency to become distracted by his own thoughts,” which “...were consistent with flight of ideas.” *Id.* at 8. She also notes that Mr. Guertin was “highly distractible” during the examination, making it “...difficult to extract meaningful,

coherent information from him.” *Id.* The court observed identical behavior during his testimony on July 7, 2023, to that exhibited during his examination. Dr. Rogstad testified that misuse<sup>1</sup> of Adderall could account for some of Mr. Guertin’s symptoms, but acknowledged that she was not a toxicologist or medical doctor and that she did not know how much Adderall Mr. Guertin actually took. Despite reporting this possibility, Dr. Rogstad opines Mr. Guertin is not competent.

As a result of his symptoms, Dr. Rogstad believes that Mr. Guertin is unable to participate in the legal process regarding his criminal matters. She credibly testified that while Mr. Guertin has good factual knowledge, he is unable to apply this knowledge due to delusional beliefs. For example, when Mr. Guertin spoke about his delusional beliefs, he indicated he would present evidence supporting these beliefs. In her report, Dr. Rogstad states, “...while he knows the nature of his charges, Mr. Guertin’s delusional beliefs are inextricably linked to his perceptions of his current legal situation, and they obstruct his ability to apply this factual legal knowledge to discussions of his own case in a rational manner devoid of delusional reasoning.” *Id.* at 9. Specifically, Dr. Rogstad reports that his delusions impacted his perception of relevant evidence, that he supported the choices he made “...with impaired perceptions of objective reality,” and that ultimately, he was unable to participate in “consistently coherent” and “reality-based” discussions regarding the proceedings. *Id.* Her testimony supports these conclusions when she states that Mr. Guertin did not understand evidence or the ramifications of making decisions because of the delusions that emerged as they were discussing legal proceedings. Dr. Rogstad also testified that Mr. Guertin lacks insight into his mental health, as evidenced by his belief that he is under duress as opposed to having any impaired perceptions. Finally, Dr. Rogstad testified that neither her report nor her opinion changed after observing Mr. Guertin’s testimony during the July 7, 2023 hearing.

---

<sup>1</sup> Mr. Guertin testified that he takes additional dosages of his Adderall medication on long days because the medication is “fast-acting.” He gave one example as working overnight at Coachella to finish an art piece for the next day.

The court finds that the greater weight of the evidence establishes that Mr. Guertin is not competent to proceed at this time. He suffers from a mental illness with a diagnosis of Unspecified Schizophrenia Spectrum and Other Psychotic Disorder, as offered by Dr. Rogstad. This may also include a mood component, namely mania or hypomania. This mental illness prevents Mr. Guertin from rationally understanding the legal process and obstructs his ability to prepare a defense or rationally consult with his counsel. Dr. Rogstad persuasively reports that Mr. Guertin's delusions impact his strategical decisions. For instance, he indicated that providing testimony at his trial would serve "...as a way to 'have the opportunity to make all this stuff [about his perceived persecution] public in the courtroom,'" with similar thoughts regarding evidence he collected. Ex. 3, p. 9. Additionally, the court observed Mr. Guertin testify, during which his answers often wandered towards the themes of technology, patents, and competitors. While it is evident that Mr. Guertin is an intelligent, talented individual with a passion for technology, this does not necessarily make him competent to proceed in his criminal matters. He may understand the factual components of criminal proceedings, but it is evident to the court that he is unable to apply this factual knowledge in his defense. Based upon the totality of evidence before the court including Mr. Guertin's testimony, Dr. Rogstad's testimony, and the exhibits received into evidence, the court concludes that the greater weight of the evidence establishes that Mr. Guertin is not currently competent to proceed and thus, the defense has not met their burden of proof.

In summary, the court finds the testimony and report of Dr. Rogstad to be the most credible and persuasive evidence regarding Mr. Guertin's competency to proceed. Dr. Rogstad has extensive experience conducting forensic evaluations, including having completed approximately 400 forensic evaluations. *See also* Ex. 2. Her report was thorough and considered several possible factors contributing to Mr. Guertin's symptoms, as well as the significance of those symptoms.

The court also notes the similarity in Mr. Guertin's presentation during both his evaluation and at the July 7, 2023 hearing: Mr. Guertin presented as verbose, with responses to questions that included excessive detail. He often brought his responses back to the themes of technology, patents, and competitors; and on occasion, had to ask that questions be repeated due to his extensive responses. Mr. Guertin appears to the court to be unable to separate matters involving his criminal charges from his delusional thoughts regarding his technology. It was evident that he continues to suffer from mental health concerns that impact his ability to fully understand and engage in the proceedings regarding his criminal matters.

#### **CONCLUSIONS OF LAW**

"A defendant has a due process right not to be tried or convicted of a criminal charge if he or she is legally incompetent." *Bonga v. State*, 797 N.W.2d 712, 718 (Minn. 2011). Rule 20.01 of the Minnesota Rules of Criminal Procedure requires that if the court finds by the greater weight of the evidence that the defendant is competent, it must enter an order finding the defendant competent to proceed. Minn. R. Crim. P. Rule 20.01, subd. 5(c). A defendant is incompetent and must not plead, be tried, or be sentenced if the defendant due to mental illness or cognitive impairment lacks ability to: (a) rationally consult with counsel; or (b) understand the proceedings or participate in the defense. *Id.*, subd. 2. The determination of whether a defendant is able to rationally consult with the defense attorney or understand and participate in the proceedings turns on the facts of each particular case. Moreover, fact-finders, including district courts, are not required to accept an expert's testimony or recommendations. *State v. Roberts*, 876 N.W.2d 863, 868 (Minn. 2016). Foremost, throughout the criminal proceedings the trial court must be mindful of its protective duty to ensure that a defendant is competent to proceed. See *State v.*

Bauer, 245 N.W.2d 848, 852 (Minn. 1976) (ruling that the court should have conducted further inquiry into the important matter of defendant's competency).

The greater weight of the evidence establishes that Mr. Guertin is incompetent to proceed.

**ORDER**

Defendant, Matthew David Guertin, is currently **INCOMPETENT** to proceed.

Order Recommended By:

**BY THE COURT:**

---

Referee of District Court

---

Judge of District Court

MINNESOTA  
JUDICIAL  
BRANCH

STATE OF MINNESOTA  
COUNTY OF HENNEPIN

DISTRICT COURT  
FOURTH JUDICIAL DISTRICT

State of Minnesota,

Court File No.: 27-CR-23-1886

Plaintiff,

vs.

**DEFENDANT'S MOTION**  
**TO REPRESENT SELF**  
**PRO SE**

Matthew David Guertin,

Defendant.

Judicial Officer: Jay Quam

TO: THE HONORABLE JAY QUAM, JUDGE OF THE DISTRICT COURT; MS. JACQUELINE PEREZ, ASSISTANT HENNEPIN COUNTY ATTORNEY; AND MR. BRUCE RIVERS, CURRENTLY APPOINTED COUNSEL, WHO IS HEREBY NOTIFIED OF THE DEFENDANT'S INTENT TO DISMISS SAID COUNSEL AND PROCEED PRO SE.

**MOTION**

COMES NOW the Defendant, Matthew David Guertin, pursuant to Rule 10.01 of the Minnesota Rules of Criminal Procedure, the Sixth and Fourteenth Amendments to the United States Constitution, Minn. Stat. § 611.14, and relevant case law, including *Indiana v. Edwards*, 554 U.S. 164 (2008), and respectfully moves this Court for an order allowing the Defendant to represent himself in the above-captioned matter. In support of this Motion, the Defendant states as follows:

**INTRODUCTION**

The Defendant has been informed of his right to effective assistance of counsel under the Sixth Amendment and understands the risks and responsibilities associated with self-representation.

## LEGAL BASIS FOR MOTION

Under Rule 10.01 of the Minnesota Rules of Criminal Procedure, a defendant has the right to the assistance of counsel and the corollary right to represent oneself.

The Supreme Court in *Indiana v. Edwards*, 554 U.S. 164 (2008), recognized that a state may insist upon representation by counsel for those competent enough to stand trial under the Dusky standard but who still may not be competent to conduct trial proceedings by themselves.

The Dusky standard, established in *Dusky v. United States*, 362 U.S. 402 (1960), requires that a defendant have a sufficient present ability to consult with his lawyer with a reasonable degree of rational understanding and a rational as well as factual understanding of the proceedings against him.

## DEFENDANT'S COMPETENCY AND UNDERSTANDING

The Defendant reasserts his competency under the Dusky standard, emphasizing a rational and factual understanding of the proceedings and the ability to conduct his defense. Notably, the court has previously acknowledged the Defendant's capacity to engage in significant legal decisions, as evidenced in the following instances:

### 1. Consultation and Waiver Decision:

The court deemed the Defendant competent enough to consult with a court-appointed attorney and make informed decisions regarding the waiver signed by the Defendant on January 31<sup>st</sup>, 2024. This action presupposes a recognition of the Defendant's understanding and capacity to make reasoned legal decisions.

*SEE EXHIBIT A – Waiver.*

*For the purposes of this argument, Exhibit A - the Waiver, is referenced solely to illustrate inconsistencies in the court's application of competency standards, not as*

*an acknowledgment of its validity or as an affirmation of informed consent. The Defendant explicitly reserves all rights to contest the waiver's validity on grounds of lack of informed consent and miscommunication regarding the court proceedings.*

2. 'ACCEPTANCE OF TERMS OF STAY OF COMMITMENT' Agreement:

Furthermore, in the proceedings related to the Defendant's civil commitment, the court's decision to proceed with the 'ACCEPTANCE OF TERMS OF STAY OF COMMITMENT' agreement—specifically altering the requirement for a psychologist's endorsement by placing 'N/A' on the signature line of Court Examiner, Michael Robertson in which his signature would have been affirming the following statement:

*“Based upon my examination of the respondent and review of relevant records, I am of the opinion that the respondent is competent to understand this agreement.”*

This decision implicitly acknowledges the Defendant's competency to understand and agree to complex legal and medical arrangements.

*SEE EXHIBIT B – Page 4 of 'ACCEPTANCE OF TERMS OF STAY OF COMMITMENT'*

**ARGUMENT FOR CONSISTENCY IN COMPETENCY DETERMINATIONS**

The Defendant argues for a consistent application of competency standards across his legal proceedings. The inclusion of Exhibits A and B supports the argument that the Defendant has been recognized as competent in crucial legal contexts, which should logically extend to his capacity for self-representation.

## DEFENDANT'S ACKNOWLEDGMENT OF RISKS

The Defendant acknowledges the risks associated with self-representation, including the potential for a less favorable outcome than if represented by counsel, and asserts his informed decision to waive his right to counsel.

## REQUEST FOR STANDBY COUNSEL

Given the complexities of legal proceedings and in alignment with the principles established in *Indiana v. Edwards*, the Defendant requests the Court appoint standby counsel to assist if necessary, ensuring the fairness of the trial process while respecting the Defendant's autonomy in his defense.

## EXHIBITS

Attached herewith are the exhibits referenced in this motion:

### Exhibit A:

Waiver signed by the Defendant in consultation with court-appointed attorney Joel Fisher, on January 31<sup>st</sup>, 2024 demonstrating the court's recognition of the Defendant's competency to make informed legal decisions.

### Exhibit B:

Page 4 from the "ACCEPTANCE OF TERMS OF STAY OF COMMITMENT" agreement, which was altered by the court to reflect the Defendant's competency in agreeing to complex legal and medical arrangements, signed by the Defendant on August 9<sup>th</sup>, 2023, and officially entered into the record of civil case file 27-MH-PR-23-815 on August 9<sup>th</sup>, 2023.

These exhibits are provided to substantiate the Defendant's argument for a consistent application of competency determinations and his capacity to represent himself pro se.

### **COMMITMENT TO PROCEDURAL AND SUBSTANTIVE RESPONSIBILITIES**

The Defendant wishes to affirm to the Court his full understanding and commitment to upholding both the procedural and substantive responsibilities entailed in self-representation. The Defendant recognizes the gravity and complexity of navigating legal proceedings and is prepared to diligently engage with the court's processes, adhere to legal standards, and present a defense that is coherent, respectful, and grounded in law. This commitment underscores the Defendant's determination to ensure that his representation is not only in compliance with the procedural requirements but also effectively advocates for his rights and interests within the substantive framework of the justice system.

### **RELIEF SOUGHT**

WHEREFORE, the Defendant respectfully requests the Court:

- a) Grant this Motion allowing the Defendant to represent himself pro se in the above-captioned matter;
- b) Appoint standby counsel to provide assistance as needed, pursuant to *Indiana v. Edwards*;
- c) Schedule a hearing on this Motion, if the Court deems it necessary<sup>1</sup>; and
- d) Grant such other and further relief as the Court deems just and proper.

---

<sup>1</sup> Defendant respectfully requests that any scheduled hearings be scheduled after May 5, 2024 as Defendant is also currently maintaining the role of 'pro se patent attorney' insofar as formulating a legally sound response to the non-final office action that was issued by the USPTO for US Patent Application 18/108,858 on December 5<sup>th</sup>, 2023 of which the Defendant is the inventor of.

Respectfully submitted,

Date: April 3, 2024

**WAIVER**

**Respondent.**

---

After a full consultation with my attorney who has explained my rights to me and discussed with me the various alternatives available to me, I do hereby knowingly and voluntarily consent to the Court extending my Stay of Commitment for a period of 9 months, without the hearing provided by Minn. Stat. §253B.05 subd.3, 08 and .09.

Dated: 1/31/2024

  
Matthew David Guertin  
Respondent

**CERTIFICATION**

I have advised the Respondent of all rights affected by the foregoing waiver, including the various options available and the consequences flowing from each option. The Respondent understood the rights involved and willingly signed the Waiver.

Re: ***State of Minnesota v. Matthew David Guertin***  
**Court File No.: 27-CR-23-1886**

Dear Sir or Madam:

I would like to bring to the Courts attention that I have been recently retained by my client in the above mentioned matter.

Mr. Guertin is currently scheduled for Omnibus Hearing Wednesday, February 22 at 1:30pm, I will be in a jury trial at that time. Respectfully, I am asking that we continue this matter to a later date. My office contacted the Hennepin County Attorney's Office and we left a message for Mrs. Jacqueline Perez, Assistant County Attorney, and we are waiting for her response.

If my request is granted, it would be greatly appreciated if someone from scheduling could contact my office to schedule a date together to prevent future continuance requests.

Respectfully,

/s/ Bruce Rivers

Re: ***State of Minnesota v. Matthew David Guertin***  
**Court File No.: 27-CR-23-1886**

Dear Sir or Madam:

The above matter is currently scheduled for a Hearing tomorrow, March 28 at 1:30 pm. Beginning March 28, Mr. Rivers will be in a Jury Trial (27-CR-20-24996) starting with Jury selection. I respectfully request that we continue with Mr. Matthew David Guertin until a later date. My Office contacted Ms. Jacqueline Perez and Mr. Tom Arneson and they do not object.

If my request is granted, I would greatly appreciate it if someone from scheduling would contact my office to set up a date together to prevent future continuation requests.

Respectfully,

/s/ Bruce Rivers
